Editor's Corner

Hello,

"To everything there is a season, and a time to every purpose under the heaven." Ecclesiastes 3:1 If you really just stop and think how the four seasons fill the measure of the year, everything has its timing and purpose, just like we are promised. And we get to enjoy the beauty of each season! I hope everyone is enjoying these beautiful fall-autumn days. The leaves are showing their beauty. I am planning to take a ride down to the covered bridge this Sunday. You all make it a great week!

HELP FOR THE ELDERLY

Article space donated to CAM

"This is a surprise from God"

A channel enabling the church to minister to physical and spiritual needs around the world

Christian Aid MINISTRIES

What would it be like to live in a house with a dirt floor—one that floods whenever it rains? This is reality for Maria, an elderly widow in Nicaragua.

Maria's husband died 30 years ago. Her daughter died five years ago, and her grandson died two months later. She also lost a son in an accident. "I have suffered a lot," Maria said, "but we keep going."

Each month, Maria depends on a friend to pick up her **Help for the Elderly** food parcel. One month when her friend was sick and unable to go, Maria found herself with few options for her monthly food provisions. Not long afterward, a CAM staff member visited Maria and delivered a food parcel. Delighted, she said, "I thank you so much, in the name of the Lord. I wasn't expecting this visit. This is a surprise from God!"

Clara is another widow in Nicaragua who has experienced a life of hardship. Her husband struggled with alcoholism, and 22 years ago a vehicle struck and killed him. When she received a food parcel, she told CAM staff members, "I give thanks to God because without Him we are nothing."

Miguel and his wife also live in Nicaragua. For most of their married life, they worked for a farmer who allowed them to build a small home on his land. Together, they planted, cultivated, and harvested crops, but yielded just enough food and income to survive.

Then the owner sold the farm, leaving Miguel and his wife with no place to call home. As Christians, they chose not to fight the situation. Their daughter was able to provide a simple house for them to live in.

Miguel praised God when he received a food parcel. "All of God's blessings to me are good!" he told a CAM staff member. Amidst poverty, God's love works through His people, bringing hope to desolate hearts in the form of a food parcel. Thank you, supporters, for helping to minister to elderly people in great need.

Maria is overjoyed with the food parcel she received on a surprise visit from a CAM staff member.

Idaho Whole-Apple Cider Vinegar

GREAT APPLE CIDER VINGAR HAS A "ONE-TWO" PUNCH...

1) Looking for less **disease and fewer internal/external parasites this year**? THIS ACV has an alkaline forming response in any mammal's body, which is your shield against those issues.

2) Wanting to stretch your hay and pasture by 20%? The ENERGY and ENZYMES from the Whole-Apples contained in this vinegar are ALL still intact to help boost your livestock's digestion of any feed. Minerals in the feed are 90% bio-available versus the 20% in most mineral mixes.

The drier your feed, the better this ACV works!!!

The Mother of all Enzyme-rich vinegars

Cadiz, 15 minutes from Tappan marina

It was early November, and the woods were just starting to come alive with rut activity. I'd been scouting a funnel between bedding and feeding areas, and the sign was fresh. With the wind in my favor, I decided to try something I'd heard other hunters talking about – Buck Whiff.

I kept it simple. A few drops on a drag rag, and I walked a slow zigzag toward my stand. Passing an existing scrape I put a few squirts of Buck Whiff in it about 20 yards out, right where I expected movement. The scent was fresh—noticeably different from some of the bottled stuff I've tried in the past.

An hour or so after settling in, I caught movement. A decent buck stepped out, nose down, locked in on the trail I'd made. He paused at the scrape, visibly aggravated, and gave me the broadside shot I'd been waiting for.

What struck me was how naturally he reacted—paused, hair bristled, stiff legged walk – you know what I mean. He was ready for a going around with this new buck that had just intruded his territory.

I've learned that when you use a lure like Buck Whiff correctly—fresh, sparingly, and always with the wind in mind—it can tip the odds in your favor. It's not magic. But in the right moment, it's the edge that matters.

HEAR THAT?
Listen with Nature's Ear!
Stay connected to the sounds of the woods from the comfort of your blind!
NATURE'S EAR
Simply hang the small microphone outside the blind and close the window. The microphone captures the sounds around you and sends them through the rechargeable speaker inside the blind. Hear deer footsteps, grunts, other animals, and other subtle sounds that can easily go unnoticed from inside a closed blind.
With a compact design and a speaker that recharges with a standard phone charger, Nature's Ear is an easy way to enhance your hunting experience while staying comfortable, concealed, and still.

OHIO VALLEY BIOCHAR
There is a Better Way

Now is the time to apply Ohio Valley BioChar to your fields and gardens!

If you want better nutrition.... you need to start with better soil

WHAT IS BIOCHAR?

Our Biochar is steam activated carbon that is beneficial for our soils and animals

- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.

WHAT IS THE BENEFIT TO YOU?

- Saves costs over high fertilizer year after year.
- Creates a healthier environment for you and your family.
- No dangerous side effects to humans, animals, or ecosystems.
- Puts more dollars in your pocket.

Biochar blends available for various farming needs, call for more information.

try the FEEL GREAT SYSTEM

Simple. Natural. Guaranteed.

Working with the body God designed – naturally.

No restrictive diets. No complicated rules.

What is it?

Studies show as many as 9 in 10 American adults are metabolically unhealthy — and insulin resistance is the hidden root behind much of today's diabetes, weight gain, and constant fatigue. Medications trim the branches. This addresses the root. The Feel Great System is simple: two natural drink mixes and time-based eating that work with the meals you already cook — no counting calories, no special foods, no guesswork. Backed by over 50 clinical studies, listed in the PDR — the reference guide physicians have trusted for decades — and a 100% money-back guarantee.

We're Jim & Diane Stelter from Hudsonville, Michigan. A few years ago we were low on energy, gaining weight, and adding medications every year. We found a simple daily system and use it every day. Jim, 76, has lost 50 pounds and is off blood pressure medicine; Diane, 69, has lost 30 pounds, lowered her cholesterol, and her joint pain is gone. Ask questions and decide for yourself — we answer every letter and call personally.

HERBAL SOLUTIONS FOR EXPECTING AND NURSING MOMS!

MASTITIS RX

HERBAL ANTIBIOTIC ALTERNATIVE FOR BREAST INFECTION :: An **invaluable aid** to the mom suffering from plugged ducts or mastitis. It **impressively drains** plugged ducts, **clears infections** and **aids the lymph system** in the breast to clear out the bacteria and swelling. **Keep this remedy on hand** while nursing and **use at the first sign** of breast infection or when dealing with **hot, painful plugged ducts.** DO NOT WAIT UNTIL YOU HAVE A BREAST INFECTION TO ORDER! Breast inflammation and infection are best dealt with at the first sign. I recommend using this remedy along with our Mastitis RX Salve.

ASK DR. NELSON:

"CAN I HAVE VEIN DISEASE WITHOUT HAVING VARICOSE VEINS?"

Yes. You can have vein disease even if you don't have large, visible varicose veins.

Varicose veins are one of the most recognizable signs of venous disease, but the problem often starts deeper beneath the skin. When the valves inside the veins don't work properly, blood can flow backward and pool in the legs. This is called venous reflux. You may notice symptoms before you ever see a large varicose vein.

What should I watch for?

Some early or less obvious signs of vein disease include:

- Legs that feel heavy, tired, achy, or full—especially at the end of the day
- Swelling around the ankles or lower legs
- Itching or irritation of the skin
- Dry, flaky skin that doesn't improve with lotion
- Brown or reddish discoloration around the ankles
- Small clusters of spider veins or tiny veins around the ankles
- Legs that feel better after walking or putting your feet up
- A sore or wound on the lower leg that is slow to heal

You may have only one or two of these symptoms and still have significant venous reflux.

How do I know if my veins are healthy?

The best way to find out what is happening beneath the surface is with a venous ultrasound. An ultrasound can show whether blood is flowing in the wrong direction and help determine how severe the vein problem is.

Not everyone with spider veins or visible veins needs treatment. The important question is whether there is an underlying circulation problem that is affecting the health and comfort of your legs.

Don't wait until you have large, bulging veins or significant pain to pay attention to your legs. If your legs are consistently heavy, tired, swollen, itchy, or developing skin changes, it may be time to have them evaluated.

Healthy legs should help you do the work that matters to you—not make the work harder.

it could be your thyroid!

Real Patients. Real Results.

I was having thyroid problems for several years. I tried other supplements and products with little improvement. I saw the ad in the budget and decided to try it. Now after six months I have more energy, sleep better and have overall better health. I was always able to reach out to them. Great people, great program.
– Dan Stoltzfus, Pennsylvania

I can honestly say this program has helped more than about any other products with my tiredness and low energy. I can now do a full days work and even something else in the evening without feeling wiped out. By doing the blood tests they found exactly what was wrong, and what I needed. Thanks to god for the healing.
– Leah Miller, Ohio

I can get up in the morning and feel refreshed. I am completely off medication for high blood pressure. My menstrual cycles have come back to normal. lots of other things have improved that I didn't know were connected to my thyroid. Thanks so much!
– Kathyrn Yoder, Missouri

I had autoimmune thyroid disease, blood sugar problems and low vitamin d and iron. After being on their program I feel so much better! I actually feel like doing something instead of having to force myself. My depression is gone, I don't worry like I used to and I have lost 41 pounds. It's great to finally have energy again and enjoy being around people. I encourage anyone struggling to try them.
– Sue Albrecht, Michigan

I've been dealing with Hashimoto's for years, I've been on strict diets, changed my medications many times, tried every supplement I was told to take, never felt completely well. Your products and approach has helped me the most. This is the best I've felt for years. Amazing, I've already told many people to call you.
– S Hertzler, Maryland

LIFESTYLE

We believe the root cause of all dis-ease in the body comes from toxicity and deficiency. We believe the foundation of the body are cells, and our protocols focus on providing the body building blocks it can use to restore every cell in the body.

The most foundational component of every organ system and every part of your body is the cell and the structures within it. Your body is made up of over 30 trillion cells. Focusing on restoring your cells will move your body from a place of dis-ease to rest-oration. We do not focus on detoxing because we understand when the energy and structure is restored to the cells, your body will detox on its own at a pace that your system can handle.

Each Protocol will provide information and guidance on optimizing:

- Diet & Nutrition
- Supplementation
- Healthy Lifestyle
- Emotional Components

Get the support you need from people who genuinely want to see you restored.

We have helped people restore their bodies from the dis-ease's listed below and much more:

REAL PATIENT STORIES

"I came to MDC with lower back pain and numbness in my legs. I was barely able to walk, and I wasn't able to function or work. It was Midwest Disc Clinic or surgery.

Now after my care plan, I'm pain free and raring to go. I can put in a full day's work.

My experience was very much appreciated." — **D. Hershberger, Nashville, MI**

"I was having lower back pain and right leg pain when I came to MDC. I was on crutches for two days and in bed for a week, not able to work.

After my DOSAE® treatments, I am back to work and feel 85% to 90% better. Thank you to the doctors and staff at MDC. Everybody is very friendly and helpful!" — **D. Troyer, Randolph, NY**

At Mushroom Maiden Farm, we believe in the same enduring principles that guide our communities: faith, family, stewardship of the land, and honest work done well. In a world that often rushes toward shortcuts, we choose a simpler, more transparent path, growing and crafting our products with care, patience, and integrity.

Our mushrooms are cultivated high in the Appalachian Mountains, where clean air, pure water, and rich forest traditions shape their strength. Every batch is tested by an independent lab to ensure purity and quality. We use 100% fruiting bodies, the part of the mushroom where the most valuable nutrients are found, so you receive only the best of what nature provides.

Our Lion's Mane mushroom capsules are carefully prepared to support clarity and well-being, made without fillers or unnecessary additives. Alongside them, we offer two wholesome varieties of coffee, a smooth and robust dark Arabica bean, roasted for rich flavor and steady comfort and a dark Arabica bean Cinnamon Breakfast Roll coffee. To season your table, choose from four distinct mushroom enhanced salts. We offer a Wild Hickory Cold-Smoked Salt, Himalayan Pink, Sriracha, and Thai Ginger, each crafted to complement honest, home-cooked meals.

As a 100% woman-owned farm, we value humility, hard work, and transparency in every step, from growing to packaging. We are committed to straightforward practices and products you can trust for your home and family.

Simple ingredients. Careful hands. Honest quality. That is the Mushroom Maiden promise.

Best nap ever.

81% sleep through the night when using a weighted blanket

60% feel less anxious after using a weighted blanket

Frequently asked Question

How do Bearaby blankets get their weight?

The **Cotton Napper** is weighted entirely through hand-knit organic cotton — not beads, not pellets, not hidden fillers. Just pure, breathable cotton loops layered to create natural, even weight. It is precisely engineered with a heavy cotton yarn, and compacted to the perfect density to give you your best nap ever.

The **Tencel Cooling Tree Napper** combines the above process with a blend of Eucalyptis fibers to give you the same effect as the cool side of your pillow, all night long.

A wedding is a joyful time
As two young lives unite,
Yet it's time to think about
The years that have gone by.
Thank you, parents, for all you've done,
You've been such a big part of our lives,
Spending time with us and loving us,
And teaching us of God and His Son.
Our memories are special gifts,
Their worth cannot be measured.
The loving home you made for us,
Our hearts will always treasure.
And though we're very happy
As we make this brand new start,
The love we feel for each of you
Is forever in our hearts.
With love,

After struggling with a weak heart for many years Levi had a heart attack on July 25th while attending a benefit auction. He was hospitalized and after being in the hospital for almost three weeks, he passed away from congestive heart failure. This leaves his wife Susie and the family without a husband and father and a very sizable hospital bill.

Let's come together as a community and help ease the financial burden.

SEEDTIME ACRES PLANT AWARENESS GROW HOPE

Seedtime Acres | A Poverty Awareness Experience

Is It Possible to Understand Poverty and Make a Difference?

A conversation with Travis Hess, chairman of Seedtime Acres, explaining the Poverty Awareness Experience Project

1. WHAT IS THE POVERTY AWARENESS EXPERIENCE?

Here's the thing about poverty — it's easy to talk about in numbers and never really feel it. At Seedtime Acres, we want to change that. We take you down into the lives of people actually living in these conditions, and introduce you to the organizations already teaching them simple solutions to current problems and helping them better their situation.

You'll walk through ten zones — housing, food and water, education, healthcare, labor — each one built around real stories, not statistics. Along the way, you meet the people and organizations already doing this work on the ground. This is housed inside a new 14,000-square-foot exhibit building we're finishing up now, with an outdoor village planned as a future expansion. The awareness journey is an extension of the greater Seedtime Acres campus, which already includes an event center, guest services, and overnight lodging.

2. HOW IT STARTED?

It all started with one successful farmer who came home from Haiti and couldn't shake what he'd seen. He wasn't living extravagantly — he just realized he had much more than he needed.

He came under conviction that the life he was living wasn't doing much for those who'd never had his opportunities so he sold off a lot of unnecessary items he owned, and donated his property, including the home he'd lived in for fifty years, so it could be used to raise awareness of global poverty. In April 2024, the property moved from Christian Aid Foundation over to the newly formed Sowing Hope Foundation, which carries that vision forward today.

3. WHY AWARENESS — NOT JUST RELIEF?

It's a fair question. Why spend money on an exhibit instead of just sending it straight to the poor?

Here's how we think about it. We're not a relief organization — we raise awareness of the need and point people toward ministries who are already meeting those needs well. Think of it the way you'd think about a field. You don't eat the seed you plant - you put it in the ground first and trust the harvest that follows. Awareness works the same way. It's the planting, not the harvest, but it's what makes the harvest possible. One law of the harvest is sow sparingly, reap sparingly - sow bountifully, reap bountifully and we believe it applies to awareness. God's people have the answers to the world's problems and awareness helps them know where to direct their efforts.

4. HOW CAN YOU BE INVOLVED?

The structure is nearly complete and focus is turning towards the exhibits. ***You can DONATE time and funds.***

We're aiming to have the exhibit finished by the end of this year. Those who have volunteered and put resources into this project will get the first opportunity to walk through it as we put on the finishing touches. Current a grand opening to the public is proposed for March 2027. An outdoor village will follow as a future expansion. Over $1.3 million has already been donated to get us this far and on top of that we've had countless volunteer hours and donated materials, We still need around $700,000 to finish the exhibits. You can give funds, help with materials or skilled labor, or just tell someone else about it who might want to help.

Your support will help us create a place that helps make a difference for those trapped in cycles of extreme poverty.

Thanks for your interest in this project,
Travis Hess, Chairman

IT'S NOT A FABRIC
IT'S A TECHNOLOGY.

HECS HUNTING

Muscle movements produce electrical energy radiation that animals are capable of detecting. HECS is the only technology available that blocks your energy, which is proven to be a major "tip off" to animals to your presents.

HECS technology uses a highly conductive and interlocking carbon fiber grid specifically designed to block your electrical energy radiation. This grid is woven directly into all HECS fabrics and is lightweight, breathable, and durable.
