Der Phone Buch

The information that we have been given has been compiled and is heading to the publisher the first week of December. If you have changes to be made or would not like your number to be listed in the Phone Book, please call the number below by November 30. This book is not a church directory, it is a phone book listing the names and home phone numbers in alphabetical order by last name.

All proceeds that are being raised from selling this first printing/edition of books will be donated to therapy riding facilities in the communities that have contributed to making it possible. *this does not include retail store's markup or the business listings.

If you wish not to share your home phone number, please call in to make sure it has not been submitted by someone else without your consent. Or call to submit only your number. This book is only for listing the Amish of Lancaster County and Daughter settlements. No digital copy will at any point be available, and full copyright coverage is being set up to ensure that nothing will be put into digital form.

Christmas Issue

We did the last of our fall cleanup (from summer) last weekend and we were surprised with another tomato harvest! We even kept all the green grape tomatoes. I know you can fry them but I heard you can pickle them too!

Christmas will be here before you know it - there are lots of great gift ideas in this issue.

Notice: We will have an early deadline next week. **All ads are due Tuesday, Nov. 24th.**

Happy Thanksgiving!!

If you want better nutrition.... you need to start with better soil

Now is the time to apply Ohio Valley BioChar to your fields and gardens!

OVB
OHIO VALLEY BIOCHAR
There is a Better Way

THERE IS A DIFFERENCE!

Activiated charcoal needs to be heated over 1250° to get rid of the impurities. Charcoal produced under 1250° is not the same. Also, the activation process should be done with water, not acid!

WHAT IS BIOCHAR?

Our Biochar is steam activated carbon that is beneficial for our soils and animals
- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.

WHAT IS THE BENEFIT TO YOU?

- Saves costs over high fertilizer year after year.
- Creates a healthier environment for you and your family.
- No dangerous side effects to humans, animals, or ecosystems.
- Puts more dollars in your pocket.

Biochar blends available for various farming needs, call for more information.

Build Your Calf Barn From the Foundation Up

Smartbacteria™ is a foundation you can build on.
STARTUP GEL | CALF GOLD | GOLD SPIKE

Most calf programs focus on inputs. Milk, starter, protocols. But long before any of that matters, the foundation is already being set. A calf's microbiome develops early and when it's off, you don't just see it today, you pay for it later. Inconsistent growth. Health challenges. Poor efficiency. Calf loss.
Not because the ration was wrong.
Because the foundation was.

STARTUP™ GEL
Get the gut started

A concentrated gel, providing Smart*bacteria* to start up gut function at birth and at times of stress.

CALF GOLD™ 3E
Builds The Rumen at Birth

Proprietary Smart*bacteria* strains that work to lay the health foundation in the rumen. Helping establish a highly functioning rumen for a smooth transition at weaning.

GOLD SPIKE®
Backs The Immune System

Smart*bacteria* that help support a healthy GI tract and immune system.

Your antibiotic alternative.

A SMARTBACTERIA™ ALTERNATIVE FOR BARNS LOOKING TO RELY LESS ON ANTIBIOTICS

Antibiotics don't pick sides. Heavy use can cost a calf the same gut bacteria that drive digestion and immunity. Gold Spike® takes the opposite approach: it works with the calf's biology to help support a healthy GI tract and immune response, so your barn can work toward reaching for antibiotics less often.

PUT YOUR CALF BARN ON THE FOUNDATION

Ask your Priority IAC Distributor how Smart*bacteria* can help power your farm.

They don't make them like they used to.

Science has proven that fruits and vegetables
have become less nutritious because of the depleted soil they're
grown in. So much so that today you would need to eat 8 oranges
to recieve the same nutrients as you would eating an single orange
in 1980. This is the same soil that provides food for your animals.
And this is why your animals need additional natural, clay based, highly
available, and highly absorbable, essential vitamins and minerals.

INTERNATIONAL ANIMAL CONCEPTS

Good Animals Come From Good Stewardship

The horses in your care depend on you. From the work they do in the field to the health they carry through the seasons, their well-being is a responsibility worth taking seriously.

When horses go to pasture, many producers step back on supplements. But rich grass is some of the highest soluble fiber feed a horse's hindgut handles all year and that's when gut health needs the most help, not the least.

E-One™ is formulated with unique Smartbacteria™ microbials, working to help support healthy digestion through pasture season and beyond.

The same trusted Smartbacteria™ that has stood behind P-One™ for dairy cattle for over 25 years. When gut health works the way it should, your animals carry it in how they look, how they work, and how they thrive.

It was early November, and the woods were just starting to come alive with rut activity. I'd been scouting a funnel between bedding and feeding areas, and the sign was fresh. With the wind in my favor, I decided to try something I'd heard other hunters talking about – Buck Whiff.

I kept it simple. A few drops on a drag rag, and I walked a slow zigzag toward my stand. Passing an existing scrape I put a few squirts of Buck Whiff in it about 20 yards out, right where I expected movement. The scent was fresh—noticeably different from some of the bottled stuff I've tried in the past.

An hour or so after settling in, I caught movement. A decent buck stepped out, nose down, locked in on the trail I'd made. He paused at the scrape, visibly aggravated, and gave me the broadside shot I'd been waiting for.

What struck me was how naturally he reacted—paused, hair bristled, stiff legged walk – you know what I mean. He was ready for a going around with this new buck that had just intruded his territory.

I've learned that when you use a lure like Buck Whiff correctly—fresh, sparingly, and always with the wind in mind—it can tip the odds in your favor. It's not magic. But in the right moment, it's the edge that matters.

CELLULAR ACTIVATOR

A closer look at oxidative stress

Did you know?

Every day, our cells face oxidative stress from many sources in the modern environment and lifestyle. Oxidative stress can reduce the cell's natural ability to stay balanced and function well.

What did the researchers study?

In a Cellular Activator lab study, researchers looked at markers of oxidative stress in cells after exposing them to five common stressors, with and without Cellular Activator.

The five stressors studied

The study examined five types of stressors that can create oxidative stress in cells:

1. **Microplastics** — Tiny plastic particles that can be taken into cells. Example: microplastic fragments from packaging and everyday products.
2. **Air pollution** — A mix of particles and chemicals in the air that can affect cells. Example: common urban air pollutants such as fine particles from vehicle emissions.
3. **Hormone-disrupting chemicals** — Environmental chemicals that can interfere with hormone signaling and increase cellular stress. Example: BPA and similar everyday chemicals.
4. **Pesticides** — Chemicals used to control pests that can add oxidative stress in cells. Example: widely used agricultural pesticides such as glyphosate.
5. **Diet-related stress** — Cellular stress linked to components of a modern diet. Example: compounds from ultra-processed foods (e.g., advanced glycation end products, or AGEs).

The exciting finding

In the lab study, cells exposed to each of the five stressors showed lower markers of oxidative stress when Cellular Activator was added, compared with cells exposed to the stressor alone.

See the science in action

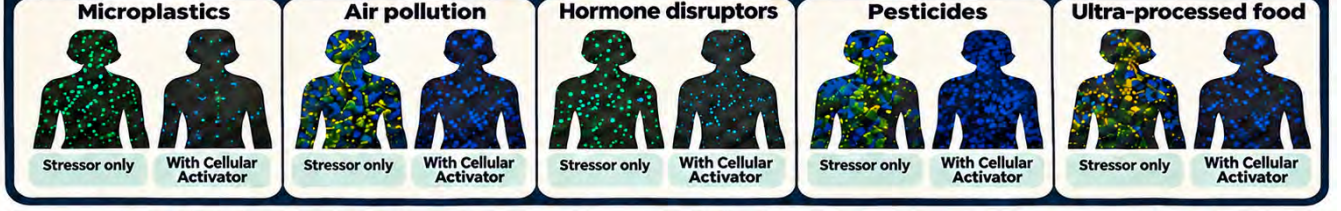
The charts below show side-by-side illustrations of lab cells for each stressor. The brighter, more numerous spots represent higher oxidative stress. With Cellular Activator, the images show fewer and dimmer spots across all five stressors.

A picture can help tell the story

The visual comparison makes it easier to see the difference Cellular Activator made in lab cells under oxidative stress.

Lab research limitations: This was a lab-cell study, not a human clinical trial. The results show effects in cells under controlled lab conditions, and it is not known if the same effects would occur in people.

Illustrations of lab-cell comparisons



The before and after images speak for themselves, don't you think?

"Lions Mane Talk"

From Our Family Farm to Your Morning Table

Our Lion's Mane Mushroom Coffee is a rich dark-roast Arabica. It tastes like the honest coffee you already brew, because that's what it is. Each cup holds more than 1,700 milligrams of Lion's Mane, about four times what the leading brands average.

Lion's Mane is a culinary mushroom that supports focus and clarity and helps keep the mind healthy and active. IT can also help reduce inflammation in the body and brain. A cup in the morning can help you keep a clear head for the chores, the shop, the kitchen and the field. You don't have to learn a new habit or acquire a new taste. Just brew it the way you always have.

If you'd rather not take it in a cup, our Lion's Mane Capsules give you 500 milligrams of pure fruiting body in every serving. No mycelium grown on grain and no fillers. You get one mushroom in a clear amount, so you know exactly what you're taking each day.

Every one of our mushrooms is grown in a ½ mile long tunnel at the top of the Appalachian Mountains, and an outside laboratory tests every batch. You get plain, honest food that's grown with care, labeled truthfully and made to be shared at the family table.

Call today and try a bag at your own kitchen table. Ask about the capsules for anyone in your household facing long workdays. Tell a neighbor, too, because good things are meant to be shared.

Call now to place your order. You'll be happy you did!

THE TRUTH ABOUT Dr. Jeff

and Midwest Disc Clinic

Still looking for answers about neck or back pain that keeps coming back?

You've seen the ads. Now hear the story.

Before there was DOSAE®, Dr. Jeff had to admit something to himself: he needed to get better at treating disc injuries.

Hear him tell the story in his own words—what he set out to change, the work that followed, and why doing better for his patients became personal.

Dr. Jeff | Midwest Disc Clinic

WHAT YOU'LL HEAR

- Why he wants a diagnosis before care.
- When he recommends another doctor.
- How he checks whether care is helping.
- How DOSAE®, his non-surgical disc care system, began.

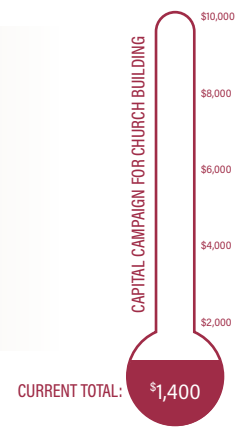
MINISTERING TO CHRISTIANS IN PAKISTAN

At **Yeshua Is The Way** Ministries, we have partnered with local Christians in Pakistan - where there is a great need for spiritual and financial support from the global church body. In a country where Christians face discrimination, poverty and persecution, there is still a hunger for God. Men, women and children are responding to the Gospel! People are being healed from pain and disease! Families are being freed from bonded debt that traps generations in manual labor.

We welcome your financial support for our current and upcoming projects. Our heart is to continue blessing and ministering to these believers - and their neighbors - by hosting Prayer Festivals, providing Food Kits, financing medical care, and more!

Current Fundraising Needs Include:

- Family Food Kits - *rice, lentils, flour, oil, etc*
- Medical Care Support - *medications, doctor visits, surgeries & transportation*
- School Scholarships for Primary and Secondary Students
- Capital Campaign to purchase a Church Building
- Salary for Pastoral Staff in Pakistan
- General Ministry Expenses - *travel, administration, website*



Yeshua is the Way is a 501c3 non-profit organization based in Central Pennsylvania.

Our mission is to support persecuted Christians throughout the nations as a partner with local believers, and to share the Gospel with people worldwide.

SPREADING TRUTH with godly literature

A channel enabling the church to minister to physical and spiritual needs around the world

Christian Aid MINISTRIES

"What can I say more than that people should read [the *Seed of Truth*] totally and then live what is written there," Viorica, a widow in Romania, told CAM staff members enthusiastically. "When I get the magazine, I don't put it down until I have read everything. If it comes at 12:00, by 6:00 [in the evening] I have read the entire magazine." Viorica grew up in a non-Christian home, but while cleaning, she found part of the book of Revelation and read it. She learned the way of salvation through it.

A lady from Nicaragua shared, "I have a 7-year-old son who has fallen in love with every part of the [*Torch of Truth*]. He sincerely wants me to read him more content similar to this which he loves."

Thank you, supporters, for helping to spread truth with Bible-based reading material!
