NUMBER 66 • SEPTEMBER 4, 2026

Greetings!

Did you know that camels have three eyelids and two rows of eyelashes to keep sand out of their eyes? They can also close their nostrils to keep sand out of their nose. Camels store fat in their humps, which enables them to go without food for awhile if they have to. Camels are a good way to move products across the desert. They can eat cactus plants and dry grass and go without water for ten days to two weeks and their milk is very nutritious. This eliminates the need to carry food for the camels, while still supplying food for the people.

Be sure to check out the **ECONOMY PAGES, starting on page 35. They are just one more option to place a display ad. Give us a call or send an email if you need more information. You can use the form on page 7 if you want to mail your order.**

IT ALL STARTED WITH A NATURAL WORMER

By Jeff Massaro

Billy Mullet was a bare-footed kid on the farm when his father, Bill, Sr., first developed a horse wormer for his own herd. The senior Mullet was too busy raising and selling horses, but his dewormer helped with prepping and keeping his own horses free of the dreaded worms that invade a horse's gut. On occasion, Bill, Sr. would share the wormer with a horseman having trouble ridding his stalls of the parasite. The favorable results made the dewormer popular with those that had a chance to put it to the test, but Mr. Mullet was more interested in buying and selling horses than he was in selling horse dewormer.

As Billy grew older, he was offered the opportunity to take over manufacturing and selling the product, and he did. His outgoing, friendly personality blended well with the new venture. He traveled many miles through many states, giving samples in sandwich bags to stables, confident the results would make him his best salesman. Sure enough, the natural dewormer made a splash in the Plain Community horse market and got the ball rolling for the young, energetic marketer, who found a new full-time job and expanded further.

Billy took a one-man show to the next level when he hired Jonathan Miller to represent the product and help run the operation. The pair have invested many hours, and the dividends are paying off, with the dewormer now shelved at most feed and tack stores. It's been third-party tested in an eggs-per-gram comparison, with final results typically reached in 14 days. Extreme cases show improvement, but may take longer. The side effects of the dewormer are fast hair coat turnaround, vanishing potbellies, and killing the mites that contribute to greasy heel and tail rubbing.

The Natural Dewormer product is under the Atlas product line, which has expanded to include 15 products from hoof care and wound sprays to fertility and performance supplements. The expansion benefits more than just the equine market, as farm livestock and canines can now benefit from using some products under the Atlas umbrella. The expanded product line was made possible by a partnership with Rudibaugh Feed and Nutrition LLC. The mineral program was field-tested and developed over three decades by Nutritionalist Larry Rudibaugh, who is highly regarded and educated in Equine Studies and has many years of hands-on experience. The nutritional consultant continues to share his extensive knowledge of equine diets, including digestion, gut health, and the benefits they offer animals. Rudibaugh is honest and a straight shooter, with a pedigree that shows his family's presence in the feed mill business for 100 years, starting with his grandfather's great-uncle, who founded JM Rudibaugh & Son Feed in Rogers, Ohio, in 1926. His grandfather, Dale Rudibaugh, owned the Wellsville Feed & Supply Company, located near where Pennsylvania, West Virginia, and Ohio converge.

Along the way, Atlas purchased AllStar Equine Products from Jonathan Miller, a line of rubber pads available in 24 sizes and numerous materials that can soften the blow for buggy horses or enhance the step in the show ring.

purchase: a head pole or boring pole used in harness racing to correct a cock-headed horse that drifts, leans, or bears in or out on the track; it keeps the head and neck straight. Only one is applied to the side the head turns.

It started with a lunch meeting in 2019, involving Rudibaugh, Mullet, and farrier Johnny Mast, who had met Jonathan Miller at the International Hoof Summit and thought Rudibaugh, a good friend, could assist with Mullet's plans.

Mast woke at 5 a.m. and shod eight horses before the luncheon. Rudibaugh arrived at Billy's and was expecting a hearty Amish-cooked meal, but Billy directed him to a Mexican restaurant in Middlefield for the business lunch/meeting. The meeting went well, and Mullet's plan to move forward was established.

Atlas started out in Jonathan Miller's box stall, then moved to a small warehouse at Miller's new home site, and expanded in 2024 to a shop at Mullet's Soltis Road home in Garrettsville, Ohio. One year later, in early 2025, Mullet had a 3,200 sq ft warehouse constructed, moving the operation from his shop and adding another 3,000 sq ft building in December to meet the manufacturing and storage demands for 550 dealers selling into all of the 48 lower states and three Canadian Provinces as Rudibaugh has developed, updated, and field-tested other products soon to be on the market for other species, such as sheep and goats.

Matt Miller, from Guys Mills, in Northwest Pennsylvania, serves as one of two state representatives in Pennsylvania. He started as a consumer of the product, and when the rep position opened, he accepted it along with six dealers. Today he coordinates orders and deliveries to 74 dealers in the state. Miller's quick to point out that demand for Atlas products has been steady over the years and assures that fresh products are delivered directly from the manufacturing facility in Ohio. Matt and his brother Daniel are part of

the Miller Brothers, which attend several sales a year, including Harrisburg, Mid State, Maple Country, and Gordyville (Mid-America). The horses they prep are fueled with Atlas products, and recent sales include a mare at Harrisburg for \$51,000 and one at Mid-America for \$55,000. The Miller Brothers can be seen at Mid-Ohio Memorial Sale purchasing prospects.

Miller is convinced that Atlas Flax Seed Oil is the best for a remarkable coat, and it's hard to compare it to anything on the market. The Ultimate Performance promotes body health and gives the horse extra drive, and the Dewormer is top-notch at making his horses worm-free.

Miller recalls the first time Billy approached him with a small baggy of dewormer. He chuckled when Billy handed him the powdery mixture sample to try in his stables. He still laughs about the encounter; he says it was funny, but it sure did work.

Ray Slabaugh from Slabaugh Equine in West Farmington, Ohio uses the Atlas products. He marvels at the Flax Seed Oil and the quick turnaround of the hair coat, the controlled energy, good attitude, and highly recommends it.

He starts the stallions in his 32-stall barn with Fertility Plus in December and provides it throughout the breeding season. He typically collects 8 or 9 shipments from his stallion Modern Profit, but on some days he increases the number to 20 to meet demand. Slabaugh acquired a new stallion this spring, Wheels Up, and another, GB Bet on Ben. They will be placed on Fertility Plus in December, but a daily dose of Flax Seed Oil was started immediately.

Hersch Acres Equine in Topeka, Indiana, has been using the dewormer for over five years. All new horses get a three-week treatment; otherwise, 14 days on, then a couple of months break, then another 14-day treatment. John Herschberger is happy with the product and recommends it. It goes well with the Herschy Performance Feed (HPF), a complete feed Herschy designed for his own use. It's now in

big demand in the equine market. Lady Gump won the Mid-Ohio Memorial Trotting Sale Roadster Class held July 9 at the Lexington Horse Show, in Kentucky. She competed in a class of eight top-quality Standardbreds. Lady Gump was prepped with Atlas Natural Wormer and Herschy Performance Feed. She was show trained by Herschy Acres Equine and shown by Chad Cole.

Horse trainer Kris Rickett from Fredonia, Pennsylvania, is happy with the Ultimate Performance. All the training times are better; he likes the shine it gives the horses, and the manure has improved. He's been using it for eight weeks; three bright-eyed horses all won their race. It's a great product.

Slate Acres in Baltic, Ohio has built a reputation for prepping some outstanding horses. Mervin Burkholder claims that Atlas Flax Seed Oil has improved overall health and hair coat and boosted the energy level of every horse in the barn. He said, "We use it on a daily basis."

Ervin Miller, from Middlefield, Ohio, has been using the Flax Seed Oil and the Natural Dewormer for the past half year. He bought a team of Belgian pullers, and one was in terrible condition; he put them both on the Atlas products for seven months. The pair have become very competitive, and recently grabbed second place at the Middlefield Steam Show. Miller is excited about the pair after their second pull.

Steven Kurtz from Jamesport, Missouri, owns Kurtz Stables. The young trainer set a record at the 2026 Mid Ohio Memorial Trotting Sale with the highest selling mare going for \$325,000 and another mare for \$125,000. He prepped four horses in the top 30 sellers. Kurtz credits Atlas Flax Seed Oil for a nice topline on his horses and a shiny hair coat; he's had good luck with the product and provides one ounce in the morning and one ounce in the evening. The natural wormer is used daily to gently deworm and detox. He doesn't want to be without his Atlas products.

World-renowned horse trainer Tom Lowry works as the head trainer at Golden Creek Farms in Simpsonville, Kentucky, east of Louisville. The facility is a top-notch equestrian breeding, training, and showing operation; it's best known for world-champion Hackney Ponies and American Saddlebred horses. The famous Hackney trainer uses Atlas Natural De-wormer, Flax Seed Oil, Fertility-Plus, and Vita-Min-Lac.

The Natural Wormer removes worms and drastically improves body condition; manure and eating habits also improve. Lowry has tried other oils, but Atlas Flax Seed Oil works best. It has an agreeable taste; the horse sheds earlier and has an extremely shiny coat year-round. The coat has more depth and is in good condition, especially given that some horses are in the barn all day. It's a top-rated oil used; incoming horse coats cannot compare to those of horses receiving Flax Seed Oil.

Lowry had a pony fall sick, losing all condition and muscle tone, and fertility. It didn't look good, and the veterinarians were not helping. So, Lowry started a Vita-Min-Lac and Fertility-Plus program for the rundown stud. Fertility improved after two months and was even better after four months; his gut health improved, his hair filled in, and his body regained muscle; he recently won the first two shows he entered.

Lowry is sold on Atlas and uses the hoof pads, too, along with the other high-quality products and excellent customer service.

The people at Atlas want to give God the honor and extend their thanks and appreciation for all the support they have received over the years. 🐾

Synthetic Vitamin E
(dl-alpha-tocopherol)
Less efficiently utilized

DAILY REQUIREMENTS

Maintenance
~1-2 IU/kg body weight

*Higher levels may be
necessary for
performance
and prevention
of deficiency*

PRIMARY SOURCES

(Best Source)
Fresh green pasture
Fortified feeds
and Supplements
(often necessary
without pasture)

Reasons for the Necessity of Increased Vitamin E

- Lack of pasture access
- Intense performance or training
- Neurological and muscle disorders
- Breeding and growth
- High fat diets due to increased oxidative stress
- Individual metabolism

We have a few horses in our barn that tested low in Vitamin E and I feel my horse had made stellar improvements using your products compared to the others in our barn who chose differently. My horse was exhibiting mild to moderate muscle soreness and spooking, which is unusual for him. Since being on the Super E all that has disappeared. He is a show jumper and has shown significant progress at his job since starting the product.

THE WAY

Yeshua is the Way
is a 501c3 non-profit
organization based in
Central Pennsylvania.

Our mission is to support
persecuted Christians
throughout the nations as a
partner with local believers,
and to share the Gospel
with people worldwide.

At **Yeshua Is The Way** Ministries, we have partnered with local Christians in Pakistan - where there is a great need for spiritual and financial support from the global church body. In a country where Christians face discrimination, poverty and persecution, there is still a hunger for God. Men, women and children are responding to the Gospel! People are being healed from pain and disease! Families are being freed from bonded debt that traps generations in manual labor.

We welcome your financial support for our current and upcoming projects. Our heart is to continue blessing and ministering to these believers and their neighbors by hosting Prayer Festivals, providing Food Kits, financing medical care, and more!

Current Fundraising Needs Include:

- Food Kits and Medical Care Support
- Capital Campaign to purchase a Church Building
- Salary for Pastoral Staff in Pakistan

Blaze King PRINCESS

Correct Firebox Size Blaze King manufactures the 3 most efficient wood stoves in the world. At 82% real world efficiency, as listed by the EPA, the Princess is one of these most efficient wood stoves. This allows you to get the most heat out of your wood to reduce your heating costs.

A Deeper Firebox is a Safer Firebox Our design minimizes any chance of coals rolling forward and out of the firebox when the door is opened. The distance from the door opening to the bottom of the firebox is 6", allowing the Princess to hold up to 60 lbs. of wood. Our deeper fireboxes reduce the frequency of ash removal.

“When we had to transition our son from breastmilk to formula, we quickly discovered the negatives with American formulas. The formula's contained corn syrup, soy, pure sugar & many toxic ingredients. We then discovered that European formula's are free from all these frightening ingredients. We felt our child deserved better than what America had to offer. Within days our son no longer suffered with acid reflux & gastric related upset, he was smiling and finally sleeping like a baby again.”

Our Quality All our milk nutrition is produced in Switzerland because strict quality regulations ensure that milk, cows and the environment are all respected throughout the entire production process. Switzerland is known for its high-quality products in the field of organic food. HiPP only uses whole milk and we strive to provide children with an optimal nutrition in their first years of life.

BOYS RANCH

Restoring Hope through Discipleship

Froman Hill Boys Ranch is a residence for minor boys from the home and buggy churches. To act as a refuge while dealing with emotional, moral and spiritual needs.

LOOKING TO SERVE?

We are in need of Big Brothers and Houseparents!
If interested call 330-343-8055.

We enjoy being house parents at Froman Hill Boys Ranch. It is very rewarding to see the young resident boys improving as they do their term here. Also, a blessing to see how the big brothers put in time and effort to help the young boys progress. We receive so much more here than what we give. God's Blessings!

-Eli & Mary

Serving as big brother gave me lots of interesting opportunities and challenges, and trying to be a good example as Jesus left behind.

It was very fulfilling and rewarding to follow rules and keep up with schedules when working with these struggling, talented young boys. To me it was a blessing, thanks to God.

-Former Big Brother, Jake

**We are in need of work.
 Looking for simple manual
 piece work. If you feel led to
 share, call 330-343-8055 and
 ask for James.**

My time as a Big Brother at Froman Hill Boys Ranch was worthwhile, meaningful, and inspiring. I'm glad I stepped out of my comfort zone to be a part of something special. The friendships and memories made were worth the time invested. I can honestly say I feel I received more than I gave. To God be the glory and honor!

-Big Brother, Michael

I would like to thank God for the opportunity to serve at Froman Hill Boys Ranch. If you have a desire to do something like this, do it! It truly is an enjoyable and fulfilling experience.

-Former Big Brother, Jared Hershberger

About our weeks we have spent with the Froman Hill Boys as houseparents and cooking for them- we have found it very rewarding and interesting. Would encourage anyone to give it a try. You will be richly blessed!

-The Troys

Froman Hill Boys Ranch operates as Integrated Auxiliary of the Ohio Amish Church.

Treasured encouragement and teaching for

Christians in Restricted Countries

Kamran* was on a deep search for Truth. As he looked at the people around him—even those claiming religion—he saw arguments, hatred, and slander. None of them offered what he was looking for: a peaceful and loving relationship with God.

One day, during a lunch break on the farm where Kamran worked, he talked to a co-worker. The conversation turned to God. This young co-worker shared some information that was surprising to Kamran—he and his family were Christians. As they talked, Kamran shared about his struggle to read the only Bible he had. The Bible was in a language he could hardly understand, and he struggled to comprehend the little he was able to read.

A few days later, Kamran met this Christian man again. The man brought him several Christian magazines. Kamran recalled this pivotal moment: “He told me I could borrow them but should be careful not to let anyone damage them, as his family enjoyed reading them and wanted to have them back eventually.”

“Those magazines fascinated me,” Kamran shared. “I asked him if he could lend me more, and we began meeting more often. I visited his family, and his father gave me a copy

of the New Testament in [a language I could read]. Then a few months later, his father gave me your contact information, saying that you could send me magazines.”

Kamran knew the risk of receiving Christian literature. He started a post office box so his relatives and neighbors would not easily find out. He then began to regularly receive Christian family magazines. Sound teaching from conservative Anabaptist writers became a consistent source of Bible teaching.

Like Kamran, thousands and thousands of Christians in closed and restricted countries long for fellowship with other Christians, but have limited options. They long for encouragement and Bible-based teaching, but have almost no source.

CAM supporters' funds supply Christian family magazines, reminding these believers they are not forgotten. The material encourages them toward faithfulness to Christ as they face the challenges of living under oppressive regimes. The sound articles point them to a life of faithful obedience to the Word of God.

If you wish to help us supply these magazines to those who anxiously await their arrival, your support will be greatly appreciated!

At Dr. JimZ®, our main goal is to help people eat more nutritious food and be more successful in the garden. Our nutrients are designed to stimulate life in the soil and provide a plethora of nutrients at a biological level. **The microbes in the soil must consume the nutrients before they are 100% bioavailable to the plant.** Our products feed the microbes so your plants can then decide what nutrients they need and when they need them ... this will maximize the genetic potential of the plant and result in higher-quality fruits and veggies.

OHIO VALLEY BIOCHAR

There is a Better Way

2 YARD TOTE

Also available in 1.2 cubic foot bag

What is biochar?

Our Biochar is steam activated carbon that is beneficial for our soils and animals

- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and waterways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.

What is the benefit to you?

- Saves costs over high fertilizer year after year.
- Creates a healthier environment for you and your family.
- No dangerous side effects to humans, animals, or ecosystems.
- Puts more dollars in your pocket.

Get-Go®
designed for digestion

Digestive Supplements for healthy animals!

Undigested milk results in nutritional scours.

Traditionally, this is resolved by limiting the milk fed to calves.

This creates unhealthy, malnourished calves with poor outcomes.

Get-Go® products help achieve full digestions, and can assist in eliminating nutritional scours—enabling your animals to **thrive**, instead of just grow.

Also check out **Get-Go®** products

The Bridge to Better Forages

Byron Seeds.
Fertile Fields. Higher Yields. Plan On It.

"We started adding Get-Go to the milk and within two days we saw a very dramatic difference. These calves were hungrier, had more energy, and were just plain aggressive! 7 months later, I can still tell these calves are different—bigger and hungrier."

-Samuel Fisher

Idaho Whole-Apple Cider Vinegar

GREAT APPLE CIDER VINGAR HAS A "ONE-TWO" PUNCH...

1) Looking for less disease and fewer internal/external parasites this year? THIS ACV has an alkaline forming response in any mammal's body, which is your shield against those issues.

2) Wanting to stretch your hay and pasture by 20%? The ENERGY and ENZYMES from the Whole-Apples contained in this vinegar are ALL still intact to help boost your livestock's digestion of any feed. Minerals in the feed are 90% bio-available versus the 20% in most mineral mixes.

The drier your feed, the better this ACV works!!!

How would you like a summer where your calves gain more and have less pink-eye?

IDAHO ACV can be found at ...

POULTRY BOOSTER

**** Happy, Hearty, Healthy Chickens ****

**100%
NATURAL**

Testimony - In the fall of 2020 my hens were not laying well and they kept getting sick and dying. So when I saw your advertisement in the Poultry Booster, we decided to give it a try. We sent for a quart and they did get better and kept laying very good, even through the warmest part of the summer. We got baby chicks in June 2021 and started them in with the Poultry Booster and this is the first time I didn't lose any. They are 4 months old and look hearty and healthy. I give credit to the Poultry Booster. I'm sending for more as I don't think I want to be without. Please rush me another gallon, Thanks. **E.S., Kentucky**

CHICKENS: Increased egg production, with deep yellow yolks * Eggshell development * A greater percent of hatchings * Increased energy and production during stress.

BROILERS: Faster weight gain * Assists with stronger bones

CHICKS: Gives them a head start with less loss.

LIVESTOCK CONCENTRATE

A water soluble fulvic acid to help promote healthy animals

HORSES - COWS - VEAL CALVES - HOGS - GOATS - SHEEP

LIVESTOCK CONCENTRATE HAS BEEN SPECIALLY FORMULATED

1. To aid the animal in mobilizing its own natural defense system in its fight against hostile viruses and bacteria.
2. To aid the animal's digestive system, resulting in a better feed conversion.

**100%
NATURAL**

How it is used: By mixing with feedstuffs, drinking water, or as a feed top dressing or mix with mix and fine salt for free choice minerals. Deer love this too!

Testimony - We have been using Livestock Concentrate for calves. I had a beef calf that got really sick before I noticed it. It had the scours really bad and probably a touch of pneumonia. I gave it 5-6 cc of Livestock Concentrate. This calf was really sick. I had to pick it up so it could stand. I kept giving it Livestock Concentrate until it was feeling so good it was hard to catch. I have used Livestock Concentrate ever since on any problems I've had. I have started to give my baby calves 2 cc per day as soon as their born for a couple days or as think necessary. I am a firm believer in Livestock Concentrate. **L.W.M., Missouri**

**100%
NATURAL**

A Plant and Soil Amendment Design for Soil, Seed and Plants.

Time to feed your strawberries. They set their fruit buds in the fall for next year's production.

Farm Use: Works great for grass fed farmers. Noticeable difference in hay growth and increased milk production. Field corn growth height 6" to 8" difference with a better yield.

Testimony - Concerning the Dutch Soil Concentrate we've been using. We used it on our strawberries as a fertilizer in August and September and the next crop was the biggest we've had for a long time. We had like 100 plants and froze 200 qt. berries plus others get too. And it was the third year for the patch so we gave the Dutch Soil the credit. We just thought it unusual for the third year to be the best crop. **H.B. Salem, IN**

What is Young Living NingXia Red?

As they say, we either pay for our health now or later. We get to choose...so, what do you feel is best for you? A question was asked, on where people were living the longest in the world. Ningxia, China is in a blue zone, meaning where people are living well past 100 years of age, and the common thing they have is the wolfberry in their daily food regimen.

This anti-inflammatory antioxidant drink has become a FAVORITE to many, as they find their immune systems thriving, energy increasing, and cellular health improved, which in turn gives them the key nutrients for OPTIMAL health. FREE booklet included! Average serving size: Adults: 2-4 oz./day; children 12 and under: 1-2 oz./day.

- “ Young Living’s Ningxia Red has become my new go-to for maintaining a lean belly and boosting my immune system. The blend of organic red fruits and vegetables in this vital reds supplement is not only beneficial for my body but also tastes amazing. Plus, knowing that it is infused with whole Ningxia wolfberry puree makes me feel even better about incorporating it into my healthy lifestyle. ~ Emily
- “ My kids did not know who their doctor was when asked to fill out a form for school. We had not had to go in 10 years for things we used to have to go for! The difference? We started taking Ningxia Red on a daily basis as a family. It’s a great feeling. ~ Angie
- “ I was tired all the time, had aches & pains, and did not feel my usual self. I had so much to get done, but just didn’t even feel like I could do it. Everything felt like a chore, even things I once enjoyed. I was told to try Ningxia Red. I did the Ningxia Red Reset that came with 51 packets and was a 14 day protocol. I thought it was worth a try, and I’m sure glad I did. I not only feel better, but I lost 10 lbs in 6 weeks. It’s been a game changer for me. ~ Lance

Petrochemical Weight Loss

There are two parts to this protocol. You have to use the Citrus Fresh/Ledum mixture to break up the fat. Then you need to take Grapefruit by the capsule to digest what the Citrus Fresh /Ledum broke up.

Weight Loss Bundle - 2 Month Supply

Includes 2 Grapefruit, 2 Citrus Fresh, 1 Ledum, Cel-lite Massage Oil & Capsules. (2-month supply, see order form for other ordering options). Instructions & Recipe Booklet included.

\$179

Testimony (Sarah S.) – I listened to Gary Young in Dallas in 2003 and received the recipe for Petrochemical weight loss. After doing this: My skin firmed up nice and tight. My jaw line firmed up where I put the Citrus Fresh. The Grapefruit balanced out my hormones, and I began to have a regular menstrual cycle without pain or discomfort. I kept my complexion clean with Lemon oil. I only use Young Living brand essential oils because of their unadulterated purity. He said that saturation was the key to weight loss. He described how the body stores environmental toxins in our fat cells to save them from being deposited in our organs and wreaking havoc. This continues a vicious cycle where we grow larger fat cells which can store more toxins. Essential oils work with your body in activating enzymes that help the body break down fat. The Citrus Fresh with Ledum breaks up the fat, and the Grapefruit by capsule digests the fat. Grapefruit essential oil is an excellent diuretic and lymphatic stimulant. Please keep in mind that cellulite is literally toxins being stored in the fat cells.

Replace your restless nights with Sleep Breathing Support™

You can **stop** sleep breathing disruptions and restless legs tonight.

Sleep related breathing disruptions ruin the sleep of an estimated 25 million Americans on a regular basis. Since sleep disruptions can disturb sleep without completely awakening the subject, there are likely millions more undiagnosed sufferers. The condition prevents the sleeper from entering rapid eye movement (REM) and delta sleep—causing them to become anxious, cantankerous and tired during the day. Additionally, due to the nature of the condition, it causes blood oxygen levels to be lower than normal for very prolonged periods of time. This is damaging to the brain and heart in particular.

Treatment options can include weight loss, nasal decongestants, surgery, and oral appliances. Devices, such as a continuous positive airway pressure (CPAP) machine, are commonly used for moderate and severe sleep breathing disruptions. A CPAP device is a forced air mask, worn during sleep that ensures proper inhalation.

Hi, I'm Steve Frank.

I have sleep-breathing disruptions at night. I spent years researching the condition and understanding the true cause. After many years, and with my knowledge of herbs, I found an amazing combination that supports deep, steady breathing all night long. This patented blend works great for nighttime sleep-breathing disruptions commonly associated with aging. I haven't worn any mask or tubes in years, and I sleep great. I hope you can too.

As it turns out, I also dealt with occasional restless legs. So I created a blend of herbs traditionally used to help relax nerves, ease tension, and support circulation. It worked well for her—and I later found it could also support those experiencing restless legs.

I personally use Sleep Breathing Support before bed each night, and I keep Leg Relaxer™ on my nightstand.

Sweet Dreams.

"I am well pleased with the Sleep Breathing Support. The nice part is I no longer have to use a CPAP machine. I am refreshed, rested and ready to go when I wake up." Elva Chupp

30 Capsules

~~\$45.99~~ **\$36.79**

Experience has shown that 60 percent of patients are not able to tolerate the equipment and ultimately discontinue using it. Others develop respiratory infections from the mask. Sleep Breathing Support™ was designed to do what the above solutions can't address the real cause of the condition.

THE CAUSE

When we enter stage two sleep in preparation for REM sleep, where dreaming occurs, muscular activity is inhibited. It is called "reduction of muscle tonus." This is a function that occurs primarily to keep the dreamer from physically acting out the movements of his or her dreams.

It is accomplished by suppressing the flow of signals from the brain along the spinal cord. Unfortunately, in those who struggle with sleep breathing disruptions, the reduction in muscle tonus allows the soft palate to sag and the signal from the brain to the diaphragm that keeps you breathing gets inadvertently reduced in strength.

The result of this is that upon entering stage two sleep, the breathing becomes shallower, the blood oxygen level drops and the carbon dioxide level rises until the brain intervenes and causes the body to make a large and immediate inhalation. This causes a large pressure differential in the pharynx and literally sucks the sagging soft palate into the airway. This obstructs the flow and causes a loud snort, partially or fully awakening the subject.

THE SOLUTION

So you see, the problem is not the sagging soft palate. The problem is not the rapid inhalation that sucks your soft palate into the airway. The problem is the reduced ability of the signal from your brain to produce sufficient breathing amplitude from your diaphragm. The appropriate intervention is to enhance the ability of the brain to communicate with the diaphragm so that you breathe deeply and steadily throughout the night. **That is exactly what the combination of herbs in Sleep Breathing Support™ is intended to do.**

Crafted with a bouquet of natural herbs.

Lobelia, used in small doses, can increase the level of respiration. Because the lobelia causes you to breathe more deeply and steadily, it keeps the whole disruptive cycle from even beginning.

Thyme improves the ability of the lungs to exchange carbon dioxide for oxygen and makes an excellent contribution to maintaining sufficient respiratory amplitude.

Chamomile aids the subject in relaxing.

Cramp Bark helps the upper trapezius muscles to loosen.

When was the last time you truly slept well?

Calm overactive nerves, **restless legs**, and nighttime **leg cramps** with **Leg Relaxer™**.

No mess. No menthol scent. No harsh chemicals.

Enjoy more comfortable nights and deeper, more restful sleep, night after night.

Just mention you saw us in **The Busy Beaver Extreme** when you call.

I used to have a lot of trouble sleeping. I was about to go for a sleep testing. My husband and I were both sleeping very poorly. He said that I was breathing very loudly, and I would wake up with apnea episodes, gasping, which made it difficult for both of us to sleep. Then I would try changing positions, but it kept happening over and over again. We could never get a good night's rest, and we were feeling very tired on the next day.

Just when I was about to decide to get a sleep test done (which I really didn't want to do), my husband brought me this article that he found at The Busy Beaver, and I'm so happy with the results.

From the very first night, I didn't wake up even once. My husband and I were finally able to sleep through the entire night. I stopped waking up because of my breathing problems, and sleep completely changed for both of us.

This product truly was life-changing for me.

BELLY FAT

Men: Are you really going to stay like this when there's a solution?

Belly fat (visceral fat) is not a natural or healthy form of fat, and if you have it, you can be sure it's stealing your muscle mass, your energy and several of your abilities.

Belly fat forms when chemicals in our food, medication and environment disrupt our hormones and turn our testosterone into a poorly balanced form of estrogen (similar to pregnancy hormones, but more dangerous).

If you've tried to get rid of it, but nothing seems to help, it's because the poorly balanced hormones lock the belly fat in. Dieting and exercise naturally burn off healthy fat (subcutaneous fat), like it's supposed to, but visceral fat goes nowhere.

The Broccoli & Belly Fat Program was formulated specifically for this problem. It binds up and removes the poorly balanced hormones, nourishes your organs and glands so your new hormones are fresh and healthy and unlocks the visceral fat so you can burn it off.

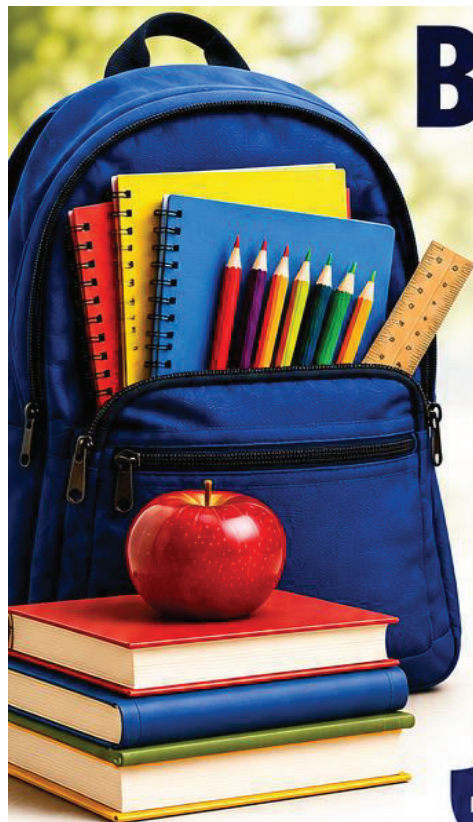

***This is how you get your body,
your energy and your abilities back!***

Germs are Ready to Play, Are You Ready to Win?

Journey to a Cold and Flu Free Winter

An ounce of prevention is worth a pound of cure.

At the first sign of sickness, cut sugar and processed foods, limit dairy, and get extra sleep – you and the kids.

Get more sleep.

When you catch a bug early, it's easier to treat. Watch for low energy, runny nose, constipation or diarrhea, headaches, loss of appetite, etc.

Daily Super Greens support your immune system, digestion and detoxification.

Elderberry and Raw Honey are powerful for sickness. Both have antiviral properties.

Drink plenty of water.

Don't wait, start using Immuno-X right away if you think you are catching something.

Dealing with Colds and Flus

Sweat it out with a hot bath, shower, or sauna, or drink yarrow tea. Holding a baby in a warm shower lets them breathe the moist air.

Eat vitamin C-rich, immune-boosting foods – oranges, garlic, ginger, spinach – plus fermented foods like plain yogurt, sauerkraut, kombucha, and bone broth soup.

Super Tonic Plus supports daily wellness and helps fight sickness.

Oh no! someone is sick. Start boosting everyone's immune system in the house so that it does not make the rounds.

Follow all the prevention tips, including which foods to eat/avoid, resting and hydrating.

If you are dealing with constipation, use Kids Reg Ease or Reset and Go. Your body has to be able to eliminate.

If you are not hungry, don't eat. Your body fights infection better when fasted.

Higher temperatures help fight viruses which is why your body increases its temperature. Don't cool it down.

The person dealing with the sickness can take Immuno-X every hour or rotate hourly echinacea, goldenseal, Pro-Fighter, or other immune support.

Support and encourage anyone fighting a cold or flu. A cheerful heart really is like medicine – it gives the immune system a boost.

Mommy, My Ear Hurts

Ear Infections can be extremely painful, but usually easy to remedy using herbs.

Most ear infections can be dealt with very quickly to save a lot of pain. Treat the ear and immune system.

Ear Cheer's garlic & mullein oil soothes and helps fight infection.

Most ear infections are viral, so antibiotics won't help and can even slow recovery. If you've taken antibiotics recently, add a probiotic to support your gut.

Ear candles can be soothing and help to loosen wax.

For adults, Pro-Fighter is a powerful infection fighter.

Massage Lymflo under the ear and down the neck to drain fluid and ease pressure.

For babies, a few drops of breastmilk in the ear can help fight the infection.

Raw honey (especially Manuka) coats and soothes the throat.

Sore Throat And Infections

Elderberry & Raw Honey Syrup along with echinacea and propolis are perfect to coat the throat and support healing.

Herbal Guard Throat Spray – echinacea, barberry, and mullein to coat and soothe.

Treat the whole body for infection, not just the ear – like you would a cold or flu. Use Immuno-X, elderberry, echinacea, goldenseal, etc.

Steam with a few drops of deep tissue oil, eucalyptus, or pine to open airways.

Gargle warm salt water (½ tsp sea salt per cup) every 2-3 hours to ease inflammation and make things inhospitable for germs.

Stay away from smoke, chemical fumes, and allergens, as they can worsen inflammation and slow healing.

Most bronchitis cases are viral, making antibiotics ineffective.

Sip warm teas – ginger, chamomile, licorice, or slippery elm – to soothe.

Speeding Up Your Path To Recovery

WISE WORDS: Sandra Ellis always says, "You have to be as aggressive as what you are dealing with, or it will win."

GRATITUDE & FAITH: Your body was designed to heal – your job is to support it.

GET WELL & STAY WELL: Remember your goal is not to just feel better, but to be healthy.

TIME TO MOVE: Move when you can – it boosts lymph flow and speeds healing.

HEALTHY MIND SET: When your body is healthy, it is hard for you to get sick. Focus on health, not avoiding sickness.

DO MEN HAVE HORMONES TOO?

How Low Testosterone Could Be Making You Not Feel Well.

By Jonathan Laudon, Co-founder Sprigs Life
Jonathan is the co-owner of Sprigs and the father of five! He grew up in a holistic culture and has always had a deep passion for natural medicines and practices.

I recently had a conversation with Roy Raber, M.H., a master herbalist who regularly consults with men in the Plain communities about their health. He told me he is amazed by how many men are dealing with hormone issues and have no idea. They call him with symptoms like low energy, poor sleep, brain fog, or physical intimacy issues. Others mention feeling more irritable, down, or even depressed and can't figure out why. What a lot of guys don't realize is all of these issues are often tied directly to an important male hormone called testosterone.

Many guys think hormones are a "women's thing." Although men's hormones don't operate on a monthly cycle like women's (men's hormones still control almost every part of our health), men's testosterone levels and hormone health are becoming a major issue.

What is testosterone?

Guys with high testosterone feel great, have energy, and are strong and sharp. As a man, you felt the changes that testosterone brings during puberty. As a teen, the increase of testosterone is what causes your voice to deepen, facial hair to begin to grow, strength and muscle mass to increase, and not to mention the other physical changes that manhood brings. For most men, testosterone is at its highest between 20 and 30 years of age. At around 30 years old, testosterone begins to gradually decrease at about 1% per year. Even healthy men start to feel the effect by around 40 or 45, often putting on some weight and not feeling the strength and energy they once did. The problem today is that many younger men are dealing with low testosterone. In fact, so many men are dealing with low testosterone that it has become a men's health crisis. Many studies have shown that today, the average man has 20% less testosterone compared to the 80s and 90s, and it is still rapidly decreasing.

What causes low testosterone and what can we do?

There are many reasons, and not enough space on the page to go into all of them; here are some of the main causes.

Processed foods: Today, on average, 60% of what men are eating is processed garbage, with all kinds of ingredients that wreak havoc on your testosterone levels. If you want to be on top of your game and feel great you have to eat real food. Eat meat, eggs, vegetables, and fruit, and avoid food that comes in a box with chemicals and preservatives. Avoid gas station snacks, chips, soda, and sugar like the plague.

Exercises: Throughout all of history men worked physically hard. Today, a lot of men have jobs that are not as physically demanding; if that's you, make sure you find other ways to get exercise. You can bike, hike, play baseball, or play sports with your children. The main thing is to challenge yourself physically consistently.

Endocrine-Disrupting Chemicals: The endocrine system is the tissues and organs that produce and release hormones into the bloodstream. There are hundreds of chemicals we come into contact with daily that are officially classified as endocrine-disruptors. Many men work with some of the harshest endocrine-disruptors every day, including farm pesticides, gas fumes, paint, and many building materials like flame retardants and plastic products. Breathing the fumes and dust of these every day is no small thing and is a huge problem for testosterone health.

We can't completely avoid these chemicals or other challenges of our day, but thankfully, today, we know a lot about what we can take to help our bodies overcome these challenges and maintain healthy testosterone levels. That is why we made **Testo Strong XY**.

Feel the difference with Testo Strong XY

The ultimate hard-hitting men's formula. Feel the difference. If you are a man struggling with low energy, erectile dysfunction, sleep issues, difficulty concentrating, brain fog, or depression due to low testosterone, **Testo Strong XY** is designed for you. It has a powerful blend of herbs and minerals that your body needs to make testosterone. Note, you do have to take 6 capsules a day because **Testo Strong XY** combines what would be 3 separate products into one handy bottle. We encourage taking 3 in the morning and 3 at night, but if it is difficult to remember, you can take all 6 at one time. In extreme cases of need, you can safely double the dosage by taking 6 in the morning and 6 in the evening. Try **Testo Strong XY** today.

The Best Just Got Better

Meet **Mama Bear Gold**. Our updated formula is packed with nutrients for mama and baby.

Ten years ago when I was pregnant with Addie, I really struggled to find a prenatal that worked for me. Every one I tried made me nauseous and feel like I needed to throw up. I took a gummy prenatal for a while, which I could keep down, but looking at the semi-clear gummies in my hand, I knew there was no way they had all the nutrients I—and my growing baby—needed.

Jonathan and I found ourselves in a health food store, looking for yet another prenatal to try. We were reading supplement facts, trying to find one that supplied everything we believed a prenatal should contain. Eventually, we found one made from whole foods with a really great list of ingredients.

"I think I'm going to try this one," I said, then glanced at the price. Neither of us could believe it—\$65. And that was years ago.

We bought it, and it worked well for me—but an idea was born: let's make the prenatal we wish we had. We got to work right away, and Mama Bear Prenatal was birthed.

Unlike cheap drugstore prenats, Mama Bear is whole food-based, with ingredients in forms that are highly absorbable and easy for the body to use. It has four capsules per day and no fillers—so it's packed with far more nutrients than other prenats, and certainly more than a gummy vitamin ever could.

What happened next was far beyond what we expected. It turned out I wasn't the only mom looking for a high-quality, affordable whole food prenatal that actually made her feel great. Our first batch of 2,000 was gone almost immediately.

Then letters started pouring in. Moms were telling us about the difference they felt after switching to Mama Bear Prenatal. Almost every mom

mentioned how much more energy she had. Others talked about this being the only prenatal they could keep down. Moms didn't just like it—they loved it.

Over the years, tens of thousands of moms have loved Mama Bear Prenatal—many through multiple pregnancies.

The difference is in the details

The form an ingredient is in makes all the difference in how well your body is able to use it. Ingredients that are hard to digest can cause nausea. Take folic acid—it can actually cause an allergic reaction and not be digested by certain people, making the folate form far superior.

We've always paid close attention to the forms we included to make sure they were the absolute best. But this

year, we decided it was time to go deeper. We asked ourselves: If we

were to make Mama Bear Prenatal for the first time today, what would we include based on new research?

In the end, we didn't change much—but the changes we did make, I'm really excited about.

What's New with Mama Bear Gold

Choline – We're adding 125 mg of choline per day. Like folate, choline supports brain development, reduces the risk of neural tube defects, improves placental function, and lowers the chances of complications such as preeclampsia and gestational diabetes.

Vitamin C from Acerola Cherry Juice

– This is one we've gotten requests for over the years. We switched from citric acid to a plant-based form from acerola cherry juice that many moms will be excited about.

Better Forms of Ingredients – We updated our B vitamins, vitamin D3, zinc, and selenium to versions that are easier to digest and more bioavailable.

While the changes may seem small, our goal has always been to give you and your baby the absolute best. We can't wait to hear how much you love the new **Mama Bear Gold**.

At Mushroom Maiden Farm, we believe in the same enduring principles that guide our communities: faith, family, stewardship of the land, and honest work done well. In a world that often rushes toward shortcuts, we choose a simpler, more transparent path, growing and crafting our products with care, patience, and integrity.

Our mushrooms are cultivated high in the Appalachian Mountains, where clean air, pure water, and rich forest traditions shape their strength. Every batch is tested by an independent lab to ensure purity and quality. We use 100% fruiting bodies, the part of the mushroom where the most valuable nutrients are found, so you receive only the best of what nature provides.

Our Lion's Mane mushroom capsules are carefully prepared to support clarity and well-being, made without fillers or unnecessary additives. Alongside them, we offer two wholesome varieties of coffee, a smooth and robust dark Arabica bean, roasted for rich flavor and steady comfort and a dark Arabica bean Cinnamon Breakfast Roll coffee. To season your table, choose from four distinct mushroom enhanced salts. We offer a Wild Hickory Cold-Smoked Salt, Himalayan Pink, Sriracha, and Thai Ginger, each crafted to complement honest, home-cooked meals.

As a 100% woman-owned farm, we value humility, hard work, and transparency in every step, from growing to packaging. We are committed to straightforward practices and products you can trust for your home and family.

Simple ingredients. Careful hands. Honest quality. That is the Mushroom Maiden promise.

The Caffeinated Corner

Tips, Trends, and Trivia From The World Of Coffee

A Penny for Your Coffee (and Your Thoughts)

Coffee shops have been gathering spots for conversation and community for centuries. Historians trace some of the first coffeehouses to 15th century Mecca. By the 1500s, they were thriving across Constantinople and the Ottoman Empire as community hubs for music, political debate, and the day's news.

As coffee spread into Europe, coffeehouses took on a similar cultural importance. In the 17th and 18th centuries, they became known as 'penny universities' in England. For the price of a penny, people could buy a cup of coffee and step into a room buzzing with ideas, where intellectuals, writers, and scholars gathered to talk and debate.

You may not have been able to order a fancy oat milk caramel macchiato back then, but a cup of coffee plus scholarly interaction for a penny sounds like a pretty good deal to us.

Coffee with Craft: From Farm to Cup

Javataza isn't just any ordinary coffee. It's carefully grown by farmers we know by name, and we pay them directly and generously for their hard work. Then it's roasted with care in our Pennsylvania shop, so you get a consistent cup with our signature smooth and sweet notes every time. Coffee infused with generosity that is worth drinking.

- **Many flavors and roast options**
- **Whole bean or ground**
- **K-cups available**

Weston is passionate about using business as a means to advance the Kingdom of God. As President and co-owner of Liberty Sheds, a manufacturing and retail company in North Carolina with over 90 employees, he leads in strategic planning, organizational development, and company culture. Weston Liebee is passionate about demonstrating that business can be a powerful tool for advancing the Kingdom of God. He serves as President and co-owner of Liberty Sheds, a growing manufacturing and retail company employing more than 90 people across North Carolina. Weston leads the company's strategic planning, organizational development, and culture, believing that healthy businesses create opportunities to bless employees, strengthen communities, generate wealth, and fuel missions.

Before entering the business world, Weston and his wife, Charity, spent more than a decade living among the Komba people of northern Ghana. There they helped catalyze a disciple-making movement that resulted in multiple generations of church planting while also leading community development initiatives in education, agriculture, and microfinance. Weston also managed the translation and production of the first Jesus Film in the Komba language and has trained ministry leaders in oral communication strategies for non-literate cultures.

Today, Weston and Charity continue to invest in global missions by serving as trained missionary debriefers, helping cross-cultural workers navigate crisis and life transitions. They live in Winston-Salem, North Carolina, with their three sons, and remain committed to helping people discover how business, leadership, generosity, and the Gospel can work together to transform lives.

Ron Rothhaar | P.O. Box 417 | Oceola, OH 44860 | rothhaarbooks.com

I miss my old friend Roger Rothhaar. As the old saying goes, "We wore camo when camo wasn't cool." Roger and I were what thousands of fledgling bowhunters called "Heavy Hitters," in more ways than one! We participated in America's great whitetail revolution. We witnessed it come full circle, in many aspects maybe too much, too far and too fast. Many novice deer hunters today only know what they see on television. The future and heritage of our whitetail passion depends on getting back into the woods to hunt these beloved deer for all the right reasons. Roger and his son Ron tell their story in this book. Reading these ideas, experiences and memories offered by real woodsmen is a very valuable opportunity. May the forest be with you.
