Editor's Corner

Greetings to you all,

"Far up in the deep blue sky, Great white clouds are floating by; All the world is dressed in green; Many happy birds are seen, Roses bright and sunshine clear, Show that lovely June is here." Strawberry season is here. My sister so kindly will share some with me. Fresh strawberry pie and a few containers for the freezer is all I need. Fresh Garden Lettuce, radishes, and onions are also on the menu. We are just so Richly Blessed!!

Thanks to all advertisers, viewers, and the paper boys who make this magazine happen. We appreciate you all!

Have a good day,
Ruby Yoder

Idaho Whole-Apple Cider Vinegar

GREAT APPLE CIDER VINGAR HAS A "ONE-TWO" PUNCH...

1) Looking for less disease and fewer internal/external parasites this year? THIS ACV has an alkaline forming response in any mammal's body, which is your shield against those issues.

2) Wanting to stretch your hay and pasture by 20%? The ENERGY and ENZYMES from the Whole-Apples contained in this vinegar are ALL still intact to help boost your livestock's digestion of any feed. Minerals in the feed are 90% bio-available versus the 20% in most mineral mixes.

The drier your feed, the better this ACV works!!!

☀ it could be your thyroid!

Real Patients. Real Results.

I was having thyroid problems for several years. I tried other supplements and products with little improvement. I saw the ad in the budget and decided to try it. Now after six months I have more energy, sleep better and have overall better health. I was always able to reach out to them. Great people, great program.

– **Dan Stoltzfus, Pennsylvania**

I can honestly say this program has helped more than about any other products with my tiredness and low energy. I can now do a full days work and even something else in the evening without feeling wiped out. By doing the blood tests they found exactly what was wrong, and what I needed. Thanks to god for the healing.

– **Leah Miller, Ohio**

I can get up in the morning and feel refreshed. I am completely off medication for high blood pressure. My menstrual cycles have come back to normal. lots of other things have improved that I didn't know were connected to my thyroid. Thanks so much!

– **Kathryn Yoder, Missouri**

I had autoimmune thyroid disease, blood sugar problems and low vitamin d and iron. After being on their program I feel so much better! I actually feel like doing something instead of having to force myself. My depression is gone, I don't worry like I used to and I have lost 41 pounds. It's great to finally have energy again and enjoy being around people. I encourage anyone struggling to try them.

– **Sue Albrecht, Michigan**

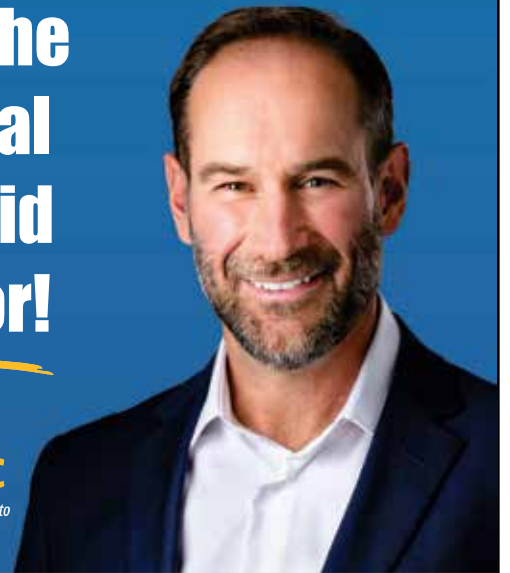

I've been dealing with Hashimoto's for years, I've been on strict diets, changed my medications many times, tried every supplement I was told to take, never felt completely well. Your products and approach has helped me the most. This is the best I've felt for years. Amazing, I've already told many people to call you.

Ask Dr. Nelson

What Are Varicose Veins?

Many people think varicose veins are simply a cosmetic issue, but they are actually a medical condition caused by unhealthy veins. Varicose veins occur when the valves inside the veins stop working properly, allowing blood to flow backward and pool in the legs.

Over time, this extra pressure stretches the veins, causing them to become enlarged, twisted, bulging, and visible beneath the skin.

Healthy leg veins contain tiny one-way valves that help move blood upward toward the heart. When these valves weaken or fail, blood begins to collect in the veins instead of circulating efficiently.

This pooling of blood increases pressure in the legs and can lead to:

- Aching or heaviness
- Throbbing or burning discomfort
- Restless legs
- Open sores or ulcers near the ankles
- Swelling in the legs or ankles
- Itching
- Skin discoloration

Varicose veins may appear blue, purple, or rope-like beneath the skin. Some people notice only mild symptoms at first, while others experience significant discomfort that worsens after standing for long periods.

Who Is at Risk?

Anyone can develop varicose veins, but certain factors increase the risk:

- Family history of vein disease
- Standing or sitting for long periods
- Previous leg injury or blood clot
- Jobs that require long hours on your feet
- Pregnancy
- Increasing age
- Excess body weight
- Both men and women can develop varicose veins

Many people ignore vein symptoms because they believe discomfort is simply a normal part of aging or hard work. However, untreated vein disease often progresses over time. Symptoms can gradually worsen, and some patients develop chronic swelling, skin damage, bleeding veins, or painful ulcers near the ankles.

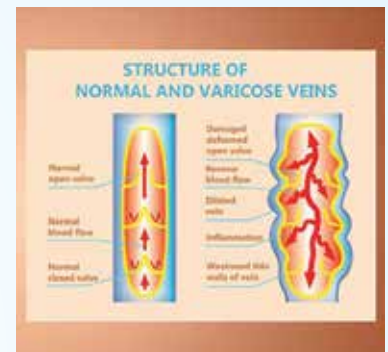

Fortunately, modern vein treatments are far less invasive than many people expect.

Most procedures today are performed in the office with little downtime, allowing patients to return quickly to their daily activities.

If you are experiencing leg pain, swelling, heaviness, or visible varicose veins, a vein evaluation can help determine whether underlying vein disease is contributing to your symptoms.

Dvora Nelson MD, RVT, RPVI

CURIOUS ABOUT VARICOSE VEINS?

If your legs ache, swell, cramp, feel heavy, restless, or tired by the end of the day, poor circulation may be the cause.

Come learn:

- **Why your legs hurt**
- **Whether varicose veins may be affecting your circulation**
- **What treatment options are available**
- **How vein care can help you stay active and painfree**

Our vein treatments are gentle, minimally invasive, and performed in the office setting with little interruption to daily life. Return to work as soon as you need to.

Call 440-617-6061 to schedule your FREE screening for one day only on June 26, 2026 or stop by!

We can't wait to see your legs and see how we can help.

Ask Dr. Nelson

“What Can Happen If I Don’t Treat My Varicose Veins?”

Many people think varicose veins are simply a part of getting older or working hard on their feet. In the Amish and Mennonite communities especially, years of farming, standing, lifting, walking, and caring for family can put great strain on the legs.

While some varicose veins are mainly a cosmetic concern, many are a sign of unhealthy circulation. Left untreated, vein disease can slowly worsen over time.

Here are some common problems that can happen when vein disease progresses:

Leg Pain and Heaviness

Many people begin noticing aching, throbbing, burning, or tired legs, especially at the end of the day. Some say their legs feel heavy “like cement.” Others develop restless legs or nighttime cramping that interrupts sleep.

Swelling

Poor circulation can cause fluid buildup in the legs and ankles. At first the swelling may come and go, but over time it can become more constant and uncomfortable.

Skin Changes

When unhealthy veins continue to leak pressure into the tissues, the skin may begin to change color. The lower legs may become brown, reddish, dry, itchy, or hardened. Some people think this is simply aging skin, when in reality it is a sign of chronic vein disease.

Bleeding Veins

Large surface veins near the skin can sometimes bleed unexpectedly after a small bump, scratch, or injury. Because these veins are under pressure, the bleeding can occasionally be significant.

Blood Clots

Some people with untreated vein disease can develop painful clots in surface veins, called superficial thrombophlebitis. In certain situations, more serious blood clots may also occur.

Open Wounds (Venous Ulcers)

One of the most serious complications of untreated vein disease is a venous ulcer — an open sore usually near the ankle that may drain fluid and become very painful. These wounds can be difficult to heal and may limit a person’s ability to work, walk comfortably, or care for family responsibilities.

The good news is that many vein problems can be treated safely and comfortably before they become severe. Modern vein treatments are usually done in the office without large incisions or long recovery times.

Most importantly, no one should simply “live with” painful or swollen legs because they believe it is just part of life.

**Our legs are the foundation that carry us through our daily work,
our homes, and our communities. Taking care of them matters.**

Studies have shown up to 40% improvement for, stress, muscle soreness, and sleep quality after regular use of the mat for 20–30 minutes before bed. Journal of Sleep Therapy 2015

Unroll your pressure point mat and pillow on a flat surface and ease onto it slowly, allowing your body to adjust. The gentle pressure of over 4,000 pressure points works to stimulate circulation, release muscle tension, and support relaxation. Start with 10–15 minutes a day and gradually increase to 20–40 minutes as your body gets used to the sensation. Use daily or as needed to support deep rest, stress relief, and full-body rejuvenation.

I absolutely love this pressure point mat! It's become a part of my daily routine and helps me relax and unwind like nothing else. I've even gifted it to friends, and they're obsessed with it too. Highly recommend for anyone looking to relieve tension and feel amazing! - *WTHN Client*

Many severe disc pain sufferers don't realize they may have other options first

FREE REPORT:

THE QUESTIONS MANY PEOPLE WISH THEY
ASKED BEFORE BACK SURGERY

Eddie had been suffering with severe back pain for months.

"I had 5 bulged discs, 4 herniated discs, and 3 tears in my back."

It got so bad he **couldn't walk**.

"I had to crawl most of the time... I was off work for 3 months."

But when Eddie came to Midwest Disc Clinic, they put him on a natural care plan — no surgery, no drugs.

Things started to change within weeks.

After completing his care plan, here's how Eddie feels now:

"I can walk again. The pain is finally manageable."

For Eddie, that means back to work. Back to his family. Back to life.

Eddie is now one of our patients who once felt unsure — and now wants to help others decide.

Replace your restless nights with Sleep Breathing Support™

You can **stop** sleep breathing disruptions and restless legs tonight.

Sleep related breathing disruptions ruin the sleep of an estimated 25 million Americans on a regular basis. Since sleep disruptions can disturb sleep without completely awakening the subject, there are likely millions more undiagnosed sufferers. The condition prevents the sleeper from entering rapid eye movement (REM) and delta sleep—causing them to become anxious, cantankerous and tired during the day. Additionally, due to the nature of the condition, it causes blood oxygen levels to be lower than normal for very prolonged periods of time. This is damaging to the brain and heart in particular.

Treatment options can include weight loss, nasal decongestants, surgery, and oral appliances. Devices, such as a continuous positive airway pressure (CPAP) machine, are commonly used for moderate and severe sleep breathing disruptions. A CPAP device is a forced air mask, worn during sleep that ensures proper inhalation.

Hi, I'm Steve Frank.

I have sleep-breathing disruptions at night. I spent years researching the condition and understanding the true cause. After many years, and with my knowledge of herbs, I found an amazing combination that supports deep, steady breathing all night long. This patented blend works great for nighttime sleep-breathing disruptions commonly associated with aging. I haven't worn any mask or tubes in years, and I sleep great. I hope you can too.

As it turns out, I also dealt with occasional restless legs. So I created a blend of herbs traditionally used to help relax nerves, ease tension, and support circulation. It worked well for her—and I later found it could also support those experiencing restless legs.

I personally use Sleep Breathing Support before bed each night, and I keep Leg Relaxer™ on my nightstand.

Sweet Dreams.

"I am well pleased with the Sleep Breathing Support. The nice part is I no longer have to use a CPAP machine. I am refreshed, rested and ready to go when I wake up." Elva Chupp

Experience has shown that 60 percent of patients are not able to tolerate the equipment and ultimately discontinue using it. Others develop respiratory infections from the mask.

Sleep Breathing Support™ was designed to do what the above solutions can't address the real cause of the condition.

THE CAUSE

When we enter stage two sleep in preparation for REM sleep, where dreaming occurs, muscular activity is inhibited. It is called "reduction of muscle tonus." This is a function that occurs primarily to keep the dreamer from physically acting out the movements of his or her dreams.

It is accomplished by suppressing the flow of signals from the brain along the spinal cord. Unfortunately, in those who struggle with sleep breathing disruptions, the reduction in muscle tonus allows the soft palate to sag and the signal from the brain to the diaphragm that keeps you breathing gets inadvertently reduced in strength.

The result of this is that upon entering stage two sleep, the breathing becomes shallower, the blood oxygen level drops and the carbon dioxide level rises until the brain intervenes and causes the body to make a large and immediate inhalation. This causes a large pressure differential in the pharynx and literally sucks the sagging soft palate into the airway. This obstructs the flow and causes a loud snort, partially or fully awakening the subject.

THE SOLUTION

So you see, the problem is not the sagging soft palate. The problem is not the rapid inhalation that sucks your soft palate into the airway. The problem is the reduced ability of the signal from your brain to produce sufficient breathing amplitude from your diaphragm. The appropriate intervention is to enhance the ability of the brain to communicate with the diaphragm so that you breathe deeply and steadily throughout the night. **That is exactly what the combination of herbs in Sleep Breathing Support™ is intended to do.**

Crafted with a bouquet of natural herbs.

Lobelia, used in small doses, can increase the level of respiration. Because the lobelia causes you to breathe more deeply and steadily, it keeps the whole disruptive cycle from even beginning.

Thyme improves the ability of the lungs to exchange carbon dioxide for oxygen and makes an excellent contribution to maintaining sufficient respiratory amplitude.

Chamomile aids the subject in relaxing.

Cramp Bark helps the upper trapezius muscles to loosen.

When was the last time you truly slept well?

Calm overactive nerves, **restless legs**, and nighttime **leg cramps** with **Leg Relaxer™**.

No mess. No menthol scent. No harsh chemicals.

Enjoy more comfortable nights and deeper, more restful sleep, night after night.

"Jonathan, my husband — we've been married for 28 years — is 50 years old. He has always had irregular breathing. He used to talk during the night, wake up several times, and snore. He never seemed to reach deep sleep. He didn't want to use a CPAP machine, so I saw this article in a farming magazine.

He had a cold the first night he took the pills, and not only did the cold go away that same night, but by the second night he wasn't snoring anymore. He was sleeping so deeply that I had to check if he was okay — it was the first time he had ever slept that deeply.

He's no longer falling asleep in a chair during the day. He feels better and is working better. I'm really surprised at how quickly these pills worked on his sleep problems — starting from the very first night. By the second night, he wasn't even snoring anymore."

Food encourages people in war-torn Ukraine

As the violent and deadly war between Ukraine and Russia continues, many people are left displaced, without jobs, and in despair. Some have lost family members and have witnessed the horrors of war.

We are grateful for an avenue to provide food to people in Ukraine, even to some who are caught in the middle of the conflict in Russian-controlled areas. The gift of food blesses and encourages those who have felt the tensions of war for over four years.

A family who received food from CAM contacts wrote, "We . . . thank you with all our hearts for the food items you have gifted to our family. . . . [Our children] were delighted and truly surprised to discover that, in these times, there are still people who care deeply for others who recognize their needs and who are willing to make sacrifices of their own. May the Lord bless you!"

“Lions Mane Talk”

At Mushroom Maiden Farm, we believe in the same enduring principles that guide our communities: faith, family, stewardship of the land, and honest work done well. In a world that often rushes toward shortcuts, we choose a simpler, more transparent path, growing and crafting our products with care, patience, and integrity.

Our mushrooms are cultivated high in the Appalachian Mountains, where clean air, pure water, and rich forest traditions shape their strength. Every batch is tested by an independent lab to ensure purity and quality. We use 100% fruiting bodies, the part of the mushroom where the most valuable nutrients are found, so you receive only the best of what nature provides.

Our Lion’s Mane mushroom capsules are carefully prepared to support clarity and well-being, made without fillers or unnecessary additives. Alongside them, we offer two wholesome varieties of coffee, a smooth and robust dark Arabica bean, roasted for rich flavor and steady comfort and a dark Arabica bean Cinnamon Breakfast Roll coffee. To season your table, choose from four distinct mushroom enhanced salts. We offer a Wild Hickory Cold-Smoked Salt, Himalayan Pink, Sriracha, and Thai Ginger, each crafted to complement honest, home-cooked meals.

As a 100% woman-owned farm, we value humility, hard work, and transparency in every step, from growing to packaging. We are committed to straightforward practices and products you can trust for your home and family.

Simple ingredients. Careful hands. Honest quality. That is the Mushroom Maiden promise.

ROUNDHOUSE

Bushman's most comfortable harmonica. An unbeatable price/quality combination. Great for beginners due to comfort, great for pros due to price, durability, and responsiveness! The Roundhouse whips harmonicas from other brands that cost more than twice as much!!! Comes packed in a black, padded, leather-like, zipper case.

Keys: Low F, G, A, Bb, C, D, and E

\$32.99

KNITTLINGER

Accordion-like sound of the old Auto Valve only better feeling and much easier to play. Loud and lively, quick and nimble! Features a slick, go-fast mouthpiece. Good players were able to play faster than all previous double reed harmonicas could respond, but you can't outpace a Knittlinger - it goes as fast as any player can play it!

Keys: Low A, Low Bb Low C, and Low D

\$99.95

BLUES SHIFTER

This is a diatonic harmonica - not a chromatic - that can play the missing note on Blow 3. Try playing "Amazing Grace" or "What a Friend We Have in Jesus" on a regular harmonica in the lower register - you can't, because there's a missing note on Blow 3. Many songs require that missing note, so they can't be played on a normal harmonica. With the Blues Shifter, when you need that note, just push in the slide button and you have it!

Keys: Low F, G, A, Bb, C, and D

\$89.99

THE DELTA FROST COLLECTION

The workhorses of the Bushman brand. The Delta Frost comes in 3 different comb choices - Original (plastic), Steeie (aluminum), or the Woody (wood). Delta Frosts are the preferred gig harmonica for many professional musicians.

Traditional, old school design.

Keys: Low D, Low E, Low F, G, A, Bb, C, D, and E

DINKY

Our all new Bushman Dinky has a greater note range and ability to play more songs than any true, 1-1/2" mini harmonica ever made!!! The Dinky plays much better than the typical mini, and it's more comfortable.

Bearaby

Bearaby weighted blankets are rated at **4.8 out of 5 Stars** from dozens of verified "Busy Beaver" Bearaby users.

Did you know, a Bearaby gives you the weight effect of a comforter (and more), but retains almost no heat, so you can sleep better in the summer as well? Simply use it over the top of a linen, and enjoy a deep, restful night of sleep!

Natural deep sleep

Scientific research shows that sleeping under an evenly distributed weight brings about a deeper, more natural sleep cycle

Peace of mind

The sensation of being cuddled lowers stress and anxiety by reducing cortisol, making you feel calm and relaxed

Joyful feeling

Being gently cocooned in a comforting weight increases serotonin, making you feel positively happy.

Our handmade **Cotton Napper** is a breathable, knitted weighted blanket to help you fall asleep faster and feel calmer, naturally. Designed for individual use, your Napper should be about 10% of your body weight. Not designed to add warmth. **Made of 100% organic cotton.**

KNITTLINGER

Introducing the loud and lively, quick and nimble, ultra-responsive Knittlinger.

It sounds like an accordion, but it's a double reed, Knittlinger octave harmonica with 10 holes and 40 reeds, in the traditional Richter note arrangement. It features a forever lasting, not going to warp, plastic comb, and a thin profiled, comfortably beveled, slick, go-fast, chrome-plated mouthpiece.

Keys: LA, LBb, LC, LD

Summer 2026

General Update

Crops of Northern Mexico: cotton (China used to be a big cotton buyer but are not buying as much anymore), corn, alfalfa, watermelons, chili peppers (a lot of these are used to make red paint), onions, apples, peanuts, barley, pecans

Weather: not much snow, rainy season June-August, dust storms in spring, hail possible in late spring/early summer, 2023 and 2024 were extremely dry years with poor crops but half-decent prices, 2025 had more rain but prices were lower yet (crops could be sold but for a lot less)

Money: The dollar is worth less in Mexico right now than it has been in a long time (Around 17-18 Pesos per dollar)

Stay Local and Yet Reach Far

Jesus said, "...you will be my witnesses in Jerusalem, and in all Judea and Samaria, and to the ends of the earth." (Acts 1:8)

How is that possible? Well, you can start here and now! Most of us live and work near home and only get into surrounding areas where people can see our light.

But to the ends of the earth? Let Global Disciples do the work.

Global Disciples trains Christians in Africa and Asia who know the local language and culture to share the Good News of Jesus with the people there who never before heard the Gospel. Last year 76,239 people came to Christ and joined one of 4,246 new churches that started.

People come to Jesus only as the Holy Spirit leads. But for every \$102 given, we see someone come to faith in Jesus and get involved in a church. Most who trust in Christ and are baptized were once unreached people. Every bit helps!

I am giving to help more people from 'the ends of the earth' come to faith in Jesus Christ!

- \$102 to help 1 person come to Christ
- \$204 to help 2 people come to Christ
- \$306 to help 3 people come to Christ
- \$408 to help 4 people come to Christ
- \$510 to help 5 people come to Christ
- \$_____ to bring people to Jesus Christ
