Taking Christ to the Prisoners

In the darkest hour of the night, Paul and Silas sat imprisoned - chained, beaten, and locked in stocks...

...yet instead of despair, they lifted their voices in song, praising God with unwavering faith. Their worship shook the very foundations of the prison, opening doors and loosening chains—not just their own, but those of every prisoner around them. This powerful testimony reminds us that the Gospel brings freedom even in the most hopeless places.

Our prison ministry follows this example, bringing the light of Christ to men and women behind bars. Through this prison ministry, hearts are being changed and lives set free.

Your financial support allows us to continue this vital work—stuffing care packages for inmates, and delivering them along with Bibles, while reaching out to them through personal testimonies with the message of hope in Jesus Christ.

*Partner with us today,
and help unlock chains with the power of the Gospel.*

Editor's Corner

Hello Everyone,

Faith tells me that no matter what lies ahead of me, God is already there.

We had another heavy rain the last couple of days, and it sounds like we are going to get some more. The last couple of weeks and month went by so fast, it seems like summer is always the busiest time of the year; there is always something to do.

Last weekend we took a short trip to Tennessee, was a different view from what I was used to. It was very beautiful, just a reminder how mighty our God is.

Hope everyone has a great week.

Julie Miller

LIVESTOCK GIFTING opportunity!

“You’re going to sell old Bessie?”

Marcus paused to listen to his wife as he pulled on his boots. He straightened and looked at her. “Yeah . . . that’s what I was thinking. Now that we have the 3-year-old road-safe, I didn’t think there’s any reason to keep Bessie. Do you have another idea?”

His wife, folding laundry at the table, turned, an unfolded towel in her hand, her face thoughtful. “Well . . . I was just thinking this morning when I was having my devotions that . . .” She paused and looked uncertain.

He nodded.

“In my Bible reading recently, I noticed there are all these verses about helping the poor. There’s one that says *He that hath pity upon the poor lendeth unto the LORD; and that which he hath given will he pay him again.* That one stuck with me and then there is one I read this morning that says *Blessed is he that considereth the poor: the LORD will deliver him in time of trouble.*

“That got me thinking, do we really regard the poor? It seems we just kind of go on with our own lives.”

Her husband, standing by the door, nodded, biting his lip.

“But . . .” he said gently, “with raising all our children, we don’t actually have much extra.”

She nodded. “Right, I know. But we do have old Bessie.

What if we could give her?”

“Who would want old Bessie? How would she help the poor?”

“I was just reading,” she said, putting down the towel and stepping to the counter to flip through the previous day’s mail. “I was just reading in this postcard how it’s possible to donate livestock to charity through our local auction.”

“Livestock?”

“Yeah, cows, calves, sheep, goats, even horses. And that made me think of old Bessie.”

“Hmmm.” He took the postcard and stood looking at it. “That *does* seem pretty simple. Looks like we just have to fill out a simple one page form and send it to CAM Foundation, then drop the livestock off at our local auction under their name. That seems easy enough.”

“And,” she said, “we can then direct that money to feed poor children or use it to put a Bible in someone’s hand who is longing for a Bible.”

“That is interesting,” he said, nodding. “I’ll call them today and get them to send me that form. There really isn’t any reason to have Bessie eating our hay when there are children starving, is there?” He gave his wife a quick smile, and she nodded back, her eyes shining.

Please contact us or fill out this form for more information.

- ☐ Please send me free information about donor advised funds and livestock gifting
- ☐ I am interested in a FREE seminar in my community about wills, trusts, and gifting options.
- ☐ I have questions and would like a CAM Foundation staff member to contact me.

The ultimate, relaxed lakefront rental for the whole family!

located in the gorgeous Finger Lakes Region of New York

loaded with lots of family friendly amenities!

pickleball • permanent dock • game room • hot tub/swim spa • sauna • cold plunge • pool table • firepits • games

Island View Cottage is a lakefront vacation home on Lamoka Lake in the Finger Lakes Region of NY.

In the brand new kitchen, large windows and sliding glass doors open out toward the lake, with the expansive deck just beyond. Tucked behind the family room, the game room brings the fun indoors, with a pool table, dartboard and arcade games.

Down at the shoreline, you'll find a permanent dock, several kayaks, gravel beach, and a small sandy play area for the little ones. The island just offshore is a local favorite for swimming, and the lake itself is known for great fishing- with largemouth bass, pike and perch keeping anglers busy.

Gather around the gas firepit on the dock, or the wood-burning firepit along the shore, and let the conversation linger into the evening.

3 bedrooms • 2 bathrooms • 8 guests max • 3100 sq ft

great fishing!

Replace your restless nights with Sleep Breathing Support™

You can **stop** sleep breathing disruptions and restless legs tonight.

Sleep related breathing disruptions ruin the sleep of an estimated 25 million Americans on a regular basis. Since sleep disruptions can disturb sleep without completely awakening the subject, there are likely millions more undiagnosed sufferers. The condition prevents the sleeper from entering rapid eye movement (REM) and delta sleep—causing them to become anxious, cantankerous and tired during the day. Additionally, due to the nature of the condition, it causes blood oxygen levels to be lower than normal for very prolonged periods of time. This is damaging to the brain and heart in particular.

Treatment options can include weight loss, nasal decongestants, surgery, and oral appliances. Devices, such as a continuous positive airway pressure (CPAP) machine, are commonly used for moderate and severe sleep breathing disruptions. A CPAP device is a forced air mask, worn during sleep that ensures proper inhalation.

Hi, I'm Steve Frank.

I have sleep-breathing disruptions at night. I spent years researching the condition and understanding the true cause. After many years, and with my knowledge of herbs, I found an amazing combination that supports deep, steady breathing all night long.

This patented blend works great for nighttime sleep-breathing disruptions commonly associated with aging. I haven't worn any mask or tubes in years, and I sleep great. I hope you can too.

As it turns out, I also dealt with occasional restless legs. So I created a blend of herbs traditionally used to help relax nerves, ease tension, and support circulation. It worked well for her—and I later found it could also support those experiencing restless legs.

I personally use Sleep Breathing Support before bed each night, and I keep Leg Relaxer™ on my nightstand.

Sweet Dreams.

"I am well pleased with the Sleep Breathing Support. The nice part is I no longer have to use a CPAP machine. I am refreshed, rested and ready to go when I wake up." Elva Chupp

30 Capsules ~~\$45.99~~ **\$36.79**

Experience has shown that 60 percent of patients are not able to tolerate the equipment and ultimately discontinue using it. Others develop respiratory infections from the mask. Sleep Breathing Support™ was designed to do what the above solutions can't address the real cause of the condition.

THE CAUSE

When we enter stage two sleep in preparation for REM sleep, where dreaming occurs, muscular activity is inhibited. It is called "reduction of muscle tonus." This is a function that occurs primarily to keep the dreamer from physically acting out the movements of his or her dreams.

It is accomplished by suppressing the flow of signals from the brain along the spinal cord. Unfortunately, in those who struggle with sleep breathing disruptions, the reduction in muscle tonus allows the soft palate to sag and the signal from the brain to the diaphragm that keeps you breathing gets inadvertently reduced in strength.

The result of this is that upon entering stage two sleep, the breathing becomes shallower, the blood oxygen level drops and the carbon dioxide level rises until the brain intervenes and causes the body to make a large and immediate inhalation. This causes a large pressure differential in the pharynx and literally sucks the sagging soft palate into the airway. This obstructs the flow and causes a loud snort, partially or fully awakening the subject.

THE SOLUTION

So you see, the problem is not the sagging soft palate. The problem is not the rapid inhalation that sucks your soft palate into the airway. The problem is the reduced ability of the signal from your brain to produce sufficient breathing amplitude from your diaphragm. The appropriate intervention is to enhance the ability of the brain to communicate with the diaphragm so that you breathe deeply and steadily throughout the night. **That is exactly what the combination of herbs in Sleep Breathing Support™ is intended to do.**

Crafted with a bouquet of natural herbs.

Lobelia, used in small doses, can increase the level of respiration. Because the lobelia causes you to breathe more deeply and steadily, it keeps the whole disruptive cycle from even beginning.

Thyme improves the ability of the lungs to exchange carbon dioxide for oxygen and makes an excellent contribution to maintaining sufficient respiratory amplitude.

Chamomile aids the subject in relaxing.

Cramp Bark helps the upper trapezius muscles to loosen.

When was the last time you truly slept well?

Calm overactive nerves, **restless legs**, and nighttime **leg cramps** with Leg Relaxer™.

No mess. No menthol scent. No harsh chemicals.

Enjoy more comfortable nights and deeper, more restful sleep, night after night.

“Lions Mane Talk”

At Mushroom Maiden Farm, we believe in the same enduring principles that guide our communities: faith, family, stewardship of the land, and honest work done well. In a world that often rushes toward shortcuts, we choose a simpler, more transparent path, growing and crafting our products with care, patience, and integrity.

Our mushrooms are cultivated high in the Appalachian Mountains, where clean air, pure water, and rich forest traditions shape their strength. Every batch is tested by an independent lab to ensure purity and quality. We use 100% fruiting bodies, the part of the mushroom where the most valuable nutrients are found, so you receive only the best of what nature provides.

Our Lion's Mane mushroom capsules are carefully prepared to support clarity and well-being, made without fillers or unnecessary additives. Alongside them, we offer two wholesome varieties of coffee, a smooth and robust dark Arabica bean, roasted for rich flavor and steady comfort and a dark Arabica bean Cinnamon Breakfast Roll coffee. To season your table, choose from four distinct mushroom enhanced salts. We offer a Wild Hickory Cold-Smoked Salt, Himalayan Pink, Sriracha, and Thai Ginger, each crafted to complement honest, home-cooked meals.

As a 100% woman-owned farm, we value humility, hard work, and transparency in every step, from growing to packaging. We are committed to straightforward practices and products you can trust for your home and family.

C. Schmucker in MI

"I bought a pair of Feathersprings and I wouldn't be without them. Now our son wants some too!"

E. Byler

"I was to the point of giving up walking any distance at all due to the burning pain in the balls of my feet. Since I've been wearing Feathersprings, I can walk as far as I want. No more pain!"

S. Zimmerman

Foot problems can occur for many reasons ... getting older, improper shoes, lack of exercise or just by spending long hours on your feet.

When this happens, you might first notice painful corns, calluses, burning skin, tender blisters, and toe cramps. Even worse, bunions, hammertoes, fallen arches, and heel spurs can develop. Even ankle, leg, knee, hip and lower back can start in your feet. **Sadly, when your feet hurt, you hurt all over!**

There is an easy and long-lasting solution called: **Featherspring®** Foot Supports. They help restore the natural support and balance of your feet. Pills, powders, salts, lotions and soaking can only give temporary relief.

Featherspring® Foot Supports are German-made and custom-formed for you from your foot impressions. (Making your foot impressions is easy.) Enjoy **Featherspring®** Foot Supports for amazing, all-day comfort! Premium stainless steel flexes with your foot for both comfort and support. Plus because they're so thin, they'll fit in almost all shoes. Switch one pair between all your shoes for long-lasting comfort.

With Feathersprings you can stand all day, walk, dance, jog or even run in total comfort. **Your feet, ankles, legs, knees, hips – even your back – can find relief.** You see, **Feathersprings** actually support your feet and thereby your entire body. And they do so while absorbing shock and relieving pain.

So, if you're bothered by aches and pains in your feet, legs or lower back, please know that **Feathersprings will bring you relief. It's that simple!**

Try them for a full year. If you're not 100% satisfied, return them for a full refund. Money-Back Guarantee!

PSYLLIUM HUSK ORGANIC

Psyllium husk traditionally provides an excellent source of dietary fiber, which is often lacking in the American diet. Psyllium husk is a bulk-forming fiber which helps to initiate the natural movement of the bowel and improve the overall health of the colon. Psyllium husk supplies gentle cleansing action to the body - unlike many laxative products, which can be irritating to the gut. Psyllium husk contains both soluble and insoluble fiber for a

more complete fiber product. Our organic whole psyllium husk offers a natural, gentle source of fiber, which can help promote proper digestion, regularity and support healthy cholesterol levels in the body for individuals already within a normal range. A daily fiber intake of 25-30 grams per day is recommended for good health. Supports a low carbohydrate diet with added necessary fiber. Diets low in saturated fat and cholesterol that include 7 grams of soluble fiber per day from psyllium husk (or seed husks) may reduce the risk of heart disease. One serving of our organic whole psyllium husk provides 2.7 grams of this soluble fiber.

in muscle tissue. Our vegan friendly formula offers a convenient option for those who may have lower taurine levels, such as vegans and older adults.

Taurine is an amino acid that supports nervous system health, cardiovascular function, hydration, and overall brain health. It also promotes nerve impulses, stabilizes cell membranes, and aids cellular function. Additionally, taurine is being studied for its role in exercise performance, as it is found in high concentrations

Introducing

Soothe the ache.

Support the day.

Relief you can feel. Life you can enjoy.

Vistalife's Relievion is formulated with carefully selected ingredients designed to help support the body's natural response to discomfort and promote overall wellness. When used as part of a comprehensive health plan, Relievion may help individuals maintain comfort, mobility, and a better quality of life, allowing them to focus on the activities they enjoy most.

Why These Ingredients Work Together

Relievion combines five scientifically researched ingredients that address pain and inflammation from multiple angles. Curcumin C3 Complex® and Bospure® help support a healthy inflammatory response. Collavant® n2 focuses on joint structure and cartilage support. AstaReal® helps combat oxidative stress that can contribute to discomfort and tissue damage. ParActin® provides additional inflammatory and immune support. Together, these ingredients create a comprehensive wellness formula designed to support comfort, flexibility, mobility, recovery, and overall quality of life. Rather than relying on a single mechanism, Relievion provides broad-spectrum support for individuals seeking a natural approach to managing everyday pain and inflammation while maintaining an active lifestyle.

Food intolerances can also lead to chronic diseases by creating inflammation within the body. It's a well-known fact that all disease starts with Inflammation. It's like putting watered-down gas in your Honda engine. We all know what happens when you do that!

Imagine what years of inflammatory foods can do to your body over time? We'll do a simple DNA test that recognizes what 600+ different foods/non-food products are causing your body the most harm.

We'll also test you for the 80+ essential minerals, vitamins and nutrients. This portion of the test is a good balance to creating a healthy lifestyle and can boost the immune system and reduce your intolerance levels simply by adding recommended foods to your diet.

Frequently asked Question

What is the best way to wash my Napper?

Wash separately in cold water, using mild detergent. If in a washer, select a delicate or permanent press cycle. Avoid fabric softeners and bleach. If using a dryer, tumble dry on low heat. It may take several cycles.

Do not hang on a clothesline to dry, it is very heavy when wet, and prone to stretching. It works well to drape it over a Lifetime table in the sun, and should be dry in roughly the same time period as a comforter. However, for the easiest washing process, take it with you next time you go to the laundromat.

Froman Hill

BOYS RANCH

Restoring Hope through Discipleship

Froman Hill Boys Ranch is a residence for minor boys from the horse and buggy churches. To act as a refuge while dealing with emotional, moral and spiritual needs.

LOOKING TO SERVE?

We are in need of Big Brothers and Houseparents!

If interested call 330-343-8055.

We enjoy being house parents at Froman Hill Boys Ranch. It is very rewarding to see the young resident boys improving as they do their term here. Also, a blessing to see how the big brothers put in time and effort to help the young boys progress. We receive so much more here than what we give. God's Blessings!

-Eli & Mary

Serving as big brother gave me lots of interesting opportunities and challenges, and trying to be a good example as Jesus left behind. It was very fulfilling and rewarding to follow rules and keep up with schedules when working with these struggling, talented young boys. To me it was a blessing, thanks to God.

-Former Big Brother, Jake

We are in need of work. Looking for simple manual piece work. If you feel led to share, call 330-343-8055 and ask for James.

My time as a Big Brother at Froman Hill Boys Ranch was worthwhile, meaningful, and inspiring. I'm glad I stepped out of my comfort zone to be a part of something special. The friendships and memories made were worth the time invested. I can honestly say I feel I received more than I gave. To God be the glory and honor!

-Big Brother, Michael

I would like to thank God for the opportunity to serve at Froman Hill Boys Ranch. If you have a desire to do something like this, do it! It truly is an enjoyable and fulfilling experience.

-Former Big Brother, Jared Hershberger

About our weeks we have spent with the Froman Hill Boys as houseparents and cooking for them- we have found it very rewarding and interesting. Would encourage anyone to give it a try. You will be richly blessed!

-The Troyers

Froman Hill Boys Ranch operates as Integrated Auxiliary of the Ohio Amish Church.

Treasured encouragement and teaching for

Christians in Restricted Countries

Kamran* was on a deep search for Truth. As he looked at the people around him—even those claiming religion—he saw arguments, hatred, and slander. None of them offered what he was looking for: a peaceful and loving relationship with God.

One day, during a lunch break on the farm where Kamran worked, he talked to a co-worker. The conversation turned to God. This young co-worker shared some information that was surprising to Kamran—he and his family were Christians. As they talked, Kamran shared about his struggle to read the only Bible he had. The Bible was in a language he could hardly understand, and he struggled to comprehend the little he was able to read.

A few days later, Kamran met this Christian man again. The man brought him several Christian magazines. Kamran recalled this pivotal moment: “He told me I could borrow them but should be careful not to let anyone damage them, as his family enjoyed reading them and wanted to have them back eventually.”

“Those magazines fascinated me,” Kamran shared. “I asked him if he could lend me more, and we began meeting more often. I visited his family, and his father gave me a copy

of the New Testament in [a language I could read]. Then a few months later, his father gave me your contact information, saying that you could send me magazines.”

Kamran knew the risk of receiving Christian literature. He started a post office box so his relatives and neighbors would not easily find out. He then began to regularly receive Christian family magazines. Sound teaching from conservative Anabaptist writers became a consistent source of Bible teaching.

Like Kamran, thousands and thousands of Christians in closed and restricted countries long for fellowship with other Christians, but have limited options. They long for encouragement and Bible-based teaching, but have almost no source.

CAM supporters' funds supply Christian family magazines, reminding these believers they are not forgotten. The material encourages them toward faithfulness to Christ as they face the challenges of living under oppressive regimes. The sound articles point them to a life of faithful obedience to the Word of God.

If you wish to help us supply these magazines to those who anxiously await their arrival, your support will be greatly appreciated!

Bobby Eaton is a Christian author, speaker, entrepreneur, and lifelong builder with more than five decades of experience in business and leadership. Beginning his career in masonry at the age of 10, he went on to build successful companies while remaining committed to faith, family, and serving others.

Married to his wife, Sharla, for more than 45 years, Bobby is the proud father of eight children and grandfather of fifteen. His writing and speaking draw from a lifetime of real-world experience, offering practical wisdom and biblical truth to encourage people to build lives of purpose, integrity, and lasting legacy.

Whether writing, mentoring, or speaking, Bobby's passion is simple: helping people build their faith, strengthen their families, and leave a legacy that honors God.

Randy Sadler – Principal, CIC Services, LLC

Randy has been a Principal with CIC Services since 2012. He has been a Marketing and Communications professional since 2007 when he joined Procter & Gamble's Brand Management Group. His career transitions have taken him from P&G to Pfizer Pharmaceuticals to the Ellison Group to Jewelry Television. He now leads Marketing and Client Empowerment for CIC Services, LLC. He has personally worked with over 100 business owners to help them form their own captive insurance company and keep more of their hard-earned profits.

Randy has an entrepreneurial bent and is active in investment real estate. He is an owner and principal in Woodlands Management, LLC. His partnerships manage over 400 residential properties. Randy received his Bachelor of Science degree from the United States Military Academy in 1992.

Randy resides in Knoxville, TN with his lovely bride of 33 years, Shannon. They have five children. Randy and Shannon helped found a Classical Christian School in Knoxville that is entering its 23rd year with over 250 students. Randy still serves as school board president.

Heath Walters – strategic tax planning specialist

Heath Walters is a strategic tax planning specialist who trains and partners with financial advisors to recommend and deliver specialized tax, investment, and legal/estate strategies for their high-net-worth clients. With over 10 years of experience as a CPA and Certified Tax Coach, Heath helps financial planning firms set themselves apart to their ideal clients through coaching and specialized services to complement traditional financial planning. Heath's proven process for client acquisition has led to many advisors doubling their book of business in as little as 24 months. Additionally, Heath has both a Bachelor degree in Accounting and Master of Science in Accounting from Appalachian State University.

Heath is the founder and President of The Walters Way, LLC. Heath was certified as a North Carolina CPA in 2000. He is a Certified Tax Coach as well as an instructor with The American Institute of Certified Tax Planners. Heath also conducts training seminars for financial and wealth advisors, Continuing Professional Education for CPA's, and is a mentor for other CPA's working toward converting their practice to an Advanced Tax Planning firm.

Weston Liebee – President & Co-Owner, Liberty Sheds

Weston is passionate about using business as a means to advance the Kingdom of God. As President and co-owner of Liberty Sheds, a manufacturing and retail company in North Carolina with over 90 employees, he leads in strategic planning, organizational development, and company culture. Weston Liebee is passionate about demonstrating that business can be a powerful tool for advancing the Kingdom of God. He serves as President and co-owner of Liberty Sheds, a growing manufacturing and retail company employing more than 90 people across North Carolina. Weston leads the company's strategic planning, organizational development, and culture, believing that healthy businesses create opportunities to bless employees, strengthen communities, generate wealth, and fuel missions.

Before entering the business world, Weston and his wife, Charity, spent more than a decade living among the Komba people of northern Ghana. There they helped catalyze a disciple-making movement that resulted in multiple generations of church planting while also leading community development initiatives in education, agriculture, and microfinance. Weston also managed the translation and production of the first Jesus Film in the Komba language and has trained ministry leaders in oral communication strategies for non-literate cultures.

Today, Weston and Charity continue to invest in global missions by serving as trained missionary debriefers, helping cross-cultural workers navigate crisis and life transitions. They live in Winston-Salem, North Carolina, with their three sons, and remain committed to helping people discover how business, leadership, generosity, and the Gospel can work together to transform lives.

NEW BOOK!

FAIRBANKS OR *Bust*

"ARE YOU RUNNING AWAY FROM HOME?"

Crazy questions. Hitchhiking to break up the monotony. Tragic news from back home. Headwinds. Bears. New friends and many memories.

Nathan Yoder's 9,230-mile biking excursion to Alaska and back was about more than just riding his two-wheeled companion, Stella. It was about overcoming a life-changing health diagnosis. Along the way, he encountered adventures by day and by night—sleeping under the stars, in an abandoned school bus, in deserted houses, and even on top of dried-out cow manure in an old barn. Each hardship made him even more determined to achieve his dream.

Could he do it? Was it possible for a diabetic to accomplish such a feat? Or would he die somewhere in the wilderness? Ride along as the adventurous 27-year-old thwarts the challenges of his Type 1 diabetes, and watch as his worldview changes one pedal at a time.

Hard Cover - Includes maps of bike route and two photo sections

If you want better nutrition.... you need to start with better soil

WHAT IS BIOCHAR?

Our Biochar is steam activated carbon that is beneficial for our soils and animals

- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.

Do you want BIGGER bucks on your food plot?

Now is the time to apply Ohio Valley
BioChar to your food plots!

Harvested late season
archery from this
food plot

Actual results after
application of OVB
Food Plot Blend.

Biochar blends available for various
farming needs, call for more information.

WHAT IS THE BENEFIT TO YOU?

- Saves costs over high fertilizer year after year.
- Creates a healthier environment for you and your family.
- No dangerous side effects to humans, animals, or ecosystems.
- Puts more dollars in your pocket.

Maximum Performance Horse Supplement

Pellets for Horses that are Picky Eaters or Have Ulcers. Also Great for Driving Horses & Stallions!

Here is a young colt with two hind Ankle OCD's and really wormy
Date 6-9-20

Hay and grains have fewer minerals today. You really need to supplement for peak performance and breeding nutrition.

**50 lb bag-granular, \$150
lasts five horses—1 month!**

**50 lb bag-pellets, \$135
lasts one horse—50 days!**

Here is the colt 57 days later with NO OCD's in either hind leg and a beautiful shiny coat at 7-27-20

Mr Schwartz's mare was running off with his girls, biting them, he knew she had an ulcer, 15 days on the pellets, she is so calm, warms up nicely, goes longer, stronger and cools down faster. Wow, he was so excited, he wants to breed her, instead of giving her away.

Mr Miller says he had never had stronger colts, jump up right out of the bag, run around the stall and jump over the mare, before she got up. His best year breeding, mares strong after foaling, strong babies, plenty of milk. It was a dream foaling season. He will keep his mares on mp while in foal and after.

Mr Yoder had tried to breed his favorite mare for 12 years, after 30 days on MP she checked in foal. He is so excited.

Mr Yoder bought a mare they said was lame, could only be bred. He put her on mp and 15 days, she was bucking coming out of the barn. He hooked her to the cart and off she went straight down the road. He called and wanted to be a dealer. He said, "Anyone with a driving horse needs MP. This is the greatest stuff for driving horses!"

Driving horses are under a lot of stress, many have ulcers, tendon issues, hoof problems. There are few minerals in our feed, and this supplement provides what they need to perform at their best, sweat less, warm up faster, cool down faster, and improve hoof quality.

1. If you want to reduce ulcers.
2. If you want to increase stamina and reduce recovery time—may see a difference in 5 days!
3. If you want to increase oxygen for better stamina and improve oxygen to the cells for driving and work horses performance.
4. If you want to calm your mares down, reduce tying up, and anxiety.
5. If you want to enhance elasticity in tendons and ligaments and get nutrients to the hoof. May recover from injuries in half the time, soft tissue and bone.

Learn How to Maximize Breeding!

1. If you want to reduce OCDs, improve fertility.
2. If you want to have mares at peak condition ready to be checked in-foal, calm mares down as well.
3. If you want to improve development of your foals, strong when born, boost immune system, strong bones.
4. Vets explain OCDs are caused by mineral imbalance while mare is in foal.
5. First 11 months gestation—not enough calcium and minerals causes bone chips, OCD's.
6. Stallions have better sperm count, maintain muscle mass, and maintain hoof quality during breeding season and year round.

HORSE SENSE TIPS

HAY

- Free access to hay 24 hours a day
- Daily intake needed for average weight of a mature horse is approximately 20 pounds daily.
- Hay/Grass/Forage should make up 60 to 100% of the diet
- Most horses need 1½ to 2% of their body weight daily, more in cold weather
- They are grazing animals and do so 60% of the day, grass and quality hay is best
- Eating hay on cold nights helps conserve calories and keep them warm

Tips for Quality Hay

- Open a bale, check for debris
- Best is fine-stemmed, green, leafy hay
- Avoid moldy, dusty, sun-bleached, or over-cured
- Alfalfa should be in early bloom
- Grass hay should not have fully formed seed heads
- Check for insects such as blister beetles
- Very heavy bales may be wet inside-wet is not good

STORAGE

Store hay in a dry, covered area protected from weather and sun. Feed within one year of harvest when possible.

Quality hay is necessary for horse health and performance.

~TESTIMONIAL~

"We are a family operation milking 65 hd of Holstein cows. After some discussion with the Nutra-Glo rep concerning the dairy product, it sounded worth a try. We started feeding it to both our cows and calves. The results on the calves were almost immediate, and the cows also showed improvements in the weeks that followed. As the months turned to years we continued to see more and more improvements, including better somatic cell count, butterfat numbers, and also a lot less vet bills. Nutra-Glo has been a part of our program for over 14 yrs now." —MH, Walnut Lane Farm

ANOTHER BRUISER FOR THE WALL!!
Congratulations to another happy customer on landing this nice 11 point 142" Buck after feeding OVER-160!!

Never seen anything attract deer like Over-160. This buck was first seen while in the velvet stage and he never left the farm until he was shot on the first day of archery. We always struggled to hold deer on our farm, so obviously we are pretty impressed. Another happy Over-160 customer...
