Editor's Corner

Hello,

The warm summer is life's reminder to slow down, soak in the sunshine, and let your soul bloom like wildflowers in the warm breeze. Some really warm days we are having. Temperature hit 100 degrees last week!! I always thought an outdoor job would be fun, but am extra thankful for my indoor job these days. "What good is the Warmth of Summer without the Cold of Winter to give it sweetness."

You all stay cool & hydrated!!

Have a good week ,
Ruby Yoder

MAXIMUM PERFORMANCE HORSE SUPPLEMENT

Give your horse the minerals that are no longer in the your feed!

50 lb Bag Granular $150, last 5 horses/ 1 month. 50 lb bag pellets $135 last 50 days/ a horse Pellets for picky eaters, with ulcers, driving horses, Stallions and mares.

Dave Mast mare was open two years in a row, 30 days on Maximum Performance and she checked in foal with NO Regu-mate.

David Patterson bred for 30 years and always trouble foaling out, weak foals, trouble re-breeding. First season on MP, mare foaled easily, baby running in the stall, plenty of milk, mare cleaned quickly and checked in foal first time bred. Very impressed.

Indiana man had mare running off, cranky, picky eater, put her on pellets, 15 days daughter said, What did you do to the mare? She is so easy to handle, drives great, looks better. MP Pellets. oh my.

Lawrence Schrock, PA said he was one of the few with no OCD's in his yearlings at the sale, thanks Maximum Performance for sound bones, strong muscled yearlings.

Driving horses are under a lot of stress, many have ulcers, tendon issues, hoof problems. There are few minerals in your feed, and this supplement provides what they need to perform at their best, sweat less, warm up faster, reduce muscle soreness, and improve hoof quality and build muscle.

1. **If you want to reduce ulcers, acid reflux and build muscle as well.**
2. **If you want to increase stamina and reduce recovery time, see a difference in 5 days..**
3. **If you want to calm your mares down, reduce tying up, anxiety and agression.**
4. **If you want to enhance elasticity in tendons and ligaments and get nutrients to the hoof. May recover from injuries in half the time, soft tissue and bone.**

Maximum Performance for Breeders

1. **If you want to reduce OCD's (soft bone chips in ankles and hocks).**
2. **If you want to have mares at peak condition checked in foal.**
3. **If you want to improve development of your foals.**
4. **Vets explain OCD's are caused by mineral imbalance first 11 months in womb, not enough Calcium and minerals for the mare.**
5. **Stallions have better sperm count, maintain muscle mass, reduce OCD's and maintain hoof quality. contact 502-817-1947**

If you want better nutrition.... you need to start with better soil

WHAT IS BIOCHAR?

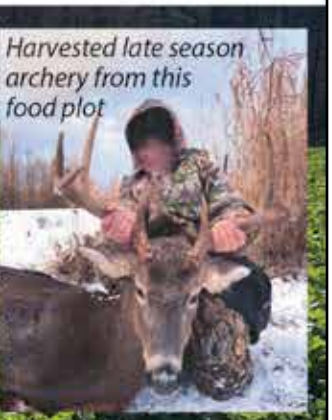

Our Biochar is steam activated carbon that is beneficial for our soils and animals

- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.

Customer Testimonial:
If you do wilderness hiking with stream crossings you should have these in your backpack. I do a lot of hiking in the Smokies and there can be 10-15 stream crossings on a day hike that are up to 2' deep. These are perfect. They slide on and off over my boots quickly.

ADVANCED LIPOSOMAL SUPPORT FOR LYME DISEASE & TICK PROTECTION

15% off until Aug 31,2026

CRYPTOLEPIS

~~$33.75~~ **$28.69**

Advanced Liposomal Support for Lyme Disease*

Cryptolepis is a traditional botanical, clinically recognized for its ability to support the body in the treatment of Lyme disease and other tick-borne infections.*

It helps promote a healthy immune response, supports the body's natural detoxification processes, and encourages a balanced microbial environment.*

Ideal for both early-stage and persistent Lyme challenges, Cryptolepis works in synergy with the body to help restore vitality and long-term wellness.*

METHYL B-COMPLEX
+ LEMON RASPBERRY

~~$37.50~~ **$31.89**

Advanced Liposomal Protection That Works at the Source*

Liposomal Methyl B-Complex supports the body's natural defenses against ticks. This advanced liposomal delivery system helps B-vitamins bypass the digestive tract and is absorbed directly through the oral mucosa, entering the bloodstream rapidly for optimal bioavailability and utilization.*

This internal support helps maintain a balanced biochemical environment that is less attractive to ticks, helping you enjoy the outdoors with greater peace of mind.*

NOTICE:

Lyme disease continues to be a growing public health concern. Research indicates that the prevalence of Lyme disease in ticks is increasing:

- In a 2020 study in Germany, 10% of 1,000 ticks tested were carriers of Lyme disease.
- In a 2026 follow-up study, 90% were carriers.

Early detection and timely intervention are critical. The first 3 days are the most important. Begin treatment immediately to help prevent the spread of pathogens to cells and tissues.

5 DAY TREATMENT. TRIED. TESTED. TRUSTED.

Every time a tick finds the wrong place to attach, be prepared.

ASK DR. NELSON: WHAT IS A SIGN THAT I SHOULD HAVE MY VARICOSE VEINS TREATED?

This is one of the most common questions I hear in my office.

Many people think varicose veins only need treatment if they are large or painful. In reality, vein disease often begins long before the veins become obvious. By the time skin changes develop, the condition has usually been present for many years. A good rule of thumb is this: if your legs are giving you symptoms or your skin is changing, it is time to have them evaluated. Recently, our team held a Free Vein Screening at our Twin Springs office to help members of the community better understand the health of their legs. We were grateful to meet so many wonderful families, and 112 individuals took advantage of the opportunity.

What we found confirmed what we see every day in our practice. Vein disease is common—and many people do not realize how advanced it has become. During the screening we identified:

- 1 Baker's cyst
- 6 individuals with findings concerning for blood clots
- 4 individuals with lymphedema
- 1 open leg ulcer
- 5 individuals with healed leg ulcers
- 31 individuals with advanced skin changes caused by long-standing vein disease

WELCOMING NEW PATIENTS

Most of the remaining participants showed signs of venous reflux, a condition in which the valves inside the leg veins no longer close properly. Instead of moving blood back toward the heart, blood flows backward and pools in the legs. Over time, this can lead to swelling, aching, heaviness, skin damage, and eventually ulcers if left untreated.

Check Your Legs at Home

If you were unable to attend the screening, here are several signs that it may be time to schedule an evaluation:

- Swelling of the lower legs or ankles, especially by the end of the day
- Legs that feel heavy, tired, achy, or restless
- Bulging or rope-like varicose veins
- Small clusters of spider veins around the inside of the ankles
- Brown discoloration of the skin around the ankles or lower legs
- Skin that is red, itchy, irritated, or feels tight
- Dry, flaky skin on the lower legs that does not improve with lotion
- A sore or wound on the lower leg that is slow to heal or has healed in the past

These changes are often signs of venous reflux, and they should not simply be accepted as a normal part of aging. The encouraging news is that vein disease can often be treated before serious complications develop. Early evaluation can relieve symptoms, improve your quality of life, and help prevent permanent skin damage and leg ulcers.

Thank you to everyone who attended our Free Vein Screening. It was a privilege to serve so many members of the community and to help answer questions about their leg health.

If you recognize any of these signs in your own legs—or if you simply wonder whether your symptoms may be related to vein disease—we would be happy to provide a comprehensive evaluation at our Twin Springs office. Sometimes a simple examination and ultrasound are all it takes to find the cause of your symptoms and discuss your treatment options.

You no longer have to travel far for expert vein care. All treatments are performed in either our Apple Creek or North Olmsted offices with little to no downtime, so you can return to your daily work, care for your family, and keep doing the things that matter most.

ATTENTION: If you or someone you know has an appointment with Dr. Nelson at the Twin Springs office on July 24th, please call 440-617-6064 to reschedule as the office will now be closed that day.

WHY DOES DISC PAIN KEEP COMING BACK?

Special Health Report

What Thousands of Patients With Disc Problems Have Taught Us About Why Some People Improve Temporarily While Others Continue to Struggle

By Midwest Disc Clinic

FREE RECORDED HEALTH REPORT

Available 24 Hours a Day by Phone

- ✓ No Appointment Required
- ✓ No Internet Required
- ✓ Listen from Home
- ✓ Available Anytime
- ✓ Private and Confidential

Many People Are Told Their Only Options Are More Treatment, More Injections, or Surgery

If you are one of the millions of people suffering with back, neck, or sciatica pain, you are not alone. Disc problems are one of the leading causes of long-term pain and disability in our country. And if you have been dealing with this pain for any length of time, you may already know how frustrating and discouraging it can be.

Many men and women tell us the same story. They started with mild discomfort. Over time, it got worse. They saw a doctor, had tests, and tried physical therapy, chiropractic care, medications, or injections. Sometimes these treatments helped for a while. But the pain came back.

Eventually, they were told their only choices were more treatment, more injections, or even surgery.

This leaves many people feeling hopeless and unsure of what to do next. That is why we created this recorded health report.

After helping thousands of patients with disc problems, we have seen a common pattern. Some people improve temporarily, while others continue to struggle. The difference is not always what you might think.

The good news is that understanding why disc pain keeps coming back can help you ask better questions and make more informed decisions about your care.

IN THIS RECORDED REPORT YOU'LL DISCOVER:

- ✓ Why disc pain keeps coming back
- ✓ What may block disc repair
- ✓ Why relief often doesn't last
- ✓ What many patients are never told
- ✓ What may be behind sciatica symptoms
- ✓ Questions to ask before injections or surgery

REAL PATIENT STORIES

"I came to MDC with lower back pain and numbness in my legs. I was barely able to walk, and I wasn't able to function or work. It was Midwest Disc Clinic or surgery.

Now after my care plan, I'm pain free and raring to go. I can put in a full day's work.

My experience was very much appreciated." — **D. Hershberger, Nashville, MI**

"I was having lower back pain and right leg pain when I came to MDC. I was on crutches for two days and in bed for a week, not able to work.

After my DOSAE treatments, I am back to work and feel 85% to 90% better. Thank you to the doctors and staff at MDC. Everybody is very friendly and helpful!" — **D. Troyer, Randolph, NY**

"Lions Mane Talk"

At Mushroom Maiden Farm, we believe in the same enduring principles that guide our communities: faith, family, stewardship of the land, and honest work done well. In a world that often rushes toward shortcuts, we choose a simpler, more transparent path, growing and crafting our products with care, patience, and integrity.

Our mushrooms are cultivated high in the Appalachian Mountains, where clean air, pure water, and rich forest traditions shape their strength. Every batch is tested by an independent lab to ensure purity and quality. We use 100% fruiting bodies, the part of the mushroom where the most valuable nutrients are found, so you receive only the best of what nature provides.

Our Lion's Mane mushroom capsules are carefully prepared to support clarity and well-being, made without fillers or unnecessary additives. Alongside them, we offer two wholesome varieties of coffee, a smooth and robust dark Arabica bean, roasted for rich flavor and steady comfort and a dark Arabica bean Cinnamon Breakfast Roll coffee. To season your table, choose from four distinct mushroom enhanced salts. We offer a Wild Hickory Cold-Smoked Salt, Himalayan Pink, Sriracha, and Thai Ginger, each crafted to complement honest, home-cooked meals.

As a 100% woman-owned farm, we value humility, hard work, and transparency in every step, from growing to packaging. We are committed to straightforward practices and products you can trust for your home and family.

Simple ingredients. Careful hands. Honest quality. That is the Mushroom Maiden promise.

The summer sun shines warm and bright,
We run and play from morn till night.
With games and laughs beneath the sky,
The joyful days go dancing by.
A water bottle by our side,
Keeps us cool on every ride.
Sip by sip throughout the day,
Helps us feel our best at play.
Fresh fruits, good rest, and exercise too,
Keep us strong in all we do.
Healthy habits, fun, and cheer,
Make summer's best days of the year.

Fleeing fighting IN MYANMAR

Heart-wrenching suffering continues for those caught in Myanmar's ongoing civil war. Villages turn into ghost towns as innocent men, women, and children flee into the jungle to escape bombs and air strikes. More than 3.7 million people are displaced inside Myanmar, and thousands more have fled to neighboring countries.

The fight for survival is real, as people search for streams, rivers, or other places for a clean water supply. As streams and springs dry up during the dry season, some people need to move again. Make-shift structures, with only leaves or tarps for roofs, become homes for throngs of refugees. People try to raise chickens and hunt small birds as a source of meat—most are able to have meat only twice a month.

"Will this war ever end?"

A father named Ali* gathered his family and fled to Thailand when fighting erupted in his village in 2021. "Numerous times throughout the past five years my family and I have had to flee . . ." Ali told a CAM staff member. He continued sadly, "We just want to settle down and live a normal, quiet life, but that seems impossible. Will this war ever end?"

For the past year and a half, Ali worked for a farmer in Thailand. The farmer pays Ali $5 USD per day and allows Ali and his family to live on a hillside near his fields. "Obviously, this is not enough to sustain us, but I have no other way to provide for my family because we are refugees," Ali concluded. "I have built a small house out of bamboo, using second-hand metal for a roof. The roof leaks, but we are thankful to be alive and together as a family."

How can you help?

CAM is partnering with pastors and local churches to supply food and other aid to people who are suffering from the war. Your support helps provide food and other aid. Tarps for temporary shelters are provided along with blankets. As distributions take place, the Gospel is preached. Bibles and Bible story books are made available for Christians and to those in search of truth.

Testimonial

Dr. Karen made some supplement suggestions for me and I cannot believe the changes that have happened so soon! Within a few days I was getting a good restful nights sleep and my muscles are feeling relaxed. I've also noticed the skin around my eyes is tighter and I actually look younger! For years I've had fluctuating body heat issues and now my body heat is balanced again!
Thank you so much, I will be back to see you again! ~ Myron Y.

Frequently asked Question
What is the best way to wash my Napper?

Wash separately in cold water, using mild detergent. If in a washer, select a delicate or permanent press cycle. Avoid fabric softeners and bleach. If using a dryer, tumble dry on low heat. It may take several cycles.

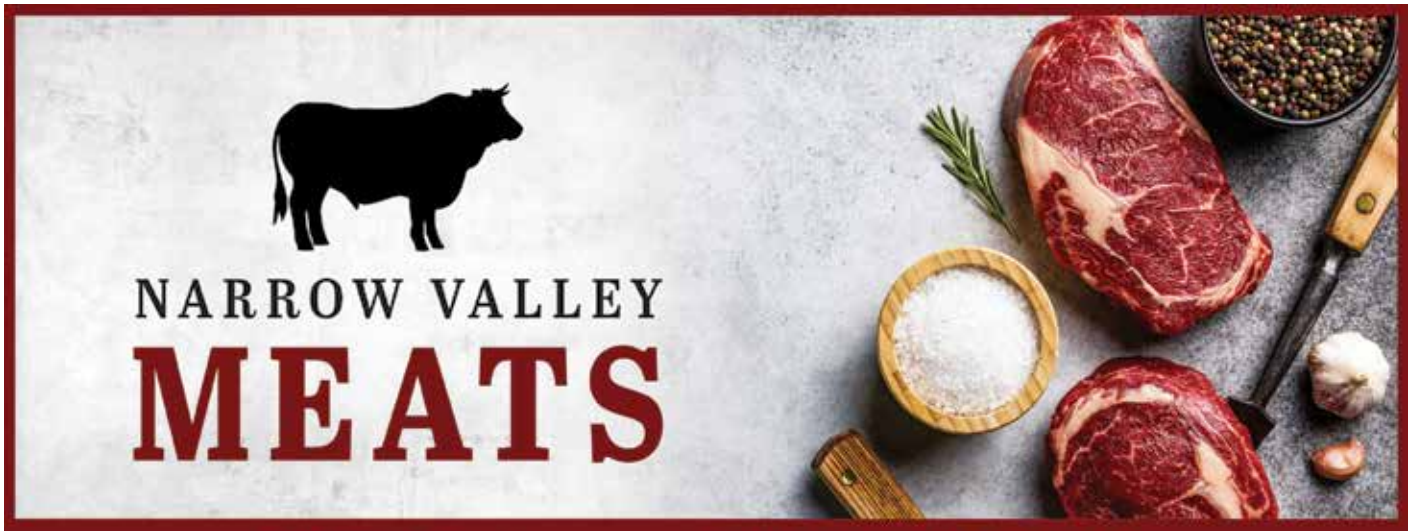

Do not hang on a clothesline to dry, it is very heavy when wet, and prone to stretching. It works well to drape it over a Lifetime table in the sun, and should be dry in roughly the same time period as a comforter. However, for the easiest washing process, take it with you next time you go to the laundromat.

Stay Local and Yet Reach Far

Jesus said, "...you will be my witnesses in Jerusalem, and in all Judea and Samaria, and to the ends of the earth." (Acts 1:8)

1 IN 3 PEOPLE IN THE WORLD HAVE NOT HEARD OF JESUS

How is that possible? Well, you can start here and now! Most of us live and work near home and only get into surrounding areas where people can see our light.

But to the ends of the earth? Let Global Disciples do the work.

Global Disciples trains Christians in Africa and Asia who know the local language and culture to share the Good News of Jesus with the people there who never before heard the Gospel. Last year 76,239 people came to Christ and joined one of 4,246 new churches that started.

People come to Jesus only as the Holy Spirit leads. But for every $102 given, we see someone come to faith in Jesus and get involved in a church. Most who trust in Christ and are baptized were once unreached people. Every bit helps!

I am giving to help more people from 'the ends of the earth' come to faith in Jesus Christ!

- ❑ **$102** to help 1 person come to Christ
- ❑ **$204** to help 2 people come to Christ
- ❑ **$306** to help 3 people come to Christ
- ❑ **$408** to help 4 people come to Christ
- ❑ **$510** to help 5 people come to Christ
