Editor's Note:

Boy, oh boy has the weather gotten cold. We spent the last couple of days moving my sisters plants inside so they didn't freeze. She is trying to save them so she can plant them next spring. I hope they make it through the winter.

The dogs are loving the cold weather. My little Pomsky, Foxy, doesn't want to come inside. She gallops around like its the best time ever.

Zach is back at school after a 2 1/2 week illness. Still not sure what he had, but he is doing much better. I think he caught several different infections at the same time. Luckily none of the other children were effected. And I didn't get sick this time. YAY!

Cactus, Cows & Canyons

This is the story of 16 families out of New York who pooled their resources and bought a ranch at Newcastle, Wyoming in 2019.

This was a move made by faith; Wyoming makes us no promises, unless it is dust, heat, and drought. Our men had a dream of getting out of the fast pace of construction work that takes them away from home daily, but when the ranch payments came due, and with the near horrendous cost of our water project, they reached for the tools they knew how to use and are again doing carpenter work.

If the Lord tarries, we look forward to the next five years in Wyoming.

If you want better nutrition.... you need to start with better soil!

Don't forget the garden!

Also available in 1.2 cubic foot bag

WHAT IS BIOCHAR?

Our Biochar is steam activated carbon that is beneficial for our soils and animals
- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.

THERE IS A DIFFERENCE!

Activiated charcoal needs to be heated over 1250° to get rid of the impurities. Charcoal produced under 1250° is not the same. Also, the activation process should be done with water, not acid!

WHAT IS THE BENEFIT TO YOU?
- Saves costs over high fertilizer year after year.
- Creates a healthier environment for you and your family.
- No dangerous side effects to humans, animals, or ecosystems.
- Puts more dollars in your pocket.

Biochar blends available for various farming needs, call for more information.

HUNTING/SPORTING/GRILLS

It was early November, and the woods were just starting to come alive with rut activity. I'd been scouting a funnel between bedding and feeding areas, and the sign was fresh. With the wind in my favor, I decided to try something I'd heard other hunters talking about – Buck Whiff.

I kept it simple. A few drops on a drag rag, and I walked a slow zigzag toward my stand. Passing an existing scrape I put a few squirts of Buck Whiff in it about 20 yards out, right where I expected movement. The scent was fresh—noticeably different from some of the bottled stuff I've tried in the past.

An hour or so after settling in, I caught movement. A decent buck stepped out, nose down, locked in on the trail I'd made. He paused at the scrape, visibly aggravated, and gave me the broadside shot I'd been waiting for.

What struck me was how naturally he reacted—paused, hair bristled, stiff legged walk – you know what I mean. He was ready for a going around with this new buck that had just intruded his territory.

I've learned that when you use a lure like Buck Whiff correctly—fresh, sparingly, and always with the wind in mind—it can tip the odds in your favor. It's not magic. But in the right moment, it's the edge that matters.

"Lions Mane Talk"

From Our Family Farm to Your Morning Table

Our Lion's Mane Mushroom Coffee is a rich dark-roast Arabica. It tastes like the honest coffee you already brew, because that's what it is. Each cup holds more than 1,700 milligrams of Lion's Mane, about four times what the leading brands average.

Lion's Mane is a culinary mushroom that supports focus and clarity and helps keep the mind healthy and active. IT can also help reduce inflammation in the body and brain. A cup in the morning can help you keep a clear head for the chores, the shop, the kitchen and the field. You don't have to learn a new habit or acquire a new taste. Just brew it the way you always have.

If you'd rather not take it in a cup, our Lion's Mane Capsules give you 500 milligrams of pure fruiting body in every serving. No mycelium grown on grain and no fillers. You get one mushroom in a clear amount, so you know exactly what you're taking each day.

Every one of our mushrooms is grown in a ½ mile long tunnel at the top of the Appalachian Mountains, and an outside laboratory tests every batch. You get plain, honest food that's grown with care, labeled truthfully and made to be shared at the family table.

Call today and try a bag at your own kitchen table. Ask about the capsules for anyone in your household facing long workdays. Tell a neighbor, too, because good things are meant to be shared.

Call now to place your order. You'll be happy you did!

GET BACK THE *LIFE YOU LOVE*

Gentle, natural care to help you get back to the people, work, and activities you love, now with locations in West Des Moines and Bloomfield, IA

Does Pain Slow You Down?

Back pain. Stiff knees. Aching hips. Headaches. Numbness in your hands or feet. Sciatica. Joint pain. Digestive trouble. When you work hard, it's easy to push through and hope it goes away. But pain that keeps coming back is your body telling you something deeper needs attention.

The Piece Most Doctors Overlook

God designed your body to heal, and your nervous system is the communication line that makes it possible. When that communication is disrupted by an old injury, years of physical work, or simple wear and tear, symptoms can show up almost anywhere. Most doctors focus only on the spot that hurts. At Vero Health Center, our team of doctors looks at your whole body to find the true source of the problem, and we never rely on medication or surgery.

Gentle Care, Built Around You

After a thorough evaluation, we build a plan around your needs using natural therapies such as neurologically based care, non-surgical decompression, and shockwave therapy. Stem cell therapy is also available at our clinic.

Why People Drive Hours to See Us

We see more than 1,000 people every week, and we've been caring for families for nearly ten years. Many travel from several states away, which is why we've opened a second location in Bloomfield, IA, to bring care closer to home.

"The people at Vero are all nice and friendly, and I really enjoy coming here. I think everything is helping me, and I appreciate what they're doing for me."

- John Henry Miller, *Albia, IA*

CELLULAR ACTIVATOR
A closer look at oxidative stress

Did you know?
Every day, our cells face oxidative stress from many sources in the modern environment and lifestyle. Oxidative stress can reduce the cell's natural ability to stay balanced and function well.

What did the researchers study?
In a Cellular Activator lab study, researchers looked at markers of oxidative stress in cells after exposing them to five common stressors, with and without Cellular Activator.

The five stressors studied
The study examined five types of stressors that can create oxidative stress in cells:

1. **Microplastics** — Tiny plastic particles that can be taken into cells. Example: microplastic fragments from packaging and everyday products.
2. **Air pollution** — A mix of particles and chemicals in the air that can affect cells. Example: common urban air pollutants such as fine particles from vehicle emissions.
3. **Hormone-disrupting chemicals** — Environmental chemicals that can interfere with hormone signaling and increase cellular stress. Example: BPA and similar everyday chemicals.
4. **Pesticides** — Chemicals used to control pests that can add oxidative stress in cells. Example: widely used agricultural pesticides such as glyphosate.
5. **Diet-related stress** — Cellular stress linked to components of a modern diet. Example: compounds from ultra-processed foods (e.g., advanced glycation end products, or AGEs).

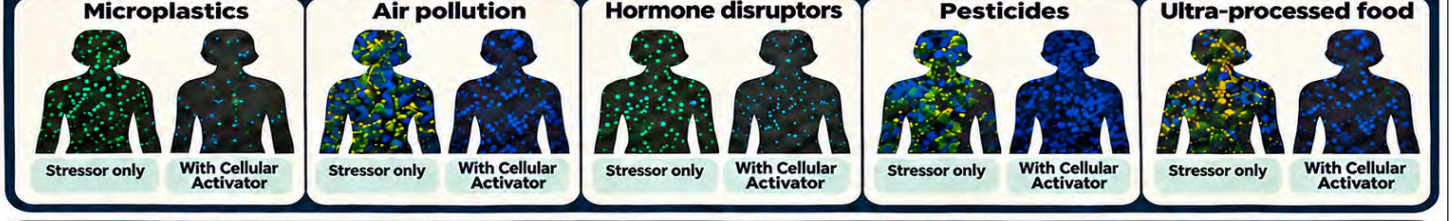
The exciting finding
In the lab study, cells exposed to each of the five stressors showed lower markers of oxidative stress when Cellular Activator was added, compared with cells exposed to the stressor alone.

See the science in action
The charts below show side-by-side illustrations of lab cells for each stressor. The brighter, more numerous spots represent higher oxidative stress. With Cellular Activator, the images show fewer and dimmer spots across all five stressors.

A picture can help tell the story
The visual comparison makes it easier to see the difference Cellular Activator made in lab cells under oxidative stress.

Lab research limitations: This was a lab-cell study, not a human clinical trial. The results show effects in cells under controlled lab conditions, and it is not known if the same effects would occur in people.

Illustrations of lab-cell comparisons



The before and after images speak for themselves, don't you think?

SPREADING TRUTH with godly literature

A channel enabling the church to minister to physical and spiritual needs around the world

Christian Aid MINISTRIES

"What can I say more than that people should read [the *Seed of Truth*] totally and then live what is written there," Viorica, a widow in Romania, told CAM staff members enthusiastically. "When I get the magazine, I don't put it down until I have read everything. If it comes at 12:00, by 6:00 [in the evening] I have read the entire magazine." Viorica grew up in a non-Christian home, but while cleaning, she found part of the book of Revelation and read it. She learned the way of salvation through it.

A lady from Nicaragua shared, "I have a 7-year-old son who has fallen in love with every part of the [*Torch of Truth*]. He sincerely wants me to read him more content similar to this which he loves."

Thank you, supporters, for helping to spread truth with Bible-based reading material!
