COUNTER SALES

JOIN THE **BUCK RENTALS** TEAM!

Our **Counter Sales** pro is the voice of Buck Rentals — on the phone and at the counter. Every day, contractors, farmers, landscapers, and backyard DIYers come to us with a job to get done, and you'll be the one who makes it happen. We're not looking for a person to fill a seat. We're looking for a personality customers ask for by name!

WHAT YOU'LL ACTUALLY DO:

- Handle calls, walk-ups, and emails with customers
- Match each customer's project to the right machine
- Get every order and quote right, every time
- Turn a frustrated customer's day around

Are you a fit? Call us at (717) 629-6621 and let's find out together!

Editor's Note

Hello everyone!

After some nice sunny weather, we finally have some rain showers in the forecast for tomorrow morning. With the dry weather, the leaves had been staying on the trees a little longer and changing gradually to a bright yellow and orange. It makes beautiful and eye-catching background scenery for us every day. The children were raking leaves the last few days. They figured out how to make that a fun job by piling them up and jumping into the pile.

Mary and her lady friends went to Costco today to do some grocery shopping. When they came home, I didn't take time to do inventory. But now when it is bedtime, I found some ice cream sandwiches. It's always nice to have a roomy freezer, so I tasted a few. Well, I'd better get to bed before it's too late. If I don't watch myself, my better half will beat me up in the morning and let me lay.

Thank you for advertising in the Busy Beaver!

John Zook

MINISTERING TO CHRISTIANS IN PAKISTAN

At **Yeshua Is The Way** Ministries, we have partnered with local Christians in Pakistan - where there is a great need for spiritual and financial support from the global church body. In a country where Christians face discrimination, poverty and persecution, there is still a hunger for God. Men, women and children are responding to the Gospel! People are being healed from pain and disease! Families are being freed from bonded debt that traps generations in manual labor.

We welcome your financial support for our current and upcoming projects. Our heart is to continue blessing and ministering to these believers - and their neighbors - by hosting Prayer Festivals, providing Food Kits, financing medical care, and more!

Current Fundraising Needs Include:

- Family Food Kits - *rice, lentils, flour, oil, etc*
- Medical Care Support - *medications, doctor visits, surgeries & transportation*
- School Scholarships for Primary and Secondary Students
- Capital Campaign to purchase a Church Building
- Salary for Pastoral Staff in Pakistan
- General Ministry Expenses - *travel, administration, website*

Yeshua is the Way is a 501c3 non-profit organization based in Central Pennsylvania.

Our mission is to support persecuted Christians throughout the nations as a partner with local believers, and to share the Gospel with people worldwide.

DOES YOUR HORSE SHINE?

A simple guide to a horse's condition:

SKINNY

Very little flesh over the bones. Even a hard working horse should not look like this.

FAT

This horse is plum fat! The crest in the neck is hard. The tailhead is hard and puffy.

GOOD

THE HAPPIEST HORSE

A good layer of flesh over each rib - no ribs visible. The chest, neck and tail head are fluffy.

LESS MINERALS... more quality forages... it works!

Let's all pitch in and see if we can keep our hard working buggy horses nice and fit. Just like humans they love to work if they are exercised and well fed.

Looking for your milk bonus?

A farmer wrote to us saying how he lowered his cows SCC and his milk inspector is really pleased. This is what he did:

1. CMT every cow in the barn.
2. Mark all high quarters with a crayon.
3. Use Hornet Udder Tonic on those quarters once a day for 3 days.
4. Cover every quarter with Super Cow Udder Mint twice a day for 7 days.

The money he spent on his cows, he received back from the bonus!

1 bottle is enough for 4 quarters

OVB OHIO VALLEY BIOCHAR *There is a Better Way*

THERE IS A DIFFERENCE!

Activiated charcoal needs to be heated over 1250° to get rid of the impurities. Charcoal produced under 1250° is not the same. Also, the activation process should be done with water, not acid!

Now is the time to apply Ohio Valley BioChar to your fields and gardens!

WHAT IS BIOCHAR?

Our Biochar is steam activated carbon that is beneficial for our soils and animals

- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.

WHAT IS THE BENEFIT TO YOU?

- Saves costs over high fertilizer year after year.
- Creates a healthier environment for you and your family.
- No dangerous side effects to humans, animals, or ecosystems.
- Puts more dollars in your pocket.

Biochar blends available for various farming needs, call for more information.

BEAUTIFUL LAWN

Healthy enough to put in your salad.

While you probably won't put it in your salad your children will certainly play on it.
Rest easy knowing that your beautiful lawn is also beautifully healthy!

Why It Works Without Chemicals

- Organic formula
- Breaks compaction
- Unlocks minerals
- Activates microbials
- Creates beautiful lawns!

The Snowball Effect of Good Soil Health.
Biochar gives microbes a home, and they create organic matter that builds even more habitat. More habitat holds more water, so microbes stay healthy and keep feeding you lawn even thru dry spells.

YARDS & GARDEN

Our products add microbes back into the soil and help them thrive. When microbes thrive, so does your lawn, garden, and pasture!

CB SOLAR LLC

VERANCE
Energy Independence. Delivered

From CB Solar to
Verance Energy

Rebranding to Verance Energy captures the heart and passion of our team, and more accurately represents services beyond just solar. The name is rooted in truth (Veritas – Latin), relentless persistence (Perseverance), and true liberation from the grid (Deliverance).

Why the name is changing.

If you hear "CB Solar," you might think of solar panels on a roof. But that was never the end of the story. Often, our crew is doing full scale electrical work, getting permits, installing a heating and cooling unit in a cabin, or wiring a generator so it kicks in when needed. It's still the same team, but the work is more than just solar. Our dedicated team of 14 is excited to continue serving you under the name Verance Energy at our new location on Belmont rd!

Our services

- Off-grid solar & battery power systems
- Grid-tied solar systems
- Full electrical contracting & wiring (commercial and residential)
- Agricultural & chicken barn automation
- Automated backup generator (genset) integration
- Mini-split HVAC system installation

And More!

It was early November, and the woods were just starting to come alive with rut activity. I'd been scouting a funnel between bedding and feeding areas, and the sign was fresh. With the wind in my favor, I decided to try something I'd heard other hunters talking about – Buck Whiff.

I kept it simple. A few drops on a drag rag, and I walked a slow zigzag toward my stand. Passing an existing scrape I put a few squirts of Buck Whiff in it about 20 yards out, right where I expected movement. The scent was fresh—noticeably different from some of the bottled stuff I've tried in the past.

An hour or so after settling in, I caught movement. A decent buck stepped out, nose down, locked in on the trail I'd made. He paused at the scrape, visibly aggravated, and gave me the broadside shot I'd been waiting for.

What struck me was how naturally he reacted—paused, hair bristled, stiff legged walk – you know what I mean. He was ready for a going around with this new buck that had just intruded his territory.

I've learned that when you use a lure like Buck Whiff correctly—fresh, sparingly, and always with the wind in mind—it can tip the odds in your favor. It's not magic. But in the right moment, it's the edge that matters.

it could be your thyroid!

Real Patients. Real Results.

I was having thyroid problems for several years. I tried other supplements and products with little improvement. I saw the ad in the budget and decided to try it. Now after six months I have more energy, sleep better and have overall better health. I was always able to reach out to them. Great people, great program.
– Dan Stoltzfus, Pennsylvania

I can honestly say this program has helped more than about any other products with my tiredness and low energy. I can now do a full days work and even something else in the evening without feeling wiped out. By doing the blood tests they found exactly what was wrong, and what I needed. Thanks to god for the healing.
– Leah Miller, Ohio

I can get up in the morning and feel refreshed. I am completely off medication for high blood pressure. My menstrual cycles have come back to normal. lots of other things have improved that I didn't know were connected to my thyroid. Thanks so much!
– Kathyrn Yoder, Missouri

I had autoimmune thyroid disease, blood sugar problems and low vitamin d and iron. After being on their program I feel so much better! I actually feel like doing something instead of having to force myself. My depression is gone, I don't worry like I used to and I have lost 41 pounds. It's great to finally have energy again and enjoy being around people. I encourage anyone struggling to try them.
– Sue Albrecht, Michigan

I was put on Armour for an underactive thyroid and was taking it for a year. I was still not feeling well. Come to find out I didn't need to be on any medication to begin with. My hormones are now balanced and I feel better with no medication. It's nice to see and feel the results.
– S. King, Pennsylvania

THE TRUTH ABOUT Dr. Jeff

and Midwest Disc Clinic

Still looking for answers about neck or back pain that keeps coming back?

You've seen the ads. Now hear the story.

Before there was DOSAE®, Dr. Jeff had to admit something to himself: he needed to get better at treating disc injuries.

Hear him tell the story in his own words—what he set out to change, the work that followed, and why doing better for his patients became personal.

Dr. Jeff | Midwest Disc Clinic

WHAT YOU'LL HEAR

- Why he wants a diagnosis before care.

CELEBRATING JOHN, A FIVE-YEAR CANCER SURVIVOR

John Miller of Gap with Hyatt P. (Tracy) DeGreen III, DO

At age 54, John was enjoying life, spending time with his wife, family, and community, as well as fitting in his much-loved hobby of hunting, when he was diagnosed with Multiple Myeloma.

While his diagnosis and treatment plan originated at a local hospital-based cancer center, John took the advice of one of his Plain Community friends to obtain a second opinion from Lancaster Cancer Center.

From the moment he entered, John and his wife felt that they were in the right place. "They made it very personal," said John. "Dr. DeGreen spent a lot of time with us, making sure our questions were answered and discussed treatment options that weren't brought to our attention at the other facility," he said. "Dr. DeGreen has a serious passion for taking care of his patients. My wife was also impressed by him, which helped put our entire family at ease."

John's treatment took place in the Center's Infusion Room, where comfortable seating is arranged in a communal setting. "The nurses and other patients can share and are not afraid to discuss faith, which was important to me. They made my weekly cancer treatments something I looked forward to," said John. "I definitely recommend Lancaster Cancer Center without hesitation."

John is celebrating a one-year, cancer-free milestone after a five-year cancer journey.

If you were recently diagnosed with cancer and want a second opinion, call us. New patients and second opinions appointments are available within 24. Call **717.291.1313**.

CELLULAR ACTIVATOR

A closer look at oxidative stress

Did you know?

Every day, our cells face oxidative stress from many sources in the modern environment and lifestyle. Oxidative stress can reduce the cell's natural ability to stay balanced and function well.

What did the researchers study?

In a Cellular Activator lab study, researchers looked at markers of oxidative stress in cells after exposing them to five common stressors, with and without Cellular Activator.

The five stressors studied

The study examined five types of stressors that can create oxidative stress in cells:

1. **Microplastics**
   Tiny plastic particles that can be taken into cells. Example: microplastic fragments from packaging and everyday products.
2. **Air pollution**
   A mix of particles and chemicals in the air that can affect cells. Example: common urban air pollutants such as fine particles from vehicle emissions.
3. **Hormone-disrupting chemicals**
   Environmental chemicals that can interfere with hormone signaling and increase cellular stress. Example: BPA and similar everyday chemicals.
4. **Pesticides**
   Chemicals used to control pests that can add oxidative stress in cells. Example: widely used agricultural pesticides such as glyphosate.
5. **Diet-related stress**
   Cellular stress linked to components of a modern diet. Example: compounds from ultra-processed foods (e.g., advanced glycation end products, or AGEs).

The exciting finding

In the lab study, cells exposed to each of the five stressors showed lower markers of oxidative stress when Cellular Activator was added, compared with cells exposed to the stressor alone.

See the science in action

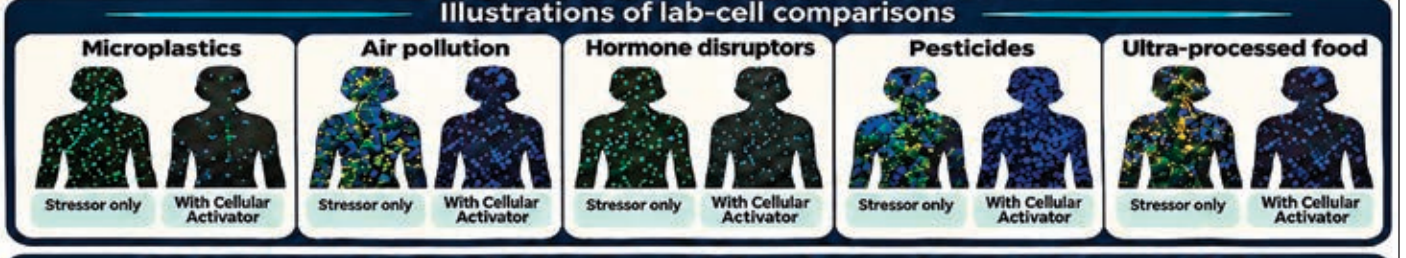
The charts below show side-by-side illustrations of lab cells for each stressor. The brighter, more numerous spots represent higher oxidative stress. With Cellular Activator, the images show fewer and dimmer spots across all five stressors.

A picture can help tell the story

The visual comparison makes it easier to see the difference Cellular Activator made in lab cells under oxidative stress.

Lab research limitations: This was a lab-cell study, not a human clinical trial. The results show effects in cells under controlled lab conditions, and it is not known if the same effects would occur in people.

Illustrations of lab-cell comparisons



The before and after images speak for themselves, don't you think?

"Lions Mane Talk"

From Our Family Farm to Your Morning Table

Our Lion's Mane Mushroom Coffee is a rich dark-roast Arabica. It tastes like the honest coffee you already brew, because that's what it is. Each cup holds more than 1,700 milligrams of Lion's Mane, about four times what the leading brands average.

Lion's Mane is a culinary mushroom that supports focus and clarity and helps keep the mind healthy and active. IT can also help reduce inflammation in the body and brain. A cup in the morning can help you keep a clear head for the chores, the shop, the kitchen and the field. You don't have to learn a new habit or acquire a new taste. Just brew it the way you always have.

If you'd rather not take it in a cup, our Lion's Mane Capsules give you 500 milligrams of pure fruiting body in every serving. No mycelium grown on grain and no fillers. You get one mushroom in a clear amount, so you know exactly what you're taking each day.

Every one of our mushrooms is grown in a ½ mile long tunnel at the top of the Appalachian Mountains, and an outside laboratory tests every batch. You get plain, honest food that's grown with care, labeled truthfully and made to be shared at the family table.

Call today and try a bag at your own kitchen table. Ask about the capsules for anyone in your household facing long workdays. Tell a neighbor, too, because good things are meant to be shared.

Call now to place your order. You'll be happy you did!

ARE YOU GROWING?

7 BENEFITS OF USING THE HIGHER GROUND JOURNAL:

- ✓ Build your Bible knowledge—one verse at a time. Strengthen your mind with God's Word. Also, writing something down is considered the best way to absorb and retain new information.
- ✓ Develop empathy by interceding for others and their situations.
- ✓ Create a prayer record, showing you how God has worked in the past, encouraging perseverance in ongoing prayers. Thanking God for answered prayers or the changing of your will is now easier.
  Oh that men would praise the Lord for his goodness, and for his wonderful works to the children of men! Psalm 107:21
- ✓ Inspire intentional and consistent devotional disciplines.
- ✓ Cultivate awareness of thought accountability.
  "Our thoughts have power. They guide how we feel, how we experience the world, and how we connect with others. What you focus on expands—and research on neuroplasticity shows that our thoughts actually reshape our brain." - (Greater Good Science Center)
- ✓ Redirect your focus to things above, things that are good, lessons that you've learned, and the deeper meaning of life.
- ✓ Develop a stronger relationship with God through thanksgiving. This is known to improve your mood and well-being, develop mental clarity, and enhance your ability to handle stress.
  Enter into his gates with thanksgiving, and into his courts with praise: be thankful unto him, and bless his name. Psalm 100:4

Do you celebrate and examine each day's progress?

A daily companion for your spiritual walk. This unique journal guides you through a full year of intentional living—record your Scripture verse, prayer requests, personal growth, thankfulness, and the day's blessings. Thoughtfully crafted with a matching slipcase for privacy and elegance, and with a high-quality pen so you can begin your journey right away. Whether for personal use or as a meaningful gift, this journal helps you rise above the ordinary and reflect on what truly matters. ***Makes a great gift!***

TOO BUSY IN YOUR BUSINESS TO WORK ON IT?

Between the orders, the deliveries, and keeping the ledgers up by hand, there's rarely a quiet moment left to step back and ask the bigger questions: Which jobs are actually making money? Where is the cash really going? What should next season look like?

That's the part we help with.

HOW IT WORKS

- We do your bookkeeping and accounting — start to finish.
- Full CFO services: cash flow, budgeting, and planning for growth.
- Onsite visits — we come to you.
- We'll take your paper sheets and build spreadsheets for bonus and commission structures, and any other custom spreadsheets you need.
- No computer, email, or software needed on your end.
- You get straight numbers to make better decisions for the business.

GET YOUR YEAR-END NUMBERS IN ORDER

The year is almost over — let's close it out right.

- Clean year-end books: profit & loss, balance sheet, and cash summary
- Everything organized and ready to hand to your tax preparer
- See how this year stacked up against last year
- A clear starting point for planning next season
- Bring us your books early — the sooner we start, the smoother tax time goes

You work IN the business. We help you see it.

Der Phone Buch

The information that we have been given has been compiled and is heading to the publisher the first week of December. If you have changes to be made or would not like your number to be listed in the Phone Book, please call the number below by November 30. This book is not a church directory, it is a phone book listing the names and home phone numbers in alphabetical order by last name.

All proceeds that are being raised from selling this first printing/edition of books will be donated to therapy riding facilities in the communities that have contributed to making it possible. *this does not include retail store's markup or the business listings.

If you wish not to share your home phone number, please call in to make sure it has not been submitted by someone else without your consent. Or call to submit only your number. This book is only for listing the Amish of Lancaster County and Daughter settlements. No digital copy will at any point be available, and full copyright coverage is being set up to ensure that nothing will be put into digital form.

ZeLand: A Safe Home Starts Here

Short-term, toxin-conscious housing for people living with MCAS.

Mast Cell Activation Syndrome (MCAS) causes extreme sensitivity to everyday exposures—like mold, pollen, smoke, cleaning products, detergents, and even a loved one's perfume.

For many, standard homes can trigger serious reactions due to hidden chemicals in building materials and finishes.

ZeLand is raising funds to design and build safe, thoughtfully constructed tiny homes—created specifically to minimize these triggers and provide a place to heal.

Our goal is to offer short to medium-term housing—giving individuals a safe place to recover while they rebuild their own home or secure other suitable living arrangements.

Help provide a safe place to heal and transition.

SPREADING TRUTH with godly literature

A channel enabling the church to minister to physical and spiritual needs around the world

Christian Aid MINISTRIES

"What can I say more than that people should read [the *Seed of Truth*] totally and then live what is written there," Viorica, a widow in Romania, told CAM staff members enthusiastically. "When I get the magazine, I don't put it down until I have read everything. If it comes at 12:00, by 6:00 [in the evening] I have read the entire magazine." Viorica grew up in a non-Christian home, but while cleaning, she found part of the book of Revelation and read it. She learned the way of salvation through it.

A lady from Nicaragua shared, "I have a 7-year-old son who has fallen in love with every part of the [*Torch of Truth*]. He sincerely wants me to read him more content similar to this which he loves."

Thank you, supporters, for helping to spread truth with Bible-based reading material!

Viorica

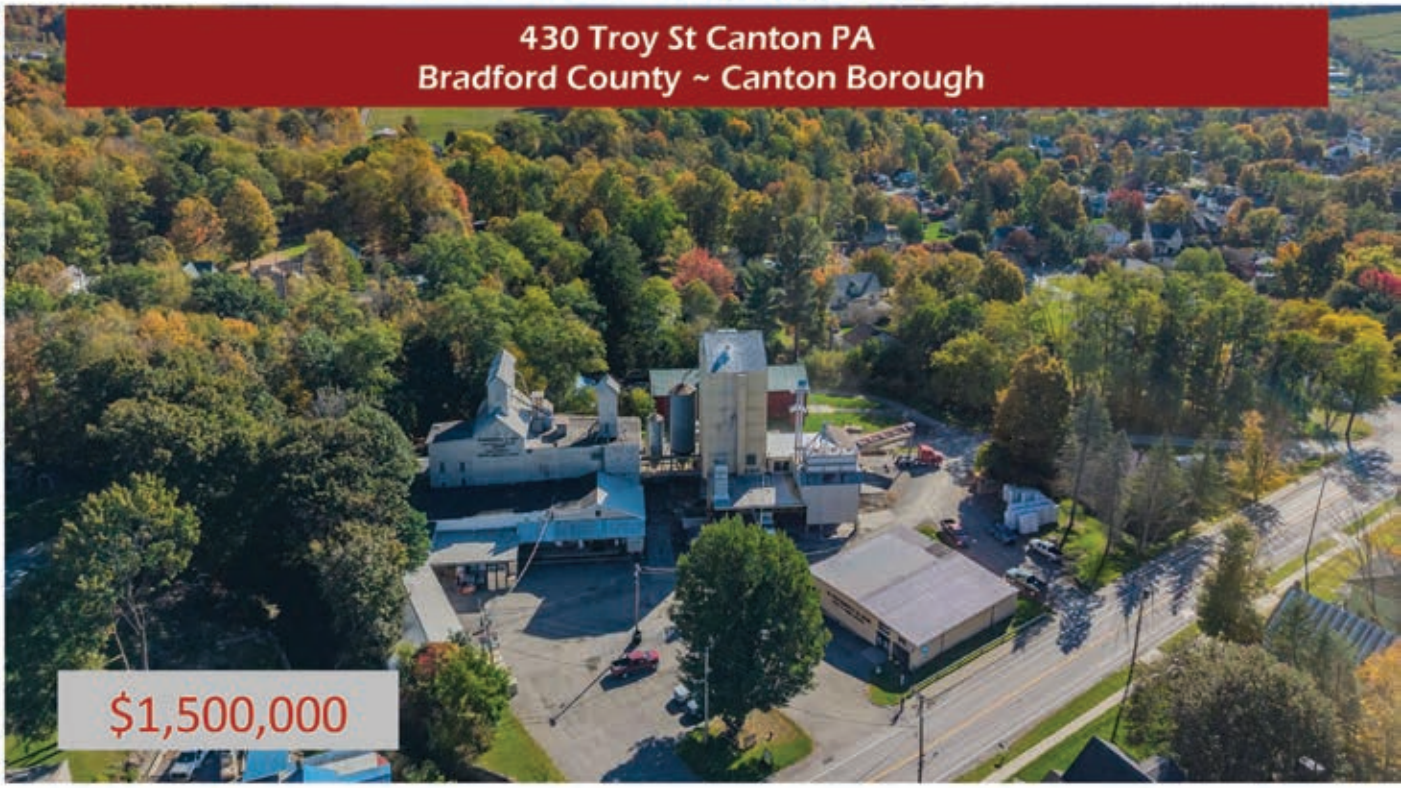
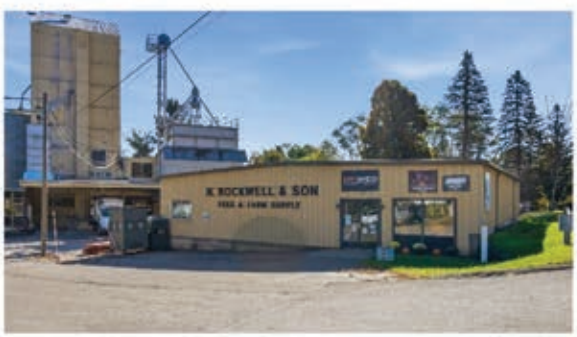
Commercial property



Great opportunity to purchase a longstanding pillar of the community & successful ag feed business, H. Rockwell & Son mills and farm supply store. There are 2 mills on site that are both currently operating totaling roughly 21,000 sq ft. The mill makes and delivers bulk and bagged quality dairy, beef equine, swine, wildlife, & poultry feeds to a five-county area, as well as providing custom mix-based nutrition services to dairy and beef producers. The mixer has a 4000 lb. capacity and produces around 3100 ton a year of mostly custom mixed bagged feed with a 3-man crew working part-time. The bulk mill runs with a 1–2-man crew and uses a hammer mill, roller mill, (2) 5000 lb. horizontal mixers and a molasses blender. The bulk mill can produce 100 ton of finished feed in a 10-hour shift and could produce bagged feed as well. Also included is a 3600 sq ft farm supply store, and 3400 sq ft extra warehouse storage. This listing is for the real estate only. Trucks and other equipment as well as inventory can be negotiated separately.



Call Matt Bergey for more information.

188.89-ACRE HISTORIC FARM

BORDERING THE MASON-DIXON LINE IN ELLERSLIE, MD.

Asking Price: $950,000 – Features a 1,976 sq. ft. wood frame farmhouse with 4 bedrooms, 2 bathrooms, and a first-floor primary suite, along with a large barn, insulated detached 2-car garage, and multiple streams throughout the property that help keep the hand-dug wells replenished throughout the year. The farmhouse is fully functional and livable but is being sold as-is, offering excellent potential for updates. The primary bedroom has been completely remodeled, and the home retains its original hardwood floors. Recent improvements include new roofs on both the house and barn, a new electrical service panel in house and barn, a reverse osmosis drinking water filtration system, a whole-home water softener and UV filtration system, new ag well and hydrants, and a bridge providing easy livestock and heavy equipment access across the creek. The property also includes a 72' × 32' high tunnel, a large garden area, approximately 10 fruit trees, a 20-foot poultry coop, and two historic hand-dug wells used for agricultural purposes and great for a turnkey farm operation. With marketable timber, approximately 20 acres of tillable ground, abundant deer and turkey, and one fenced field, this property is ideal for livestock, farming, hunting, or recreation. We are currently under an annual crop damage permit which would allow new owners to apply, and hunt antlerless deer all year. This unique property has an original Mason-Dixon boundary monument dating to the 1760s, restored in the 1920s, and is located on the property, adding a rare piece of American history. Most furnishings may convey with the sale at the buyer's request, with the exception of the cooking stove. We are looking to go under contract as soon as possible, ideally no later than early spring. Serious inquiries only, please. This property is being offered for sale by the owner. We are not interested in realtor representation or auction.
