Editor's Corner

Hi everyone,

November is for giving thanks for the moments we often overlook. On Thursday we sister's, Dad & Mom plan to spend Thanksgiving Day at my sister Christ and Emma's house. Turkey and the trimmings are on the menu. "Let our lives be full of both thanks and giving."

A special Thank You for being our valued customer. Your support and trust in us are much appreciated. May your Thanksgiving be filled with joy, gratitude, and the warmth of togetherness. We're thankful for you today and every day!

Make it a great day!
Ruby Yoder

We should certainly count our blessings, but we should also make our blessings count.

What good is a wheelbarrow without a wheel?

Like a wheelbarrow without a wheel,
non-ionic minerals can be difficult for an animal's body to absorb.
Natural Way Minerals uses clay based, highly absorbable ionic minerals,
allowing for direct and efficient delivery and absorbtion within the body.
Like a functioning wheelbarrow that rolls along, dumping powerful nutrients
right where they are needed most. Resulting in greater feed efficiency
and better overall health. Want to know more? Give us a call,
we'd love to talk minerals with you.

6652 County Road 203 | Millersburg, OH 44654

It was early November, and the woods were just starting to come alive with rut activity. I'd been scouting a funnel between bedding and feeding areas, and the sign was fresh. With the wind in my favor, I decided to try something I'd heard other hunters talking about – Buck Whiff.

I kept it simple. A few drops on a drag rag, and I walked a slow zigzag toward my stand. Passing an existing scrape I put a few squirts of Buck Whiff in it about 20 yards out, right where I expected movement. The scent was fresh—noticeably different from some of the bottled stuff I've tried in the past.

An hour or so after settling in, I caught movement. A decent buck stepped out, nose down, locked in on the trail I'd made. He paused at the scrape, visibly aggravated, and gave me the broadside shot I'd been waiting for.

What struck me was how naturally he reacted—paused, hair bristled, stiff legged walk – you know what I mean. He was ready for a going around with this new buck that had just intruded his territory.

I've learned that when you use a lure like Buck Whiff correctly—fresh, sparingly, and always with the wind in mind—it can tip the odds in your favor. It's not magic. But in the right moment, it's the edge that matters.

WHAT IS BIOCHAR?

Our Biochar is steam activated carbon that is beneficial for our soils and animals

- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.

THERE IS A DIFFERENCE!

Activiated charcoal needs to be heated over 1250° to get rid of the impurities. Charcoal produced under 1250° is not the same. Also, the activation process should be done with water, not acid!

WHAT IS THE BENEFIT TO YOU?

- Saves costs over high fertilizer year after year.
- Creates a healthier environment for you and your family.
- No dangerous side effects to humans, animals, or ecosystems.
- Puts more dollars in your pocket.

Biochar blends available for various farming needs, call for more information.

THE TRUTH ABOUT Dr. Jeff

and Midwest Disc Clinic

Still looking for answers about neck or back pain that keeps coming back?

You've seen the ads. Now hear the story.

Before there was DOSAE®, Dr. Jeff had to admit something to himself: he needed to get better at treating disc injuries.

Hear him tell the story in his own words—what he set out to change, the work that followed, and why doing better for his patients became personal.

Dr. Jeff | Midwest Disc Clinic

WHAT YOU'LL HEAR

- Why he wants a diagnosis before care.
- When he recommends another doctor.
- How he checks whether care is helping.

If you live - or work near Pets & Farm Animals, chances are... **YOU have Parasites! Or Worms. Or *both!***

Horses Cows Pigs Dogs Cats

Chickens Birds

Pet Birds are often the worse because they flap their wings. This can spread parasites all over the house.

Reader stories are not scientific evidence. What works for one person, may not work for the next.

Dear Friend, 100% Folklore. Zero Science.

If you have a health problem -- and *can't* get well, there could be a very good reason. Worms and parasites!

It sounds hard to believe, I agree. But if you're alive and breathing -- *you're at risk*. You may not see these tiny creatures. But believe me -- they're there! While you sleep, they eat. *Your* food! *Your* nutrients!

Pet owners often have red worms.

Many eat the best natural foods and take the best supplements -- and never get well. Why is that? One reason is the worms and parasites take the best nutrients. YOU get the scraps -- the leftovers!

Worms are often **invisible** to the Human Eye.

Which worm or parasite do **You** have?

Roundworm in Skin.	Eczema
Ascaris Worm in Lung.	Asthma
Fluke in Pancreas.	Diabetes
Thread Worm.	Migraines

Vision improved. One woman was seeing rainbows when the sun shined. When she removed the parasites from her body, her vision was normal.

Parasites & Cancer? Millions have this parasite, the **intestinal fluke**. One health author claims that all cancers are caused by a *single* parasite -- the **intestinal fluke**.

Worms HATE this herb! This herb has been used since the Middle Ages to kill worms.

True Story

A man in Texas got a parasite from the War. He used an oil of this herb on his skin. Days later, he saw tiny parasites come out!

Did you know that microscopic parasites can cause **arthritis?**

Sensitive issue stopped. A young daughter was constantly scatching her butt. Her mother found tiny, white worms in that area. They crawled out at night. *Creepy!* She took the **Speicher Worm Pills.** The itching stopped.

Severe Bloat, gone! A man had severe bloat & constipation. He was always hungry, no matter how much he ate. His stool sample tested positive for parasites. The **Speicher Worm Pills** ended most of the problems.

Itchy back-end. 'My back end was itchy. After only 4 days, that vanished.'

Skin now Rosy. 'My skin is now a healthy pink. It glows. The worms are gone.'

EYES. When the worms go, the eyes start to sparkle.

Worm & Parasite Formula. (Adults)

A Great Story. A reader noticed he got an upset stomach a few times on the formula. When he finished the program, the stomach aches stopped. He feels this was due to the worms dying & being expelled.

Four ways you can get Worms & Parasites.

"When we got started using Young Living's products over 10 years ago, Ningxia Red quickly became a daily supplement. And we have seen a huge shift in our immune systems & we rarely get colds & flu. And if we get it, they don't last as long. Since starting on Ningxia Red, my sugar levels always show in the normal range, & it gives me an added boost of energy. Placing our orders directly thru Young Living instead of getting them at a store has saved us a lot as we get wholesale pricing. CELLULAR ACTIVATOR

A closer look at oxidative stress

Did you know?

Every day, our cells face oxidative stress from many sources in the modern environment and lifestyle. Oxidative stress can reduce the cell's natural ability to stay balanced and function well.

What did the researchers study?

In a Cellular Activator lab study, researchers looked at markers of oxidative stress in cells after exposing them to five common stressors, with and without Cellular Activator.

The five stressors studied

The study examined five types of stressors that can create oxidative stress in cells:

1. **Microplastics**
   Tiny plastic particles that can be taken into cells. Example: microplastic fragments from packaging and everyday products.
2. **Air pollution**
   A mix of particles and chemicals in the air that can affect cells. Example: common urban air pollutants such as fine particles from vehicle emissions.
3. **Hormone-disrupting chemicals**
   Environmental chemicals that can interfere with hormone signaling and increase cellular stress. Example: BPA and similar everyday chemicals.
4. **Pesticides**
   Chemicals used to control pests that can add oxidative stress in cells. Example: widely used agricultural pesticides such as glyphosate.
5. **Diet-related stress**
   Cellular stress linked to components of a modern diet. Example: compounds from ultra-processed foods (e.g., advanced glycation end products, or AGEs).

The exciting finding

In the lab study, cells exposed to each of the five stressors showed lower markers of oxidative stress when Cellular Activator was added, compared with cells exposed to the stressor alone.

See the science in action

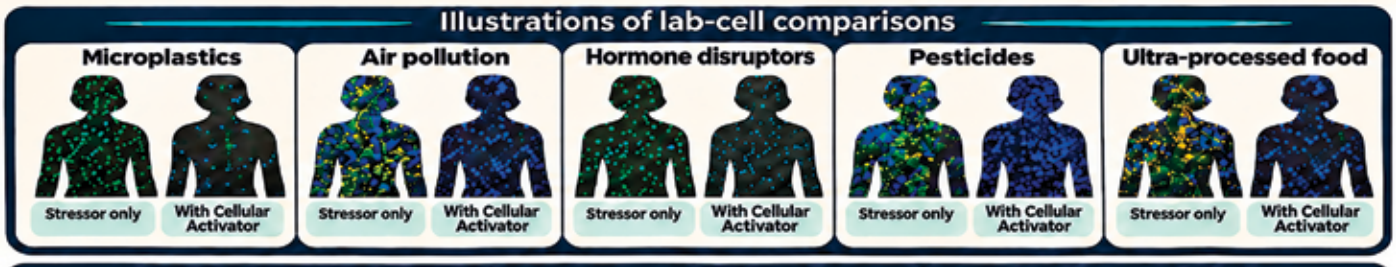
The charts below show side-by-side illustrations of lab cells for each stressor. The brighter, more numerous spots represent higher oxidative stress. With Cellular Activator, the images show fewer and dimmer spots across all five stressors.

A picture can help tell the story

The visual comparison makes it easier to see the difference Cellular Activator made in lab cells under oxidative stress.

Lab research limitations: This was a lab-cell study, not a human clinical trial. The results show effects in cells under controlled lab conditions, and it is not known if the same effects would occur in people.

Illustrations of lab-cell comparisons



The before and after images speak for themselves, don't you think?

it could be your thyroid!

Real Patients. Real Results.

I was having thyroid problems for several years. I tried other supplements and products with little improvement. I saw the ad in the budget and decided to try it. Now after six months I have more energy, sleep better and have overall better health. I was always able to reach out to them. Great people, great program.
– Dan Stoltzfus, Pennsylvania

I can honestly say this program has helped more than about any other products with my tiredness and low energy. I can now do a full days work and even something else in the evening without feeling wiped out. By doing the blood tests they found exactly what was wrong, and what I needed. Thanks to god for the healing.
– Leah Miller, Ohio

I can get up in the morning and feel refreshed. I am completely off medication for high blood pressure. My menstrual cycles have come back to normal. lots of other things have improved that I didn't know were connected to my thyroid. Thanks so much!
– Kathyrn Yoder, Missouri

I had autoimmune thyroid disease, blood sugar problems and low vitamin d and iron. After being on their program I feel so much better! I actually feel like doing something instead of having to force myself. My depression is gone, I don't worry like I used to and I have lost 41 pounds. It's great to finally have energy again and enjoy being around people. I encourage anyone struggling to try them.
– Sue Albrecht, Michigan

I've been dealing with Hashimoto's for years, I've been on strict diets, changed my medications many times, tried every supplement I was told to take, never felt completely well. Your products and approach has helped me the most. This is the best I've felt for years. Amazing, I've already told many people to call you.

"Lions Mane Talk"

From Our Family Farm to Your Morning Table

Our Lion's Mane Mushroom Coffee is a rich dark-roast Arabica. It tastes like the honest coffee you already brew, because that's what it is. Each cup holds more than 1,700 milligrams of Lion's Mane, about four times what the leading brands average.

Lion's Mane is a culinary mushroom that supports focus and clarity and helps keep the mind healthy and active. IT can also help reduce inflammation in the body and brain. A cup in the morning can help you keep a clear head for the chores, the shop, the kitchen and the field. You don't have to learn a new habit or acquire a new taste. Just brew it the way you always have.

If you'd rather not take it in a cup, our Lion's Mane Capsules give you 500 milligrams of pure fruiting body in every serving. No mycelium grown on grain and no fillers. You get one mushroom in a clear amount, so you know exactly what you're taking each day.

Every one of our mushrooms is grown in a ½ mile long tunnel at the top of the Appalachian Mountains, and an outside laboratory tests every batch. You get plain, honest food that's grown with care, labeled truthfully and made to be shared at the family table.

Call today and try a bag at your own kitchen table. Ask about the capsules for anyone in your household facing long workdays. Tell a neighbor, too, because good things are meant to be shared.

Call now to place your order. You'll be happy you did!

ASK DR. NELSON:

CAN VARICOSE VEINS LEAD TO SKIN PROBLEMS?

"I have varicose veins, but they don't really hurt. Can they still cause problems with my skin?"

Yes! In fact, changes in your skin can be one of the most important warning signs of advancing vein disease. Even if your varicose veins don't hurt, the underlying circulation problem may be causing damage beneath the surface.

Inside your leg veins are small valves that help move blood back toward your heart. When these valves stop working properly, blood flows backward and collects in the lower legs. This is called venous reflux.

Over time, this increased pressure can affect the surrounding tissue and the health of your skin.

What skin changes should I watch for?

As vein disease progresses, you may notice several changes:

- Brown or reddish discoloration: Often appears around the ankles and lower legs as tiny blood vessels leak and iron-containing pigment builds up in the skin.
- Dry, itchy, or flaky skin: Increased pressure and inflammation can irritate the skin, sometimes making it look like a persistent rash.
- Redness and inflammation: The skin may become irritated, swollen, or tender.
- Thickened or hardened skin: Long-standing inflammation can cause the skin and tissue around the lower legs to become firm and less flexible.
- Open sores or ulcers: In advanced cases, the skin can break down and develop wounds, most commonly around the inner ankle. These wounds can be difficult to heal.

Why is early treatment important?
The important thing to understand is that vein disease is more than a cosmetic problem. What begins as blood pooling in the legs can eventually lead to inflammation, skin damage, and wounds that interfere with your daily life.

You don't have to wait until your legs hurt or an open sore develops before seeking help. A venous ultrasound can identify faulty valves and determine whether venous reflux is contributing to your symptoms or skin changes. Depending on the findings, treatment may include compression therapy and minimally invasive procedures to close unhealthy veins and reduce pressure in the legs.

What should I do if I notice changes in my skin?
If you notice brown spots around your ankles, persistent itching, redness, swelling, or skin that is becoming thick or hard, it is worth having your veins evaluated.

Your skin can tell us a lot about the health of your veins. Paying attention to these changes early can help protect your legs and prevent more serious complications.

At Nelson Vein, our goal is to help you maintain healthy legs so you can stay active, comfortable, and continue doing the things that matter most.

Welcome to Flavors Unbound Cookbook where you will find some delicious and simple recipes that are a family favorite. I had a lot of loose recipe cards in my drawer, so I decided why not make a cookbook out of these recipes and eliminate some clutter. Once I started cooking and baking more, I realized I actually loved it. So I hope this cookbook will bring fun and happy cooking to someone else.

SPREADING TRUTH with godly literature

A channel enabling the church to minister to physical and spiritual needs around the world

Christian Aid MINISTRIES

"What can I say more than that people should read [the *Seed of Truth*] totally and then live what is written there," Viorica, a widow in Romania, told CAM staff members enthusiastically. "When I get the magazine, I don't put it down until I have read everything. If it comes at 12:00, by 6:00 [in the evening] I have read the entire magazine." Viorica grew up in a non-Christian home, but while cleaning, she found part of the book of Revelation and read it. She learned the way of salvation through it.

A lady from Nicaragua shared, "I have a 7-year-old son who has fallen in love with every part of the [*Torch of Truth*]. He sincerely wants me to read him more content similar to this which he loves."

Thank you, supporters, for helping to spread truth with Bible-based reading material!

Viorica
