## Editor's Note:

The weather has finally turned cooler. It has been 70 degrees for the past couple of days. The 30 degree drop in temperature has me shivering and reaching for my sweater. Everyone says how nice it feels, but all I feel is cold. HAHA.

Bob is almost back to normal after his neck surgery. He still has some weakness in his right arm and shoulder but the pain is gone. YAY.

Betzi has a recipe this week that I'm going to have to try in a few weeks. Mom's annual Fall get together is coming up soon and it would make a great treat to have on hand.

# It's time to THINK SPRING

Now is the time to apply Ohio Valley BioChar to your fields and gardens!

If you want better nutrition.... you need to start with better soil

## WHAT IS BIOCHAR?

Our Biochar is steam activated carbon that is beneficial for our soils and animals

- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.

## WHAT IS THE BENEFIT TO YOU?

- Saves costs over high fertilizer year after year.
- Creates a healthier environment for you and your family.
- No dangerous side effects to humans, animals, or ecosystems.
- Puts more dollars in your pocket.

## THE COLD AND WEARY

A channel enabling the church to minister to physical and spiritual needs around the world

Winter is coming. For most of us, that means pulling a warm coat from the closet, putting on a pair of fleece-lined boots, and wrapping our children in cozy blankets. Imagine facing winter with few of these things. You could live in a refugee camp where temperatures plunge at night. Biting winds sneak through the cracks of the makeshift tarp doorway. The cold leaves you shivering, but the hardest thing of all is watching your children go without warm clothing or shoes—knowing you have little money to buy them.

This is reality for many people in Syria, Yemen, and other countries. To many, winter brings a sense of dread. Months of hard work and saving allow some parents to buy clothes for their children, but for others, this is nearly impossible. In refugee camps, employment opportunities are scarce. And no work means no income. No income means no warm clothes.

Omar,\* a Syrian father, once provided for his family of five. Then an explosive device detonated near him, leaving permanent scars across his face and body. He was left blind.

But Omar says the physical darkness was not the deepest pain. Even more heartbreaking was watching the darkness that gradually settled in the hearts of his children. He could hear their crying and knew the uncertainty that had become part of their lives frightened them. War had taken away their safety and replaced it with fear.

One day, the family received a box of donated second-hand clothing. The children rejoiced! "The clothes were not simply pieces of fabric. They were a touch of love that helped mend

our hearts. They were also a great lesson for my children that goodness never dies," Omar shared gratefully.

He continued, "I thank you from the depths of my heart—a heart that may no longer see with its eyes, but can see your love. I pray that God will richly reward you for all you have done for me and for my family."

Ali, another Syrian father, lost his home because of war. The family of four fled for safety, leaving behind their belongings, clothes, and home. "But God is always present, even in the most difficult moments," Ali told our contact. "He sent people to stand beside us and provide what we needed when we had nowhere else to turn."

Ali continued, "We extend our heartfelt thanks to the persons who sent the clothes . . . you embraced us like a mother, offering us both practical and emotional support when we needed it most."

Thanks to funds from supporters, needy families like Ali's and Omar's can receive bags of gently-used, quality clothing. Your gift can meet a practical need while also reminding a hurting family that someone cares—and that God has not forgotten them.

**While we receive about the right amount of donated clothing and kits each year, we have a significant need for funds to ship and responsibly distribute these needed items. If you wish to help with this need, your support will be greatly appreciated!**

It was early November, and the woods were just starting to come alive with rut activity. I'd been scouting a funnel between bedding and feeding areas, and the sign was fresh. With the wind in my favor, I decided to try something I'd heard other hunters talking about – Buck Whiff.

I kept it simple. A few drops on a drag rag, and I walked a slow zigzag toward my stand. Passing an existing scrape I put a few squirts of Buck Whiff in it about 20 yards out, right where I expected movement. The scent was fresh—noticeably different from some of the bottled stuff I've tried in the past.

An hour or so after settling in, I caught movement. A decent buck stepped out, nose down, locked in on the trail I'd made. He paused at the scrape, visibly aggravated, and gave me the broadside shot I'd been waiting for.

What struck me was how naturally he reacted—paused, hair bristled, stiff legged walk – you know what I mean. He was ready for a going around with this new buck that had just intruded his territory.

I've learned that when you use a lure like Buck Whiff correctly—fresh, sparingly, and always with the wind in mind—it can tip the odds in your favor. It's not magic. But in the right moment, it's the edge that matters.

## Replace your restless nights with Sleep Breathing Support™

You can **stop** sleep breathing disruptions and restless legs tonight.

Sleep related breathing disruptions ruin the sleep of an estimated 25 million Americans on a regular basis. Since sleep disruptions can disturb sleep without completely awakening the subject, there are likely millions more undiagnosed sufferers. The condition prevents the sleeper from entering rapid eye movement (REM) and delta sleep—causing them to become anxious, cantankerous and tired during the day. Additionally, due to the nature of the condition, it causes blood oxygen levels to be lower than normal for very prolonged periods of time. This is damaging to the brain and heart in particular.

Treatment options can include weight loss, nasal decongestants, surgery, and oral appliances. Devices, such as a continuous positive airway pressure (CPAP) machine, are commonly used for moderate and severe sleep breathing disruptions. A CPAP device is a forced air mask, worn during sleep that ensures proper inhalation.

### Hi, I'm Steve Frank.

I have sleep-breathing disruptions at night. I spent years researching the condition and understanding the true cause. After many years, and with my knowledge of herbs, I found an amazing combination that supports deep, steady breathing all night long. This patented blend works great for nighttime sleep-breathing disruptions commonly associated with aging. I haven't worn any mask or tubes in years, and I sleep great. I hope you can too.

As it turns out, I also dealt with occasional restless legs. So I created a blend of herbs traditionally used to help relax nerves, ease tension, and support circulation. It worked well; I later found it could also support those experiencing restless legs.

I personally use Sleep Breathing Support before bed each night, and I keep Leg Relaxer™ on my nightstand.

Sweet Dreams.

"I am well pleased with the Sleep Breathing Support. The nice part is I no longer have to use a CPAP machine. I am refreshed, rested and ready to go when I wake up." Elva Chupp

Experience has shown that 60 percent of patients are not able to tolerate the equipment and ultimately discontinue using it. Others develop respiratory infections from the mask. Sleep Breathing Support™ was designed to do what the above solutions can't address the real cause of the condition.

### THE CAUSE

When we enter stage two sleep in preparation for REM sleep, where dreaming occurs, muscular activity is inhibited. It is called "reduction of muscle tonus." This is a function that occurs primarily to keep the dreamer from physically acting out the movements of his or her dreams.

It is accomplished by suppressing the flow of signals from the brain along the spinal cord. Unfortunately, in those who struggle with sleep breathing disruptions, the reduction in muscle tonus allows the soft palate to sag and the signal from the brain to the diaphragm that keeps you breathing gets inadvertently reduced in strength.

The result of this is that upon entering stage two sleep, the breathing becomes shallower, the blood oxygen level drops and the carbon dioxide level rises until the brain intervenes and causes the body to make a large and immediate inhalation. This causes a large pressure differential in the pharynx and literally sucks the sagging soft palate into the airway. This obstructs the flow and causes a loud snort, partially or fully awakening the subject.

### THE SOLUTION

So you see, the problem is not the sagging soft palate. The problem is not the rapid inhalation that sucks your soft palate into the airway. The problem is the reduced ability of the signal from your brain to produce sufficient breathing amplitude from your diaphragm. The appropriate intervention is to enhance the ability of the brain to communicate with the diaphragm so that you breathe deeply and steadily throughout the night. **That is exactly what the combination of herbs in Sleep Breathing Support™ is intended to do.**

### Crafted with a bouquet of natural herbs.

**Lobelia**, used in small doses, can increase the level of respiration. Because the lobelia causes you to breathe more deeply and steadily, it keeps the whole disruptive cycle from even beginning.

**Thyme** improves the ability of the lungs to exchange carbon dioxide for oxygen and makes an excellent contribution to maintaining sufficient respiratory amplitude.

**Chamomile** aids the subject in relaxing.

**Cramp Bark** helps the upper trapezius muscles to loosen.

# WHY DOES DISC PAIN KEEP COMING BACK?

## Special Health Report

*What Thousands of Patients With Disc Problems Have Taught Us  
About Why Some People Improve Temporarily While Others  
Continue to Struggle*

By Midwest Disc Clinic

### FREE RECORDED HEALTH REPORT

Available 24 Hours a Day by Phone

- ✓ No Appointment Required
- ✓ No Internet Required
- ✓ Listen from Home
- ✓ Available Anytime
- ✓ Private and Confidential

### Many People Are Told Their Only Options Are More Treatment, More Injections, or Surgery

If you are one of the millions of people suffering with back, neck, or sciatica pain, you are not alone. Disc problems are one of the leading causes of long-term pain and disability in our country. And if you have been dealing with this pain for any length of time, you may already know how frustrating and discouraging it can be.

Many men and women tell us the same story. They started with mild discomfort. Over time, it got worse. They saw a doctor, had tests, and tried physical therapy, chiropractic care, medications, or injections. Sometimes these treatments helped for a while. But the pain came back.

Eventually, they were told their only choices were more treatment, more injections, or even surgery.

This leaves many people feeling hopeless and unsure of what to do next. That is why we created this recorded health report.

After helping thousands of patients with disc problems, we have seen a common pattern. Some people improve temporarily, while others continue to struggle. The difference is not always what you might think.

The good news is that understanding why disc pain keeps coming back can help you ask better questions and make more informed decisions about your care.

### IN THIS RECORDED REPORT YOU'LL DISCOVER:

- ✓ Why disc pain keeps coming back
- ✓ What may block disc repair
- ✓ Why relief often doesn't last
- ✓ What many patients are never told
- ✓ What may be behind sciatica symptoms
- ✓ Questions to ask before injections or surgery

### REAL PATIENT STORIES

"I came to MDC with lower back pain and numbness in my legs. I was barely able to walk, and I wasn't able to function or work. It was Midwest Disc Clinic or surgery.

Now after my care plan, I'm pain free and raring to go. I can put in a full day's work.

My experience was very much appreciated." — D. Hershberger, Nashville, MI

"I was having lower back pain and right leg pain when I came to MDC. I was on crutches for two days and in bed for a week, not able to work.

After my DOSAE treatments, I am back to work and feel 85% to 90% better. Thank you to the doctors and staff at MDC. Everybody is very friendly and helpful!" — D. Troyer, Randolph, NY

At Mushroom Maiden Farm, we believe in the same enduring principles that guide our communities: faith, family, stewardship of the land, and honest work done well. In a world that often rushes toward shortcuts, we choose a simpler, more transparent path, growing and crafting our products with care, patience, and integrity.

Our mushrooms are cultivated high in the Appalachian Mountains, where clean air, pure water, and rich forest traditions shape their strength. Every batch is tested by an independent lab to ensure purity and quality. We use 100% fruiting bodies, the part of the mushroom where the most valuable nutrients are found, so you receive only the best of what nature provides.

Our Lion's Mane mushroom capsules are carefully prepared to support clarity and well-being, made without fillers or unnecessary additives. Alongside them, we offer two wholesome varieties of coffee, a smooth and robust dark Arabica bean, roasted for rich flavor and steady comfort and a dark Arabica bean Cinnamon Breakfast Roll coffee. To season your table, choose from four distinct mushroom enhanced salts. We offer a Wild Hickory Cold-Smoked Salt, Himalayan Pink, Sriracha, and Thai Ginger, each crafted to complement honest, home-cooked meals.

As a 100% woman-owned farm, we value humility, hard work, and transparency in every step, from growing to packaging. We are committed to straightforward practices and products you can trust for your home and family.

Simple ingredients. Careful hands. Honest quality. That is the Mushroom Maiden promise.

## Frequently asked Question

### How do Bearaby blankets get their weight?

The **Cotton Napper** is weighted entirely through hand-knit organic cotton — not beads, not pellets, not hidden fillers. Just pure, breathable cotton loops layered to create natural, even weight. It is precisely engineered with a heavy cotton yarn, and compacted to the perfect density to give you your best nap ever.

The **Tencel Cooling Tree Napper** combines the above process with a blend of Eucalyptis fibers to give you the same effect as the cool side of your pillow, all night long.

#### ROUNDHOUSE

Bushman's most comfortable harmonica. An unbeatable price/quality combination. Great for beginners due to comfort, great for pros due to price, durability, and responsiveness.

**Keys:** Low D, Low E  
Low F, G, A, Bb, C, D  
E, and F

**\$40**

#### KNITTLINGER

Accordion-like sound of the old Auto Valve only better feeling and much easier to play. Loud and lively, quick and nimble! Good players were able to play faster than all previous double reed harmonicas could respond, but you can't outpace a Knittlinger – it goes as fast as any player can play it!

**Keys:** Low A, Low Bb  
Low C, Low D, Low E  
Low F, and G

**\$100**

#### TRINITY HARP

3 harmonicas in one! Its pushbutton slide gives you 3 major chords across all 3 octaves, delivering notes and chords that once required juggling multiple harmonicas. It also supplies the missing Blow 3 note within a rich chord. Move instantly between chord choices and play fuller rhythm, accompaniment, and melody without changing instruments. No need to learn a new note layout - plays like your other diatonic harmonicas!

**Keys:** Low F, G, A, Bb,  
C, and D

**\$95**

#### THE DELTA FROST COLLECTION

The Delta Frost comes in 3 different comb choices – Original (plastic), Steelie (aluminum), or the Woody (wood). Delta Frosts are the preferred gig harmonica for many professional musicians. Traditional, old school design.

**ORIGINAL**  
**Keys:** Low D, Low E  
Low F, G, A, Bb, C  
D, E, and F

**\$35**

**STEELIE  
and WOODY**  
**Keys:** Low F, G, A  
Bb, C, D, E, and F

**\$45**

#### HARMONICA INSTRUCTION KIT

Learn to play popular songs in minutes even if you don't know how to read music! 34 page book comes with our best-selling Roundhouse harmonica.

**Keys:** Bb or C

**\$45**

#### MIDDLEFIELD

An easy playing, 10-hole, double reed, octave harmonica that sounds like an accordion. 40 responsive reeds deliver a rich, full tone. It's laser tuned to be in perfect pitch, and it has silent windsavers that eliminate the buzzing and flapping noise that have plagued double reed harmonicas for generations.

**Keys:** Low A, Low Bb  
Low C, Low D, Low E  
Low F, and G

**\$125**
