VISION BEYOND BORDERS

Over Six Million Bibles Delivered Across the World

Join us in sharing the Gospel far and near.

For years, Vision Beyond Borders has worked to place God's Word into the hands of those who are waiting for it.

- Hundreds of thousands sent to Venezuela and Cuba.
- Actively working to get Bibles into the hands of Iranians who are seeking truth.

In many places, access to Scripture is limited, restricted, or financially out of reach. Yet the hunger for God's Word continues to grow.

We are printing and distributing Bibles to:

- Churches and believers who cannot afford one
- Prisons and drug rehabilitation centers
- Rural villages and underserved communities
- Nations where Scripture is difficult to obtain

Will you help send Bibles today?

$4 prints one Bible
$100 provides 25 Bibles
$1000 provides 250 Bibles

Any amount blesses the thirsty hearts.

Editor's Corner

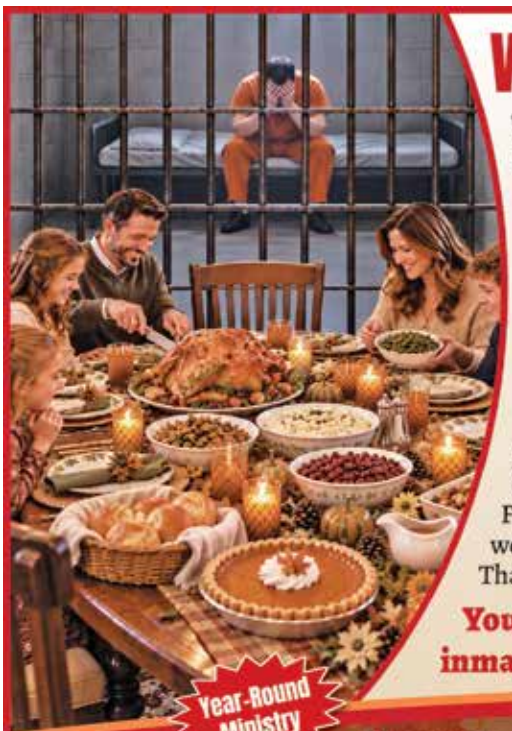
Greetings to All,

Another gorgeous fall day. We are in the finishing stages of getting the new office ready for move in. It looks like we'll be heading up there the first of December. We will keep you posted when it happens.

Gotta go, phones a'ringen. Thanks to all.

Jon Miller

"It was November- the month of crimson sunsets, parting birds, deep, sad hymns of the sea, passionate wind-songs in the pines... Let that great sweeping wind blow the fogs out of her soul." -L.M. Montgomery



WE ARE ABUNDANTLY BLESSED!

Thanksgiving reminds us just how richly we have been blessed. We gather around tables filled with food, surrounded by family and friends, and grateful for God's provision.

Happy Thanksgiving!

With those blessings comes a wonderful opportunity—to share from our bounty with someone who has far less.

This Thanksgiving, men and women in prison will spend the holiday far from home and those they love. Your generous gift can help **Christmas Behind Bars** reach behind prison walls with compassion and encouragement, reminding inmates they have not been forgotten.

Most importantly, your support helps us share the hope, grace, and transforming love of Jesus Christ with prison inmates.

From our blessings, we can bless others. As you give thanks for God's goodness, would you consider sharing a portion of your blessing with someone in prison this Thanksgiving?

Your gift can bring hope behind prison walls and remind an inmate that God's love can still reach them.

CELLULAR ACTIVATOR

A closer look at oxidative stress

Did you know?

Every day, our cells face oxidative stress from many sources in the modern environment and lifestyle. Oxidative stress can reduce the cell's natural ability to stay balanced and function well.

What did the researchers study?

In a Cellular Activator lab study, researchers looked at markers of oxidative stress in cells after exposing them to five common stressors, with and without Cellular Activator.

The five stressors studied

The study examined five types of stressors that can create oxidative stress in cells:

1. **Microplastics**
   Tiny plastic particles that can be taken into cells. Example: microplastic fragments from packaging and everyday products.
2. **Air pollution**
   A mix of particles and chemicals in the air that can affect cells. Example: common urban air pollutants such as fine particles from vehicle emissions.
3. **Hormone-disrupting chemicals**
   Environmental chemicals that can interfere with hormone signaling and increase cellular stress. Example: BPA and similar everyday chemicals.
4. **Pesticides**
   Chemicals used to control pests that can add oxidative stress in cells. Example: widely used agricultural pesticides such as glyphosate.
5. **Diet-related stress**
   Cellular stress linked to components of a modern diet. Example: compounds from ultra-processed foods (e.g., advanced glycation end products, or AGEs).

The exciting finding

In the lab study, cells exposed to each of the five stressors showed lower markers of oxidative stress when Cellular Activator was added, compared with cells exposed to the stressor alone.

See the science in action

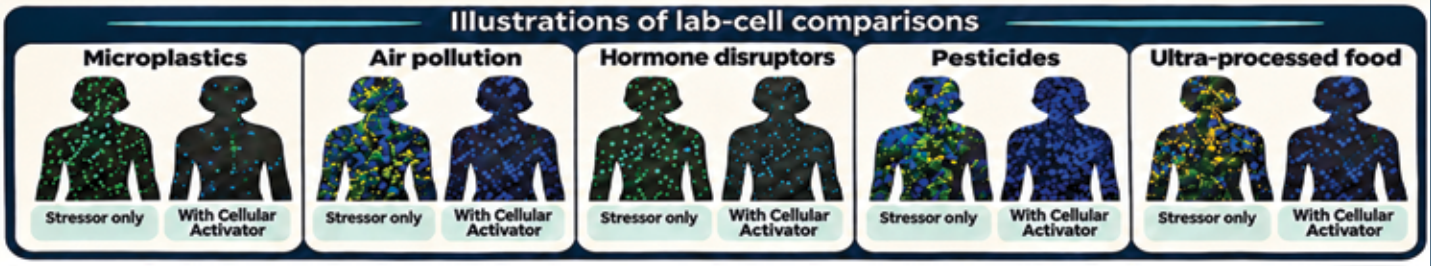
The charts below show side-by-side illustrations of lab cells for each stressor. The brighter, more numerous spots represent higher oxidative stress. With Cellular Activator, the images show fewer and dimmer spots across all five stressors.

A picture can help tell the story

The visual comparison makes it easier to see the difference Cellular Activator made in lab cells under oxidative stress.

Lab research limitations: This was a lab-cell study, not a human clinical trial. The results show effects in cells under controlled lab conditions, and it is not known if the same effects would occur in people.

Illustrations of lab-cell comparisons



The before and after images speak for themselves, don't you think?

Testimonial:

"When we got started using Young Living's products over 10 years ago, Ningxia Red quickly became a daily supplement. And we have seen a huge shift in our immune systems & we rarely get colds & flu. And if we get it, they don't last as long. Since starting on Ningxia Red, my sugar levels always show in the normal range, & it gives me an added boost of energy. Placing our orders directly thru Young Living instead of getting them at a store has saved us a lot as we get wholesale pricing. We don't have to pay a driver to go get it and we get freebies with every order! Plus since we are on Loyalty Rewards & ordering monthly, we also get points back that we use to get a lot of free Ningxia Red & YL products!"

Replace your restless nights with Sleep Breathing Support™

You can **stop** sleep breathing disruptions and restless legs **tonight.**

Sleep related breathing disruptions ruin the sleep of an estimated 25 million Americans on a regular basis. Since sleep disruptions can disturb sleep without completely awakening the subject, there are likely millions more undiagnosed sufferers. The condition prevents the sleeper from entering rapid eye movement (REM) and delta sleep— causing them to become anxious, cantankerous and tired during the day. Additionally, due to the nature of the condition, it causes blood oxygen levels to be lower than normal for very prolonged periods of time. This is damaging to the brain and heart in particular.

Treatment options can include weight loss, nasal decongestants, surgery, and oral appliances. Devices, such as a continuous positive airway pressure (CPAP) machine, are commonly used for moderate and severe sleep breathing disruptions. A CPAP device is a forced air mask, worn during sleep that ensures proper inhalation.

Hi, I'm Steve Frank.

I have sleep-breathing disruptions at night. I spent years researching the condition and understanding the true cause. After many years, and with my knowledge of herbs, I found an amazing combination that supports deep, steady breathing all night long.
This patented blend works great for nighttime sleep-breathing disruptions commonly associated with aging. I haven't worn any mask or tubes in years, and I sleep great. I hope you can too.

As it turns out, I also dealt with occasional restless legs. So I created a blend of herbs traditionally used to help relax nerves, ease tension, and support circulation. It worked well; I later found it could also support those experiencing restless legs.

I personally use Sleep Breathing Support before bed each night, and I keep Leg Relaxer™ on my nightstand.

Sweet Dreams.

Experience has shown that 60 percent of patients are not able to tolerate the equipment and ultimately discontinue using it. Others develop respiratory infections from the mask. Sleep Breathing Support™ was designed to do what the above solutions can't address the real cause of the condition.

THE CAUSE

When we enter stage two sleep in preparation for REM sleep, where dreaming occurs, muscular activity is inhibited. It is called "reduction of muscle tonus." This is a function that occurs primarily to keep the dreamer from physically acting out the movements of his or her dreams.

It is accomplished by suppressing the flow of signals from the brain along the spinal cord. Unfortunately, in those who struggle with sleep breathing disruptions, the reduction in muscle tonus allows the soft palate to sag and the signal from the brain to the diaphragm that keeps you breathing gets inadvertently reduced in strength.

The result of this is that upon entering stage two sleep, the breathing becomes shallower, the blood oxygen level drops and the carbon dioxide level rises until the brain intervenes and causes the body to make a large and immediate inhalation. This causes a large pressure differential in the pharynx and literally sucks the sagging soft palate into the airway. This obstructs the flow and causes a loud snort, partially or fully awakening the subject.

THE SOLUTION

So you see, the problem is not the sagging soft palate. The problem is not the rapid inhalation that sucks your soft palate into the airway. The problem is the reduced ability of the signal from your brain to produce sufficient breathing amplitude from your diaphragm. The appropriate intervention is to enhance the ability of the brain to communicate with the diaphragm so that you breathe deeply and steadily throughout the night. **That is exactly what the combination of herbs in Sleep Breathing Support™ is intended to do.**

Crafted with a bouquet of natural herbs.

Lobelia, used in small doses, can increase the level of respiration. Because the lobelia causes you to breathe more deeply and steadily, it keeps the whole disruptive cycle from even beginning.

Thyme improves the ability of the lungs to exchange carbon dioxide for oxygen and makes an excellent contribution to maintaining sufficient respiratory amplitude.

Chamomile aids the subject in relaxing.

Cramp Bark helps the upper trapezius muscles to loosen.

When was the last time you truly slept well?

Calm overactive nerves, restless legs, and nighttime leg cramps with Leg Relaxer™.

No mess. **No** menthol scent. **No** harsh chemicals.

Enjoy more comfortable nights and deeper, more restful sleep, night after night.

Pure Path
"Lions Mane Talk"
From Our Family Farm to Your Morning Table
Our Lion's Mane Mushroom Coffee is a rich dark-roast Arabica. It tastes like the honest coffee you already brew, because that's what it is. Each cup holds more than 1,700 milligrams of Lion's Mane, about four times what the leading brands average.
Lion's Mane is a culinary mushroom that supports focus and clarity and helps keep the mind healthy and active. IT can also help reduce inflammation in the body and brain. A cup in the morning can help you keep a clear head for the chores, the shop, the kitchen and the field. You don't have to learn a new habit or acquire a new taste. Just brew it the way you always have.
If you'd rather not take it in a cup, our Lion's Mane Capsules give you 500 milligrams of pure fruiting body in every serving. No mycelium grown on grain and no fillers. You get one mushroom in a clear amount, so you know exactly what you're taking each day.
Every one of our mushrooms is grown in a ½ mile long tunnel at the top of the Appalachian Mountains, and an outside laboratory tests every batch. You get plain, honest food that's grown with care, labeled truthfully and made to be shared at the family table.
Call today and try a bag at your own kitchen table. Ask about the capsules for anyone in your household facing long workdays. Tell a neighbor, too, because good things are meant to be shared.
Call now to place your order. You'll be happy you did!

ROUNDHOUSE
Bushman's most comfortable harmonica. An unbeatable price/quality combination. Great for beginners due to comfort, great for pros due to price, durability, and responsiveness! The Roundhouse whips harmonicas from other brands that cost more than twice as much!!! Comes packed in a black, padded, leather-like, zipper case.

Keys: Low D, Low E, Low F, G, A, Bb, C, D, and E | **$39.99**

KNITTLINGER
Accordion-like sound of the old Auto Valve only better feeling and much easier to play. Loud and lively, quick and nimble! Features a slick, go-fast mouthpiece. Good players were able to play faster than all previous double reed harmonicas could respond, but you can't outpace a Knittlinger – it goes as fast as any player can play it!

Keys: Low A, Low Bb Low C, and Low D | **$99.95**

BLUES SHIFTER
This is a diatonic harmonica - not a chromatic - that can play the missing note on Blow 3. Try playing "Amazing Grace" or "What a Friend We Have in Jesus" on a regular harmonica in the lower register - you can't, because there's a missing note on Blow 3. Many songs require that missing note, so they can't be played on a normal harmonica. With the Blues Shifter, when you need that note, just push in the slide button and you have it!

Keys: Low F, G, A, Bb, C, and D | **$89.99**

THE DELTA FROST COLLECTION
The workhorses of the Bushman brand. The Delta Frost comes in 3 different comb choices – Original (plastic), Steelie (aluminum), or the Woody (wood). Delta Frosts are the preferred gig harmonica for many professional musicians. Traditional, old school design.

ORIGINAL
Keys: Low D, Low E, Low F, G, A, Bb, C, D, and E
$34.99

STEELIE or WOODY
Keys: Low F, G, A, Bb, C, D, and E
$49.99

HARMONICA INSTRUCTION KIT

Learn to play popular songs in minutes even if you don't know how to read music! 34 page book comes with our best-selling Roundhouse harmonica.

Choose the **Key** of Bb or C
$45.00

DINKY
Our all new Bushman Dinky has a greater note range and ability to play more songs than any true, 1-1/2" mini harmonica ever made!!! The Dinky plays much better than the typical mini, and it's more comfortable.

Keys:
G (Yellow), A (Navy), and C (Black)

Bible-Based Picture Book
Humphrey

Roll with Humphrey the hump-free camel as he finds the peace that passes understanding and learns contentment. Humphrey is a short, yellow camel with big toes and no hump, unlike the *normal* camels at the zoo.

The first children's book in our character-building series, "Humphrey" is a Bible-based lesson with beautiful illustrations and Scripture memory verses throughout to remind us that God gives us different gifts and He is always listening to our concerns.

Positive Feedback from Ages 1–99!
The Character Building Series

Jonah Elijah
A Tribute to Godly Brethren & Fathers

Walk with Jonah Elijah as he uses his compass and fishhooks to help the villagers he loves. When the stripes of life tempt them to say "I go a fishing," help Jonah Elijah encourage them to cast their net on the right side, dig to find the pearl of great price, check their saltiness, and cover their stripes for true healing.

Froman Hill
BOYS RANCH

Restoring Hope through Discipleship

Froman Hill Boys Ranch is a residence for minor boys from the horse and buggy churches. To act as a refuge while dealing with emotional, moral and spiritual needs.

LOOKING TO SERVE?

We are in need of Big Brothers and Houseparents!

If interested call 330-343-8055.

We enjoy being house parents at Froman Hill Boys Ranch. It is very rewarding to see the young resident boys improving as they do their term here. Also, a blessing to see how the big brothers put in time and effort to help the young boys progress. We recieve so much more here then what we give. God's Blessings!
-Eli & Mary

Serving as big brother gave me lots of interesting opportunites and challenges, and trying to be a good example as Jesus left behind. It was very fulfilling and rewarding to follow rules and keep up with schedules when working with these struggling, talented young boys. To me it was a blessing, thanks to God.
-Former Big Brother, Jake

We are in need of work. Looking for simple manual piece work. If you feel led to share, call 330-343-8055 and ask for James.

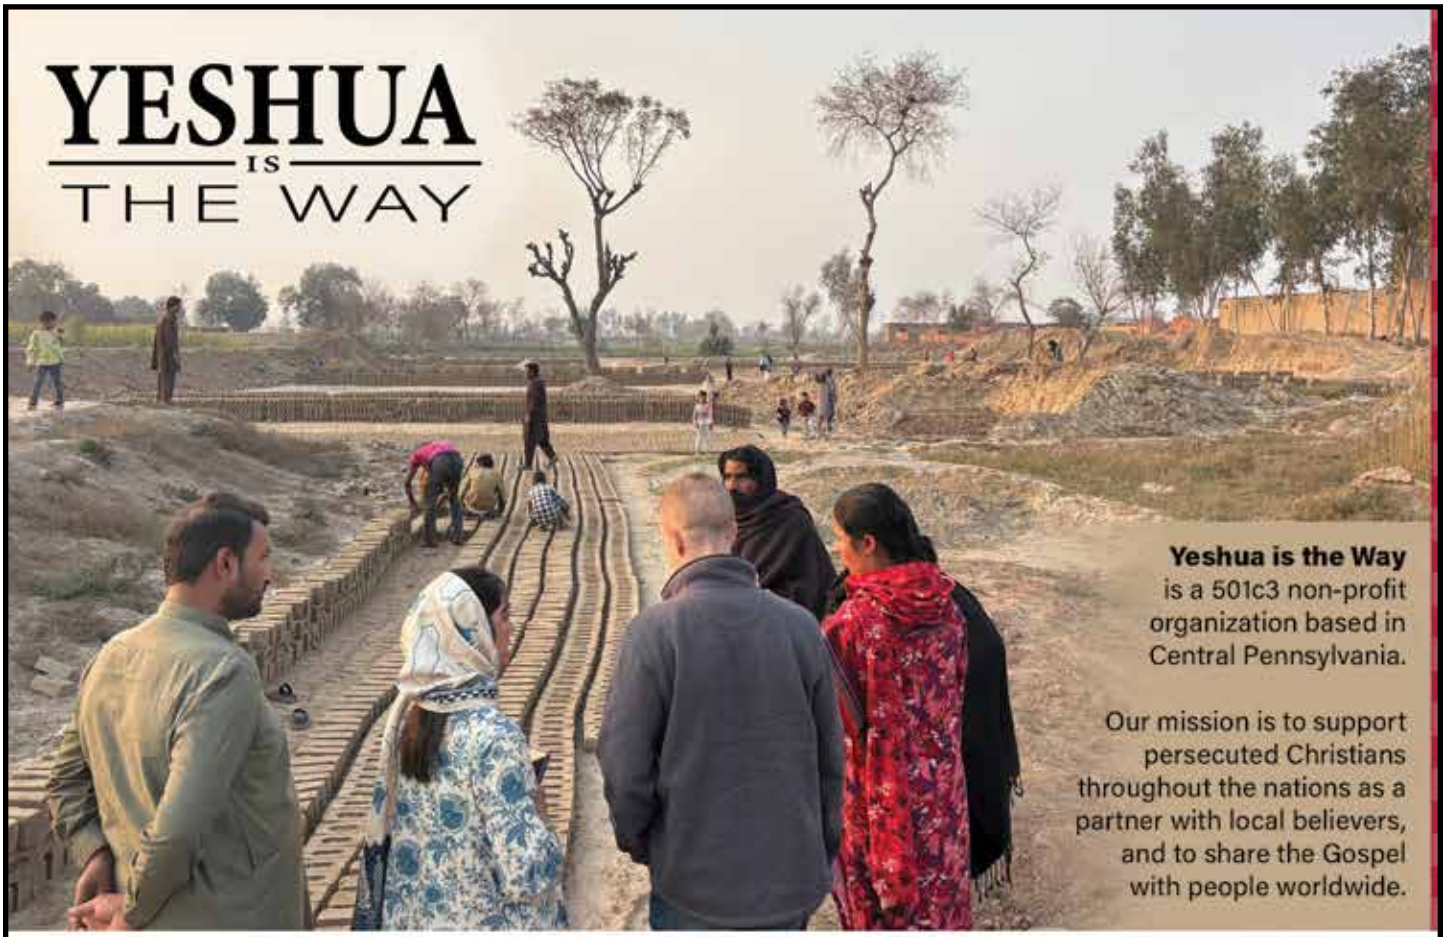
My time as a Big Brother at Froman Hill Boys Ranch was worthwhile, meaningful, and inspiring. I'm glad I stepped out of my comfort zone to be a part of something special. The friendships and memories made were worth the time invested. I can honestly say I feel I received more than I gave. To God be the glory and honor!
-Big Brother, Michael

I would like to thank God for the opportunity to serve at Froman Hill Boys Ranch. If you have a desire to do something like this, do it! It truly is an enjoyable and fulfilling experience.
-Former Big Brother, Jared Hershberger

About our weeks we have spent with the Froman Hill Boys as houseparents and cooking for them- we have found it very rewarding and interesting. Would encourage anyone to give it a try. You will be richly blessed!
-The Troyers

Froman Hill Boys Ranch operates as Integrated Auxiliary of the Ohio Amish Church.

YESHUA IS THE WAY



Yeshua is the Way is a 501c3 non-profit organization based in Central Pennsylvania.

Our mission is to support persecuted Christians throughout the nations as a partner with local believers, and to share the Gospel with people worldwide.

MISC.

At **Yeshua Is The Way** Ministries, we have partnered with local Christians in Pakistan - where there is a great need for spiritual and financial support from the global church body. People are being healed from pain and disease! Families are being freed from bonded debt that traps generations in manual labor.

- Food Kits and Medical Care Support

BANK OF Bird-in-Hand
a full service community bank

Phony Phone Calls and Overpayment Scams

Currently, the Bank's Fraud Department is seeing two types of fraud tactics: unsolicited phone calls impersonating someone of authority, and overpayment scams.

Unsolicited Phone Calls:

These calls will always seem urgent and possibly trick you into giving out personally identifying information over the phone. Those with a landline tend to be a prime target for this type of scam.

Please note that...

- The IRS and any law enforcement officers will never call you on the phone and ask you to send money for an outstanding debt.
- A bank's fraud center will never ask you to withdraw any money from your accounts in order to refund a charge. Be aware of any call that acts like they are transferring you to your bank. Your bank will never ask for account numbers, PIN numbers, one-time passcodes or online banking information over the phone.
- The Social Security Administration won't charge any escrow amounts for changing your social security number.
- If an unsolicited call that states a bank employee is committing fraud on your account, hang up and contact a known bank employee, no matter what the caller states.
- Any unsolicited call that asks you to click a link they are sending you, please hang up and contact your bank.
- Any instructions given on an unsolicited call that require any of your funds to be deposited into a Bitcoin ATM, no matter how convincing they seem, hang up and call a known bank employee.
- There are no reputable banks that will ask for that information over the phone. In the case of Bank of Bird-in-Hand, any employee can speak with the fraud team in order to provide input and guidance. Electronic Banking can verify if a valid fraud alert was sent to the customer.

Overpayment Scams:

One additional scam is the overpayment scam. This scam targets small businesses selling products. The "buyer" sends too much money asking you to send funds back. They will send what looks like a valid check (but it's not). It is recommended to not send merchandise or any money back for at least 5 business days. Your bank's fraud department can also try to verify the item in question for you.

SPREADING TRUTH with godly literature

A channel enabling the church to minister to physical and spiritual needs around the world

Christian Aid MINISTRIES

"What can I say more than that people should read [the *Seed of Truth*] totally and then live what is written there," Viorica, a widow in Romania, told CAM staff members enthusiastically. "When I get the magazine, I don't put it down until I have read everything. If it comes at 12:00, by 6:00 [in the evening] I have read the entire magazine." Viorica grew up in a non-Christian home, but while cleaning, she found part of the book of Revelation and read it. She learned the way of salvation through it.

A lady from Nicaragua shared, "I have a 7-year-old son who has fallen in love with every part of the [*Torch of Truth*]. He sincerely wants me to read him more content similar to this which he loves."

Thank you, supporters, for helping to spread truth with Bible-based reading material!

If you want better nutrition.... you need to start with better soil!

Don't forget the garden!

Also available in 1.2 cubic foot bag

WHAT IS BIOCHAR?

Our Biochar is steam activated carbon that is beneficial for our soils and animals

- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.

THERE IS A DIFFERENCE!

Activiated charcoal needs to be heated over 1250° to get rid of the impurities. Charcoal produced under 1250° is not the same. Also, the activation process should be done with water, not acid!

WHAT IS THE BENEFIT TO YOU?

- Saves costs over high fertilizer year after year.
- Creates a healthier environment for you and your family.
- No dangerous side effects to humans, animals, or ecosystems.
- Puts more dollars in your pocket.

Biochar blends available for various farming needs, call for more information.

What good is a wheelbarrow without a wheel?

Like a wheelbarrow without a wheel,
non-ionic minerals can be difficult for an animal's body to absorb.
Natural Way Minerals uses clay based, highly absorbable ionic minerals,
allowing for direct and efficient delivery and absorbtion within the body.
Like a functioning wheelbarrow that rolls along, dumping powerful nutrients
right where they are needed most. Resulting in greater feed efficiency
and better overall health. Want to know more? Give us a call,
we'd love to talk minerals with you.

HORSE SENSE TIPS

HAY

- Free access to hay 24 hours a day
- Daily intake needed for average weight of a mature horse is approximately 20 pounds daily.
- Hay/Grass/Forage should make up 60 to 100% of the diet
- Most horses need 1½ to 2% of their body weight daily, more in cold weather
- They are grazing animals and do so 60% of the day, grass and quality hay is best
- Eating hay on cold nights helps conserve calories and keep them warm

Tips for Quality Hay

- Open a bale, check for debris
- Best is fine-stemmed, green, leafy hay
- Avoid moldy, dusty, sun-bleached, or over-cured
- Alfalfa should be in early bloom
- Grass hay should not have fully formed seed heads
- Check for insects such as blister beetles
- Very heavy bales may be wet inside-wet is not good

STORAGE

Store hay in a dry, covered area protected from weather and sun. Feed within one year of harvest when possible. Quality hay is necessary for horse health and performance.

DURABLE. VERSATILE. TIMELESS.

Maximum Performance Horse Supplement

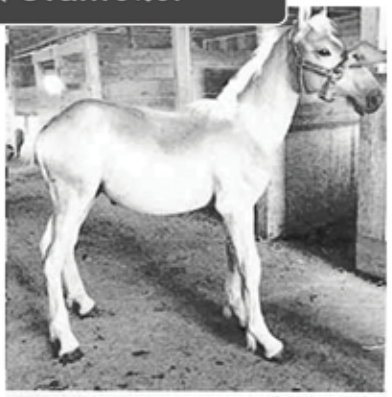
Pellets for Horses that are Picky Eaters or Have Ulcers. Also Great for Driving Horses & Stallions!

Here is a young colt with two hind Ankle OCD's and really wormy Date 6-9-20

Hay and grains have fewer minerals today. You really need to supplement for peak performance and breeding nutrition.

50 lb bag-granular, $150 lasts five horses—1 month!

50 lb bag-pellets, $135 lasts one horse—50 days!



Here is the colt 57 days later with NO OCD's in either hind leg and a beautiful shiny coat at 7-27-20

Mr Schwartz's mare was running off with his girls, biting them, he knew she had an ulcer, 15 days on the pellets, she is so calm, warms up nicely, goes longer, stronger and cools down faster. Wow, he was so excited, he wants to breed her, instead of giving her away.

Mr Miller says he had never had stronger colts, jump up right out of the bag, run around the stall and jump over the mare, before she got up. His best year breeding, mares strong after foaling, strong babies, plenty of milk. It was a dream foaling season. He will keep his mares on mp while in foal and after.

Mr Yoder had tried to breed his favorite mare for 12 years, after 30 days on MP she checked in foal. He is so excited.

Mr Yoder bought a mare they said was lame, could only be bred. He put her on mp and 15 days, she was bucking coming out of the barn. He hooked her to the cart and off she went straight down the road. He called and wanted to be a dealer. He said," Anyone with a driving horse needs MP. This is the greatest stuff for driving horses!"

Driving horses are under a lot of stress, many have ulcers, tendon issues, hoof problems. There are few minerals in our feed, and this supplement provides what they need to perform at their best, sweat less, warm up faster, cool down faster, and improve hoof quality.

1. **If you want to reduce ulcers.**
2. **If you want to increase stamina and reduce recovery time—may see a difference in 5 days!**
3. **If you want to increase oxygen for better stamina and improve oxygen to the cells for driving and work horses performance.**
4. **If you want to calm your mares down, reduce tying up, and anxiety.**
5. **If you want to enhance elasticity in tendons and ligaments and get nutrients to the hoof. May recover from injuries in half the time, soft tissue and bone.**

Learn How to Maximize Breeding!

1. **If you want to reduce OCDs, improve fertility.**
2. **If you want to have mares at peak condition ready to be checked in-foal, calm mares down as well.**
3. **If you want to improve development of your foals, strong when born, boost immune system, strong bones.**
4. **Vets explain OCDs are caused by mineral imbalance while mare is in foal.**
5. **First 11 months gestation—not enough calcium and minerals causes bone chips, OCD's.**
6. **Stallions have better sperm count, maintain muscle mass, and maintain hoof quality during breeding season and year round.**

It was early November, and the woods were just starting to come alive with rut activity. I'd been scouting a funnel between bedding and feeding areas, and the sign was fresh. With the wind in my favor, I decided to try something I'd heard other hunters talking about – Buck Whiff.

I kept it simple. A few drops on a drag rag, and I walked a slow zigzag toward my stand. Passing an existing scrape I put a few squirts of Buck Whiff in it about 20 yards out, right where I expected movement. The scent was fresh—noticeably different from some of the bottled stuff I've tried in the past.

An hour or so after settling in, I caught movement. A decent buck stepped out, nose down, locked in on the trail I'd made. He paused at the scrape, visibly aggravated, and gave me the broadside shot I'd been waiting for.

What struck me was how naturally he reacted—paused, hair bristled, stiff legged walk – you know what I mean. He was ready for a going around with this new buck that had just intruded his territory.

I've learned that when you use a lure like Buck Whiff correctly—fresh, sparingly, and always with the wind in mind—it can tip the odds in your favor. It's not magic. But in the right moment, it's the edge that matters.
