Editor's Corner

Hello everyone,

"October fades into memories; November begins in stillness." This November, let gratitude fill your heart with warmth, even on the coldest days. It's another beautiful morning here in Charm, Ohio. It takes some extra bundling up to bike to work these mornings, along with an extra large cup coffee to keep you warm. 😊 I am biking with 5 of my friends to Mt. Vernon this weekend. We are hoping for nice weather and some nice scenery yet.

Wishing you all peace, love and happiness for the new month ahead!
Ruby Yoder

Life is like a cup of coffee.

PERSECUTED CHRISTIANS FUND

Enduring through persecution

In restricted countries around the world, persecution is steadily increasing, putting thousands of believers at risk of imprisonment.

Brother Hamza* who lives in a restricted country, was arrested and imprisoned for his faith in Christ. Our contacts faithfully supported Hamza's family as he faced the challenges of being separated from them. Assistance with shelter, food, and medical care reminded this family that they were not forgotten as they faced intense adversity. With this care, they were able to remain safely in their country and continue to participate in their church. As Hamza's brothers and sisters in the church observed his family's steadfast faith amidst persecution, they were encouraged to continue to walk faithfully with the Lord.

Pray for Hamza, his family, and other believers around the world who are facing ongoing persecution. Pray that believers could feel the presence of God and remain steadfast in their faith.

**To protect identity, we have changed the name.*

The ***Persecuted Christians Fund*** supports persecuted or oppressed pastors and Christian workers in restricted countries with financial support, food, clothing, medical needs, and other necessities.

We were sale prepping a 2 year old gelding and he just wasn't putting on any muscle and didn't have any stamina.

Started him on Lions 6-Way and within a week he was bubbling with energy and started putting on muscle like never before.

Before Lions 6-Way we were doing 2 to 3 miles trips, after Lions 6-Way we had to drive 6 to 7 miles just to wear him down!!!

Fantastic product!!! Would recommend to anyone, especially trainers and sale preppers.

Joseph Graber, Die Kurier.

It was early November, and the woods were just starting to come alive with rut activity. I'd been scouting a funnel between bedding and feeding areas, and the sign was fresh. With the wind in my favor, I decided to try something I'd heard other hunters talking about – Buck Whiff.

I kept it simple. A few drops on a drag rag, and I walked a slow zigzag toward my stand. Passing an existing scrape I put a few squirts of Buck Whiff in it about 20 yards out, right where I expected movement. The scent was fresh—noticeably different from some of the bottled stuff I've tried in the past.

An hour or so after settling in, I caught movement. A decent buck stepped out, nose down, locked in on the trail I'd made. He paused at the scrape, visibly aggravated, and gave me the broadside shot I'd been waiting for.

What struck me was how naturally he reacted—paused, hair bristled, stiff legged walk – you know what I mean. He was ready for a going around with this new buck that had just intruded his territory.

I've learned that when you use a lure like Buck Whiff correctly—fresh, sparingly, and always with the wind in mind—it can tip the odds in your favor. It's not magic. But in the right moment, it's the edge that matters.

It's time to THINK SPRING

OVB
OHIO VALLEY BIOCHAR
There is a Better Way

Now is the time to apply Ohio Valley BioChar to your fields and gardens!

If you want better nutrition.... you need to start with better soil

WHAT IS BIOCHAR?

Our Biochar is steam activated carbon that is beneficial for our soils and animals

- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.

WHAT IS THE BENEFIT TO YOU?

- Saves costs over high fertilizer year after year.
- Creates a healthier environment for you and your family.
- No dangerous side effects to humans, animals, or ecosystems.
- Puts more dollars in your pocket.

Biochar blends available for various farming needs, call for more information.

Pressure Point Mat Set

Lay back, breathe deep, and let the tension melt away.

Studies have shown up to 40% improvement for, stress, muscle soreness, and sleep quality after regular use of the mat for 20–30 minutes before bed. Journal of Sleep Therapy 2015

$138 for the mat.
Add **$12** for shipping.

Unroll your pressure point mat and pillow on a flat surface and ease onto it slowly, allowing your body to adjust. The gentle pressure of over 4,000 pressure points works to stimulate circulation, release muscle tension, and support relaxation. Start with 10–15 minutes a day and gradually increase to 20–40 minutes as your body gets used to the sensation. Use daily or as needed to support deep rest, stress relief, and full-body rejuvenation.

I absolutely love this pressure point mat! It's become a part of my daily routine and helps me relax and unwind like nothing else. I've even gifted it to friends, and they're obsessed with it too. Highly recommend for anyone looking to relieve tension and feel amazing! – *WTHN Client*

"Lions Mane Talk"

At Mushroom Maiden Farm, we believe in the same enduring principles that guide our communities: faith, family, stewardship of the land, and honest work done well. In a world that often rushes toward shortcuts, we choose a simpler, more transparent path, growing and crafting our products with care, patience, and integrity.

Our mushrooms are cultivated high in the Appalachian Mountains, where clean air, pure water, and rich forest traditions shape their strength. Every batch is tested by an independent lab to ensure purity and quality. We use 100% fruiting bodies, the part of the mushroom where the most valuable nutrients are found, so you receive only the best of what nature provides.

Our Lion's Mane mushroom capsules are carefully prepared to support clarity and well-being, made without fillers or unnecessary additives. Alongside them, we offer two wholesome varieties of coffee, a smooth and robust dark Arabica bean, roasted for rich flavor and steady comfort and a dark Arabica bean Cinnamon Breakfast Roll coffee. To season your table, choose from four distinct mushroom enhanced salts. We offer a Wild Hickory Cold-Smoked Salt, Himalayan Pink, Sriracha, and Thai Ginger, each crafted to complement honest, home-cooked meals.

As a 100% woman-owned farm, we value humility, hard work, and transparency in every step, from growing to packaging. We are committed to straightforward practices and products you can trust for your home and family.

Simple ingredients. Careful hands. Honest quality. That is the Mushroom Maiden promise.

ECHINACEA PURPUREA

Each year a new patch of echinacea is established. Roots are harvested on a 3-year rotation allowing the roots to be mature and potent. Flowering tops and mature seed heads are also used, both of which are hand harvested in their respective timeframes during the season. After extraction, the three parts of the echinacea are combined and used in all our echinacea formulas and the singe extract of echinacea compound.

"WHY ARE THE VARICOSE VEINS IN ONE OF MY LEGS WORSE THAN THE OTHER?"

Why Is One Leg Worse Than the Other?

This is a common question, and the answer is that vein disease does not always affect both legs equally. You may have large, bulging veins in one leg while the other leg looks and feels relatively normal.

Inside your veins are small valves that help keep blood moving back toward your heart. When these valves stop working properly, blood can flow backward and collect in the legs. This is called venous reflux.
The valves in one leg may be weaker or damaged more than those in the other. You may also have differences in the veins themselves that make one leg more likely to develop problems.

Why might one leg be worse?

Several factors can contribute:

- Heredity: You may inherit a tendency to develop vein disease, but it may not affect both legs equally.
- Pregnancy and hormonal changes: These can increase pressure on the veins and contribute to vein problems.
- Previous blood clots: A past blood clot can damage the valves or obstruct blood flow in a leg.
- Differences in vein anatomy: The veins in one leg may be more prone to reflux or problems with blood returning toward the heart.
- Daily activities and other risk factors: Prolonged standing, age, and excess weight can contribute to vein disease.

Should I be concerned if only one leg has symptoms?

Not necessarily. One leg having more visible veins, aching, or swelling than the other is common with vein disease. However, it is important to understand what is causing the difference.

A venous ultrasound can help determine whether faulty valves are allowing blood to flow backward and whether treatment may be helpful.

One important warning: If one leg suddenly becomes swollen, painful, warm, or red—especially if this is new—seek urgent medical evaluation because these can be signs of a blood clot. If you also develop chest pain or shortness of breath, call 911.

What should I do next?

If one leg consistently feels heavier, more tired, achy, or swollen than the other, or if you notice skin discoloration or bulging veins, consider having your legs evaluated.

Not everyone with visible veins needs a procedure. The goal is to identify whether an underlying circulation problem is affecting your leg health and determine what care, if any, is appropriate.

At Nelson Vein, we want you to have healthy, comfortable legs so you can keep working, caring for your family, and doing the things that matter most.

LIFESTYLE

We believe the root cause of all dis-ease in the body comes from toxicity and deficiency. We believe the foundation of the body are cells, and our protocols focus on providing the body building blocks it can use to restore every cell in the body.

The most foundational component of every organ system and every part of your body is the cell and the structures within it. Your body is made up of over 30 trillion cells. Focusing on restoring your cells will move your body from a place of dis-ease to rest-oration. We do not focus on detoxing because we understand when the energy and structure is restored to the cells, your body will detox on its own at a pace that your system can handle.

Each Protocol will provide information and guidance on optimizing:

- Diet & Nutrition
- Supplementation
- Healthy Lifestyle
- Emotional Components

Get the support you need from people who genuinely want to see you restored.

it could be your thyroid!

Real Patients. Real Results.

I was having thyroid problems for several years. I tried other supplements and products with little improvement. I saw the ad in the budget and decided to try it. Now after six months I have more energy, sleep better and have overall better health. I was always able to reach out to them. Great people, great program.
– Dan Stoltzfus, Pennsylvania

I can honestly say this program has helped more than about any other products with my tiredness and low energy. I can now do a full days work and even something else in the evening without feeling wiped out. By doing the blood tests they found exactly what was wrong, and what I needed. Thanks to god for the healing.
– Leah Miller, Ohio

I can get up in the morning and feel refreshed. I am completely off medication for high blood pressure. My menstrual cycles have come back to normal. lots of other things have improved that I didn't know were connected to my thyroid. Thanks so much!
– Kathyrn Yoder, Missouri

I had autoimmune thyroid disease, blood sugar problems and low vitamin d and iron. After being on their program I feel so much better! I actually feel like doing something instead of having to force myself. My depression is gone, I don't worry like I used to and I have lost 41 pounds. It's great to finally have energy again and enjoy being around people. I encourage anyone struggling to try them.
– Sue Albrecht, Michigan

I've been dealing with Hashimoto's for years, I've been on strict diets, changed my medications many times, tried every supplement I was told to take, never felt completely well. Your products and approach has helped me the most. This is the best I've felt for years. Amazing, I've already told many people to call you.

In Memory of
Levi B. Weaver

After living with a weakened heart for many years, Levi suffered a heart attack on July 25 while attending a benefit auction. He was hospitalized for nearly three weeks before passing away from congestive heart failure.

His wife, Susie, and their family now face the loss of a husband and father, along with substantial medical expenses. This fundraiser will help ease their financial burden during this difficult time.

Let's come together as a community and help.
