Editor's Note

Greetings to all!

We had 2 tenths of an inch of rain this morning and the forecast says there will be more showers this afternoon. So far this year we have been blessed with the right amount of rain.

I was reading about Penguins recently and came across some interesting facts. Penguins are expert divers and swimmers, using their powerful wings or flippers, to chase prey underwater. They can swim up to 15 mph. Most species feed within 15-60 feet from the surface of the water, although the emperor penguins can dive over 1,500 feet below the surface and remain submerged for up to 20 minutes. For the emperor penguin it takes 64-67 days of incubation for a chick to hatch. The males incubate the eggs on their feet in a brood pouch in the cold Antarctic winter, fasting for up to 65 days until hatching.

The deadline for display and classified ads is Wednesday at noon. Thank you for being prompt in getting your ads in on time! Thank you for advertising in the Busy Beaver! We appreciate your business!

Five Check Writing Tips

to prevent against fraud and errors

1. Use a black ink pen for security.
2. Always write the current date on the check.
3. If you make a mistake when writing a check, immediately write the word "VOID" across the front of the check in large letters. Record the check number and date in your check register and write VOID as the description.

4. When writing numerals for the check amount, start your first number as close to the dollar sign as possible. This prevents someone from entering an additional numeral and changing the amount of the check.

5. When writing the payment amount in words, such as "Forty-five dollars", start at the very beginning of the line. Then, draw a line from the word dollars to the end of the space.

For example: "*Forty-five dollars and 50/100* ————————"

Problem tenants, below-market rents, unpaid balances, delayed maintenance, poor communication, and unnecessary expenses can quickly turn a promising rental into a property that barely makes money. Maximum Performance Horse Supplement

Pellets for Horses that are Picky Eaters or Have Ulcers. Also Great for Driving Horses & Stallions!

Here is a young colt with two hind Ankle OCD's and really wormy Date 6-9-20

Hay and grains have fewer minerals today. You really need to supplement for peak performance and breeding nutrition.

50 lb bag-granular, $150 lasts five horses—1 month!

50 lb bag-pellets, $135 lasts one horse—50 days!

Here is the colt 57 days later with NO OCD's in either hind leg and a beautiful shiny coat at 7-27-20

Mr Schwartz's mare was running off with his girls, biting them, he knew she had an ulcer, 15 days on the pellets, she is so calm, warms up nicely, goes longer, stronger and cools down faster. Wow, he was so excited, he wants to breed her, instead of giving her away.

Mr Miller says he had never had stronger colts, jump up right out of the bag, run around the stall and jump over the mare, before she got up. His best year breeding, mares strong after foaling, strong babies, plenty of milk. It was a dream foaling season. He will keep his mares on mp while in foal and after.

Mr Yoder had tried to breed his favorite mare for 12 years, after 30 days on MP she checked in foal. He is so excited.

Mr Yoder bought a mare they said was lame, could only be bred. He put her on mp and 15 days, she was bucking coming out of the barn. He hooked her to the cart and off she went straight down the road. He called and wanted to be a dealer. He said," Anyone with a driving horse needs MP. This is the greatest stuff for driving horses!"

Driving horses are under a lot of stress, many have ulcers, tendon issues, hoof problems. There are few minerals in our feed, and this supplement provides what they need to perform at their best, sweat less, warm up faster, cool down faster, and improve hoof quality.

1. **If you want to reduce ulcers.**
2. **If you want to increase stamina and reduce recovery time—may see a difference in 5 days!**
3. **If you want to increase oxygen for better stamina and improve oxygen to the cells for driving and work horses performance.**
4. **If you want to calm your mares down, reduce tying up, and anxiety.**
5. **If you want to enhance elasticity in tendons and ligaments and get nutrients to the hoof. May recover from injuries in half the time, soft tissue and bone.**

Learn How to Maximize Breeding!

1. **If you want to reduce OCDs, improve fertility.**
2. **If you want to have mares at peak condition ready to be checked in-foal, calm mares down as well.**
3. **If you want to improve development of your foals, strong when born, boost immune system, strong bones.**
4. **Vets explain OCDs are caused by mineral imbalance while mare is in foal.**
5. **First 11 months gestation—not enough calcium and minerals causes bone chips, OCD's.**
6. **Stallions have better sperm count, maintain muscle mass, and maintain hoof quality during breeding season and year round.**

Idaho Whole-Apple Cider Vinegar

GREAT APPLE CIDER VINGAR HAS A "ONE-TWO" PUNCH…

1) Looking for less disease and fewer internal/external parasites this year? THIS ACV has an alkaline forming response in any mammal's body, which is your shield against those issues.

2) The ENERGY and ENZYMES from the Whole-Apples contained in this vinegar are ALL still intact to help boost your livestock's digestion of any feed. The minerals in your feed are 90% bio-available .

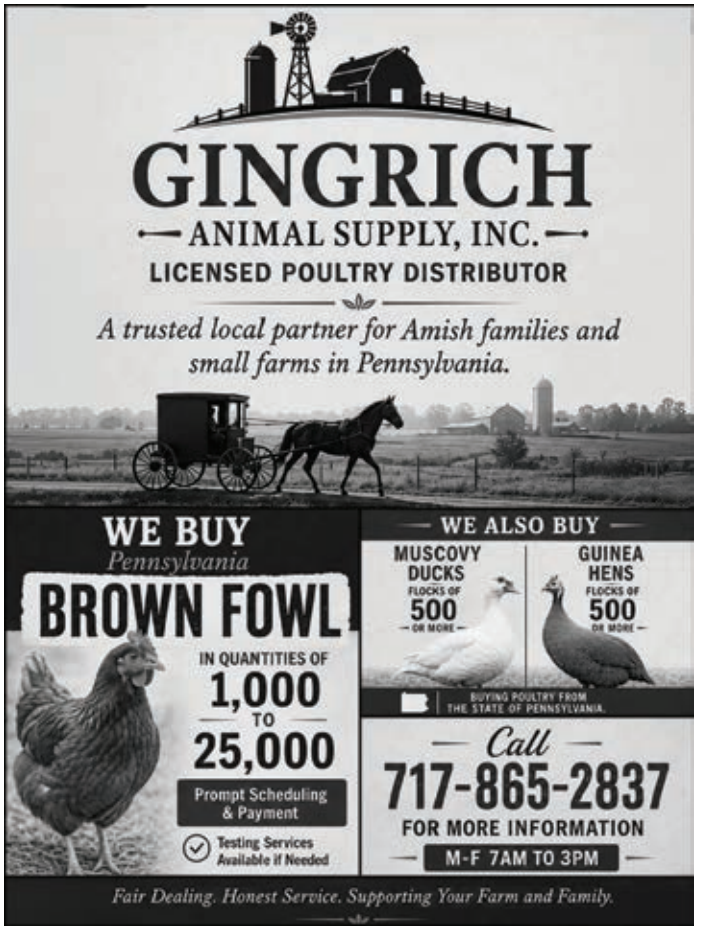

The drier your feed, the better this ACV works!

How would you like a summer where your calves gain more and have less pink-eye?

Hot Weather Puppy Survival Guide

Keeping Newborn Puppies Hydrated and Healthy During Their First 48 Hours

The first 48 hours of a puppy's life are often the most critical. During hot summer weather, dehydration can develop quickly, especially in smaller puppies or large litters. Careful observation and early intervention can make all the difference.

Five Ways to Help Prevent Dehydration

1 Keep the whelping area cool and comfortable

Newborn puppies cannot regulate their body temperature efficiently. While they need warmth, excessive heat can be dangerous. Keep the whelping area out of direct sunlight and ensure good air circulation. Provide enough room for puppies to move away from the warmest area when needed.

2 Watch nursing closely

Frequent nursing is one of the best defenses against dehydration. Check throughout the day to make sure every puppy is finding a nipple and actively nursing. Smaller puppies may need help gaining access to the mother.

3 Weigh puppies daily

A digital kitchen scale is one of a breeder's most useful tools. Healthy puppies should show consistent weight gain. Weight loss or failure to gain weight is often one of the first signs that a puppy is not receiving enough fluids or nutrition.

4 Keep Mom Hydrated

A well-hydrated mother is better able to support milk production. Make sure she always has access to fresh, clean water, especially during hot weather. Wet food and high-quality nutrition can also support her during nursing.

5 Learn the warning signs

Contact your veterinarian promptly if a puppy:

- Cries continuously
- Feels unusually hot or cold
- Appears weak or lethargic
- Stops nursing
- Loses weight
- Has diarrhea or vomiting
- Appears dehydrated or has dry gums

A digital kitchen scale is one of a breeder's most useful tools during the first days of life.

The first sign is often a small one. Monitor the puppy every day.

Call 717-614-9484 for your pet care needs. King's Pet

A Strong Start Begins in the First 48 Hours

Healthy newborn puppies depend on a few basic conditions: warmth, frequent nursing, adequate nutrition, clean bedding, and close observation. Use this checklist to monitor each puppy individually during the first two days.

FIRST 48-HOUR CHECKLIST

Colostrum Is Critical

The first milk produced by the mother, known as colostrum, provides antibodies and important nutrients that help protect newborn puppies. Make every effort to ensure each puppy nurses within the first few hours after birth.

Monitor Every Puppy Individually

Do not assume every puppy is thriving simply because the litter appears healthy. Check each puppy several times daily for activity, warmth, weight gain, and nursing success.

Keep Bedding Clean and Dry

Wet or soiled bedding can contribute to chilling, bacterial growth, and stress. Fresh bedding helps maintain a healthier environment for both the puppies and their mother.

Prevent Crushing Accidents

A tired mother can accidentally lie on a puppy. Check the litter frequently, especially during the first few days after whelping.

Work Quickly When Problems Arise

Newborn puppies can decline rapidly. A puppy that misses nursing sessions, loses weight, or becomes weak should be evaluated promptly. Early action often leads to better outcomes.

KEEP THESE SUPPLIES READY

Problems during whelping and nursing do not always allow time for a trip to the store. Many breeders prepare a basic newborn care kit before labor begins.

For the Nursing Mother

K9 CALCIUM BY ELITE NUTRITION
Many experienced breeders use K9 Calcium during whelping and throughout nursing to help support maternal calcium demands and overall performance during lactation.

Always follow label directions and consult your veterinarian regarding supplementation needs.

For Newborn Puppy Support

ASAP
Many breeders keep ASAP on hand for puppies that need additional support after birth. When used according to product directions, it can be a helpful addition to a breeder's newborn care kit.

Use only according to product directions and seek veterinary guidance when a puppy appears weak, stops nursing, or shows other signs of distress.

Looking for your milk bonus?

A farmer wrote to us saying how he lowered his cows SCC and his milk inspector is really pleased. This is what he did:

1. CMT every cow in the barn.
2. Mark all high quarters with a crayon.
3. Use Hornet Udder Tonic on those quarters once a day for 3 days.
4. Cover every quarter with Super Cow Udder Mint twice a day for 7 days.

The money he spent on his cows, he received back from the bonus!

1 bottle is enough for 4 quarters

If you want better nutrition.... you need to start with better soil

OVB
OHIO VALLEY BIOCHAR
There is a Better Way

WHAT IS BIOCHAR?

Our Biochar is steam activated carbon that is beneficial for our soils and animals

- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.

Do you want BIGGER bucks on your food plot?

Now is the time to apply Ohio Valley BioChar to your food plots!

Biochar blends available for various farming needs, call for more information.

WHAT IS THE BENEFIT TO YOU?

- Saves costs over high fertilizer year after year.
- Creates a healthier environment for you and your family.
- No dangerous side effects to humans, animals, or ecosystems.
- Puts more dollars in your pocket.

Actual results after application of OVB Food Plot Blend.

NEW BOOK!

FAIRBANKS OR Bust

"ARE YOU RUNNING AWAY FROM HOME?"

Crazy questions. Hitchhiking to break up the monotony. Tragic news from back home. Headwinds. Bears. New friends and many memories.

Nathan Yoder's 9,230-mile biking excursion to Alaska and back was about more than just riding his two-wheeled companion, Stella. It was about overcoming a life-changing health diagnosis. Along the way, he encountered adventures by day and by night—sleeping under the stars, in an abandoned school bus, in deserted houses, and even on top of dried-out cow manure in an old barn. Each hardship made him even more determined to achieve his dream.

Could he do it? Was it possible for a diabetic to accomplish such a feat? Or would he die somewhere in the wilderness? Ride along as the adventurous 27-year-old thwarts the challenges of his Type 1 diabetes, and watch as his worldview changes one pedal at a time.

Hard Cover - Includes maps of bike route and two photo sections

it could be your thyroid!

Real Patients. Real Results.

I was having thyroid problems for several years. I tried other supplements and products with little improvement. I saw the ad in the budget and decided to try it. Now after six months I have more energy, sleep better and have overall better health. I was always able to reach out to them. Great people, great program.
– Dan Stoltzfus, Pennsylvania

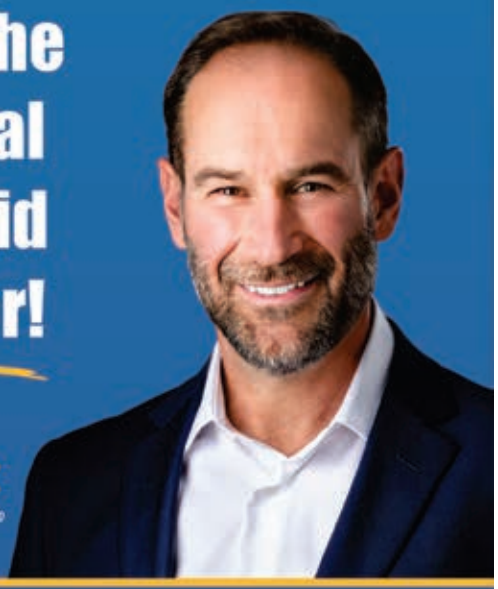

I can honestly say this program has helped more than about any other products with my tiredness and low energy. I can now do a full days work and even something else in the evening without feeling wiped out. By doing the blood tests they found exactly what was wrong, and what I needed. Thanks to god for the healing.
– Leah Miller, Ohio

I can get up in the morning and feel refreshed. I am completely off medication for high blood pressure. My menstrual cycles have come back to normal. lots of other things have improved that I didn't know were connected to my thyroid. Thanks so much!
– Kathyrn Yoder, Missouri

I had autoimmune thyroid disease, blood sugar problems and low vitamin d and iron. After being on their program I feel so much better! I actually feel like doing something instead of having to force myself. My depression is gone, I don't worry like I used to and I have lost 41 pounds. It's great to finally have energy again and enjoy being around people. I encourage anyone struggling to try them.
– Sue Albrecht, Michigan

I was put on Armour for an underactive thyroid and was taking it for a year. I was still not feeling well. Come to find out I didn't need to be on any medication to begin with. My hormones are now balanced and I feel better with no medication. It's nice to see and feel the results.
– S. King, Pennsylvania

Want to get a body overhaul *— try a massage from Susan.*

I used to have many tight areas,… shoulder, leg aches. My feet would hurt and my hands went numb, tiggly and even hurt at night. It greatly disturbed my sleep.

Before I met Susan, for a time I traveled approx. an hour to get massages. The massages were mostly good, but the distance was a problem. I was so grateful to find Susan and she was local.

I went every two weeks at first. After several months I was able to go to 3 or 4 weeks as maintenance. I was so grateful that I got great results.

Susan respects me as a person and respects my privacy. She takes time to explain what she is doing and how it should help me. I don't feel rushed when I am with her. She works on the areas that I mention to her as my problem areas. I leave her place feeling refreshed physically, emotionally and mentally. I feel ready to face the world!

I carry my stress in my shoulders and lower back. Susan has the perfect touch to help ease that tension! She is skilled and knowledgeable and offers additional at home therapies for me to do to maintain the progress we've made!

I'm 83 years old and it has helped my arm to fix my hair better and also with the kink in my neck as well as to sleep better.

I came to Susan because I dealt with alot of tight/sore muscles especially in the neck and shoulder area. She helped me tremendously and the massages is always very relaxing!

Your body wants to heal. I help it remember.

PSYLLIUM HUSK ORGANIC

NEW!

Psyllium husk traditionally provides an excellent source of dietary fiber, which is often lacking in the American diet. Psyllium husk is a bulk-forming fiber which helps to initiate the natural movement of the bowel and improve the overall health of the colon. Psyllium husk supplies gentle cleansing action to the body - unlike many laxative products, which can be irritating to the gut. Psyllium husk contains both soluble and insoluble fiber for a more complete fiber product. Our organic whole psyllium husk offers a natural, gentle source of fiber, which can help promote proper digestion, regularity and support healthy cholesterol levels in the body for individuals already within a normal range. A daily fiber intake of 25-30 grams per day is recommended for good health. Supports a low carbohydrate diet with added necessary fiber. Diets low in saturated fat and cholesterol that include 7 grams of soluble fiber per day from psyllium husk (or seed husks) may reduce the risk of heart disease. One serving of our organic whole psyllium husk provides 2.7 grams of this soluble fiber.

TAURINE

Taurine is an amino acid that supports nervous system health, cardiovascular function, hydration, and overall brain health. It also promotes nerve impulses, stabilizes cell membranes, and aids cellular function. Additionally, taurine is being studies for its role in exercise performance, as it is found in high concentrations in muscle tissue. Our vegan friendly formula offers a convenient option for those who may have lower taurine levels, such as vegans and older adults.

Introducing

Soothe the ache. Support the day

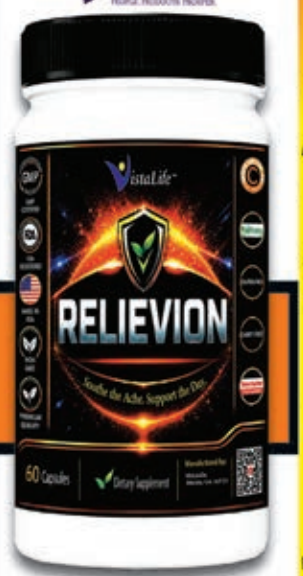

RELIEVION®

Relief you can feel. Life you can enjoy

Vistalife's Relievion is formulated with carefully selected ingredients designed to help support the body's natural response to discomfort and promote overall wellness. When used as part of a comprehensive health plan, Relievion may help individuals maintain comfort, mobility, and a better quality of life, allowing them to focus on the activities they enjoy most.

Why These Ingredients Work Together
Relievion combines five scientifically researched ingredients that address pain and inflammation from multiple angles. Curcumin C3 Complex® and Bospure® help support a healthy inflammatory response. Collavant® n2 focuses on joint structure and cartilage support. AstaReal® helps combat oxidative stress that can contribute to discomfort and tissue damage. ParActin® provides additional inflammatory and immune support. Together, these ingredients create a comprehensive wellness formula designed to support comfort, flexibility, mobility, recovery, and overall quality of life. Rather than relying on a single mechanism, Relievion provides broad-spectrum support for individuals seeking a natural approach to managing everyday pain and inflammation while maintaining an active lifestyle.

Curcumin C3 Complex® and Bospure® are well-known botanical ingredients that may help promote a healthy inflammatory response. Curcumin, derived from turmeric, has been widely valued for helping soothe occasional joint and muscle discomfort, while Boswellia may support flexibility and ease stiffness. Together, they may be especially helpful for people who want daily support for knees, back, shoulders, and other areas affected by inflammation.

Andrographis, known as andrographolides, have been extensively studied for their ability to help support the body's normal inflammatory response and promote overall resilience.

ParActin® may be particularly beneficial for individuals experiencing joint discomfort, stiffness, or physical stress associated with daily activities. Clinical studies have demonstrated its ability to support joint comfort, mobility, and physical function while helping maintain healthy inflammatory pathways. In addition to its role in pain and inflammation support, Andrographis has been recognized for supporting immune system function and overall wellness. Its inclusion in Relievion helps create a more comprehensive formula that addresses multiple factors contributing to discomfort and reduced mobility.

TESTIMONIALS:

At Mushroom Maiden Farm, we believe in the same enduring principles that guide our communities: faith, family, stewardship of the land, and honest work done well. In a world that often rushes toward shortcuts, we choose a simpler, more transparent path, growing and crafting our products with care, patience, and integrity.

Our mushrooms are cultivated high in the Appalachian Mountains, where clean air, pure water, and rich forest traditions shape their strength. Every batch is tested by an independent lab to ensure purity and quality. We use 100% fruiting bodies, the part of the mushroom where the most valuable nutrients are found, so you receive only the best of what nature provides.

Our Lion's Mane mushroom capsules are carefully prepared to support clarity and well-being, made without fillers or unnecessary additives. Alongside them, we offer two wholesome varieties of coffee, a smooth and robust dark Arabica bean, roasted for rich flavor and steady comfort and a dark Arabica bean Cinnamon Breakfast Roll coffee. To season your table, choose from four distinct mushroom enhanced salts. We offer a Wild Hickory Cold-Smoked Salt, Himalayan Pink, Sriracha, and Thai Ginger, each crafted to complement honest, home-cooked meals.

As a 100% woman-owned farm, we value humility, hard work, and transparency in every step, from growing to packaging. We are committed to straightforward practices and products you can trust for your home and family.

Simple ingredients. Careful hands. Honest quality. That is the Mushroom Maiden promise.

Frequently asked Question
What is the best way to wash my Napper?
Wash separately in cold water, using mild detergent. If in a washer, select a delicate or permanent press cycle. Avoid fabric softeners and bleach. If using a dryer, tumble dry on low heat. It may take several cycles.
Do not hang on a clothesline to dry, it is very heavy when wet, and prone to stretching. It works well to drape it over a Lifetime table in the sun, and should be dry in roughly the same time period as a comforter. However, for the easiest washing process, take it with you next time you go to the laundromat.

LIVESTOCK GIFTING **opportunity!**

"You're going to sell old Bessie?"

Marcus paused to listen to his wife as he pulled on his boots. He straightened and looked at her. "Yeah . . . that's what I was thinking. Now that we have the 3-year-old road-safe, I didn't think there's any reason to keep Bessie. Do you have another idea?"

His wife, folding laundry at the table, turned, an unfolded towel in her hand, her face thoughtful. "Well . . . I was just thinking this morning when I was having my devotions that . . ." She paused and looked uncertain.

He nodded.

"In my Bible reading recently, I noticed there are all these verses about helping the poor. There's one that says *He that hath pity upon the poor lendeth unto the LORD; and that which he hath given will he pay him again.* That one stuck with me and then there is one I read this morning that says *Blessed is he that considereth the poor: the LORD will deliver him in time of trouble.*

"That got me thinking, do we really regard the poor? It seems we just kind of go on with our own lives."

Her husband, standing by the door, nodded, biting his lip.

"But . . ." he said gently, "with raising all our children, we don't actually have much extra."

She nodded. "Right, I know. But we do have old Bessie. What if we could give her?"

"Who would want old Bessie? How would she help the poor?"

"I was just reading," she said, putting down the towel and stepping to the counter to flip through the previous day's mail. "I was just reading in this postcard how it's possible to donate livestock to charity through our local auction."

"Livestock?"

"Yeah, cows, calves, sheep, goats, even horses. And that made me think of old Bessie."

"Hmmm." He took the postcard and stood looking at it. "That *does* seem pretty simple. Looks like we just have to fill out a simple one page form and send it to CAM Foundation, then drop the livestock off at our local auction under their name. That seems easy enough."

"And," she said, "we can then direct that money to feed poor children or use it to put a Bible in someone's hand who is longing for a Bible."

"That is interesting," he said, nodding. "I'll call them today and get them to send me that form. There really isn't any reason to have Bessie eating our hay when there are children starving, is there?" He gave his wife a quick smile, and she nodded back, her eyes shining.

Please contact us or fill out this form for more information.

- ❑ Please send me free information about donor advised funds and livestock gifting
- ❑ I am interested in a FREE seminar in my community about wills, trusts, and gifting options.

Project Progress

---------- Giving all Honor and Glory to God ----------

We are pleased to announce that the building project for the White Horse Relief Center has officially been paid for in full. If any additional funds come in for the building project, they will be used for other projects within the Relief Center Itself. Thanks so much to everyone that has supported this project so far. We would not have been able to get here without your generosity.

This 2 page ad was for the building fund and any ads that appear in the future will be for the projects that happen inside the Relief Center and not for the building project itself as that is now complete and paid in full....Thanks again!!

Treasured encouragement and teaching for

Christians in Restricted Countries

Kamran* was on a deep search for Truth. As he looked at the people around him—even those claiming religion—he saw arguments, hatred, and slander. None of them offered what he was looking for: a peaceful and loving relationship with God.

One day, during a lunch break on the farm where Kamran worked, he talked to a co-worker. The conversation turned to God. This young co-worker shared some information that was surprising to Kamran—he and his family were Christians. As they talked, Kamran shared about his struggle to read the only Bible he had. The Bible was in a language he could hardly understand, and he struggled to comprehend the little he was able to read.

A few days later, Kamran met this Christian man again. The man brought him several Christian magazines. Kamran recalled this pivotal moment: "He told me I could borrow them but should be careful not to let anyone damage them, as his family enjoyed reading them and wanted to have them back eventually."

"Those magazines fascinated me," Kamran shared. "I asked him if he could lend me more, and we began meeting more often. I visited his family, and his father gave me a copy of the New Testament in [a language I could read]. Then a few months later, his father gave me your contact information, saying that you could send me magazines."

Kamran knew the risk of receiving Christian literature. He started a post office box so his relatives and neighbors would not easily find out. He then began to regularly receive Christian family magazines. Sound teaching from conservative Anabaptist writers became a consistent source of Bible teaching.

Like Kamran, thousands and thousands of Christians in closed and restricted countries long for fellowship with other Christians, but have limited options. They long for encouragement and Bible-based teaching, but have almost no source.

CAM supporters' funds supply Christian family magazines, reminding these believers they are not forgotten. The material encourages them toward faithfulness to Christ as they face the challenges of living under oppressive regimes. The sound articles point them to a life of faithful obedience to the Word of God.

If you wish to help us supply these magazines to those who anxiously await their arrival, your support will be greatly appreciated!
