# Editor's Corner

Good Day Beavers,

What a change of scenery; everything is WHITE again. I was getting used to the spring feeling we were having. I guess we are in that time of the year, right? The weather does look like it won't hang around for too long; the forecast shows 72 for the weekend. 😊

Some of you have noticed that "The Busy Beaver" is no longer in the mailbox; we have started with the Paper Boys in Northern Indiana. If there are boys that need a little side income after school on Friday, this might work for you. Call the office to check on the availabilities in your area if interested.

Hope you all have a good week.

Jon Miller

## From Enemy to Apostle - Set Free By Love & Grace

### Saul of Tarsus...

...was once a fierce enemy of Jesus Christ, hunting down His followers and dragging them to prison. But on the road to Damascus, Saul encountered the risen Savior—and everything changed.

The one who once tried to destroy the church became one of its greatest champions. Paul spent the rest of his life proclaiming the very Gospel he once hated, even becoming a prisoner himself for the name of Jesus (Acts Chapters 8-26).

Today, that same power that transformed Paul's life is still at work as we minister behind prison walls. Through the message of the Gospel, hardened hearts are softened, and broken lives are made new.

**Men and women once bound by sin are becoming prisoners of hope, set free by the love and grace of Jesus Christ.**

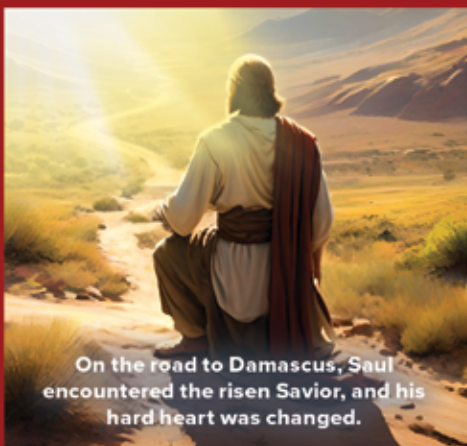

**Join us in bringing this life-changing message to those who need it most...**

**ARE YOU DREADING**  
*Allergy season??*

**DON'T SUFFER FOR 19 YEARS LIKE I DID!!**

*For years I struggled with severe seasonal allergies (Spring & Fall) along with food sensitivities, headaches, chronic hives, chronic fatigue.... All this was part of my miserable everyday life. Thousands of dollars were spent as we searched for help to fix my "leaky gut". Every health practitioner was able to tell me my problem but not one of them was able to help me fix it. It was very depressing. Seven years ago we were introduced to WHOLE FOOD NUTRITION from Tranont and what a life changer! These 7 years have been the best years of my life. All honor and glory to God, our true healer.*

Change Life **TRANONT**

IF YOU ARE SERIOUS about improving your health and getting ahead of your issues.... It's time to get SERIOUS about ingredients!! Did you know that over 95% of supplements today contain synthetic (manufactured) ingredients?? Our bodies were not created to recognize and use these foreign substances! These are NOT what our body needs to heal.

You can **stop** sleep breathing disruptions tonight.

*"I am well pleased with the Sleep Breathing Support. The nice part is I no longer have to use a CPAP machine. I am refreshed, rested and ready to go when I wake up."*  
Elva Chupp

**Crafted with a bouquet of natural herbs.**

Lobelia, used in small doses, can increase the level of respiration. Because the lobelia causes you to breathe more deeply and steadily, it keeps the whole disruptive cycle from even beginning.

Thyme improves the ability of the lungs to exchange carbon dioxide for oxygen and makes an excellent contribution to maintaining sufficient respiratory amplitude.

Chamomile aids the subject in relaxing.

Cramp Bark helps the upper trapezius muscles to loosen.

Hi, I'm Steve Frank.

I have sleep-breathing disruptions at night. I spent years researching the condition and understanding the true cause. After many years, and with my knowledge of herbs, I found an amazing combination that supports deep, steady breathing all night long. This patented blend works great for nighttime sleep-breathing disruptions commonly associated with aging. I haven't worn any mask or tubes in years, and I sleep great. I hope you can too.

Sweet Dreams.

Replace your restless nights with **Sleep Breathing Support™**

Sleep Breathing Support™ by Nature's Rite is a natural way to reduce sleep breathing disruptions and achieve a restful night.

30 Capsules ~~-\$45.99~~ \$36.79

Sleep related breathing disruptions ruin the sleep of an estimated 25 million Americans on a regular basis. Since sleep disruptions can disturb sleep without completely awakening the subject, there are likely millions more undiagnosed sufferers. The condition prevents the sleeper from entering rapid eye movement (REM) and delta sleep—causing them to become anxious, cantankerous and tired during the day. Additionally, due to the nature of the condition, it causes blood oxygen levels to be lower than normal for very prolonged periods of time. This is damaging to the brain and heart in particular.

Treatment options can include weight loss, nasal decongestants, surgery, and oral appliances. Devices, such as a continuous positive airway pressure (CPAP) machine, are commonly used for moderate and severe sleep breathing disruptions. A CPAP device is a forced air mask, worn during sleep that ensures proper inhalation. Experience has shown that 60 percent of patients are not able to tolerate the equipment and ultimately discontinue using it. Others develop respiratory infections from the mask. Sleep Breathing Support™ was designed to do what the above solutions can't address the real cause of the condition.

**The Cause**

When we enter stage two sleep in preparation for REM sleep, where dreaming occurs, muscular activity is inhibited. It is called "reduction of muscle tonus." This is a function that occurs primarily to keep the dreamer from physically acting out the movements of his or her dreams.

If you want to know **whether it will work for you, then you have to try it.**

It is accomplished by suppressing the flow of signals from the brain along the spinal cord. Unfortunately, in those who struggle with sleep breathing disruptions, the reduction in muscle tonus allows the soft palate to sag and the signal from the brain to the diaphragm that keeps you breathing gets inadvertently reduced in strength.

The result of this is that upon entering stage two sleep, the breathing becomes shallower, the blood oxygen level drops and the carbon dioxide level rises until the brain intervenes and causes the body to make a large and immediate inhalation. This causes a large pressure differential in the pharynx and literally sucks the sagging soft palate into the airway. This obstructs the flow and causes a loud snort, partially or fully awakening the subject.

**The Solution**

So you see, the problem is not the sagging soft palate. The problem is not the rapid inhalation that sucks your soft palate into the airway. The problem is the reduced ability of the signal from your brain to produce sufficient breathing amplitude from your diaphragm. The appropriate intervention is to enhance the ability of the brain to communicate with the diaphragm so that you breathe deeply and steadily throughout the night. **That is exactly what the combination of herbs in Sleep Breathing Support™ is intended to do.**

**How pHix's Mature Hops Extract Can Help Stabilize Blood Sugar & Support Diabetes Management**

If you or someone you love struggles with blood sugar swings or diabetes you know how frustrating it can be to find natural solutions that actually work. What if a powerful, science-backed ingredient derived from something as simple as hops—could help? That's where pHix comes in.

**The Blood Sugar & Diabetes Connection**

Unstable blood sugar isn't just about sugar cravings or energy crashes—it's a major factor in metabolic health, weight management, and even long-term complications like diabetes. Traditional approaches often rely on medications with side effects, but what if nature already had a better answer?

**How pHix's Mature Hops Extract Works**

- ✓ Improve Insulin Sensitivity – Helps your body use insulin
- ✓ Slow Glucose Absorption – Supports balanced blood sugar stability
- ✓ Reduce Inflammation – Chronic inflammation

**Why Science Behind It**

Research has shown that certain compounds in hops (like alpha and beta acids) can:

- Activate AMPK (an enzyme that helps regulate metabolism, similar to how exercise does)
- Mimic some effects of diabetes drugs—naturally
- Help reduce oxidative stress, a key driver of diabetic complications

**Real Diabetes –** Helps prevent progression to full diabetes.  
**Type 2 Diabetes –** Support healthier blood sugar levels—naturally.

**The Bottom Line:** Blood sugar issues don't have to control your life. With pHix's unique hops extract, you're not just masking symptoms.

**HERE'S A BREAKDOWN OF WHY FULVIC IS SO VALUABLE:**

**TOXINS ARE EVERYWHERE**

We're exposed daily to heavy metals, pesticides, plastics and pollutants. Fulvic acid supports the body's own detoxification pathways, helping to eliminate noxious environmental contaminants.

**CELLULAR ENERGY**

Fulvic acid supports healthy mitochondrial activity, promoting efficient cellular energy production and enzyme performance.

**GUT HEALTH SUPPORT**

Fulvic acid is a prebiotic, nourishing beneficial gut bacteria and helps maintain normal gut lining integrity—both important for digestive comfort and immune health.

**NUTRIENT DEFICIENCY IS COMMON**

Modern farming can leave soils short on minerals. Fulvic acid supports nutrient transport and supplies trace minerals often missing from today's diet.

## “Lions Mane Talk”

At Mushroom Maiden Farm, we believe in the same enduring principles that guide our communities: faith, family, stewardship of the land, and honest work done well. In a world that often rushes toward shortcuts, we choose a simpler, more transparent path, growing and crafting our products with care, patience, and integrity.

Our mushrooms are cultivated high in the Appalachian Mountains, where clean air, pure water, and rich forest traditions shape their strength. Every batch is tested by an independent lab to ensure purity and quality. We use 100% fruiting bodies, the part of the mushroom where the most valuable nutrients are found, so you receive only the best of what nature provides.

Our Lion’s Mane mushroom capsules are carefully prepared to support clarity and well-being, made without fillers or unnecessary additives. Alongside them, we offer two wholesome varieties of coffee, a smooth and robust dark Arabica bean, roasted for rich flavor and steady comfort and a dark Arabica bean Cinnamon Breakfast Roll coffee. To season your table, choose from four distinct mushroom enhanced salts. We offer a Wild Hickory Cold-Smoked Salt, Himalayan Pink, Sriracha, and Thai Ginger, each crafted to complement honest, home-cooked meals.

As a 100% woman-owned farm, we value humility, hard work, and transparency in every step, from growing to packaging. We are committed to straightforward practices and products you can trust for your home and family.

Simple ingredients. Careful hands. Honest quality. That is the Mushroom Maiden promise.

## “The Hidden Reason the Body Loses Energy...”

### Understanding Health at the Cellular Level

Dear friend,

Over the years, many people have shared a similar concern. They feel more tired than they used to. Work takes more out of them. Recovery is slower. Thinking feels less clear. Something feels off — even though their lab results are often described as “normal.”

To understand why this happens, it helps to look smaller. Inside every cell of the body are tiny structures called mitochondria. Their purpose is simple: to use oxygen and nutrients to produce energy so cells, tissues, and organs can do their work.

You can think of mitochondria like a battery. A car with a weak battery may still run, but it struggles. A flashlight with a dying battery gives little light. In the same way, when mitochondria do not function well, the body operates at a reduced capacity.

Some parts of the body require far more energy than others. The heart, brain, muscles, and liver contain especially large numbers of mitochondria because their work never stops. When cellular energy declines, these areas are often affected first.

The photograph shown here is a basic representation of why cells will not function without energized mitochondria.

The body is designed to protect itself. When oxygen becomes limited, or when internal stress builds over time, mitochondria intentionally slow their activity. This is not a failure. It is a protective response meant to prevent deeper damage inside the cell.

Research shows that under long-term strain — such as inflammation, oxidative stress, or poor oxygen use — cells shift into emergency energy production. This produces far less energy and far more waste.

Over time, the body adapts by slowing down. Many people recognize this pattern long before illness has a name. They simply know they do not feel as well as they once did.

Here’s what some of my clients have to say: **“It was simply explained in a way that made sense. I finally understood why I felt worn down.”** — Missouri. **“It helped us think differently about energy and health.”** — Kansas

Conditions commonly associated with impaired cellular energy: Independent research has shown that reduced mitochondrial function is commonly seen in a wide range of chronic conditions, including Alzheimer’s disease, autism spectrum disorders, cancer, chronic fatigue syndrome, diabetes, heart disease, ischemia & stroke, Lyme-related illness, and Parkinson’s disease. These conditions appear different on the surface, yet many share a common early feature: cells are not producing energy efficiently.

Why blood labs matter: Blood work provides a practical window into how the body is functioning beneath the surface. While labs cannot directly measure mitochondrial activity, they often reveal patterns that reflect how well the body is producing and using energy.

Imbalances in minerals, vitamins, inflammation markers, blood sugar handling, iron levels, liver and kidney function, and oxygen-related markers can all place stress on cellular energy systems. When these patterns are overlooked or dismissed as “normal,” the underlying problem often continues.

Carefully reviewing blood labs helps identify where the body may be under strain and what it may be lacking to function well. This is often where understanding begins.

An opportunity to better understand your health. It should be affordable and reasonable to correct your health. Most families already spend money trying to understand what’s wrong. This provides a clear, educational way to do so.

A personal lab review is available for \$79.99. Individuals may mail in blood work and receive a written explanation of their own lab values in plain language. This option does not include nutrient or product references. Many families choose this option. For those who want additional educational context, a lab review with nutrient education is available for \$179.99. This includes a written lab review, educational information about nutrients the body commonly uses, and a scheduled thirty-minute time to review the report and ask questions. There are no diagnoses, treatment claims, or pressure to purchase anything.

For those who prefer everything handled from the beginning, labs can be ordered and fully reviewed for \$549.99. This includes lab ordering, written explanation of results, educational nutrient pathway information, and scheduled time to review the report. (When you order labs before February 28, 2026 the price is: \$499.99)

P.S. Interpreting lab information involves more than reading and sharing advice. Proper understanding comes from experience, careful study, and access to reliable, up to date information, modern testing methods, and using technology to review lab data accurately. This helps ensure decisions are made responsibly and with clarity.

P.P.S. If you would like a second opinion or simply want help understanding your lab work more clearly, you are welcome to contact me.

# BEFORE YOU LET ANYONE TREAT YOUR BACK OR NECK PAIN... READ THIS.

The wrong treatment can make a disc injury worse— and surgery is rarely the first answer.

*My wife suffered with low back pain for several decades. She visited maybe 10 different doctors who helped her for a while but never got to the root of the problem. Her legs hurt, she was restless at night, unable to do garden work, lawn work, or keep up the housework. One year after beginning treatment at MDC she is able to do all those things in a normal way again. We thank God for his Healing, grace and blessing the doctors with wisdom, knowledge, and the willingness to serve.*

## If your pain is:

- Stopping you from working your land or trade
- Keeping you from lifting or caring for your children
- Making household work difficult or impossible
- Causing leg pain, numbness, or weakness
- Waking you through the night
- Limiting your ability to serve your family and community

*Your situation may be more serious than you have been told. You deserve a real answer before making any permanent decision.*

## Every Month, Families tell us they were told:

- “ You just need injections.”
- “You’ll have to live with it.”
- “Surgery may be your only option.”

## But no one explained:

Was the disc properly evaluated before treatment began? Muscle pain and disc injuries are not the same thing. The wrong treatment does not fix the real problem.

## We focus only on spinal discs.

# Froman Hill

## BOYS RANCH

*Restoring Hope through Discipleship*

*Froman Hill Boys Ranch is a residence for minor boys from the horse and buggy churches. To act as a refuge while dealing with emotional, moral and spiritual needs.*

### LOOKING TO SERVE?

**We are in need of Big Brothers and Houseparents!**  
**If interested call 330-343-8055.**

We enjoy being house parents at Froman Hill Boys Ranch. It is very rewarding to see the young resident boys improving as they do their term here. Also, a blessing to see how the big brothers put in time and effort to help the young boys progress. We receive so much more here than what we give. God's Blessings!

-Eli & Mary

Serving as big brother gave me lots of interesting opportunities and challenges, and trying to be a good example as Jesus left behind. It was very fulfilling and rewarding to follow rules and keep up with schedules when working with these struggling, talented young boys. To me it was a blessing, thanks to God.

-Former Big Brother, Jake

**We are in need of work. Looking for simple manual piece work. If you feel led to share, call 330-343-8055 and ask for James.**

My time as a Big Brother at Froman Hill Boys Ranch was worthwhile, meaningful, and inspiring. I'm glad I stepped out of my comfort zone to be a part of something special. The friendships and memories made were worth the time invested. I can honestly say I feel I received more than I gave. To God be the glory and honor!

-Big Brother, Michael

I would like to thank God for the opportunity to serve at Froman Hill Boys Ranch. If you have a desire to do something like this, do it! It truly is an enjoyable and fulfilling experience.

-Former Big Brother, Jared Hershberger

About our weeks we have spent with the Froman Hill Boys as houseparents and cooking for them- we have found it very rewarding and interesting. Would encourage anyone to give it a try. You will be richly blessed!

-The Troyers

*Froman Hill Boys Ranch operates as Integrated Auxiliary of the Ohio Amish Church.*

CLOTHING BUNDLE PROJECT

# Relief after years of difficulty

Adnan\* and his family live in a one-room space in a shop in Yemen. Adnan hopes that one day he will be able to afford a home of his own, but his work as a day laborer does not provide a steady income. He said, "Some days there is work, and some days there is none. But my family still needs food, clothes, medicine, and other necessities."

At a recent distribution by CAM contacts, Adnan's family received clothing, shoes, and school supplies. These gifts brought relief after years of hardship. With gratitude Adnan's wife shared, "I pray that God protects and rewards everyone who showed kindness to our family."

*\*Name changed to protect identity.*

This young boy in Yemen is now the owner of a nice blue shirt given by a generous supporter.

Actual results after 2 applications of BioChar.

## If you want better nutrition... you need to start with better soil

Biochar blends available for various farming needs, call for more information.

### WHAT IS BIOCHAR?

- Our Biochar is steam activated carbon that is beneficial for our soils and animals
- Biochar creates a biology in your soil that saves money on fertilizer inputs.
  - Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
  - Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
  - Mix it to your feed for better animal health, and a good manure.

### WHAT IS THE BENEFIT TO YOU?

- Saves costs over high fertilizer year after year.
- Creates a healthier environment for you and your family.
- No dangerous side effects to humans, animals, or ecosystems.
- Puts more dollars in your pocket.

## MAXIMUM PERFORMANCE HORSE SUPPLEMENT

**Give your horse the minerals that are no longer in the your feed!**

**50 lb Bag Granular \$150, last 5 horses/ 1 month. 50 lb bag pellets \$135 last 50 days/ a**

**horse Pellets for picky eaters, with ulcers, driving horses, Stallions and mares.**

Dave Mast mare was open two years in a row, 30 days on Maximum Performance and she checked in foal with NO Regu-mate.

David Patterson bred for 30 years and always trouble foaling out, weak foals, trouble re-breeding. First season on MP, mare foaled easily, baby running in the stall, plenty of milk, mare cleaned quickly and checked in foal first time bred. Very impressed.

Indiana man had mare running off, cranky, picky eater, put her on pellets, 15 days daughter said, What did you do to the mare? She is so easy to handle, drives great, looks better. MP Pellets. oh my.

Lawrence Schrock, PA said he was one of the few with no OCD's in his yearlings at the sale, thanks Maximum Performance for sound bones, strong muscled yearlings.

Driving horses are under a lot of stress, many have ulcers, tendon issues, hoof problems. There are few minerals in your feed, and this supplement provides what they need to perform at their best, sweat less, warm up faster, reduce muscle soreness, and improve hoof quality and build muscle.

1. If you want to reduce ulcers, acid reflux and build muscle as well.
2. If you want to increase stamina and reduce recovery time, see a difference in 5 days..
3. If you want to calm your mares down, reduce tying up, anxiety and aggression.
4. If you want to enhance elasticity in tendons and ligaments and get nutrients to the hoof. May recover from injuries in half the time, soft tissue and bone.

### Maximum Performance for Breeders

1. If you want to reduce OCD's ( soft bone chips in ankles and hocks).
2. If you want to have mares at peak condition checked in foal.
3. If you want to improve development of your foals.
4. Vets explain OCD's are caused by mineral imbalance first 11 months in womb, not enough Calcium and minerals for the mare.
5. Stallions have better sperm count, maintain muscle mass, reduce OCD's and maintain hoof quality. **contact 502-817-1947**
