Editor's Note

Greetings to all!

We had two sudden deaths in our community this week. A 16-year-old passed away from a farming accident. A day later, a 3-year-old passed away from another accident. I didn't hear a lot of details about either incident. But nonetheless, both family circles are now broken, and the two boys will be greatly missed. As young as these boys were, we tend to cling desperately to the thought that we still need our children. But God needed another flower to make his bouquet in Heaven complete. God has a plan for each of us, and everything will fall into place at His timing.

Visit the Busy Beaver booth at Eastool Auction at Solanco Fairgrounds in Quarryville, PA on September 25th & 26th. We'll be offering discounts on display ads that are placed & paid for at Eastool Auction.

Thank you for advertising in the Busy Beaver!

-John Zook

Pressure Point Mat Set

Lay back, breathe deep, and let the tension melt away.

Studies have shown up to 40% improvement for, stress, muscle soreness, and sleep quality after regular use of the mat for 20–30 minutes before bed. Journal of Sleep Therapy 2015

$138 for the mat.
Add **$12** for shipping.

Unroll your pressure point mat and pillow on a flat surface and ease onto it slowly, allowing your body to adjust. The gentle pressure of over 4,000 pressure points works to stimulate circulation, release muscle tension, and support relaxation. Start with 10–15 minutes a day and gradually increase to 20–40 minutes as your body gets used to the sensation. Use daily or as needed to support deep rest, stress relief, and full-body rejuvenation.

I absolutely love this pressure point mat! It's become a part of my daily routine and helps me relax and unwind like nothing else. I've even gifted it to friends, and they're obsessed with it too. Highly recommend for anyone looking to relieve tension and feel amazing! – *WTHN Client*

What's Included:

- High-quality coconut fiber and linen **WTHN Pressure Point Mat** (16" x 9" x 9")
- Luxe memory foam and linen **WTHN Pressure Point Pillow** for ultimate comfort
- On-the-go linen carrying case for **WTHN Pressure Point Pillow and Mat**

DID YOU HEAR THAT?

Hearing loss often progresses slowly, making early signs easy to overlook.

Early detection allows healthcare professionals to identify reversible causes, recommend appropriate interventions, and help preserve long-term hearing health. Hearing loss occurs when part of the auditory system—outer ear, middle ear, inner ear, or the auditory nerve—no longer functions as it should. It can develop gradually or appear suddenly, and while aging is a common factor, it is far from the only one. Many causes are preventable or treatable when identified early.

Idaho Whole-Apple Cider Vinegar

GREAT APPLE CIDER VINGAR HAS A "ONE-TWO" PUNCH…

1) Looking for less disease and fewer internal/external parasites this year? THIS ACV has an alkaline forming response in any mammal's body, which is your shield against those issues.

2) The ENERGY and ENZYMES from the Whole-Apples contained in this vinegar are ALL still intact to help boost your livestock's digestion of any feed. The minerals in your feed are 90% bio-available .

The drier your feed, the better this ACV works!

How would you like a summer where your calves gain more and have less pink-eye?

It's time to THINK SPRING

If you want better nutrition.... you need to start with better soil

OVB
OHIO VALLEY BIOCHAR
There is a Better Way

Now is the time to apply Ohio Valley BioChar to your fields and gardens!

WHAT IS BIOCHAR?

Our Biochar is steam activated carbon that is beneficial for our soils and animals

- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.

WHAT IS THE BENEFIT TO YOU?

- Saves costs over high fertilizer year after year.
- Creates a healthier environment for you and your family.
- No dangerous side effects to humans, animals, or ecosystems.
- Puts more dollars in your pocket.

Biochar blends available for various farming needs, call for more information.

HOMESTEADER Milk Pail System

Featuring a Milk Pail, Butter Churn, and hassle-free Cream Separator.

- Use the same **Stainless Steel Pail** for all three functions. Available in 3 or 5-gallon size. Includes a stainless steel filter.
- The **Butter Churn** features a clear lid, so you can see when your butter is done. Churns 1-3 gallons of cream in less than 5 minutes.
- The **Cream Separator** attachment allows you to separate the cream from the skim milk by natural separation. Fill the pail with milk, attach the separator, flip it, and set it in the cooler for 6-12 hours. Then take it to the edge of a table or sink and drain off the skim. It is simple to use, and easy to clean.

Stainless Steel Pails

- Includes fine-micron stainless steel filter that sits in neck of pail.
- Square design takes less space in cooler and works great for butter making.

This is not a mechanical separator; it separates by gravity. Natural separation is not a new idea ... The Homesteader is just a new simple way to do it correctly and undisturbed. It works so well that we get no cream when running the skim milk from a Homesteader through a mechanical separator.

Looking for your milk bonus?

A farmer wrote to us saying how he lowered his cows SCC and his milk inspector is really pleased. This is what he did:

1. CMT every cow in the barn.
2. Mark all high quarters with a crayon.
3. Use Hornet Udder Tonic on those quarters once a day for 3 days.
4. Cover every quarter with Super Cow Udder Mint twice a day for 7 days.

The money he spent on his cows, he received back from the bonus!

1 bottle is enough for 4 quarters

At Mushroom Maiden Farm, we believe in the same enduring principles that guide our communities: faith, family, stewardship of the land, and honest work done well. In a world that often rushes toward shortcuts, we choose a simpler, more transparent path, growing and crafting our products with care, patience, and integrity.

Our mushrooms are cultivated high in the Appalachian Mountains, where clean air, pure water, and rich forest traditions shape their strength. Every batch is tested by an independent lab to ensure purity and quality. We use 100% fruiting bodies, the part of the mushroom where the most valuable nutrients are found, so you receive only the best of what nature provides.

Our Lion's Mane mushroom capsules are carefully prepared to support clarity and well-being, made without fillers or unnecessary additives. Alongside them, we offer two wholesome varieties of coffee, a smooth and robust dark Arabica bean, roasted for rich flavor and steady comfort and a dark Arabica bean Cinnamon Breakfast Roll coffee. To season your table, choose from four distinct mushroom enhanced salts. We offer a Wild Hickory Cold-Smoked Salt, Himalayan Pink, Sriracha, and Thai Ginger, each crafted to complement honest, home-cooked meals.

WHY DOES DISC PAIN KEEP COMING BACK?

Many People Are Told Their Only Options Are More Treatment, More Injections, or Surgery

If you are one of the millions of people suffering with back, neck, or sciatica pain, you are not alone. Disc problems are one of the leading causes of long-term pain and disability in our country. And if you have been dealing with this pain for any length of time, you may already know how frustrating and discouraging it can be.

Many men and women tell us the same story. They started with mild discomfort. Over time, it got worse. They saw a doctor, had tests, and tried physical therapy, chiropractic care, medications, or injections. Sometimes these treatments helped for a while. But the pain came back.

Eventually, they were told their only choices were more treatment, more injections, or even surgery.

This leaves many people feeling hopeless and unsure of what to do next. That is why we created this recorded health report.

After helping thousands of patients with disc problems, we have seen a common pattern. Some people improve temporarily, while others continue to struggle. The difference is not always what you might think.

The good news is that understanding why disc pain keeps coming back can help you ask better questions and make more informed decisions about your care.

IN THIS RECORDED REPORT YOU'LL DISCOVER:

- ✓ Why disc pain keeps coming back
- ✓ What may block disc repair
- ✓ Why relief often doesn't last
- ✓ What many patients are never told
- ✓ What may be behind sciatica symptoms
- ✓ Questions to ask before injections or surgery

REAL PATIENT STORIES

"I came to MDC with lower back pain and numbness in my legs. I was barely able to walk, and I wasn't able to function or work. It was Midwest Disc Clinic or surgery.

Now after my care plan, I'm pain free and raring to go. I can put in a full day's work.

My experience was very much appreciated." — **D. Hershberger, Nashville, MI**

"I was having lower back pain and right leg pain when I came to MDC. I was on crutches for two days and in bed for a week, not able to work.

After my DOSAE treatments, I am back to work and feel 85% to 90% better. Thank you to the doctors and staff at MDC. Everybody is very friendly and helpful!" — **D. Troyer, Randolph, NY**

How does a *sick, discouraged* young Amish man go from a *miserable*, tick-borne illness and *extreme joint pain* to playing volleyball?

If you wish you could *stop guessing* about which natural remedies will help you get back to feeling your best, give me a minute to tell you his story!

This young Amish man, Jesse, came to us with a prior diagnosis of Lyme disease. He was in terrible joint pain, and wasn't even able to walk without crutches. You can imagine how discouraged he was to not be able to enjoy fellowship with his friends or even work like he wanted. It was apparent that he was having a hard time staying positive with all the pain he was in. When he came to us, we didn't focus on his diagnosis (we're natural practitioners, and we do not work within the disease-management system that seeks "diagnose, treat, and cure" symptoms that get grouped together and labeled a "disease.") We instead understand that our bodies can heal in seemingly miraculous ways on their own then they are given the right kind of herbal support, nutrition, and care. Nevertheless, this young man ***wasn't even able to work*** due to the excruciating pain he was in...and he was *very depressed* about it.

But...there are so many different approaches and natural products out there. **How can you figure out the best products to use? What will really make a difference?** Every person's body is different, and what works well for one person may not work as well for another.

Well, Jesse began to work with us using our state-of-the-art saliva and hair testing. We identified the exact areas where his body was struggling and needed help. Based on that information, we designed him a **completely personalized program for natural healing**—based on his specific results. For him, this program involved some little-known herbal tinctures powerfully crafted to support healing from tick-borne illnesses, as well as several other supporting remedies. We hand-selected a set of natural products for him along with with *clear, simple steps* he could take to transform his health. And we didn't guess. His program was based on exactly what his body needed —as shown from our testing—to balance his energy levels and detoxify.

And then...? We actually didn't hear from him for several months! What happened? Did we miss it? Did nothing happen? We waited to hear back from him week after week, until one day finally...we received a call from him. Not only had he gotten off of his crutches and had gone back to working, **he was also able to go back to enjoying volleyball!**

If you are experiencing health challenges of your own, you can follow the same steps he did. We love working with naturally-minded people just like you. Work with us to get a custom-designed set of recommendations for what you can do to get back to feeling your best again. We'll design you a program based on your unique situation and the outcome of your test results. We've been in business for over five years, and have well over a decade of experience under our belts in the field. We are **certified practitioners** in this testing, so you can be confident you're in good hands. (And we don't just use one line of products, we use whatever is the best tool for the job. We work with several high-quality herb and supplement companies that we have found exceptional in their purity, quality, and effectiveness.)

Please call us if you have ever wondered...

- How can I best approach **healing naturally** without drugs?
- Do I need to be taking a different probiotic to support my **gut health**?
- Should I be worried about a tick bite I got? What can I do to boost my body's **immune defenses** naturally?
- I believe I need some kind of **liver or gall bladder cleanse**, but I'd appreciate help figuring it out.
- "I feel like my **hormones** are out of balance! (And/or "I'd love to support my body through **postpartum** or **menopause naturally.**")
- What **vitamins and minerals** might be out of balance? What can I do to make sure my body is getting the right things?
- Should I be worried about parasites? Do I need a **parasite cleanse**?
- ...or even just, "I'm **tired all the time** and my brain seems foggy."

Everyone's body is different, and that's the point. Don't just go try things blindly. Take steps with confidence!

it could be your thyroid!

Real Patients. Real Results.

I was having thyroid problems for several years. I tried other supplements and products with little improvement. I saw the ad in the budget and decided to try it. Now after six months I have more energy, sleep better and have overall better health. I was always able to reach out to them. Great people, great program.
– Dan Stoltzfus, Pennsylvania

I can honestly say this program has helped more than about any other products with my tiredness and low energy. I can now do a full days work and even something else in the evening without feeling wiped out. By doing the blood tests they found exactly what was wrong, and what I needed. Thanks to god for the healing.
– Leah Miller, Ohio

I can get up in the morning and feel refreshed. I am completely off medication for high blood pressure. My menstrual cycles have come back to normal. lots of other things have improved that I didn't know were connected to my thyroid. Thanks so much!
– Kathyrn Yoder, Missouri

I had autoimmune thyroid disease, blood sugar problems and low vitamin d and iron. After being on their program I feel so much better! I actually feel like doing something instead of having to force myself. My depression is gone, I don't worry like I used to and I have lost 41 pounds. It's great to finally have energy again and enjoy being around people. I encourage anyone struggling to try them.
– Sue Albrecht, Michigan

I was put on Armour for an underactive thyroid and was taking it for a year. I was still not feeling well. Come to find out I didn't need to be on any medication to begin with. My hormones are now balanced and I feel better with no medication. It's nice to see and feel the results.
– S. King, Pennsylvania

Nature's Rite

Replace your restless nights with Sleep Breathing Support™

You can **stop** sleep breathing disruptions and restless legs **tonight.**

Sleep related breathing disruptions ruin the sleep of an estimated 25 million Americans on a regular basis. Since sleep disruptions can disturb sleep without completely awakening the subject, there are likely millions more undiagnosed sufferers. The condition prevents the sleeper from entering rapid eye movement (REM) and delta sleep— causing them to become anxious, cantankerous and tired during the day. Additionally, due to the nature of the condition, it causes blood oxygen levels to be lower than normal for very prolonged periods of time. This is damaging to the brain and heart in particular.

Treatment options can include weight loss, nasal decongestants, surgery, and oral appliances. Devices, such as a continuous positive airway pressure (CPAP) machine, are commonly used for moderate and severe sleep breathing disruptions. A CPAP device is a forced air mask, worn during sleep that ensures proper inhalation.

Hi, I'm Steve Frank.

I have sleep-breathing disruptions at night. I spent years researching the condition and understanding the true cause. After many years, and with my knowledge of herbs, I found an amazing combination that supports deep, steady breathing all night long.
This patented blend works great for nighttime sleep-breathing disruptions commonly associated with aging. I haven't worn any mask or tubes in years, and I sleep great. I hope you can too.

As it turns out, I also dealt with occasional restless legs. So I created a blend of herbs traditionally used to help relax nerves, ease tension, and support circulation. It worked well for her—and I later found it could also support those experiencing restless legs.

I personally use Sleep Breathing Support before bed each night, and I keep Leg Relaxer™ on my nightstand.

Sweet Dreams.

These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure or prevent disease.

Experience has shown that 60 percent of patients are not able to tolerate the equipment and ultimately discontinue using it. Others develop respiratory infections from the mask. Sleep Breathing Support™ was designed to do what the above solutions can't address the real cause of the condition.

THE CAUSE

When we enter stage two sleep in preparation for REM sleep, where dreaming occurs, muscular activity is inhibited. It is called "reduction of muscle tonus." This is a function that occurs primarily to keep the dreamer from physically acting out the movements of his or her dreams.

It is accomplished by suppressing the flow of signals from the brain along the spinal cord. Unfortunately, in those who struggle with sleep breathing disruptions, the reduction in muscle tonus allows the soft palate to sag and the signal from the brain to the diaphragm that keeps you breathing gets inadvertently reduced in strength.

The result of this is that upon entering stage two sleep, the breathing becomes shallower, the blood oxygen level drops and the carbon dioxide level rises until the brain intervenes and causes the body to make a large and immediate inhalation. This causes a large pressure differential in the pharynx and literally sucks the sagging soft palate into the airway. This obstructs the flow and causes a loud snort, partially or fully awakening the subject.

THE SOLUTION

So you see, the problem is not the sagging soft palate. The problem is not the rapid inhalation that sucks your soft palate into the airway. The problem is the reduced ability of the signal from your brain to produce sufficient breathing amplitude from your diaphragm. The appropriate intervention is to enhance the ability of the brain to communicate with the diaphragm so that you breathe deeply and steadily throughout the night. **That is exactly what the combination of herbs in Sleep Breathing Support™ is intended to do.**

Crafted with a bouquet of natural herbs.

Lobelia, used in small doses, can increase the level of respiration. Because the lobelia causes you to breathe more deeply and steadily, it keeps the whole disruptive cycle from even beginning.

Thyme improves the ability of the lungs to exchange carbon dioxide for oxygen and makes an excellent contribution to maintaining sufficient respiratory amplitude.

Chamomile aids the subject in relaxing.

Cramp Bark helps the upper trapezius muscles to loosen.

When was the last time you truly slept well?

Calm overactive nerves, restless legs, and nighttime leg cramps with Leg Relaxer™.

No mess. No menthol scent. No harsh chemicals.

Enjoy more comfortable nights and deeper, more restful sleep, night after night.

FAMILY & HEALTH

Best nap ever.

81% sleep through the night when using a weighted blanket

60% feel less anxious after using a weighted blanket

Frequently asked Question

How do Bearaby blankets get their weight?

The **Cotton Napper** is weighted entirely through hand-knit organic cotton — not beads, not pellets, not hidden fillers. Just pure, breathable cotton loops layered to create natural, even weight. It is precisely engineered with a heavy cotton yarn, and compacted to the perfect density to give you your best nap ever.

The **Tencel Cooling Tree Napper** combines the above process with a blend of Eucalyptis fibers to give you the same effect as the cool side of your pillow, all night long.

TOO BUSY IN YOUR BUSINESS TO WORK ON IT?

Between the orders, the deliveries, and keeping the ledgers up by hand, there's rarely a quiet moment left to step back and ask the bigger questions: Which jobs are actually making money? Where is the cash really going? What should next season look like?

That's the part we help with.

HOW IT WORKS

- Hand off your ledgers, receipts, and order books — paper is just fine.
- We organize everything into clear, easy-to-read reports.
- We'll take your paper sheets and build spreadsheets for bonus and commission structures, and any other custom spreadsheets you need.
- No computer, email, or software needed on your end.
- You get straight numbers to make better decisions for the business.

SPREADSHEETS & REPORTS WE BUILD

- Bonus and commission structures for your crew
- Job costing and pricing worksheets
- Inventory and order tracking sheets
- Cash flow and budgeting summaries
- Payroll and hours summaries
- Custom spreadsheets for whatever paperwork you hand us

You work IN the business. We help you see it.

Own Your Insurance Company. Keep More Money. Protect Your Legacy.

Most businesses buy insurance.
Some businesses own it.

With captive insurance, your company insures its own risks and keeps the profit instead of sending it to big insurance companies.

That means:
- More protection for your business
- More control
- A new profit center
- Insurance company tax treatment

And a way to help keep your business strong for generations.

CIC Services has helped hundreds of small and mid-size businesses accomplish this since 2005.

FUNDRAISER DINNER

FOR SAMMY AND ROSE KING
JOIN US FOR A FORMAL DINNER, LIVE GOSPEL MUSIC, AND A SILENT AUCTION TO CLOSE THE NIGHT!

HOW YOU CAN HELP

- Sponsor a table - $350 seats 8
- Make a donation toward $15,000 operating costs
- Donate an item or service for the silent auction
- Become a matching sponsor by matching donations made during the event

SPREAD THE WORD!

As many of you know Sammy had a second surgery last fall to remove a non-cancerous brain tumor that had grown back after his first surgery a few years ago. They followed this surgery with a round of radiation to try to eliminate every last bit of the tumor, so that it hopefully won't grow back again. What you might not know is that this has left Sammy and Rose with a large hospital bill that they need to pay out of pocket. They are members of Christian Healthcare Ministries (CHM), but CHM only covers $125,000 in medical expenses per incident or illness. Sammy's medical expenses related to this incident exceeded this by far and they will potentially be responsible to pay around $75,000 personally.

THE COLD AND WEARY

Christian Aid MINISTRIES

A channel enabling the church to minister to physical and spiritual needs around the world

Winter is coming. For most of us, that means pulling a warm coat from the closet, putting on a pair of fleece-lined boots, and wrapping our children in cozy blankets. Imagine facing winter with few of these things. You could live in a refugee camp where temperatures plunge at night. Biting winds sneak through the cracks of the makeshift tarp doorway. The cold leaves you shivering, but the hardest thing of all is watching your children go without warm clothing or shoes—knowing you have little money to buy them.

This is reality for many people in Syria, Yemen, and other countries. To many, winter brings a sense of dread. Months of hard work and saving allow some parents to buy clothes for their children, but for others, this is nearly impossible. In refugee camps, employment opportunities are scarce. And no work means no income. No income means no warm clothes.

Omar,* a Syrian father, once provided for his family of five. Then an explosive device detonated near him, leaving permanent scars across his face and body. He was left blind.

But Omar says the physical darkness was not the deepest pain. Even more heartbreaking was watching the darkness that gradually settled in the hearts of his children. He could hear their crying and knew the uncertainty that had become part of their lives frightened them. War had taken away their safety and replaced it with fear.

One day, the family received a box of donated second-hand clothing. The children rejoiced! "The clothes were not simply pieces of fabric. They were a touch of love that helped mend our hearts. They were also a great lesson for my children that goodness never dies," Omar shared gratefully.

He continued, "I thank you from the depths of my heart—a heart that may no longer see with its eyes, but can see your love. I pray that God will richly reward you for all you have done for me and for my family."

Ali, another Syrian father, lost his home because of war. The family of four fled for safety, leaving behind their belongings, clothes, and home. "But God is always present, even in the most difficult moments," Ali told our contact. "He sent people to stand beside us and provide what we needed when we had nowhere else to turn."

Ali continued, "We extend our heartfelt thanks to the persons who sent the clothes . . . you embraced us like a mother, offering us both practical and emotional support when we needed it most."

Thanks to funds from supporters, needy families like Ali's and Omar's can receive bags of gently-used, quality clothing. Your gift can meet a practical need while also reminding a hurting family that someone cares—and that God has not forgotten them.

While we receive about the right amount of donated clothing and kits each year, we have a significant need for funds to ship and responsibly distribute these needed items. If you wish to help with this need, your support will be greatly appreciated!

Five Check Writing Tips

to prevent against fraud and errors

1. Use a black ink pen for security.
2. Always write the current date on the check.
3. If you make a mistake when writing a check, immediately write the word "VOID" across the front of the check in large letters. Record the check number and date in your check register and write VOID as the description.

4. When writing numerals for the check amount, start your first number as close to the dollar sign as possible. This prevents someone from entering an additional numeral and changing the amount of the check.

5. When writing the payment amount in words, such as "Forty-five dollars", start at the very beginning of the line. Then, draw a line from the word dollars to the end of the space.

For example: "*Forty-five dollars and 50/100* ————————"

Agricultural Health Hazards & Immune Stressors: Corn dust, silo gases & your immune system...

NEW! Ask Pam...

1. **Primary Hazards & Pathophysiological Mechanisms — Corn Dust & Particulates —** Inhaling organic dust containing molds, fungi, and endotoxins triggers acute and chronic pulmonary responses:
   Organic Dust Toxic Syndrome (ODTS): Non-infectious, flu-like febrile illness (fever, chills, myalgia) appearing 4 to 12 hours post-exposure due to heavy endotoxin and mold inhalation.
   Farmer's Lung Disease: Immune-mediated hypersensitivity pneumonitis caused by repeated exposure to thermophilic actinomycetes, leading to granulomatous alveolar inflammation and fibrosis.
2. **Core Prevention and Safety Standards — Silo Gases (Fermentation By-products) —** Peak within 24 to 72 hours post-filling of green forage:

Silo Gases: Avoid entering tower silos or working near active silage for at least 3 weeks post-filling.

Ventilation & PPE / Forced Air & Respirators: Run continuous blowers before entry. Use NIOSH-approved particulate respirators (N95+) for dust; toxic gases require SCBA (Self-Contained Breathing Apparatus).

Site Protocols / Access Control & Buddy System: Lock silo doors, post bilingual warning signs, and enforce a strict three-person rule (never enter a bin or silo alone).
