Editor's Note

Greetings to all!

The calendar says summer is here, at our house some're home and some're not. The weather we are having is perfect for nearly anybody. The boys have pastime by going outside every day and enjoying the sunshine. Most days they let the puppies out. Sometimes the clumsy German Shepherd pups find their own way out by climbing over the board that is supposed to keep them inside. It took them a while to figure out how to climb over the top and tumble down the other side. The hard landing on the outside has not yet kept them in their nest.

Place your ads early next week, the July 10th edition will have an early deadline which is Tuesday, June 30th . See pages 7 & 8 to place either a classified or display ad.

Thank you for advertising in the Busy Beaver!

Announcing Our Transistion

to better serve the customer

As of August 1st 2026, Jonas Glick will take the training division home to his farm. He will be doing training full time. Here at Archery Equine Center we will continue with our reproduction and sale fitting. Our comitment to serving our clients will stay the same, from colt starting to sale prepping, we will stay committed to providing the same quality service as before.

here are a few graduates from our TRAINING TO SALE PREP PROGRAM

A note from John at Archery Equine Center:

We want to thank Jonas for his 3.5 years here at Archery Equine Center. Our continued growth and Jonas's desire to work at home prompted us to take this step. We look foward to providing you, the customer, with the same level of service. We expect this transistion will be beneficial to our customers, as each business will be able to more fully focus on there respective divisions. Also this will allow more room for horses here at Archery Equine Center without expanding our stalling.

We are expanding our sale-fitting services by offering yearling sale prep for the standardbred yearling sales. Call now with your needs.

We have a few openings to select stallions for the 2027 breeding season. Accepting applications for all breeds.

A note from Jonas at Hidden Hillside Stables:

I want to extend a heartfelt thank-you to John for having patience with me over the course of the last few years, and now with supporting me in taking this big step. We at Hidden Hillside Stables look foward to serving you, the customer, with full-time training. We are also excited to work closely alongside Archery Equine Center to keep the same level of customer service. Get your name in as we already have a few stalls booked!

If you want better nutrition.... you need to start with better soil

WHAT IS BIOCHAR?

Our Biochar is steam activated carbon that is beneficial for our soils and animals

- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.

And God said, "Let there be light."
Genesis 1:3

What if that first light is still woven into your design, and your body knows how to use it for natural daily support?

The founder of Lifewave®, a man of Christian faith, spent decades studying God's creation of light and its connection to the different systems of the human body.

He developed light reflecting patches that signal the daily production of key amino acids and peptides inside the body (similar to how **sunlight signals the production of Vitamin D** through our skin each day).

A mixture of salts, sugars, and amino acids are slowly dried to a precise size and spacing - allowing the patch to trap incoming body heat and adjust the reflected wavelengths back to the body (different wavelengths for different patches)

Wear for **12 hours at a time**, use daily for 6 months for best results

Many report more energy, sharper focus, and better sleep

*We believe everyone has been **fearfully and wonderfully made by God**, and we give personal time, care, and attention for every single person!*

Wholesale pricing available, order what works for you, **no pressure - ever!**

Curcumin C3 Complex® and Bospure® are well-known botanical ingredients that may help promote a healthy inflammatory response. Curcumin, derived from turmeric, has been widely valued for helping soothe occasional joint and muscle discomfort, while Boswellia may support flexibility and ease stiffness. Together, they may be especially helpful for people who want daily support for knees, back, shoulders, and other areas affected by inflammation.

Andrographis, known as andrographolides, have been extensively studied for their ability to help support the body's normal inflammatory response and promote overall resilience.

ParActin® may be particularly beneficial for individuals experiencing joint discomfort, stiffness, or physical stress associated with daily activities. Clinical studies have demonstrated its ability to support joint comfort, mobility, and physical function while helping maintain healthy inflammatory pathways. In addition to its role in pain and inflammation support, Andrographis has been recognized for supporting immune system function and overall wellness. Its inclusion in Relievion helps create a more comprehensive formula that addresses multiple factors contributing to discomfort and reduced mobility.

TESTIMONIALS:

I was suffering daily with headaches and neck pain associated with OS, after taking the Relievion Max for 60 days, I'm completely off pain medication and Ibuprofen. Thanks! – Joe

I have a torn meniscus. After taking Relievion for just 2 days my pain was gone! Amazing relief very fast. – Norman

There are blood tests available to check your fat status. The bottom line is fats are a necessary part of a healthy body. As well as improving your mental health, the essential fats reduce the risk of cancer, heart disease, allergies, arthritis, eczema, and infections. The brain and nervous system are totally dependent on a family of fats. In the past we have had good success with fish oils for dry skin, dandruff, skin rashes, joint pains, memory loss, depression, etc. In the latter 10 years, our results have gradually decreased. I was already aware it did not pay to buy the cheaper brands. By seriously researching the last couple years, we discovered the processing methods used by the well known, expensive brands. We decided the refining process of fish oils is worse than the refining of white, wheat flour. In the beginning the large trawlers spend weeks at sea harvesting the fish. The catch should ideally be quickly transported to a rendering plant. In less ideal situations, the harvest is stored aboard the ship for long periods, degrading in quality. The collection is now heated or cold pressed to extract the oil. The imagineering thought this product is raw and cold pressed, or gently processed, is a marketing ploy. The refinement process involves four major stages: degumming, neutralizing, bleaching, and deodorization. There are up to six processes using heat. In the deodorization, the oil is heated up to 374°F or higher as live steam passes through it at low pressure. The temperature for molecular distillation can reach 395°F. These heating processes cause a significant loss of vitamins A and D and creates harmful trans fats due to high heat. Since almost all of the natural vitamin A and D are removed most producers add synthetic ingredients to be able to show a higher ratio of A&D, EPA, and DHA on the ingredient list on the label. Once the oil is cooled and antioxidants are added to protect the oil from oxidation. Natural antioxidants like ascorbic acid, isolated vitamin E tocopherols from soy, citric acid from GMO corn and common synthetic antioxidants including BHA, BHT, TBHQ and propigallate are added. They use up to 18 processes before the oil is bottled. Some producers use synthetic citrus and fruit flavorings derived from proprietary chemicals. Some companies also add alcohol (which causes inflammations) to prolong shelf life, defeating the ant-inflammatory effect of the omega 3 naturally occurring in the oil. What we have discovered in our research was a company established in 2019 promoting an unrefined salmon oil with no artificial ingredients added. The oil is capsuled and liquid bottled within one hour after the fish is killed. The heat is never raised above 108°F in the process. It has all the natural ingredients in the oil the fish had orginally including 28 omegas which have been destroyed in many other brands of fish oil through the refining and processing procedures. It is probably the only salmon oil with the natural golden color after bottling, available. While we were experimenting with these oils two ladies that had been bothered with the cracked finger tips at the corners healed within one weeks time. Both ladies had been using a very popular, expensive brand of fish oil for 3 months prior to our trial. The name of this oil is Kraftig Fischol (powerful fish oil). It does not supply only EPA and DHA like most other fish oils on the market, but has DPA included. DPA is absorbed into the blood stream and red blood cell lipids 22% better than EPA and DHA. DPA helps to rebalance the ratio of omega-3's to omega-6's which lowers inflammation in the body. This fatty oil can aid in long term memory retention, which in turn boosts brain function. Numerous studies have reported that DPA has a high anti-cancer potential, particularly when it comes to reducing tumor growth in breast, colon, and prostate cancer. Due to its highly anti-inflammatory effects taking DPA may reduce pain caused by rheumatoid arthritis. It can improve mental health issues like depression, anxiety, and schizophrenia. DPA can decrease the risk of heart disease, prevent arterial blockage, and strokes by as much as 40%. India has one of the largest vegetarian populations and also one of the highest rates of blindness which is associated with deficiency in omega-3's. Both eye and brain are built out of DHA. According to research studies, fish oil excels in increasing the omega oils in blood compared to plant sources. Research shows that adding EPA and DHA to the diet of pregnant women positively effects the baby's visual and cognitive (brain) development. Omega-3's also benefit pregnancy by preventing pre-term labor, lowering the risk of preeclampsia. Omega-3 deficiency increases the mother's risk of depression, which may worsen postpartum mood disorders with each subsequent pregnancy.

NATURE'S RITE

Natural Wellness Through Colloidal Silver: A Time-Honored Approach to Family Health

"Our family has used these products for years and we have had great success using them for any accidental wounds in our wood shop. We soak the wound with Digestive & Urinary Support and then apply the wound relief after. We also use the DUS for any flu's or viruses"
Laura Yoder

Your head is pounding, your brow is sweating, and the stabbing discomfort in your gut is the only thing that distracts you from the nausea. You run for the bathroom... you want to run to the hospital, but what can they do for you? It's the middle of the night and you had some bad food. Was it the fruit salad that cousin Mary brought or the macaroni salad that Aunt Anne made? Maybe the turkey wasn't done enough?... Just thinking about it makes it worse. Then... it gets worse. Your kids come rushing into your room holding their bellies. They ate it too. Now what are you going to do?

According to the CDC, millions of people experience digestive distress each year related to something they've eaten. Most of these cases are not linked to major outbreaks and many happen around holiday time when food sits out for too long.

But it's not always just a single meal. Many people deal with ongoing digestive discomfort from time to time, and urinary discomfort is also a common concern, especially for women. These issues can come and go, often without warning, and can disrupt daily life in frustrating ways.

Steven Frank was the founder and innovative herbalist behind Nature's Rite for many years. His formulations have helped thousands achieve more comfortable, healthier lives. Today, Nature's Rite offers over 20 different products and features a whole variety of colloidal silver.

I have been using Nature's Rite products my entire life, for over 30 years. They are the health and wellness practices I was raised on, what I know, and most importantly, what I trust. In my experience, they have proven to be safe, reliable, and well-suited for families.

Nature's Rite products, especially the colloids, are always in my medicine cabinet—on hand and ready.

— Colin Frank

Using antibiotics to rid yourself of a urinary infection often leads to a yeast infection. They can kill off so many good-cultures all over your body that the candida takes over.

The world is not sterile. The concern comes when the numbers of unwanted microbes get so high that your body's natural defenses are overwhelmed. Microbial populations can multiply rapidly under the right conditions.

Don't get lost in the numbers, don't get consumed by worry. There is a way to get those children feeling better and back to sleep in an hour. There is a way to do this safely and without antibiotics or hospital emergency rooms. There is a way to help restore your digestive and urinary tract.

By now you must be screaming, "What is it already!!??" The answer is an **enhanced aqueous colloid of silver.** Years of laboratory research on microorganisms have explored how properly prepared silver colloids interact with a wide range of environmental microbes.

Not just any silver colloid is created the same. Some preparations are too weak (less than 20 parts per million), while others are pushed to extremely high concentrations like 250 or 500 parts per million (ppm) by adding sugars, citrates, or proteins. These variations can significantly change how the silver behaves.

As it turns out, a properly prepared **colloid in the range of 40 to 60** ppm creates a more stable and effective formulation. **This balance is what makes the difference.**

If you want to know
whether they will work for you,
then **you have to try them.**

CRAFTED IN THE USA AND BACKED BY OUR 30-DAY MONEY-BACK GUARANTEE.

Silver Colloid as a Household Essential

When your body starts sending those early signals that something isn't right, having the right support on hand can make all the difference. Acting early and supporting your body's natural processes is often the key to staying ahead of discomfort and getting back to feeling like yourself.

Whether it's something you ate, seasonal challenges, or everyday environmental exposures, having trusted options at home and even on the go can bring peace of mind when you need it most. Once it becomes part of your routine, it's something you'll never want to be without.

At Mushroom Maiden Farm, we believe in the same enduring principles that guide our communities: faith, family, stewardship of the land, and honest work done well. In a world that often rushes toward shortcuts, we choose a simpler, more transparent path, growing and crafting our products with care, patience, and integrity.

Our mushrooms are cultivated high in the Appalachian Mountains, where clean air, pure water, and rich forest traditions shape their strength. Every batch is tested by an independent lab to ensure purity and quality. We use 100% fruiting bodies, the part of the mushroom where the most valuable nutrients are found, so you receive only the best of what nature provides.

Our Lion's Mane mushroom capsules are carefully prepared to support clarity and well-being, made without fillers or unnecessary additives. Alongside them, we offer two wholesome varieties of coffee, a smooth and robust dark Arabica bean, roasted for rich flavor and steady comfort and a dark Arabica bean Cinnamon Breakfast Roll coffee. To season your table, choose from four distinct mushroom enhanced salts. We offer a Wild Hickory Cold-Smoked Salt, Himalayan Pink, Sriracha, and Thai Ginger, each crafted to complement honest, home-cooked meals.

As a 100% woman-owned farm, we value humility, hard work, and transparency in every step, from growing to packaging. We are committed to straightforward practices and products you can trust for your home and family.

Simple ingredients. Careful hands. Honest quality. That is the Mushroom Maiden promise.

Success Story

"After dealing with a concussion and Lyme disease, I struggled every day with dizziness, headaches, chronic pain, stomach issues, and severe brain fog. I had gone through multiple treatments with little improvement until I came to Apex Chiropractic & Wellness Center. From the beginning, their team truly listened, took the time to understand everything I was experiencing, and created a personalized treatment plan that completely changed my life. My dizziness and headaches have improved tremendously, my brain fog has cleared, and I finally have more energy and feel like myself again. The doctors and staff genuinely care about their patients, and I am incredibly grateful for the care and support I received at Apex Chiropractic & Wellness Center. - Daniel B.

BRIGHTER DAWN

Private Membership Association **RETREAT**

151 Riegles Church Road | Millersburg, PA

Call 717-447-2910

HISTORY: The Retreat was established in 2015, supported by the communities, along with a clinic that was the size of our one-room schoolhouses. In 2018, an addition was added to the Retreat; used for counseling offices, a caregiver station, a resident workshop, and a caregiver dorm area. In 2023, construction started on a subdivided lot for a large 2-story building to provide wellness therapies, medical and functional services, supplement shipping, and a health food store. The new building was intended to support those departments, while the original Brighter Dawn Retreat continued to offer care for the physical and emotional needs of its residents from the conservative communities.

PRESENT: Brighter Dawn Retreat, the original house and property, is still in operation and offering a lot of the same services that were in the original clinic, including supplement sales and health consulting. The new building is presently closed, however, there is community interest in a new business model and financing for the new building, staying with the community wellness vision, but separate from Brighter Dawn Retreat. Meanwhile, at the Retreat, we are here to serve you! For scheduling, call 717-447-2910, Monday through Friday.

FUTURE GOAL: To serve our neighbors, far and near. To continue building a healthy lifestyle. To offer medical alternatives at affordable costs. To serve our Almighty God, in respect and awe... Caring for the weak. 1 Thess. 5:14

Our annual Open House/Supper is scheduled for July 14th, 3-6 PM with financial reports, talks, and a pottery presentation.

Have Cancer Concerns?

Amygdalin (Laetrile) Vitamin B17 is a powerful organic natural substance that works to help control cancer and viruses which can be consumed through seeds or supplements. In the late 1960's, a pioneering physician, Dr. John A. Richardson, MD, dared to treat his cancer patients with a revolutionary treatment that included the use of Laetrile, along with a strict protocol of diet, exercise, and vitamins. It worked remarkably better than orthodox treatments. Apricot seeds contain the highest concentration of B17 found in nature. These seeds also contain high levels of Thiamine/B1 and Omega-3 fatty acids. From cellular health to inflammation to respiratory conditions, this super seed is also great for animals!

How does a *sick, discouraged* young Amish man go from a *miserable*, tick-borne illness and *extreme joint pain* to playing volleyball??

If you'd like to experience the very best natural solutions to maintain your health and avoid resorting to toxic drugs, give me a minute to tell you his story!

This young Amish man came to with a prior diagnosis of Lyme disease. He was in terrible joint pain, and wasn't even able to walk without crutches. You can imagine how discouraged he was to not able to enjoy fellowship with his friends or even work like he wanted. It was a heartbreaking situation, and it was apparent that he was having a hard time staying positive with all the pain he was in. When he came to us, we didn't focus on his diagnosis (we're natural practitioners and we do not work within the disease-management system that seeks "diagnose-treat-cure" symptoms that get grouped together and labeled as a "disease." No! We instead understand that our bodies can heal in seemingly miraculous ways on their own then they are given the right kind of herbal support, nutrition, and care. Nevertheless, this young man ***wasn't even able to work*** due to the excruciating pain he was in...and he was very, very depressed about it.

But there are so many options! **How can you figure out the best natural approaches to use? What will really make a difference?** Every person's body is different, and what works well for one person may not work for another.

Well, he began to work with us using our state-of-the-art saliva and hair testing. We were *fascinated* to identify the exact areas where his body was struggling and needed help. Based on that valuable information, we designed a **completely personalized program for natural healing**—based on *his* results. This program involved some little-known herbal tinctures that were specifically designed to support the body in healing from tick-borne illnesses. We hand-crafted a program with *clear, simple steps* he could take to transform his health. We wanted to give him everything he needed to strengthen his immune system and get his life back. And we didn't guess. This program was based on *exactly* what his body needed to balance his energy levels and detoxify.

And then...? We actually didn't hear from him for several months! What happened? Did we miss it? Did nothing happen? We waited to hear back from him week after week, until one day finally...we we received a hopeful call from him. We discovered that...not only had he gotten off of his crutches and had gotten back to working in the meantime, **he was also able to go back to enjoying volleyball!**

If you're experiencing some health challenges of your own, you can follow the same steps he did.

Please call us if you have ever wondered...

- Do I need to be taking a different probiotic to support my gut health?
- Should I be worried about a tick bite I got? What can I do to boost my body's immune defenses naturally?
- Is there any way I can approach healing naturally without drugs?
- What vitamins and minerals might be out of balance in my health? What can I do to make sure my body is getting the right things?
- Should I be worried about parasites? Do I need a parasite cleanse?
- ...or even just, "I just don't feel as healthy as I think I should. I'm tired and thoughts just seem fuzzy. What can I do to feel better?"

Everyone's body is different, and that's the point. Don't just go try things blindly. Take steps with confidence!

COMPASS HEALING

717-345-9867

Don't be shy! Call us today for a free initial consultation. We can decide together if this is a good next step for you. Make a decision today to support your body give it the best it deserves...don't gamble with your health. Care for it!

Here's what what you can expect:

- Caring, naturally-minded practitioners who *listen carefully* We want to understand your specific situation and needs (one size *does not* fit all, and we want to hear your story!)
- Get useful feedback about *what's going on in your body* and *what you can do to maintain your health* (we'll test the energy levels of 38 different systems and organs in your body, as well as 75 filters for common issues that can cause disturbances affect your health!)
- Find out exactly what nutritional products and herbal remedies will best help you with your specific health concerns (Stop guessing! Let us help!)
- Get a simple program you can follow to support your health in the areas you may need it most (don't wait for a crisis to make you care for your body—it's the only one you'll ever have in this life!)

Everyone's different, but we *know* better health is possible. Are you in need of some specific, focused, and naturally-minded input that can help you with your health?

P.S. We can complete our detailed coaching calls over the phone, so you don't even have to hire a driver.

Disclaimers: While we are always impressed by ability of our bodies to heal themselves, please understand that individual results may vary. Finally, as natural health advocates…(you know the drill) we do not diagnose, treat, cure, or prevent any disease, and these statements have not been evaluated by the FDA. If you need medical care, please see your medical doctor. BB03

Gnawing hunger IN CUBA

A Cuban father arrives home after a long day of hard work. He counts the coins while his children ask what they will have to eat. His heart breaks as he looks into their pleading eyes.

In another Cuban home, a Christian man feels the stress of his family's gnawing hunger. He knows the strain of caring for his wife as she battles cancer. He knows the agony of needing to decide between a piece of fruit for his ailing wife or the taxi fare to travel home from the hospital.

A woman looks up at her leaking roof. But her leaking roof is the least of her worries. She processes the sorrow of a drinking husband. She thinks about her pantry, which is nearly always empty. Her stomach aches since she hasn't eaten in days. Sadness seems to always lurk at her door.

These are the stories of recent recipients of nutritious canned chicken from CAM's cannery in Ephrata, Pennsylvania, and other food aid made possible through your generous support.

Workers in Cuba share the responses of those who receive desperately needed food.

- **They praise God for His provision.**
- **They weep openly.**
- **Their hands tremble as they clasp the precious gift of food.**
- **A father smiles a vibrant smile—knowing that at least for tomorrow he will have food for his children.**

A CAM staff member who visited Cuba in December wrote: *I must admit, I was and am shocked and troubled by the fact that on the back doorstep of the United States is a country with such need! People vacationing on the beaches of Cuba would be shocked to know that mere miles away children are going to bed with almost nothing to eat, and the struggle for survival is similar to what you might expect in Africa or Haiti.*

In addition to providing canned chicken and other food, we are excited for the opportunity to supply spiritual food for Cuba in the form of much-needed Bibles and Christian family magazines. The dearth of Christian literature is as severe as the dearth of food.

Steel Worker Position

We are looking for hardworking, driven candidates who are interested in serving our customers and fellow team members with excellence.

Our steel workers must be willing to work at height on a continuous basis and have a good professional team player attitude. The steel crews generally meet at the shop at around 5:30 am and get back to the shop at around 4:30 pm. Our jobs are typically within 2 hour radius of Honey Brook.

We look forward to meeting you!

Keystone Steel Structures is a small company that specializes in erecting and finishing steel buildings. The owner started the company in October 2001. The first few years Keystone was only involved in the erection of the steel structure itself. However, due to customer demand, we have chosen to expand the company's services to include supplying a complete pre-engineered metal building package as well as providing general contracting services for an entire project. While we would be happy to erect a structure from any supplier, we are proud to supply our buildings through Whirlwind and Metallic Building Systems. Over the years, we've collected many awards and honors for the work we do with them.

We strive to build our reputation with excellent communication and unrelenting persistence at keeping our promises to supply quality construction. We are committed to delivering great value and service to our customers.
