Editor's Corner

Hello everyone,

The month of November makes me feel that life is passing more quickly. In an effort to slow it down, I try to fill the hours more meaningfully. "The leaves are at their beauty, before the wind takes them home." This weekend I am traveling with 8 of my friends to PA. Shopping, coffee shops, and Sight & Sound will be our adventure!! Time spent with friends is the best kind of time travel.

Thanks for advertising with the busy beaver!!

You all have a great week!
Ruby Yoder

PERSECUTED CHRISTIANS FUND

Enduring through persecution

In restricted countries around the world, persecution is steadily increasing, putting thousands of believers at risk of imprisonment.

Brother Hamza* who lives in a restricted country, was arrested and imprisoned for his faith in Christ. Our contacts faithfully supported Hamza's family as he faced the challenges of being separated from them. Assistance with shelter, food, and medical care reminded this family that they were not forgotten as they faced intense adversity. With this care, they were able to remain safely in their country and continue to participate in their church. As Hamza's brothers and sisters in the church observed his family's steadfast faith amidst persecution, they were encouraged to continue to walk faithfully with the Lord.

Pray for Hamza, his family, and other believers around the world who are facing ongoing persecution. Pray that believers could feel the presence of God and remain steadfast in their faith.

**To protect identity, we have changed the name.*

The ***Persecuted Christians Fund*** supports persecuted or oppressed pastors and Christian workers in restricted countries with financial support, food, clothing, medical needs, and other necessities.

ROUNDHOUSE
Bushman's most comfortable harmonica. An unbeatable price/quality combination. Great for beginners due to comfort, great for pros due to price, durability, and responsiveness.

Keys: Low D, Low E Low F, G, A, Bb, C, D E, and F | **$40**

KNITTLINGER
Accordion-like sound of the old Auto Valve only better feeling and much easier to play. Loud and lively, quick and nimble! Good players were able to play faster than all previous double reed harmonicas could respond, but you can't outpace a Knittlinger – it goes as fast as any player can play it!

Keys: Low A, Low Bb Low C, Low D, Low E Low F, and G | **$100**

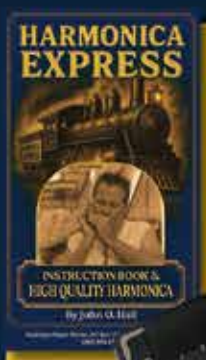
TRINITY HARP
3 harmonicas in one! Its pushbutton slide gives you 3 major chords across all 3 octaves, delivering notes and chords that once required juggling multiple harmonicas. It also supplies the missing Blow 3 note within a rich chord. Move instantly between chord choices and play fuller rhythm, accompaniment, and melody without changing instruments. No need to learn a new note layout - plays like your other diatonic harmonicas!

Keys: Low F, G, A, Bb, C, and D | **$95**

THE DELTA FROST COLLECTION
The Delta Frost comes in 3 different comb choices – Original (plastic), Steelie (aluminum), or the Woody (wood). Delta Frosts are the preferred gig harmonica for many professional musicians. Traditional, old school design.

ORIGINAL
Keys: Low D, Low E Low F, G, A, Bb, C D, E, and F
$35

STEELIE and WOODY
Keys: Low F, G, A Bb, C, D, E, and F
$45



HARMONICA INSTRUCTION KIT

Learn to play popular songs in minutes even if you don't know how to read music! 34 page book comes with our best-selling Roundhouse harmonica.
Keys: Bb or C
$45

MIDDLEFIELD
An easy playing, 10-hole, double reed, octave harmonica that sounds like an accordion. 40 responsive reeds deliver a rich, full tone. It's laser tuned to be in perfect pitch, and it has silent windsavers that eliminate the buzzing and flapping noise that have plagued double reed harmonicas for generations.

Keys: Low A, Low Bb Low C, Low D, Low E Low F, and G | **$125**

It's time to THINK SPRING

OVB
OHIO VALLEY BIOCHAR
There is a Better Way

Now is the time to apply Ohio Valley BioChar to your fields and gardens!

If you want better nutrition.... you need to start with better soil

WHAT IS BIOCHAR?

Our Biochar is steam activated carbon that is beneficial for our soils and animals

- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.

THERE IS A DIFFERENCE!

Activiated charcoal needs to be heated over 1250° to get rid of the impurities. Charcoal produced under 1250° is not the same. Also, the activation process should be done with water, not acid!

WHAT IS THE BENEFIT TO YOU?

- Saves costs over high fertilizer year after year.
- Creates a healthier environment for you and your family.
- No dangerous side effects to humans, animals, or ecosystems.
- Puts more dollars in your pocket.

Biochar blends available for various farming needs, call for more information.

It was early November, and the woods were just starting to come alive with rut activity. I'd been scouting a funnel between bedding and feeding areas, and the sign was fresh. With the wind in my favor, I decided to try something I'd heard other hunters talking about – Buck Whiff.

I kept it simple. A few drops on a drag rag, and I walked a slow zigzag toward my stand. Passing an existing scrape I put a few squirts of Buck Whiff in it about 20 yards out, right where I expected movement. The scent was fresh—noticeably different from some of the bottled stuff I've tried in the past.

An hour or so after settling in, I caught movement. A decent buck stepped out, nose down, locked in on the trail I'd made. He paused at the scrape, visibly aggravated, and gave me the broadside shot I'd been waiting for.

What struck me was how naturally he reacted—paused, hair bristled, stiff legged walk – you know what I mean. He was ready for a going around with this new buck that had just intruded his territory.

I've learned that when you use a lure like Buck Whiff correctly—fresh, sparingly, and always with the wind in mind—it can tip the odds in your favor. It's not magic. But in the right moment, it's the edge that matters.

WIN A SILO DEER FEEDER

THE INVISIBLE FEEDER BUILT FOR SERIOUS HUNTERS

EVERY HUNTER WHO BOOKS A THERMAL DRONE DEER RECOVERY WITH HORNET DRONE SERVICE IN 2026 IS AUTOMATICALLY ENTERED TO WIN A SILO "INVISIBLE" DEER FEEDER — NO EXTRA COST, NO EXTRA STEPS.

THIS ISN'T A TYPICAL SPINNER FEEDER. THE SILO FEEDER IS CONCEALED FROM DEER, USING AN UNDERGROUND AUGER SYSTEM THAT QUIETLY DELIVERS CORN UP TO 60 FEET AWAY, KEEPING PRESSURE OFF YOUR CORE AREA AND MAKING REFILL TRIPS LESS INTRUSIVE. WITH FULL TIMER CONTROL, YOU DECIDE WHEN AND HOW MUCH FEED IS DELIVERED, ALLOWING YOU TO PATTERN DEER EFFICIENTLY WITHOUT OVERFEEDING. ITS LARGE-CAPACITY DESIGN MEANS FEWER REFILLS — OFTEN ONLY TWO FILLS PER SEASON—SAVING CORN, TIME, AND UNNECESSARY TRIPS TO THE FIELD WHILE PAYING FOR ITSELF OVER TIME.

"Lions Mane Talk"

A Better Morning Begins with the Mushroom Maiden!

Good morning, neighbor! I'm the Mushroom Maiden, and I'd like to share a simple way to add Lion's Mane mushrooms to your daily routine without making life any more complicated.

I start with a good cup of coffee! **Mushroom Maiden Farm's Lion's Mane Coffee** combines rich, dark-roast Arabica coffee with more than **1,700 mg of 100% Lion's Mane fruiting bodies per serving.** That's the mushroom itself, not mycelium grown on grain, and no fillers or mystery mushroom blends. Our generous serving delivers many times more Lion's Mane than some leading brands. Just brew it in your regular coffee maker, French press, or pour-over. You get a satisfying, full-bodied cup with no mushroom taste.

Then, make it a perfect pair with our **Lion's Mane Capsules.** They're an easy, convenient way to add Lion's Mane to your morning routine, whether you're at home, heading to work, or busy with the day's chores.

Why Lion's Mane? This remarkable mushroom supports focus, mental clarity, and overall cognitive wellness. Everyone's different, but I believe in making thoughtful choices about what we put into our bodies.

At Mushroom Maiden Farm, I believe you deserve to know what you're buying. That's why we're transparent about our ingredients, use 100% fruiting bodies in all our products, and test them for safety and quality. No hidden blends. No unnecessary fillers. Just honest mushroom products from our farm.

Ready to make Lion's Mane part of your morning? Try them today and discover the difference for yourself!

Try our rich Lion's Mane Coffee. Add our convenient Capsules. Or enjoy the two together as an easy morning routine.

From my farm to your family, I invite you to give Mushroom Maiden Farm a try. Your morning cup may never be quite the same!

LIFESTYLE

We believe the root cause of all dis-ease in the body comes from toxicity and deficiency. We believe the foundation of the body are cells, and our protocols focus on providing the body building blocks it can use to restore every cell in the body.

The most foundational component of every organ system and every part of your body is the cell and the structures within it. Your body is made up of over 30 trillion cells. Focusing on restoring your cells will move your body from a place of dis-ease to rest-oration. We do not focus on detoxing because we understand when the energy and structure is restored to the cells, your body will detox on its own at a pace that your system can handle.

Each Protocol will provide information and guidance on optimizing:

- Diet & Nutrition
- Supplementation
- Healthy Lifestyle
- Emotional Components

Get the support you need from people who genuinely want to see you restored.

We have helped people restore their bodies from the dis-ease's listed below and much more:

it could be your thyroid!

Real Patients. Real Results.

I was having thyroid problems for several years. I tried other supplements and products with little improvement. I saw the ad in the budget and decided to try it. Now after six months I have more energy, sleep better and have overall better health. I was always able to reach out to them. Great people, great program.
– Dan Stoltzfus, Pennsylvania

I can honestly say this program has helped more than about any other products with my tiredness and low energy. I can now do a full days work and even something else in the evening without feeling wiped out. By doing the blood tests they found exactly what was wrong, and what I needed. Thanks to god for the healing.
– Leah Miller, Ohio

I can get up in the morning and feel refreshed. I am completely off medication for high blood pressure. My menstrual cycles have come back to normal. lots of other things have improved that I didn't know were connected to my thyroid. Thanks so much!
– Kathyrn Yoder, Missouri

I had autoimmune thyroid disease, blood sugar problems and low vitamin d and iron. After being on their program I feel so much better! I actually feel like doing something instead of having to force myself. My depression is gone, I don't worry like I used to and I have lost 41 pounds. It's great to finally have energy again and enjoy being around people. I encourage anyone struggling to try them.
– Sue Albrecht, Michigan

I've been dealing with Hashimoto's for years, I've been on strict diets, changed my medications many times, tried every supplement I was told to take, never felt completely well. Your products and approach has helped me the most. This is the best I've felt for years. Amazing, I've already told many people to call you.
– S Hertzler, Maryland

Nature's Rite

Replace your restless nights with Sleep Breathing Support™

You can **stop** sleep breathing disruptions and restless legs **tonight.**

Sleep related breathing disruptions ruin the sleep of an estimated 25 million Americans on a regular basis. Since sleep disruptions can disturb sleep without completely awakening the subject, there are likely millions more undiagnosed sufferers. The condition prevents the sleeper from entering rapid eye movement (REM) and delta sleep— causing them to become anxious, cantankerous and tired during the day. Additionally, due to the nature of the condition, it causes blood oxygen levels to be lower than normal for very prolonged periods of time. This is damaging to the brain and heart in particular.

Treatment options can include weight loss, nasal decongestants, surgery, and oral appliances. Devices, such as a continuous positive airway pressure (CPAP) machine, are commonly used for moderate and severe sleep breathing disruptions. A CPAP device is a forced air mask, worn during sleep that ensures proper inhalation.

Hi, I'm Steve Frank.

I have sleep-breathing disruptions at night. I spent years researching the condition and understanding the true cause. After many years, and with my knowledge of herbs, I found an amazing combination that supports deep, steady breathing all night long.
This patented blend works great for nighttime sleep-breathing disruptions commonly associated with aging. I haven't worn any mask or tubes in years, and I sleep great. I hope you can too.

As it turns out, I also dealt with occasional restless legs. So I created a blend of herbs traditionally used to help relax nerves, ease tension, and support circulation. It worked well; I later found it could also support those experiencing restless legs.

I personally use Sleep Breathing Support before bed each night, and I keep Leg Relaxer™ on my nightstand.

Sweet Dreams.

These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure or prevent disease.

Experience has shown that 60 percent of patients are not able to tolerate the equipment and ultimately discontinue using it. Others develop respiratory infections from the mask. Sleep Breathing Support™ was designed to do what the above solutions can't address the real cause of the condition.

THE CAUSE

When we enter stage two sleep in preparation for REM sleep, where dreaming occurs, muscular activity is inhibited. It is called "reduction of muscle tonus." This is a function that occurs primarily to keep the dreamer from physically acting out the movements of his or her dreams.

It is accomplished by suppressing the flow of signals from the brain along the spinal cord. Unfortunately, in those who struggle with sleep breathing disruptions, the reduction in muscle tonus allows the soft palate to sag and the signal from the brain to the diaphragm that keeps you breathing gets inadvertently reduced in strength.

The result of this is that upon entering stage two sleep, the breathing becomes shallower, the blood oxygen level drops and the carbon dioxide level rises until the brain intervenes and causes the body to make a large and immediate inhalation. This causes a large pressure differential in the pharynx and literally sucks the sagging soft palate into the airway. This obstructs the flow and causes a loud snort, partially or fully awakening the subject.

THE SOLUTION

So you see, the problem is not the sagging soft palate. The problem is not the rapid inhalation that sucks your soft palate into the airway. The problem is the reduced ability of the signal from your brain to produce sufficient breathing amplitude from your diaphragm. The appropriate intervention is to enhance the ability of the brain to communicate with the diaphragm so that you breathe deeply and steadily throughout the night. **That is exactly what the combination of herbs in Sleep Breathing Support™ is intended to do.**

Crafted with a bouquet of natural herbs.

Lobelia, used in small doses, can increase the level of respiration. Because the lobelia causes you to breathe more deeply and steadily, it keeps the whole disruptive cycle from even beginning.

Thyme improves the ability of the lungs to exchange carbon dioxide for oxygen and makes an excellent contribution to maintaining sufficient respiratory amplitude.

Chamomile aids the subject in relaxing.

Cramp Bark helps the upper trapezius muscles to loosen.

When was the last time you truly slept well?

Calm overactive nerves, restless legs, and nighttime leg cramps with Leg Relaxer™.

No mess. **No** menthol scent. **No** harsh chemicals.

Enjoy more comfortable nights and deeper, more restful sleep, night after night.

ASK DR. NELSON:

CAN I HAVE VEIN DISEASE WITHOUT HAVING VARICOSE VEINS?

"If I don't have bulging varicose veins, can I still have vein disease?"

Yes! You can have vein disease even if you don't have large, visible varicose veins. In fact, some people experience symptoms for years before they notice obvious changes in their legs.

Inside your veins are small valves that help move blood back toward your heart. When these valves don't close properly, blood can flow backward and collect in your legs. This is called venous reflux.

Over time, this can cause discomfort, swelling, and skin changes—even if you don't have large, bulging veins.

What signs should I look for?

Vein disease doesn't always look the way you might expect. Some signs include:

- Legs that feel heavy, tired, or achy, especially at the end of the day
- Swelling around the ankles or lower legs
- Itching, irritation, or dry, flaky skin
- Brown or reddish discoloration around the ankles
- Small clusters of spider veins, particularly near the ankles
- Symptoms that improve when you walk or elevate your legs
- Sores on the lower legs that heal slowly

You may experience only one or two of these symptoms. They can also have causes other than vein disease, so an evaluation is important.

How can I know if I have vein disease?

A venous ultrasound can help determine whether blood is flowing backward in your veins and whether there are other circulation problems that need attention.

Not everyone with spider veins or visible varicose veins needs a procedure. The important thing is to determine whether an underlying vein problem is affecting your comfort, circulation, or skin health.

Don't wait for bulging veins to pay attention to your legs.

If your legs frequently feel heavy, tired, achy, or swollen—or you notice changes in your skin—it may be time to have them evaluated.

At Nelson Vein, we want you to understand your leg health and know your options. When treatment is needed, many vein procedures can be performed in the office with little downtime, helping you return to work and the activities that matter most.

You don't have to see varicose veins to have a reason to pay attention to your leg health.

How do weighted blankets work?

Science shows that sleeping under weight improves sleep quality, lowers stress, and eases anxiety – and when those things are better, everything's better!

Here's a breakdown of the science that lies underneath our cozy and calming Nappers:

- **Activates the effects of Deep Touch Pressure (DTP)**
  - Increases serotonin (Feel Good Chemical) to make you feel happier and more content
  - Increases melatonin (Sleep Hormone) to lull you into blissful slumber
  - Decreases cortisol (Stress Hormone) to help reduce anxiety and stress
- **Mimics the effects of 'grounding' or 'earthing'**
- **Mimics the sensation of a warm hug**
