# Editor's Corner

Hello everyone,

Spring—doesn't that sound wonderful? I am ready for spring and summer. There is so much more to do in the summer, and in the spring, everything comes to life after the winter. The grass gets greener; the flowers bloom brighter; the sun shines warmer.

But anyways, I should quit dreaming and get to work as I have plenty to do, thanks to you all. Hope everyone has a great day.

# PETER - FROM FAILURE TO FREEDOM

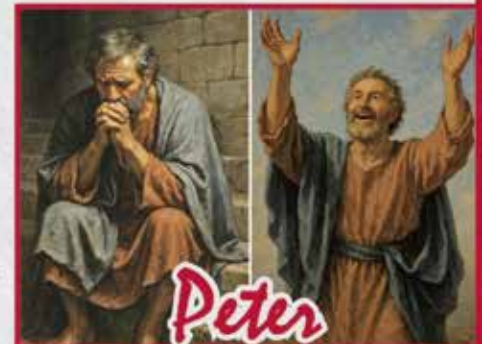

The Apostle Peter knew what it was like to fail deeply. He denied even knowing Jesus — not once, but three times. In that moment, his world collapsed. Yet, when Jesus rose again, He didn't reject Peter. Instead, He restored him, forgave him, and called him to a new purpose. Peter's story reminds us that no one is too far gone for God's mercy.

## Hope Behind the Walls

In every jail and prison, there are men and women who carry deep regret — just like Peter did. But Christ still meets us where we are, offering forgiveness and a new beginning. Through Christmas Behind Bars, we share this message of restoration with those in prison and jails, helping them discover that their greatest failures can become the starting point of a transformed life.

## Be Part of the Restoration

When you support our prison ministry through your donations, you help bring hope to hearts that feel forgotten. Together, we can show inmates that God's grace reaches beyond any wall or chain. Just as Peter's life was changed forever, so too can every life be renewed through the love and power of Jesus Christ.

*Peter*

**ARE YOU DREADING**  
*Allergy season??*

**DON'T SUFFER FOR 19 YEARS LIKE I DID!!**

*For years I struggled with severe seasonal allergies (Spring & Fall) along with food sensitivities, headaches, chronic hives, chronic fatigue.... All this was part of my miserable everyday life. Thousands of dollars were spent as we searched for help to fix my "leaky gut". Every health practitioner was able to tell me my problem but not one of them was able to help me fix it. It was very depressing. Seven years ago we were introduced to WHOLE FOOD NUTRITION from Tranont and what a life changer! These 7 years have been the best years of my life. All honor and glory to God, our true healer.*

Change Life **TRANONT**

IF YOU ARE SERIOUS about improving your health and getting ahead of your issues.... It's time to get SERIOUS about ingredients!! Did you know that over 95% of supplements today contain synthetic (manufactured) ingredients?? Our bodies were not created to recognize and use these foreign substances! These are NOT what our body needs to heal.

## BOYS RANCH

*Restoring Hope through Discipleship*

*Froman Hill Boys Ranch is a residence for minor boys from the horse and buggy churches. To act as a refuge while dealing with emotional, moral and spiritual needs.*

### LOOKING TO SERVE?

**We are in need of Big Brothers and Houseparents!**

**If interested call 330-343-8055.**

We enjoy being house parents at Froman Hill Boys Ranch. It is very rewarding to see the young resident boys improving as they do their term here. Also, a blessing to see how the big brothers put in time and effort to help the young boys progress. We receive so much more here than what we give. God's Blessings!

-Eli & Mary

Serving as big brother gave me lots of interesting opportunities and challenges, and trying to be a good example as Jesus left behind. It was very fulfilling and rewarding to follow rules and keep up with schedules when working with these struggling, talented young boys. To me it was a blessing, thanks to God.

-Former Big Brother, Jake

**We are in need of work. Looking for simple manual piece work. If you feel led to share, call 330-343-8055 and ask for James.**

My time as a Big Brother at Froman Hill Boys Ranch was worthwhile, meaningful, and inspiring. I'm glad I stepped out of my comfort zone to be a part of something special. The friendships and memories made were worth the time invested. I can honestly say I feel I received more than I gave. To God be the glory and honor!

-Big Brother, Michael

I would like to thank God for the opportunity to serve at Froman Hill Boys Ranch. If you have a desire to do something like this, do it! It truly is an enjoyable and fulfilling experience.

-Former Big Brother, Jared Hershberger

About our weeks we have spent with the Froman Hill Boys as houseparents and cooking for them- we have found it very rewarding and interesting. Would encourage anyone to give it a try. You will be richly blessed!

-The Troyers

*Froman Hill Boys Ranch operates as Integrated Auxiliary of the Ohio Amish Church.*

## "A Doctor's Story for the Amish..." Why "Normal" Lab Results Don't Always Mean You Feel Well

Dear friend,

I would like to share a personal story with you. It is not written to persuade or impress, but simply to share how I came to understand health in a different way. Years ago, something happened in my own life that changed how I looked at the body, responsibility, and care. I believe my story may be worth sharing.

"At the time, I'm running my own chiropractic business and I start to feel run down and low on energy, I just didn't feel right. But, life is good. I can push through and handle it. But, then it happens. One day I was just exhausted and couldn't work. I was fatigued. I find myself unable to think clearly or run my business. And that's not all!" ...

"I try just about everything I know to help, including coffee and energy drinks and stubbornness. Finally, a friend of mine convinces me to give their doctor a try. The new doctor talks with me and takes some blood and a few days later hands me a report. I started taking vitamins, minerals and herbs, which are recommended because of my blood/lab results. Before I know it I feel better. I quickly begin to regain my energy and focus and shortly I am able to run my business again. It turns out this doctor took a careful approach to understanding how the body uses nutrients. This works so well for me, and I'm so impressed that I eventually learn nutrient deficiency concepts myself. And that's how it happened!"

The photograph shown here is of my wife, our children, and my parents. Family has always been at the center of my life. Staying present for those we love, caring for one another across generations, and valuing time together are things that matter deeply to us.

It's strange how life works, because now people write and speak with me about many concerns they are experiencing. They mention ongoing aches, stiffness, low energy, digestive troubles, sleep changes, concentration issues, sensitivities to foods, fluctuations in weight, mood changes, and feeling generally out of balance. These are the kinds of issues that affect daily living and often leave people searching for answers.

Here's what some of my patients had to say: "I appreciated having things explained clearly and felt encouraged moving forward." -Ohio

"The information was easy to read and helped me better understand what my tests were showing." — Indiana

Several times a day, people thank me for helping them better understand their health concerns. But I cannot take the credit. My confession is that I have never healed anyone of anything. What I do is help identify areas where the body may be lacking what it needs. When those needs are addressed, the body often works to restore its own balance, in the manner God intended. It really is that simple.

Helping people understand their lab work can be challenging at times, because there are many voices offering advice. Some of what is shared can be confusing or poorly supported. What guides this work instead is careful attention to established research and a focus on helping the body function as God designed it to.

I often remind people not to let small concerns become larger ones. Minor imbalances, when ignored, can grow into greater difficulties. This is where nutrient deficiency concepts come in. By carefully reviewing blood and lab information, these concepts help explain how the body is functioning and what it may be lacking. This approach is grounded in research that has been developed and refined over many years.

An opportunity to better understand your health. It should be affordable and reasonable to correct your health. Most families already spend money trying to understand what's wrong. This provides a clear, educational way to do so.

A printed guide to understanding blood tests is available for \$9.99 plus \$3.99 shipping and handling. This guide explains common blood tests, what the numbers generally mean, why tests are ordered, and why results can be considered normal while not feeling right. It is offered at printing and mailing cost for educational purposes.

A personal lab review is available for \$79.99. Individuals may mail in blood work and receive a written explanation of their own lab values in plain language. This option does not include nutrient or product references. Many families choose this option.

For those who want additional educational context, a lab review with nutrient education is available for \$179.99. This includes a written lab review, educational information about nutrients the body commonly uses, and a scheduled thirty-minute time to review the report and ask questions. There are no diagnoses, treatment claims, or pressure to purchase anything.

For those who prefer everything handled from the beginning, labs can be ordered and fully reviewed for \$549.99. This includes lab ordering, written explanation of results, educational nutrient pathway information, and scheduled time to review the report. My phone number is: **(816) 547-0807** You can call or write to me to learn more.

My hours are Monday-Thursday 9am -6pm.

We can help you. Thank you. God Bless -- Rich Prather, D.C.  
P.S. Interpreting lab information involves more than reading and sharing advice. Proper understanding comes from experience, careful study, and access to reliable, up to date information, modern testing methods, and using technology to review lab data accurately. This helps ensure decisions are made responsibly and with clarity.

P.P.S. If you would like a second opinion or simply want help understanding your lab work more clearly, you are welcome to contact me.

Dear Friend.

If you have a health problem -- and can't get well, there could be a very good reason. Worms and parasites!

It sounds hard to believe. I agree. But if you're alive and breathing -- you're at risk. You may not see these tiny creatures. But believe me -- they're there! While you sleep, they eat. Your food! Your nutrients!

Pet owners often have red worms.

Many eat the best natural foods and take the best supplements -- and never get well. Why is that? One reason is the worms and parasites take the best nutrients. YOU get the scraps -- the leftovers!

It's TIME to Clean House! Get rid of unwanted guests!

You can **stop** sleep breathing disruptions tonight.

*"I am well pleased with the Sleep Breathing Support. The nice part is I no longer have to use a CPAP machine. I am refreshed, rested and ready to go when I wake up."*  
**Elva Chupp**

**Crafted with a bouquet of natural herbs.**

Lobelia, used in small doses, can increase the level of respiration. Because the lobelia causes you to breathe more deeply and steadily, it keeps the whole disruptive cycle from even beginning.

Thyme improves the ability of the lungs to exchange carbon dioxide for oxygen and makes an excellent contribution to maintaining sufficient respiratory amplitude.

Chamomile aids the subject in relaxing.

Cramp Bark helps the upper trapezius muscles to loosen.

Hi, I'm Steve Frank.

I have sleep-breathing disruptions at night. I spent years researching the condition and understanding the true cause. After many years, and with my knowledge of herbs, I found an amazing combination that supports deep, steady breathing all night long. This patented blend works great for nighttime sleep-breathing disruptions commonly associated with aging. I haven't worn any mask or tubes in years, and I sleep great. I hope you can too.  
**Sweet Dreams.**

**Replace your restless nights with Sleep Breathing Support™**

Sleep Breathing Support™ by Nature's Rite is a natural way to reduce sleep breathing disruptions and achieve a restful night.

30 Capsules ~~-\$45.99~~ \$36.79

Sleep related breathing disruptions ruin the sleep of an estimated 25 million Americans on a regular basis. Since sleep disruptions can disturb sleep without completely awakening the subject, there are likely millions more undiagnosed sufferers. The condition prevents the sleeper from entering rapid eye movement (REM) and delta sleep—causing them to become anxious, cantankerous and tired during the day. Additionally, due to the nature of the condition, it causes blood oxygen levels to be lower than normal for very prolonged periods of time. This is damaging to the brain and heart in particular.

Treatment options can include weight loss, nasal decongestants, surgery, and oral appliances. Devices, such as a continuous positive airway pressure (CPAP) machine, are commonly used for moderate and severe sleep breathing disruptions. A CPAP device is a forced air mask, worn during sleep that ensures proper inhalation. Experience has shown that 60 percent of patients are not able to tolerate the equipment and ultimately discontinue using it. Others develop respiratory infections from the mask. Sleep Breathing Support™ was designed to do what the above solutions can't address the real cause of the condition.

**The Cause**

When we enter stage two sleep in preparation for REM sleep, where dreaming occurs, muscular activity is inhibited. It is called "reduction of muscle tonus." This is a function that occurs primarily to keep the dreamer from physically acting out the movements of his or her dreams.

**If you want to know whether it will work for you, then you have to try it.**

It is accomplished by suppressing the flow of signals from the brain along the spinal cord. Unfortunately, in those who struggle with sleep breathing disruptions, the reduction in muscle tonus allows the soft palate to sag and the signal from the brain to the diaphragm that keeps you breathing gets inadvertently reduced in strength.

The result of this is that upon entering stage two sleep, the breathing becomes shallower, the blood oxygen level drops and the carbon dioxide level rises until the brain intervenes and causes the body to make a large and immediate inhalation. This causes a large pressure differential in the pharynx and literally sucks the sagging soft palate into the airway. This obstructs the flow and causes a loud snort, partially or fully awakening the subject.

**The Solution**

So you see, the problem is not the sagging soft palate. The problem is not the rapid inhalation that sucks your soft palate into the airway. The problem is the reduced ability of the signal from your brain to produce sufficient breathing amplitude from your diaphragm. The appropriate intervention is to enhance the ability of the brain to communicate with the diaphragm so that you breathe deeply and steadily throughout the night. **That is exactly what the combination of herbs in Sleep Breathing Support™ is intended to do.**

**ROUNDHOUSE**

Bushman's most comfortable harmonica. An unbeatable price/quality combination. Great for beginners due to comfort, great for pros due to price, durability, and responsiveness! The Roundhouse whips harmonicas from other brands that cost more than twice as much!!! Comes packed in a black, padded, leather-like, zipper case.

Keys: Low F, G, A, Bb, C, D, and E\* | **\$29.99**

**KNITTLINGER**

Accordion-like sound of the old Auto Valve only better feeling and much easier to play. Loud and lively, quick and nimble! Features a slick, go-fast mouthpiece. Good players were able to play faster than all previous double reed harmonicas could respond, but you can't outpace a Knittlinger - it goes as fast as any player can play it!

Keys: Low A, Low Bb, Low C, and Low D\* | **\$99.95**

**BLUES SHIFTER**

This is a diatonic harmonica - not a chromatic - that can play the missing note on Blow 3. Try playing "Amazing Grace" or "What a Friend We Have in Jesus" on a regular harmonica in the lower register - you can't, because there's a missing note on Blow 3. Many songs require that missing note, so they can't be played on a normal harmonica. With the Blues Shifter, when you need that note, just push in the slide button and you have it!

Keys: Low F, G, A, Bb, C, and D\* | **\$89.99**

**THE DELTA FROST COLLECTION**

The workhorses of the Bushman brand The Delta Frost comes in 3 different comb choices - Original (plastic), or you can get the Steeie (aluminum), or the Woody (wood). Delta Frosts are the preferred gig harmonica for many professional musicians. Traditional, old school design.

Original Keys: Low D, Low E, Low F, G, A, Bb, C, D, and E\* | Steeie and Woody Keys: Low F, G, A, Bb, C, D, and E\*

**\$29.99** | **\$44.99**

Quickly learn to play popular songs even if you don't know how to read music! This popular harmonica instruction book teaches the basics like how to hold the harmonica, and how to play single notes, and then it teaches more advanced skills like how to tongue block in order to Double Two Rattle, how to bend notes, and how to harmonize with others! It ends with the very important, rarely known topic, Harmonica Care & Maintenance Guide. That one section will save you many times the cost of the book!

**\$9.95**

**DINKY**

Our all new Bushman Dinky has a greater note range and ability to play more songs than any true, 1-1/2" mini harmonica ever made!!! The Dinky plays much better than the typical mini, and it's more comfortable. Here you get all 3 Keys for one low price! G (Yellow), A (Navy), and C (Black)

3 Pack: **\$14.99**

## Own Your Insurance Company. Keep More Money. Protect Your Legacy.

**Most businesses buy insurance.  
Some businesses own it.**

With captive insurance, your company insures its own risks and keeps the profit instead of sending it to big insurance companies.

That means:

- More protection for your business
- More control
- A new profit center
- Insurance company tax treatment

And a way to help keep your business strong for generations.

CIC Services has helped hundreds of small and mid-size businesses accomplish this since 2005.

CLOTHING BUNDLE PROJECT

# Relief after years of difficulty

Adnan\* and his family live in a one-room space in a shop in Yemen. Adnan hopes that one day he will be able to afford a home of his own, but his work as a day laborer does not provide a steady income. He said, "Some days there is work, and some days there is none. But my family still needs food, clothes, medicine, and other necessities."

At a recent distribution by CAM contacts, Adnan's family received clothing, shoes, and school supplies. These gifts brought relief after years of hardship. With gratitude Adnan's wife shared, "I pray that God protects and rewards everyone who showed kindness to our family."

*\*Name changed to protect identity.*

This young boy in Yemen is now the owner of a nice blue shirt given by a generous supporter.

Tree Secret® liquid tree fertilizer (formerly known as Save-A-Tree®) is a biologically correct (non-synthetic) tree fertilizer that has been created specifically for enhanced tree success. Our small-batch, extra-potent blend of readily available nutrients is exactly what your trees, plants, and bushes need to revitalize and look great for years to come. The competition does not come close!

- Nitrogen found in most chemical lawn fertilizer is largely responsible for the unnatural rapid growth that weakens trees by thinning their protective cell walls, opening the door for disease, wind damage and bug infestations.
- Plants and bushes need the same nutrition as slow-growing trees. Give your yard a serving of this ultra-potent undiluted, carbon-based fertilizer and watch in amazement as your trees thrive and your landscape transforms into a lush paradise.
- Excellent results on all trees and bushes, including evergreens!

64oz JUG  
**\$34.95**

### APPLICATION INSTRUCTIONS

The amount needed for best results depends on the diameter width of the tree trunk 4' up from the base of the tree.

- Use 1 cup per caliper inch of tree trunk (trunk diameter)
- Mix with water and evenly apply from the base of the tree to the drip line.
- Water into the root zone.

To SAVE a dying or stressed tree, apply in spring and fall.

To MAINTAIN good tree health, use one time per year in spring or fall.

Happy trees have fewer problems. This stuff works!

At Dr. JimZ®, our main goal is to help people eat more nutritious food and be more successful in the garden. Our nutrients are designed to stimulate life in the soil and provide a plethora of nutrients at a biological level. **The microbes in the soil must consume the nutrients before they are 100% bioavailable to the plant.** Our products feed the microbes so your plants can then decide what nutrients they need and when they need them ... this will maximize the genetic potential of the plant and result in higher-quality fruits and veggies.

## If you want better nutrition... you need to start with better soil

Biochar blends available for various farming needs, call for more information.

### WHAT IS BIOCHAR?

Our Biochar is steam activated carbon that is beneficial for our soils and animals

- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.

### WHAT IS THE BENEFIT TO YOU?

- Saves costs over high fertilizer year after year.
- Creates a healthier environment for you and your family.
- No dangerous side effects to humans, animals, or ecosystems.
- Puts more dollars in your pocket.

**50 lb Bag Granular \$150, last 5 horses/ 1 month. 50 lb bag pellets \$135 last 50 days/ a horse Pellets for picky eaters, with ulcers, driving horses, Stallions and mares.**

Dave Mast mare was open two years in a row, 30 days on Maximum Performance and she checked in foal with NO Regu-mate.

David Patterson bred for 30 years and always trouble foaling out, weak foals, trouble re-breeding. First season on MP, mare foaled easily, baby running in the stall, plenty of milk, mare cleaned quickly and checked in foal first time bred. Very impressed.

Indiana man had mare running off, cranky, picky eater, put her on pellets, 15 days daughter said, What did you do to the mare? She is so easy to handle, drives great, looks better. MP Pellets. oh my.

Lawrence Schrock, PA said he was one of the few with no OCD's in his yearlings at the sale, thanks Maximum Performance for sound bones, strong muscled yearlings.

Driving horses are under a lot of stress, many have ulcers, tendon issues, hoof problems. There are few minerals in your feed, and this supplement provides what they need to perform at their best, sweat less, warm up faster, reduce muscle soreness, and improve hoof quality and build muscle.

1. If you want to reduce ulcers, acid reflux and build muscle as well.
2. If you want to increase stamina and reduce recovery time, see a difference in 5 days..
3. If you want to calm your mares down, reduce tying up, anxiety and aggression.
4. If you want to enhance elasticity in tendons and ligaments and get nutrients to the hoof. May recover from injuries in half the time, soft tissue and bone.

### Maximum Performance for Breeders

1. If you want to reduce OCD's ( soft bone chips in ankles and hocks).
2. If you want to have mares at peak condition checked in foal.
3. If you want to improve development of your foals.
4. Vets explain OCD's are caused by mineral imbalance first 11 months in womb, not enough Calcium and minerals for the mare.
5. Stallions have better sperm count, maintain muscle mass, reduce OCD's and maintain hoof quality. **contact 502-817-1947**

## Were You Disappointed In Your Hunting Season?

1. Why would you spend a dime on another new bow or hunting blind, when it makes no difference in your hunting time?
3. Why would you buy more land when you have no plan, on how to have more deer on your land?
5. How about letting me show you how, to have so many deer you say, "oh my!WoW!"
6. Let's set up your land to be its best, so your hunting and fishing can be blessed.
7. All these small things can happen on as little as ten acres.
