Editor's Corner

Hello everyone,

"Every sunrise is a blessing. Use it wisely before sunset." I hope everyone got to see the beautiful sunrise and rainbow last week. It reminded me: God never promised a life without storms, But He promised His presence through them. Lawn mowing and outdoor work is coming to an end. I still have some leaves that need to be cleaned up. Wishing you a cozy, blessed, and joyful November season!

Thank you for supporting the Busy Beaver!

Have a good day!
Ruby Yoder

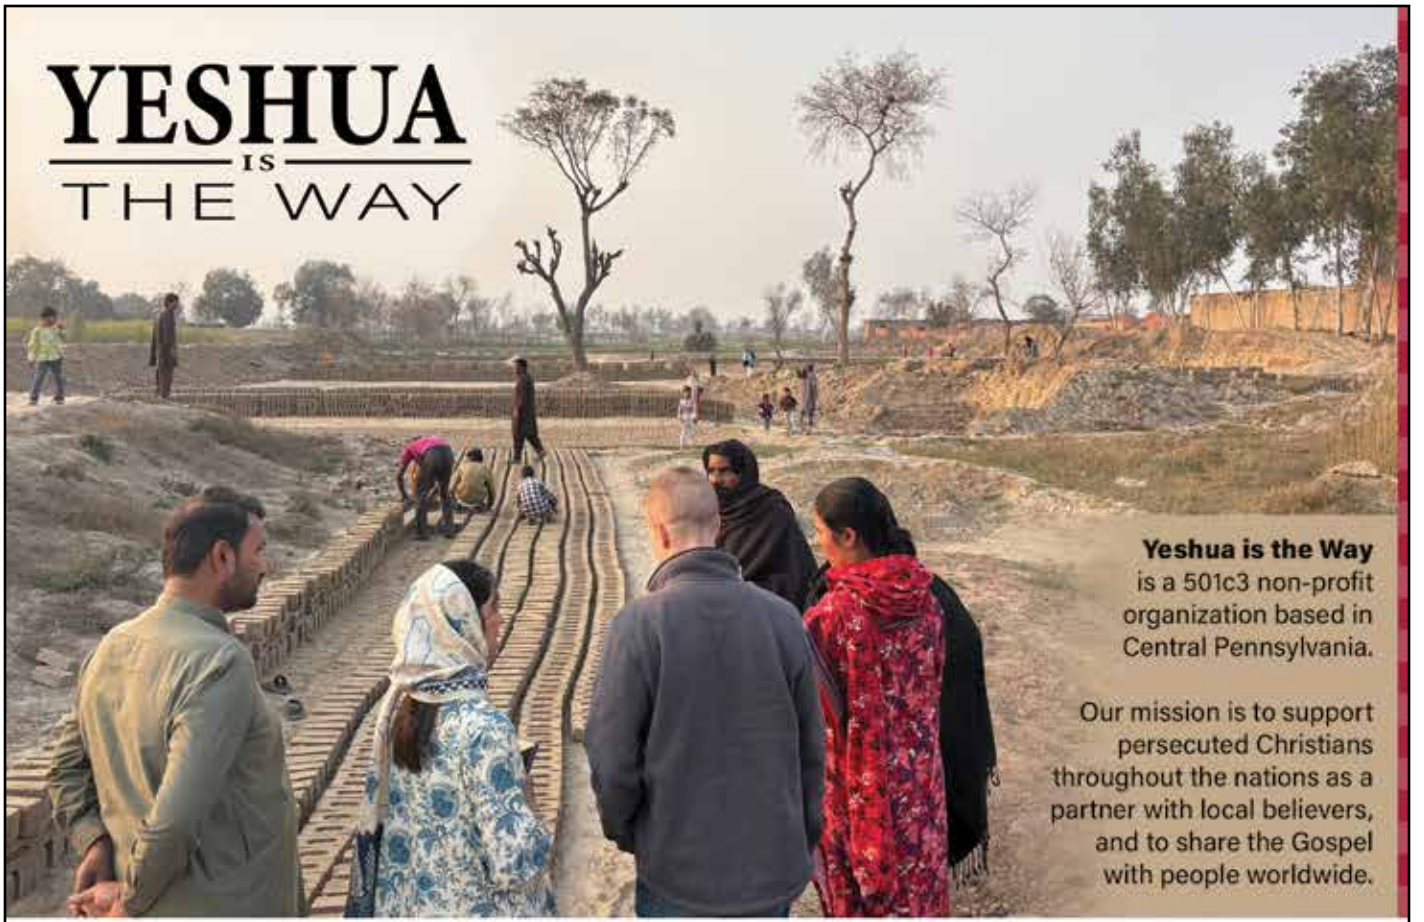
YESHUA IS THE WAY



Yeshua is the Way is a 501c3 non-profit organization based in Central Pennsylvania.

Our mission is to support persecuted Christians throughout the nations as a partner with local believers, and to share the Gospel with people worldwide.

At **Yeshua Is The Way** Ministries, we have partnered with local Christians in Pakistan - where there is a great need for spiritual and financial support from the global church body. In a country where Christians face discrimination, poverty and persecution, there is still a hunger for God. Men, women and children are responding to the Gospel! People are being healed from pain and disease! Families are being freed from bonded debt that traps generations in manual labor.

We welcome your financial support for our current and upcoming projects. Our heart is to continue blessing and ministering to these believers and their neighbors by hosting Prayer Festivals, providing Food Kits, financing medical care, and more!

Current Fundraising Needs Include:

- Food Kits and Medical Care Support
- Capital Campaign to purchase a Church Building
- Salary for Pastoral Staff in Pakistan
- General Ministry Expenses *(travel, administration, maintain website)*

Maximum Performance Horse Supplement

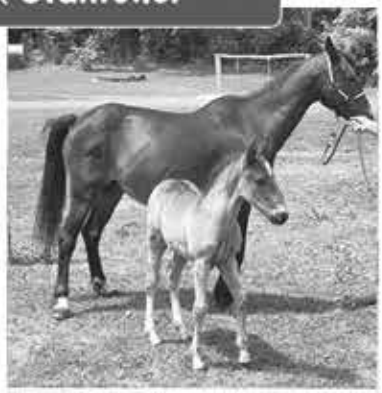
Pellets for Horses that are Picky Eaters or Have Ulcers. Also Great for Driving Horses & Stallions!

Mr Millers colt that jumped up and ran around and jumped over the mare.

Hay and grains have fewer minerals today. You really need to supplement for peak performance and breeding nutrition.

50 lb bag-granular, $150
lasts five horses—1 month!

50 lb bag-pellets, $135
lasts one horse—50 days!



22 year old mare, caught in foal after being baron for 6 years

Mr Schwartz's mare was running off with his girls, biting them, he knew she had an ulcer, 15 days on the pellets, she is so calm, warms up nicely, goes longer, stronger and cools down faster. Wow, he was so excited, he wants to breed her, instead of giving her away.

Mr Miller says he had never had stronger colts, jump up right out of the bag, run around the stall and jump over the mare, before she got up. His best year breeding, mares strong after foaling, strong babies, plenty of milk. It was a dream foaling season. He will keep his mares on mp while in foal and after.

Mr Yoder had tried to breed his favorite mare for 12 years, after 30 days on MP she checked in foal. He is so excited.

Mr Yoder bought a mare they said was lame, could only be bred. He put her on mp and 15 days, she was bucking coming out of the barn. He hooked her to the cart and off she went straight down the road. He called and wanted to be a dealer. He said," Anyone with a driving horse needs MP. This is the greatest stuff for driving horses!"

Driving horses are under a lot of stress, many have ulcers, tendon issues, hoof problems. There are few minerals in our feed, and this supplement provides what they need to perform at their best, sweat less, warm up faster, cool down faster, and improve hoof quality.

1. **If you want to reduce ulcers.**
2. **If you want to increase stamina and reduce recovery time—may see a difference in 5 days!**
3. **If you want to increase oxygen for better stamina and improve oxygen to the cells for driving and work horses performance.**
4. **If you want to calm your mares down, reduce tying up, and anxiety.**
5. **If you want to enhance elasticity in tendons and ligaments and get nutrients to the hoof. May recover from injuries in half the time, soft tissue and bone.**

Learn How to Maximize Breeding!

1. **If you want to reduce OCDs, improve fertility.**
2. **If you want to have mares at peak condition ready to be checked in-foal, calm mares down as well.**
3. **If you want to improve development of your foals, strong when born, boost immune system, strong bones.**
4. **Vets explain OCDs are caused by mineral imbalance while mare is in foal.**
5. **First 11 months gestation—not enough calcium and minerals causes bone chips, OCD's.**
6. **Stallions have better sperm count, maintain muscle mass, and maintain hoof quality during breeding season and year round.**

HOGIE'S WOUND SPRAY

AMAZING RESULTS IN JUST A FEW WEEKS!

TESTIMONIES:

· *Tried most wound sprays on the market and the hogie's wound spray tops it all. Easy, awesome results, a must have type of product!*

· *Our yearling colt got hooked on the gate latch ripping a chunk of flesh out and a huge flap of skin hanging. We used hogie's every morning and night and in 2 weeks it was healed shut, 4 weeks the hair had grown back and in 6 weeks there wasn't even a scar. We would not do without hogie in our barn!*

· *Our mare came in out of the pasture with a huge gouge on the top of her head with skin hanging down over her eye. We sprayed it with hogie's and in 4 weeks you couldnt tell anything had happened.*

· *I could not do without hogie's it works faster then anything on the market. usually not leaving a scar! Best part is you never have to wrap the wound.just spray it on.*

OHIO VALLEY BIOCHAR
There is a Better Way

Now is the time to apply Ohio Valley BioChar to your fields and gardens!

If you want better nutrition.... you need to start with better soil

WHAT IS BIOCHAR?

Our Biochar is steam activated carbon that is beneficial for our soils and animals

- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.

THERE IS A DIFFERENCE!

Activiated charcoal needs to be heated over 1250° to get rid of the impurities. Charcoal produced under 1250° is not the same. Also, the activation process should be done with water, not acid!

WHAT IS THE BENEFIT TO YOU?

- Saves costs over high fertilizer year after year.
- Creates a healthier environment for you and your family.
- No dangerous side effects to humans, animals, or ecosystems.
- Puts more dollars in your pocket.

Biochar blends available for various farming needs, call for more information.

PREMIUM HARDWOOD Lump Charcoal

$26.95

It was early November, and the woods were just starting to come alive with rut activity. I'd been scouting a funnel between bedding and feeding areas, and the sign was fresh. With the wind in my favor, I decided to try something I'd heard other hunters talking about – Buck Whiff.

I kept it simple. A few drops on a drag rag, and I walked a slow zigzag toward my stand. Passing an existing scrape I put a few squirts of Buck Whiff in it about 20 yards out, right where I expected movement. The scent was fresh—noticeably different from some of the bottled stuff I've tried in the past.

An hour or so after settling in, I caught movement. A decent buck stepped out, nose down, locked in on the trail I'd made. He paused at the scrape, visibly aggravated, and gave me the broadside shot I'd been waiting for.

What struck me was how naturally he reacted—paused, hair bristled, stiff legged walk – you know what I mean. He was ready for a going around with this new buck that had just intruded his territory.

I've learned that when you use a lure like Buck Whiff correctly—fresh, sparingly, and always with the wind in mind—it can tip the odds in your favor. It's not magic. But in the right moment, it's the edge that matters.

I was having thyroid problems for several years. I tried other supplements and products with little improvement. I saw the ad in the budget and decided to try it. Now after six months I have more energy, sleep better and have overall better health. I was always able to reach out to them. Great people, great program.
– Dan Stoltzfus, Pennsylvania

I can honestly say this program has helped more than about any other products with my tiredness and low energy. I can now do a full days work and even something else in the evening without feeling wiped out. By doing the blood tests they found exactly what was wrong, and what I needed. Thanks to god for the healing.
– Leah Miller, Ohio

I can get up in the morning and feel refreshed. I am completely off medication for high blood pressure. My menstrual cycles have come back to normal. lots of other things have improved that I didn't know were connected to my thyroid. Thanks so much!
– Kathyrn Yoder, Missouri

I had autoimmune thyroid disease, blood sugar problems and low vitamin d and iron. After being on their program I feel so much better! I actually feel like doing something instead of having to force myself. My depression is gone, I don't worry like I used to and I have lost 41 pounds. It's great to finally have energy again and enjoy being around people. I encourage anyone struggling to try them.
– Sue Albrecht, Michigan

I've been dealing with Hashimoto's for years, I've been on strict diets, changed my medications many times, tried every supplement I was told to take, never felt completely well. Your products and approach has helped me the most. This is the best I've felt for years. Amazing, I've already told many people to call you.

ASK DR. NELSON:

WHY ARE MY ANKLES TURNING BROWN?

"I've noticed that the skin around my ankles is turning brown. Is this just a normal part of getting older?"

No. Although brown discoloration around the ankles can become more common as we age, it may actually be a sign of underlying vein disease.

Inside your leg veins are small valves that help keep blood moving upward toward your heart. When these valves become weak or stop working properly, blood can flow backward and collect in your lower legs. This is called venous reflux.

Over time, this increased pressure can cause tiny blood vessels to leak small amounts of blood into the surrounding tissue. As the blood cells break down, they release iron-containing pigment called hemosiderin. This pigment can leave behind a brown or rust-colored stain in the skin, especially around the ankles and lower legs.

What does vein-related skin discoloration look like?

You may notice:

- Brown, reddish-brown, or rust-colored patches around your ankles.
- Skin that looks darker than it used to.
- Discoloration that is more noticeable on the inside of the ankles.
- Dry, flaky, itchy, or irritated skin.
- Swelling around the ankles or lower legs.

These changes often develop gradually. Some people assume the discoloration is simply a bruise, dry skin, or a normal part of aging.

Why is this important?

Brown discoloration can be a sign that vein disease has been present for quite some time. If the underlying circulation problem continues, the skin can become inflamed, thickened, hardened, and more fragile. In advanced cases, wounds or ulcers can develop around the ankles that are difficult to heal.

The important thing to understand is that the skin may be showing signs of vein disease long before you experience significant pain.

Can anything be done?

Yes! A venous ultrasound can help determine whether faulty valves are allowing blood to flow backward and causing increased pressure in your legs.

Treatment depends on what the ultrasound shows and the condition of your skin. Options may include compression therapy and minimally invasive vein procedures to address unhealthy veins and reduce venous pressure.

The sooner we identify the underlying problem, the better the opportunity to protect your skin and prevent further damage.

Don't ignore brown spots around your ankles. They may be more than a cosmetic concern. They could be your body's way of telling you that your circulation needs attention.

Healthy legs are important for keeping you active, comfortable, and able to do the work that matters most.

PERSECUTED CHRISTIANS FUND

Enduring through persecution

In restricted countries around the world, persecution is steadily increasing, putting thousands of believers at risk of imprisonment.

Brother Hamza* who lives in a restricted country, was arrested and imprisoned for his faith in Christ. Our contacts faithfully supported Hamza's family as he faced the challenges of being separated from them. Assistance with shelter, food, and medical care reminded this family that they were not forgotten as they faced intense adversity. With this care, they were able to remain safely in their country and continue to participate in their church. As Hamza's brothers and sisters in the church observed his family's steadfast faith amidst persecution, they were encouraged to continue to walk faithfully with the Lord.

Pray for Hamza, his family, and other believers around the world who are facing ongoing persecution. Pray that believers could feel the presence of God and remain steadfast in their faith.

**To protect identity, we have changed the name.*

The ***Persecuted Christians Fund*** supports persecuted or oppressed pastors and Christian workers in restricted countries with financial support, food, clothing, medical needs, and other necessities.

LIFESTYLE

We believe the root cause of all dis-ease in the body comes from toxicity and deficiency. We believe the foundation of the body are cells, and our protocols focus on providing the body building blocks it can use to restore every cell in the body.

The most foundational component of every organ system and every part of your body is the cell and the structures within it. Your body is made up of over 30 trillion cells. Focusing on restoring your cells will move your body from a place of dis-ease to rest-oration. We do not focus on detoxing because we understand when the energy and structure is restored to the cells, your body will detox on its own at a pace that your system can handle.

Each Protocol will provide information and guidance on optimizing:

- Diet & Nutrition
- Supplementation
- Healthy Lifestyle
- Emotional Components

Get the support you need from people who genuinely want to see you restored.

We have helped people restore their bodies from the dis-ease's listed below and much more:

- Lyme Disease
- Mold Exposure
- Heavy Metal Poisoning
- POTS
- Parkinson's
- High Blood Pressure

- Low Immune

"Lions Mane Talk"

A Better Morning Begins in the Mountains!

Good mornings begin with good choices! At Mushroom Maiden Farm, we bring you two wonderful ways to make Lion's Mane mushrooms part of your daily routine: our rich, delicious Lion's Mane coffee and our convenient Lion's Mane capsules. Together, they make a simple morning combination you can feel good about!

Our mushrooms are grown in a remarkable half-mile-long tunnel high atop the Appalachian Mountains, surrounded by exceptionally clean mountain air. We use 100% fruiting bodies. This is the actual mushroom, not grain-filled mycelium or fillers. Why does that matter? The fruiting body contains naturally occurring compounds that make Lion's Mane such a special mushroom. We believe you deserve the real thing!

Our coffee starts with premium Arabica beans, blended with Lion's Mane for a wonderfully rich, full-bodied coffee taste. And here's something special: every 28-serving bag contains more than **48,000 mg of Appalachian-grown Lion's Mane—that's well over 1,600 mg in every cup!** It's real ground coffee, not an instant substitute, with a smooth finish and no bitter aftertaste. Add our capsules to your morning routine for an easy way to enjoy Lion's Mane throughout your day.

As a multi-generational, woman-owned family business, we're proud to stand behind everything we grow and make.

Ready to make your mornings better? Discover the difference. Try our coffee, add our capsules, and bring a little Appalachian goodness to your morning!

The PraiseBird Story

A lifelong love of music and dreams as big as the sky...

My journey with harmonicas began when I was nine years old. I made a deal with my parents that if I went an entire year without eating candy, they would buy me a harmonica. That arrangement continued for several years, allowing me to own a few $80 Auto Valves—harmonicas I could otherwise only have dreamed of buying. Those instruments sparked a lifelong interest in harmonicas and music.

In 2020, I began a small side business, Chords of Praise Music, selling guitars, keyboards, and harmonicas. What started as a hobby gradually became something more. My parents allowed me to build a 10-by-14-foot room inside our carriage garage, and that tiny space served as my store for the next five years. Little by little, I added inventory and built a loyal customer base. Eventually, it seemed as though there were more instruments outside the store than inside and in 2025, I purchased a large shed, finished the interior myself and officially opened the new store in December of that year.

From the beginning, my approach has always been to help each customer get the best instrument possible for their money. Rather than automatically recommending the most familiar name, I have always enjoyed searching for overlooked gems—brands and instruments that deliver exceptional quality without the premium price. I often look at it this way: if someone has $90 to spend on a harmonica, which instrument will give that person the best possible playing experience for $90? "You get what you pay for" is generally true, but not always. A higher price or more recognizable name does not necessarily guarantee a better instrument. Over the years, I discovered that some lesser-known harmonicas could match—or even surpass—the playability, sound, and workmanship of considerably more expensive models.

That discovery eventually led to Praisebird Harmonicas.

After years of experience with instruments produced by a trusted manufacturing partner, I contacted the manufacturer directly in 2026. Together, we began developing Praisebird harmonicas using my own ideas, specifications, and design improvements, supported by their manufacturing experience. Working directly with the manufacturer gives me greater control over the details that matter, from design and playability to quality and pricing. The goal is not simply to make a new brand of harmonicas. It is to create a brand that gives harmonica players a nicer harmonica, better value, and the best possible customer experience.

Praisebird is based in Lancaster County, Pennsylvania, but at this time, my best option was to have them manufactured overseas in China. I don't know if it will ever happen but my long-term dream is to grow to the point that it would be possible to assemble or manufacture Praisebird harmonicas right here in Lancaster County. But for today I want to focus on building Praisebird into a brand that is closely connected to the people who play our instruments.

PraiseBird was founded on a lifelong love of harmonicas and music. My dream is to build a brand that truly is built by harmonica players, for harmonica players.

When you purchase a PraiseBird Founder's Edition harmonica, you help that dream grow. When you share your experience and honest feedback, you help shape what comes next. Together, we can build something special—and give your music wings.

Thank you for loving music!

About Me

My name is Samuel Beiler, and my wife, Linda and I live on a farm in Lancaster, just five miles south of Intercourse. A few things we love are: singing, teaching music, growing our own food, and caring for our animals. What began with a horse, five sheep, and a milk cow has grown to include four cows, a donkey, thirty sheep, pigs, chickens, and ducks.

My sheep are the ones that get the most love, and it isn't unusual for me to ask someone visiting my store if they'd like to meet the newborn lambs. Yes, my sheep know my voice—and also the sound of my harmonica. One of my favorite ways to relax is to sit among them, sharing some music and a few cuddles.

Music has always been a passion of mine, and one of my greatest joys is sharing that gift with the world around me. So whether you're singing around the table with your family, playing harmonica with your friends, or sitting in a quiet little pasture with the sheep, may there be a song of praise on your lips and that peace that passes all understanding in your heart.

How do weighted blankets work?

Science shows that sleeping under weight improves sleep quality, lowers stress, and eases anxiety – and when those things are better, everything's better!

Here's a breakdown of the science that lies underneath our cozy and calming Nappers:

- **Activates the effects of Deep Touch Pressure (DTP)**
  - Increases serotonin (Feel Good Chemical) to make you feel happier and more content
  - Increases melatonin (Sleep Hormone) to lull you into blissful slumber
  - Decreases cortisol (Stress Hormone) to help reduce anxiety and stress
- **Mimics the effects of 'grounding' or 'earthing'**
- **Mimics the sensation of a warm hug**

There are approx. 23 acres tillable, approx. 15 acres wooded, approx. 2 acres pasture, pond, and large area that is mowed, and a nice camping area. The land is nice rolling terrain. We have harvested lots of deer, including a nice trophy buck. We have mature bucks on our property every year. In 2025 a 175" buck was harvested by the neighbor. This buck was seen on our property quite often. There is plenty of wildlife: deer, turkey, squirrels, and rabbits. We have enjoyed this property greatly, and are now offering it to you to enjoy for many years to come.
