Editor's Note

NUMBER 64 • AUGUST 7, 2026

Greetings!

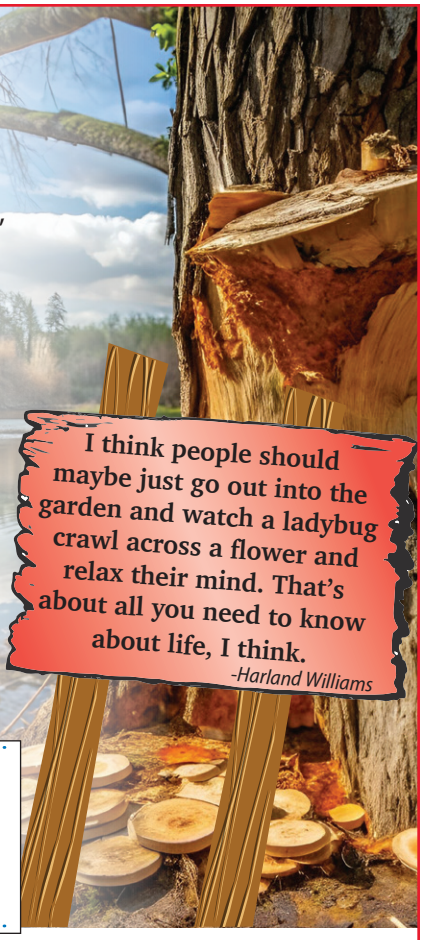

Did you know that ladybugs are a gardener's friends? They can eat up to 5000 plant-eating pests in their lifetime. Their bright colors warn predators that they won't taste good. Ladybugs hibernate during the winter instead of migrating to a warmer place. Ladybugs are the official state insect of Delaware, Massachusetts, New Hampshire, Ohio, and Tennessee.

Be sure to check out the ECONOMY PAGES, starting on page 35. They are just one more option to place a display ad. Give us a call or send an email if you need more information. You can use the form on page 7 if you want to mail your order.

Thanks to all advertisers in this issue. The next deadline is August 18 for the September 4 edition. See page 6 of this issue for information about placing a **CLASSIFIED AD** in Busy Beaver Extreme. Be sure to send your payment along with your ad information. Page 7 has the form and information to place a **DISPLAY AD**. A **DISPLAY AD** will give you a complimentary listing in our **BUSINESS DIRECTORY**. We appreciate ads sent in on time.

Please allow plenty of time for ads sent in the mail. Sometimes the mail does not move as fast as we wish it would.

Are you reading your friend's Busy Beaver Extreme? Are you moving soon? Use the form on this page and mail it to the address below. If you get more than one copy of this magazine, please let us know. It is helpful to include the mailing label if you want a name removed or have an address change.

Make it a good day!

Do you want BIGGER bucks on your food plot?

If you want better nutrition.. You need to start with better soil.

OVB
OHIO VALLEY BIOCHAR
There is a Better Way

Now is the time to apply Ohio Valley BioChar to your food plots!

Actual results after application of OVB Food Plot Blend.

What is biochar?

Our Biochar is steam activated carbon that is beneficial for our soils and animals

- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and waterways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.

What is the benefit to you?

- Saves costs over high fertilizer year after year.
- Creates a healthier environment for you and your family.
- No dangerous side effects to humans, animals, or ecosystems.
- Puts more dollars in your pocket.

COVER STORY

Why Another Trailer Company?

For years, we have been buying trailers for our roofing crews and ordering them with added reinforcement to make them last longer, only to be frustrated by how quickly they began causing problems again, such as insufficient rear hoop framing and doors that did not hold up. So the question was: What could be done to solve the problem?

Thus, Toolcrest was founded to serve this niche market of contractors who are concerned about the longevity of a trailer fitted to their needs. Features such as **galvanized steel frames** and **fiberglass skins** provide longevity and durability, while options such as **cableless ramp doors, upswing doors, 110-volt electrical packages, heavy-duty ladder racks, and walk-on roofs** allow us to meet contractors' basic needs. Job Tamer storage solutions allow us to equip trailers with anything from a basic bin package to a fully customized setup.

Toolcrest has served various companies with their trailer needs, including Janie's Donuts, Unicus with its spray foam rigs, and Formwright with its roll-forming machine trailers.

No matter the industry or trade, Toolcrest is committed to building the most durable and versatile trailers for our customers.

Idaho Whole-Apple Cider Vinegar

GREAT APPLE CIDER VINGAR HAS A "ONE-TWO" PUNCH…

1) Looking for less disease and fewer internal/external parasites this year? THIS ACV has an alkaline forming response in any mammal's body, which is your shield against those issues.

2) Wanting to stretch your hay and pasture by 20%? The ENERGY and ENZYMES from the Whole-Apples contained in this vinegar are ALL still intact to help boost your livestock's digestion of any feed. Minerals in the feed are 90% bio-available versus the 20% in most mineral mixes.

The drier your feed, the better this ACV works!!!

How would you like a summer where your calves gain more and have less pink-eye?

At Dr. JimZ®, our main goal is to help people eat more nutritious food and be more successful in the garden. Our nutrients are designed to stimulate life in the soil and provide a plethora of nutrients at a biological level. **The microbes in the soil must consume the nutrients before they are 100% bioavailable to the plant.** Our products feed the microbes so your plants can then decide what nutrients they need and when they need them ... this will maximize the genetic potential of the plant and result in higher-quality fruits and veggies.

Violent earthquakes IN VENEZUELA

Article space donated to CAM

Christian Aid MINISTRIES

A channel enabling the church to minister to physical and spiritual needs around the world

It was a typical evening in Venezuela on June 24. Motorbikes buzzed along the dusty streets of Caracas, past restaurants, noisy street vendors, and families enjoying supper in their homes. Fourteen miles underground, intense pressure was building between two tectonic plates. At 6:04 p.m., the plates slipped past each other releasing a magnitude 7.2 shockwave near Caracas, Venezuela's capital city. Only 39 seconds later, an even larger magnitude 7.5 quake struck!

Motorbikes swerved to the side of the road. Street vendors stood dumbfounded as their wares spilled from the tables. High-rise apartment buildings swayed, then thundered to the ground, belching dust into the chaotic streets. A CAM contact shared, "We didn't know what was happening—the power went out, there was no signal, and the shaking began. Everyone rushed to leave the apartment building to find a safe spot. The elevators jammed, so we had to use the stairs; people were running and falling, and many elderly individuals couldn't get out in time. Others remain trapped under the rubble."

When the shaking stopped, wailing could be heard from beneath the mountains of rubble. Recovery teams raced against time to rescue people from the twisted mess before they would die of injuries or thirst.

Our response

We and our contacts wish to use this time to present the Good News to the suffering people of Venezuela as we assist them with much-needed aid. In recent months, we have been gearing up for a large-scale literature distribution in Venezuela. Large quantities of Bibles, Bible story books, and other literature are stockpiled near the affected area in Venezuela, ready for distribution. Along with other aid, these will be distributed to earthquake victims as well. We praise God for His hand in arranging this when we had no idea a deadly crisis was on the horizon!

Donations to this project will also be used to support a team of conservative Anabaptists assisting with disaster cleanup. Their church group has a vision to plant a church in Venezuela, so they hope to use this opportunity to plant the seeds of a future conservative Anabaptist church.

We are budgeting $1.5 million to respond to the needs in Venezuela. If you would like to help, your donation will provide food, Christian literature, portable water treatment systems, hygiene supplies, temporary shelters, and other assistance to the people of Venezuela in their time of need.

TIME TO RETHINK BALE PROTECTION

Every bale represents an investment of time, fuel, equipment, and months of hard work. Once it's baled, protecting that investment means more than simply keeping rain off—it means protecting dry hay without trapping unnecessary moisture.

Unlike airtight, single-use wrapping systems intended for high-moisture forage, Bale Bonnets are designed specifically for outdoor dry hay storage. Their open design helps protect bales from rain, snow, and harmful UV exposure while allowing natural airflow to help reduce trapped moisture and preserve hay quality.

Need to protect an entire row? The Super Bonnet delivers the same proven protection in a continuous cover that protects up to 20 round bales—reducing installation time while providing exceptional long-term value.

Heavy-Duty Protection That Pays for Itself

· Designed specifically for outdoor dry hay storage
· Helps protect against rain, snow, and UV damage
· Allows the bale to breathe naturally
· Reusable year after year with proper care
· Reduces recurring plastic waste compared to single-use coverings
· Available in multiple sizes for a variety of operations

Protect Your Investment. Preserve Your Hay.

We value your participation in this community project: providing exceptional, patient-centered healthcare that honors faith, autonomy, and healing. With God's help and the support of our community, we aim to continue expanding services and adding key staff. However, our current debt load is limiting our growth. Would you prayerfully consider donating to this cause? All donations are tax-deductible. EWSC is a non-profit 501(c)(3) organization. *Owned by the community, for the community.* Please make checks payable to: Eastbrook Well Spring Care and mail to: 150 Eastbrook Rd. Smoketown, PA 17576

Our recent collaboration with Beltone Audiology allows us to offer **Comprehensive Hearing Care**—including free hearing screenings, personalized fittings, and hearing aid servicing—all right here in our clinic. This partnership has already made a meaningful difference for many in our community.

Regenerative Joint Therapy, added to EWSC in August, targets painful joints by using stem-cell transplantation and/or protein rich plasma (PRP). These procedures are completed here in the clinic with minimal recovery time.

We're thrilled to announce our new **Home Care Visits** program, added to EWSC in Nov. If traveling to a medical facility is difficult for you or someone you love, we're here to help. At EWSC, we believe everyone deserves quality health care that's both accessible and affordable.

Every gift—large or small—moves us closer to our goal. Your generosity has already changed lives, and together, we can keep making a difference. Thank you for your continued support!

We've also expanded our wellness offerings in the IV therapy room. A curtain has been added for your privacy while using the Pulse (PEMF) Bed. We offer a wide variety of IV therapies including immune support *(cold and flu season is here!)*, sinus support, replenish and recovery, among others. We will meet with you and discuss which IV is best for your individual needs. In addition, we now offer **Red Light Therapy** and **ION Foot Detox Treatments**. These gentle, restorative therapies are designed to support circulation, reduce inflammation, and promote overall well-being.

Matt Snader's Magazine, *Alaska Adventures and Beyond*

Matt Snader publishes a magazine every month called *Alaska Adventures and Beyond*. It is full of articles about hunting, fishing, and the Great Outdoors. This magazine is family friendly. No need to worry about having to edit the magazine before the children read it, and yet it is still interesting enough for them to fight over (or so we hear). Dad likes it too!

While Matt has articles in each magazine, there are other writers to round it out and provide a bit of balance. Tom the Alaskan Homesteader, Gene Halteman, Jonas Miller (Montana Haven), Best-selling Amazon author Bobby Eaton, and Josh Snader all have regularly occuring articles covering hunting in PA to fixing float planes in Papau New Guinea.

Our first Yearbook is over 400 full color pages bound in hardcover. Many hours of reading!

Another Treasure Hunt!

Froman Hill BOYS RANCH

Restoring Hope through Discipleship

Froman Hill Boys Ranch is a residence for minor boys from the horse and buggy churches. To act as a refuge while dealing with emotional, moral and spiritual needs.

LOOKING TO SERVE?

We are in need of Big Brothers and Houseparents!

If interested call 330-343-8055.

We enjoy being house parents at Froman Hill Boys Ranch. It is very rewarding to see the young resident boys improving as they do their term here. Also, a blessing to see how the big brothers put in time and effort to help the young boys progress. We recieve so much more here then what we give. God's Blessings!
-Eli & Mary

Serving as big brother gave me lots of interesting opportunites and challenges, and trying to be a good example as Jesus left behind. It was very fulfilling and rewarding to follow rules and keep up with schedules when working with these struggling, talented young boys. To me it was a blessing, thanks to God.
-Former Big Brother, Jake

We are in need of work. Looking for simple manual piece work. If you feel led to share, call 330-343-8055 and ask for James.

My time as a Big Brother at Froman Hill Boys Ranch was worthwhile, meaningful, and inspiring. I'm glad I stepped out of my comfort zone to be a part of something special. The friendships and memories made were worth the time invested. I can honestly say I feel I received more than I gave. To God be the glory and honor!
-Big Brother, Michael

I would like to thank God for the opportunity to serve at Froman Hill Boys Ranch. If you have a desire to do something like this, do it! It truly is an enjoyable and fulfilling experience.
-Former Big Brother, Jared Hershberger

About our weeks we have spent with the Froman Hill Boys as houseparents and cooking for them- we have found it very rewarding and interesting. Would encourage anyone to give it a try. You will be richly blessed!
-The Troyers

Froman Hill Boys Ranch operates as Integrated Auxiliary of the Ohio Amish Church.

Nature's Rite

I used to have a lot of trouble sleeping. I was about to go for a sleep testing. My husband and I were both sleeping very poorly. He said that I was breathing very loudly, and I would wake up with apnea episodes, gasping, which made it difficult for both of us to sleep. Then I would try changing positions, but it kept happening over and over again. We could never get a good night's rest, and we were feeling very tired on the next day.

Just when I was about to decide to get a sleep test done (which I really didn't want to do), my husband brought me this article that he found at The Busy Beaver, and I'm so happy with the results. From the very first night, I didn't wake up even once. My husband and I were finally able to sleep through the entire night. I stopped waking up because of my breathing problems, and sleep completely changed for both of us. This product truly was life-changing for me.

Replace your restless nights with Sleep Breathing Support™

You can **stop** sleep breathing disruptions and restless legs **tonight.**

Sleep related breathing disruptions ruin the sleep of an estimated 25 million Americans on a regular basis. Since sleep disruptions can disturb sleep without completely awakening the subject, there are likely millions more undiagnosed sufferers. The condition prevents the sleeper from entering rapid eye movement (REM) and delta sleep— causing them to become anxious, cantankerous and tired during the day. Additionally, due to the nature of the condition, it causes blood oxygen levels to be lower than normal for very prolonged periods of time. This is damaging to the brain and heart in particular.

Treatment options can include weight loss, nasal decongestants, surgery, and oral appliances. Devices, such as a continuous positive airway pressure (CPAP) machine, are commonly used for moderate and severe sleep breathing disruptions. A CPAP device is a forced air mask, worn during sleep that ensures proper inhalation.

Hi, I'm Steve Frank.

I have sleep-breathing disruptions at night. I spent years researching the condition and understanding the true cause. After many years, and with my knowledge of herbs, I found an amazing combination that supports deep, steady breathing all night long.
This patented blend works great for nighttime sleep-breathing disruptions commonly associated with aging. I haven't worn any mask or tubes in years, and I sleep great. I hope you can too.

As it turns out, I also dealt with occasional restless legs. So I created a blend of herbs traditionally used to help relax nerves, ease tension, and support circulation. It worked well for her—and I later found it could also support those experiencing restless legs.

I personally use Sleep Breathing Support before bed each night, and I keep Leg Relaxer™ on my nightstand.

Sweet Dreams.

These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure or prevent disease.

Experience has shown that 60 percent of patients are not able to tolerate the equipment and ultimately discontinue using it. Others develop respiratory infections from the mask. Sleep Breathing Support™ was designed to do what the above solutions can't address the real cause of the condition.

THE CAUSE

When we enter stage two sleep in preparation for REM sleep, where dreaming occurs, muscular activity is inhibited. It is called "reduction of muscle tonus." This is a function that occurs primarily to keep the dreamer from physically acting out the movements of his or her dreams.

It is accomplished by suppressing the flow of signals from the brain along the spinal cord. Unfortunately, in those who struggle with sleep breathing disruptions, the reduction in muscle tonus allows the soft palate to sag and the signal from the brain to the diaphragm that keeps you breathing gets inadvertently reduced in strength.

The result of this is that upon entering stage two sleep, the breathing becomes shallower, the blood oxygen level drops and the carbon dioxide level rises until the brain intervenes and causes the body to make a large and immediate inhalation. This causes a large pressure differential in the pharynx and literally sucks the sagging soft palate into the airway. This obstructs the flow and causes a loud snort, partially or fully awakening the subject.

THE SOLUTION

So you see, the problem is not the sagging soft palate. The problem is not the rapid inhalation that sucks your soft palate into the airway. The problem is the reduced ability of the signal from your brain to produce sufficient breathing amplitude from your diaphragm. The appropriate intervention is to enhance the ability of the brain to communicate with the diaphragm so that you breathe deeply and steadily throughout the night. **That is exactly what the combination of herbs in Sleep Breathing Support™ is intended to do.**

Crafted with a bouquet of natural herbs.

Lobelia, used in small doses, can increase the level of respiration. Because the lobelia causes you to breathe more deeply and steadily, it keeps the whole disruptive cycle from even beginning.

Thyme improves the ability of the lungs to exchange carbon dioxide for oxygen and makes an excellent contribution to maintaining sufficient respiratory amplitude.

Chamomile aids the subject in relaxing.

Cramp Bark helps the upper trapezius muscles to loosen.

When was the last time you truly slept well?

Calm overactive nerves, restless legs, and nighttime leg cramps with Leg Relaxer™.

No mess. **No** menthol scent. **No** harsh chemicals.

Enjoy more comfortable nights and deeper, more restful sleep, night after night.

If you want to know **whether they will work for you,** then you **have to try them.**

What is Young Living NingXia Red?

As they say, we either pay for our health now or later. We get to choose...so, what do you feel is best for you? A question was asked, on where people were living the longest in the world. Ningxia, China is in a blue zone, meaning where people are living well past 100 years of age, and the common thing they have is the wolfberry in their daily food regimen.

This anti-inflammatory antioxidant drink has become a FAVORITE to many, as they find their immune systems thriving, energy increasing, and cellular health improved, which in turn gives them the key nutrients for OPTIMAL health. FREE booklet included! Average serving size: Adults: 2-4 oz./day; children 12 and under: 1-2 oz./day.

Health/Naturals

" Young Living's Ningxia Red has become my new go-to for maintaining a lean belly and boosting my immune system. The blend of organic red fruits and vegetables in this vital reds supplement is not only beneficial for my body but also tastes amazing. Plus, knowing that it is infused with whole Ningxia wolfberry puree makes me feel even better about incorporating it into my healthy lifestyle. ~ Emily

" My kids did not know who their doctor was when asked to fill out a form for school. We had not had to go in 10 years for things we used to have to go for! The difference? We started taking Ningxia Red on a daily basis as a family. It's a great feeling. ~ Angie

" I was tired all the time, had aches & pains, and did not feel my usual self. I had so much to get done, but just didn't even feel like I could do it. Everything felt like a chore, even things I once enjoyed. I was told to try Ningxia Red. I did the Ningxia Red Reset that came with 51 packets and was a 14 day protocol. I thought it was worth a try, and I'm sure glad I did. I not only feel better, but I lost 10 lbs in 6 weeks. It's been a game changer for me. ~ Lance

Healthy Home & CHEMICAL-FREE LIVING

Petrochemical Weight Loss

There are two parts to this protocol. You have to use the Citrus Fresh/Ledum mixture to break up the fat. Then you need to take Grapefruit by the capsule to digest what the Citrus Fresh /Ledum broke up.

Weight Loss Bundle - 2 Month Supply

Includes 2 Grapefruit, 2 Citrus Fresh, 1 Ledium, Cel-lite Massage Oil & Capsules. (2-month supply, see order form for other ordering options). Instructions & Recipe Booklet included.

$179

Testimony (Sarah S.) – I listened to Gary Young in Dallas in 2003 and received the recipe for Petrochemical weight loss. After doing this: My skin firmed up nice and tight. My jaw line firmed up where I put the Citrus Fresh. The Grapefruit balanced out my hormones, and I began to have a regular menstrual cycle without pain or discomfort. I kept my complexion clean with Lemon oil. I only use Young Living brand essential oils because of their unadulterated purity. He said that saturation was the key to weight loss. He described how the body stores environmental toxins in our fat cells to save them from being deposited in our organs and wreaking havoc. This continues a vicious cycle where we grow larger fat cells which can store more toxins. Essential oils work with your body in activating enzymes that help the body break down fat. ***The Citrus Fresh with Ledum breaks up the fat, and the Grapefruit by capsule digests the fat. Grapefruit essential oil is an excellent diuretic and lymphatic stimulant. Please keep in mind that cellulite is literally toxins being stored in the fat cells.***

At Mushroom Maiden Farm, we believe in the same enduring principles that guide our communities: faith, family, stewardship of the land, and honest work done well. In a world that often rushes toward shortcuts, we choose a simpler, more transparent path, growing and crafting our products with care, patience, and integrity.

Our mushrooms are cultivated high in the Appalachian Mountains, where clean air, pure water, and rich forest traditions shape their strength. Every batch is tested by an independent lab to ensure purity and quality. We use 100% fruiting bodies, the part of the mushroom where the most valuable nutrients are found, so you receive only the best of what nature provides.

Our Lion's Mane mushroom capsules are carefully prepared to support clarity and well-being, made without fillers or unnecessary additives. Alongside them, we offer two wholesome varieties of coffee, a smooth and robust dark Arabica bean, roasted for rich flavor and steady comfort and a dark Arabica bean Cinnamon Breakfast Roll coffee. To season your table, choose from four distinct mushroom enhanced salts. We offer a Wild Hickory Cold-Smoked Salt, Himalayan Pink, Sriracha, and Thai Ginger, each crafted to complement honest, home-cooked meals.

As a 100% woman-owned farm, we value humility, hard work, and transparency in every step, from growing to packaging. We are committed to straightforward practices and products you can trust for your home and family.

Simple ingredients. Careful hands. Honest quality. That is the Mushroom Maiden promise.

SPRIGS® SPOTLIGHT

*For years, **Sprigs** has been trusted for pregnancy, children, and family wellness. If you're a mama starting your family, or maybe you're planning to start soon, then our Mama Bear Active Labor is for you!*

The Bottle You'll Be Glad You Packed

When labor needs a little help moving forward

My water broke first, and I used Active Labor to get labor going. It helped all around — my 2nd stage was only about 7 minutes! I'd definitely want to have it on hand at such times." — E. Miller

Stories like this one are common with **Active Labor**, and there is a reason why. It is a simple blend of four herbs midwives have trusted for generations. Blue cohosh helps coordinate contractions and bring blood flow to the pelvic area. Black cohosh helps make those contractions productive rather than scattered. Motherwort steadies the heart and eases the tension that comes with a stop-and-start labor. And red raspberry leaf tones the uterine muscle so it can work efficiently. Together they support the body in doing what it was designed to do — without forcing or rushing it.

That is why so many say the same thing afterward: they were glad they had it packed.

"It helped to get my labor started again after it had almost stopped, and it sure helped right away!" — C. Byler

It is the kind of support you would rather have and not need than need and not have. Whether you are laboring at home or in the hospital, it tucks easily into a birth kit — right where you'll be glad to find it.

Weston leads the company's strategic planning, organizational development, and culture, believing that healthy businesses create opportunities to bless employees, strengthen communities, generate wealth, and fuel missions.

Before entering the business world, Weston and his wife, Charity, spent more than a decade living among the Komba people of northern Ghana. There they helped catalyze a disciple-making movement that resulted in multiple generations of church planting while also leading community development initiatives in education, agriculture, and microfinance. Weston also managed the translation and production of the first Jesus Film in the Komba language and has trained ministry leaders in oral communication strategies for non-literate cultures.

Today, Weston and Charity continue to invest in global missions by serving as trained missionary debriefers, helping cross-cultural workers navigate crisis and life transitions. They live in Winston-Salem, North Carolina, with their three sons, and remain committed to helping people discover how business, leadership, generosity, and the Gospel can work together to transform lives.

How do weighted blankets work?

Science shows that sleeping under weight improves sleep quality, lowers stress, and eases anxiety – and when those things are better, everything's better!

Here's a breakdown of the science that lies underneath our cozy and calming Nappers:

- **Activates the effects of Deep Touch Pressure (DTP)**
  - Increases serotonin (Feel Good Chemical) to make you feel happier and more content
  - Increases melatonin (Sleep Hormone) to lull you into blissful slumber
  - Decreases cortisol (Stress Hormone) to help reduce anxiety and stress
- **Mimics the effects of 'grounding' or 'earthing'**
- **Mimics the sensation of a warm hug**

I miss my old friend Roger Rothhaar. As the old saying goes, "We wore camo when camo wasn't cool." Roger and I were what thousands of fledgling bowhunters called "Heavy Hitters," in more ways than one! We participated in America's great whitetail revolution. We witnessed it come full circle, in many aspects maybe too much, too far and too fast. Many novice deer hunters today only know what they see on television. The future and heritage of our whitetail passion depends on getting back into the woods to hunt these beloved deer for all the right reasons. Roger and his son Ron tell their story in this book. Reading these ideas, experiences and memories offered by real woodsmen is a very valuable opportunity. May the forest be with you.
