Editor's Note

Greetings!

Even though we got a bit of a later start on our garden this year due to the cooler temperatures lasting into June, it has been more abundant than previous years with a variety of vegetables. Usually we have more tomatoes than we know what to do with, (I bought a canner to handle them this year), but we have not had too many yet. Green beans have been plentiful and we will have a lot of spaghetti squash soon.

The other day my husband was checking out the garden and he found a zucchini hiding in the leaves. It was quite large and heavy - I weighed it and it was 4.5lbs! We have been eating it for days! It's so nice to rely on my garden and not the grocery store; we are getting spoiled with the fresh food from the garden. Unfortunately where we live, it cannot last forever!

Rebuild What Harvest Takes Out So Next Year's Crop Doesn't Start Behind

Soil Maximizer helps put life and nutrients back into tired ground after harvest, so you can go into next year with stronger soil and better yield potential.

Use **Soil Maximizer** after harvest to start rebuilding your soil. Let biology and structure improve over winter so roots go deeper next season. Plant into healthier soil that can carry more crop and make better use of your fertilizer dollars.

Plan for next year now instead of making last minute changes next spring.

Call 315.374.3416 to build a simple Soil Maximizer program for your acres.

Pet-Crumbles

A health supplement with Aloe Vera, Glucosamine, Yucca Shidigera and Probiotics. Helps support a strong immune system, gut health and joint function. For Dogs and Cats

Our dogs are 7, 8, and 16 and they are all benefiting from the product. The 2 younger dogs are large dogs and this helping them move more easily. The 16 year old has a bad hip but with your product he can keep up with the big dogs. Thank you.— Eve-lynn H.

Good Animals Come From Good Stewardship

The horses in your care depend on you. From the work they do in the field to the health they carry through the seasons, their well-being is a responsibility worth taking seriously.

When horses go to pasture, many producers step back on supplements. But rich grass is some of the highest soluble fiber feed a horse's hindgut handles all year and that's when gut health needs the most help, not the least.

E-One™ is formulated with unique Smartbacteria™ microbials, working to help support healthy digestion through pasture season and beyond.

The same trusted Smartbacteria™ that has stood behind P-One™ for dairy cattle for over 25 years. When gut health works the way it should, your animals carry it in how they look, how they work, and how they thrive.

ANOTHER BRUISER FOR THE WALL!!
Congratulations to another happy customer on landing this nice 11 point 142" Buck after feeding OVER-160!!

Never seen anything attract deer like Over-160. This buck was first seen while in the velvet stage and he never left the farm until he was shot on the first day of archery. We always struggled to hold deer on our farm, so obviously we are pretty impressed. Another happy Over-160 customer....

Treasured encouragement and teaching for

Christians in Restricted Countries

Kamran* was on a deep search for Truth. As he looked at the people around him—even those claiming religion—he saw arguments, hatred, and slander. None of them offered what he was looking for: a peaceful and loving relationship with God.

One day, during a lunch break on the farm where Kamran worked, he talked to a co-worker. The conversation turned to God. This young co-worker shared some information that was surprising to Kamran—he and his family were Christians. As they talked, Kamran shared about his struggle to read the only Bible he had. The Bible was in a language he could hardly understand, and he struggled to comprehend the little he was able to read.

A few days later, Kamran met this Christian man again. The man brought him several Christian magazines. Kamran recalled this pivotal moment: “He told me I could borrow them but should be careful not to let anyone damage them, as his family enjoyed reading them and wanted to have them back eventually.”

“Those magazines fascinated me,” Kamran shared. “I asked him if he could lend me more, and we began meeting more often. I visited his family, and his father gave me a copy

of the New Testament in [a language I could read]. Then a few months later, his father gave me your contact information, saying that you could send me magazines.”

Kamran knew the risk of receiving Christian literature. He started a post office box so his relatives and neighbors would not easily find out. He then began to regularly receive Christian family magazines. Sound teaching from conservative Anabaptist writers became a consistent source of Bible teaching.

Like Kamran, thousands and thousands of Christians in closed and restricted countries long for fellowship with other Christians, but have limited options. They long for encouragement and Bible-based teaching, but have almost no source.

CAM supporters' funds supply Christian family magazines, reminding these believers they are not forgotten. The material encourages them toward faithfulness to Christ as they face the challenges of living under oppressive regimes. The sound articles point them to a life of faithful obedience to the Word of God.

If you wish to help us supply these magazines to those who anxiously await their arrival, your support will be greatly appreciated!

Hi, I'm ordering more Mothers Milk. I'm on my last bottle and I don't want to be without it - never could nurse our babies so good. He is gaining so well and don't have to give him a bottle at all. Thank you!

A mother from Indiana writes:

Please send me 3 more bottles of "Mothers Milk". This is my 8th child and I was never able to have enough milk for fully breast feeding. Now my baby is a little over 3 month and still doesn't need the bottle! It seems I had tried everything but this stuff really works! Thanks for a good product!

Another mother from Indiana writes:

I am amazed that it actually works for me since I have never had any luck with herbs/tinctures.... So am very thankful you created this wonderful product!

Frequently asked Question

How do Bearaby blankets get their weight?

The **Cotton Napper** is weighted entirely through hand-knit organic cotton — not beads, not pellets, not hidden fillers. Just pure, breathable cotton loops layered to create natural, even weight. It is precisely engineered with a heavy cotton yarn, and compacted to the perfect density to give you your best nap ever.

The **Tencel Cooling Tree Napper** combines the above process with a blend of Eucalyptis fibers to give you the same effect as the cool side of your pillow, all night long.

HOME & HEALTH

Unroll your pressure point mat and pillow on a flat surface and ease onto it slowly, allowing your body to adjust. The gentle pressure of over 4,000 pressure points works to stimulate circulation, release muscle tension, and support relaxation. Start with 10–15 minutes a day and gradually increase to 20–40 minutes as your body gets used to the sensation. Use daily or as needed to support deep rest, stress relief, and full-body rejuvenation.

I absolutely love this pressure point mat! It's become a part of my daily routine and helps me relax and unwind like nothing else. I've even gifted it to friends, and they're obsessed with it too. Highly recommend for anyone looking to relieve tension and feel amazing! – WTHN Client

What's Included:

SUNFLOWER LECITHIN

NEW!

Lecithin provides nutrients such as phosphatidylcholine, which supports liver health and neurologic transmission in the brain - a key factor in brain health. The phospholipids in lecithin can be incorporated into cell membranes, helping cells to communicate and respond to messages from the environment. Although lecithin is a lipid, it is partially water soluble and can help disperse fats due to its role as an emulsifying compound. This role is critical in the body where fat components and water components must continuously interact.

PEPPERMINT ENZYMES

Digestive enzymes support the body's ability to receive nutrients from food by assisting in the breakdown of carbohydrates and protein obtained from the diet. Certain fruits grown in various parts of the world are known to be naturally high in enzymes. Our chewable Peppermint Enzyme contains natural plant-based enzymes, including those from papaya and pineapple (bromelain), making it ideal for both vegans and non-vegans alike. In addition, peppermint has been used for centuries as a natural digestive aid, while also lending a refreshing flavor.

“Lions Mane Talk”

At Mushroom Maiden Farm, we believe in the same enduring principles that guide our communities: faith, family, stewardship of the land, and honest work done well. In a world that often rushes toward shortcuts, we choose a simpler, more transparent path, growing and crafting our products with care, patience, and integrity.

Our mushrooms are cultivated high in the Appalachian Mountains, where clean air, pure water, and rich forest traditions shape their strength. Every batch is tested by an independent lab to ensure purity and quality. We use 100% fruiting bodies, the part of the mushroom where the most valuable nutrients are found, so you receive only the best of what nature provides.

Our Lion's Mane mushroom capsules are carefully prepared to support clarity and well-being, made without fillers or unnecessary additives. Alongside them, we offer two wholesome varieties of coffee, a smooth and robust dark Arabica bean, roasted for rich flavor and steady comfort and a dark Arabica bean Cinnamon Breakfast Roll coffee. To season your table, choose from four distinct mushroom enhanced salts. We offer a Wild Hickory Cold-Smoked Salt, Himalayan Pink, Sriracha, and Thai Ginger, each crafted to complement honest, home-cooked meals.

As a 100% woman-owned farm, we value humility, hard work, and transparency in every step, from growing to packaging. We are committed to straightforward practices and products you can trust for your home and family.

Simple ingredients. Careful hands. Honest quality. That is the Mushroom Maiden promise.

If you want better nutrition.... you need to start with better soil

WHAT IS BIOCHAR?

Our Biochar is steam activated carbon that is beneficial for our soils and animals

- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.
