Editor's Note

Greetings to all!

As I write this, it's a beautiful afternoon and it feels like spring. March is here and the snow is almost gone. The grass is greening up a bit already.

Recently, I bought a puppy for our daughter, and at the same time I got a second puppy for myself. Little did I realize what I was getting myself into. The challenge for her was to figure out which one she wanted for herself. So, while the decision was being made, both pups adapted to being in the house and have been in the house ever since.

Today Mary was at her parents' to spend the day. Then tonight she came home and soon left again for the night. I guess I could say she is playing Mini Grandma. Somebody else needed her to help with their baby so the mother could get some sleep. The little boys insisted on both sleeping with me, so we'll see how that goes.

Thanks for advertising in the Busy Beaver! We appreciate your business!

-John Zook

Fun fact: Otters hold hands while sleeping to avoid drifting apart in water.

These cows are backed by several generations of cows that have been among the best in our families rotational grazing operation. The older cows did good in grain-fed organic and have adapted well to the 100% grass system. Our herd average at the end of 2025 was just above 12,000 pounds with SCC average 95,000. Since then, the cows have lost some body condition and production due to feed quality challenges and water freeze ups. We feel confident that these cows provide a strong genetic foundation of balanced type, hardy immune systems, and ability to thrive on low grain diets.

OVB
OHIO VALLEY BIOCHAR
There is a Better Way

Biochar blends available for various farming needs, call for more information.

If you want better nutrition.... you need to start with better soil

WHAT IS BIOCHAR?

Our Biochar is steam activated carbon that is beneficial for our soils and animals

- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.

WHAT IS THE BENEFIT TO YOU?

- Saves costs over high fertilizer year after year.
- Creates a healthier environment for you and your family.
- No dangerous side effects to humans, animals, or ecosystems.
- Puts more dollars in your pocket.

Roof Rejuvenation can save you up to 85% Versus Replacement

EXTEND. PROTECT. SAVE.

Reactiv8 shingle rejuvenation restores the water proofing and UV protection capabilities of shingles. The treatment soaks into the dried-out shingles and penetrates right through into the roof deck. The oils in the asphalt are replenished and the granules become "secured" to the shingle. This prevents the loss of asphalt that inevitably occurs on an untreated roof. It eliminates common issues such as cracking, fading and curling and literally brings the shingles "back to life" The flexibility of the shingles is restored which can extend the life of a roof indefinitely.

Have you heard about this amazing breakthrough program that people with back, neck and nerve pain drive HOURS for?

E.R. Surgeon Secretly Drives Over An Hour To Fix His Back and Nerve Pain With A Chiropractic Neurologist!

A well-known, retired Emergency Room surgeon has been driving over an hour ONE WAY to receive "Cold Laser Decompression" by Board Certified Chiropractic Neurologist, Dr. Russ Schroder.

In fact, he was so impressed by the results that he referred one of his closest friends in for care in the first month!

Frankly, when you look at the outcomes of surgery it's understandable that almost EVERYBODY wants to avoid going under the knife.

Well, now there is an option that has helped thousands of people who want to avoid surgery from over 20 states and Canada! In fact the average patient drives 2 hours just to receive this life-changing care.

It's called Cold Laser Decompression or CLD. And it's a part of a revolutionary program called the CTX Method that works to restore patients' lives by reducing pain and getting to the cause of the problem.

National Speaker

Back in 2012, Dr. Russ Schroder became the first doctor to present on Cold Laser Decompression at a national conference in Florida. Since then, CLD has changed the way many patients (AND their doctors!) are thinking about treating their pain.

You see, the average back pain patient either gets better in a few short weeks or DOESN'T. Chiropractic helps many, many early problems. So does Physical Therapy. Even just lying down and icing or over the counter pain pills helps many spines.

For the rest, it can mean a lifetime of day-in, day-out nagging, looking for the nearest place to sit kind of pain. For others, the inability to work, drive, walk or take care of themselves. And pain pills, lots of pain pills... Then commonly – *surgery!*

If you've never been there, or haven't talked to a person who feels like this, it's an eye-opening experience!

But now, people are experiencing results like THIS:

I started a 5 week program -and felt relief after the first treatment. Now that I have completed the process, my back is virtually pain-free and feels the best it has in over 15 years.
– Eric G.

There's a LOT less pain..
It's the best I've been in a long while!
- A. Yoder.

I was diagnosed with a prolapsed disc at L5-S1 which caused a great deal of pain. Within, probably, four weeks, I was beginning to be pain-free and at the end of six weeks I was totally pain-free, able to return to work and function in full capacity.
- Deb W., Nurse

After 3 or 4 treatments I could notice a big difference. Now the pain has pretty well went away. It's lots better. The staff here is great! I never had any wait time.
- J. Miller

A specialist told me that, yes, surgery was necessary. I saw Dr. Russ instead and I've taken all the treatments.
Now, my back doesn't bother me anymore. And I didn't have surgery!
– K Sayre.

What Problems Has the CTX Method Successfully Helped?

The main problems it has great success with are:

- **Back and neck pain**
- **Spinal Stenosis, Spinal Arthitis**
- **Sciatica/Leg pain**
- **Herniated and bulging discs**
- **Degenerative discs**
- **Knee Arthritis**
- **Hip Arthritis**

A very important note: This program has been successful with even the most severe cases... even when NOTHING else has worked. *Even after failed surgery... Even after MULTIPLE failed surgeries!*
The CTX Method has provided what many consider nothing short of miracles for pain sufferers who had tried everything else... with little or no result. Many had lost all hope.

Special Offer

If you would like to see if this program will be the answer to your back, neck, knee or hip pain, you can – for FREE– for a very limited time.
Just call one of our 4 offices within the next 10 days and here's what you will receive:

- **A thorough Neurological Evaluation.**

THE TRUTH?

We no longer know what we're putting in our bodies, and instead of real healing, they push more pills.

I was Type 2 Diabetic for 20 years, on 4 insulin shots per day. I had fatty liver, high blood pressure (2 medications), high cholesterol, (1 medication), neuropathy in my feet and legs (4 medications). In 4 months using the Feel Great System I got off all my medications & lost 35 pounds. With the 90 day money back guarantee I had nothing to lose. I've been off all medications for 21 months & got my life back!

BEFORE YOU LET ANYONE TREAT YOUR BACK OR NECK PAIN... READ THIS.

The wrong treatment can make a disc injury worse — and surgery is not always the first answer.

Every month, we speak with families who were told:

- "You just need injections."
- "You'll have to live with it."
- "Surgery may be your only option."

But no one clearly explained:

Was the disc properly evaluated first?
Muscle pain and disc injuries are not the same thing.
The wrong treatment may not fix the problem.

At Midwest Disc Clinic, we focus only on spinal discs.

Not knees.
Not shoulders.
Not general aches and pains.

Spinal discs only.

We evaluate before we treat.

We will tell you honestly if your case is not a fit for our program.
Some cases qualify for our non-surgical disc repair program.
Some do not.
But everyone deserves to know exactly what they are dealing with before making a permanent decision.

If your pain is:

- Affecting your ability to work
- Limiting your ability to care for your home
- Causing leg pain, numbness, or weakness
- Waking you at night

Then your situation may be more serious than you were told.
And you should speak with someone who understands spinal discs specifically — not general back pain.

CALL NOW TO REQUEST YOUR FREE DISC REPORT

"6 Questions To Ask Before Letting Anyone Treat Your Spinal Disc"

When you call for your free report, you may also request a brief phone consultation with our spinal disc specialist to discuss whether your case sounds serious.

Replace your restless nights with Sleep Breathing Support™

Sleep Breathing Support™ by Nature's Rite is a natural way to reduce sleep breathing disruptions and achieve a restful night.

30 Capsules ~~$45.99~~ $36.79

You can **stop** sleep breathing disruptions **tonight.**

"I am well pleased with the Sleep Breathing Support. The nice part is I no longer have to use a CPAP machine. I am refreshed, rested and ready to go when I wake up."
Elva Chupp

Sleep related breathing disruptions ruin the sleep of an estimated 25 million Americans on a regular basis. Since sleep disruptions can disturb sleep without completely awakening the subject, there are likely millions more undiagnosed sufferers. The condition prevents the sleeper from entering rapid eye movement (REM) and delta sleep—causing them to become anxious, cantankerous and tired during the day. Additionally, due to the nature of the condition, it causes blood oxygen levels to be lower than normal for very prolonged periods of time. This is damaging to the brain and heart in particular.

Treatment options can include weight loss, nasal decongestants, surgery, and oral appliances. Devices, such as a continuous positive airway pressure (CPAP) machine, are commonly used for moderate and severe sleep breathing disruptions. A CPAP device is a forced air mask, worn during sleep that ensures proper inhalation. Experience has shown that 60 percent of patients are not able to tolerate the equipment and ultimately discontinue using it. Others develop respiratory infections from the mask. Sleep Breathing Support™ was designed to do what the above solutions can't address the real cause of the condition.

The Cause

When we enter stage two sleep in preparation for REM sleep, where dreaming occurs, muscular activity is inhibited. It is called "reduction of muscle tonus." This is a function that occurs primarily to keep the dreamer from physically acting out the movements of his or her dreams.

If you want to know **whether it will work for you,** then you **have to try it.**

It is accomplished by suppressing the flow of signals from the brain along the spinal cord. Unfortunately, in those who struggle with sleep breathing disruptions, the reduction in muscle tonus allows the soft palate to sag and the signal from the brain to the diaphragm that keeps you breathing gets inadvertently reduced in strength.

The result of this is that upon entering stage two sleep, the breathing becomes shallower, the blood oxygen level drops and the carbon dioxide level rises until the brain intervenes and causes the body to make a large and immediate inhalation. This causes a large pressure differential in the pharynx and literally sucks the sagging soft palate into the airway. This obstructs the flow and causes a loud snort, partially or fully awakening the subject.

The Solution

So you see, the problem is not the sagging soft palate. The problem is not the rapid inhalation that sucks your soft palate into the airway. The problem is the reduced ability of the signal from your brain to produce sufficient breathing amplitude from your diaphragm. The appropriate intervention is to enhance the ability of the brain to communicate with the diaphragm so that you breathe deeply and steadily throughout the night. **That is exactly what the combination of herbs in Sleep Breathing Support™ is intended to do.**

Crafted with a bouquet of natural herbs.

Lobelia, used in small doses, can increase the level of respiration. Because the lobelia causes you to breathe more deeply and steadily, it keeps the whole disruptive cycle from even beginning.

Thyme improves the ability of the lungs to exchange carbon dioxide for oxygen and makes an excellent contribution to maintaining sufficient respiratory amplitude.

Chamomile aids the subject in relaxing.

Cramp Bark helps the upper trapezius muscles to loosen.

Hi, I'm Steve Frank.

I have sleep-breathing disruptions at night. I spent years researching the condition and understanding the true cause. After many years, and with my knowledge of herbs, I found an amazing combination that supports deep, steady breathing all night long. This patented blend works great for nighttime sleep-breathing disruptions commonly associated with aging. I haven't worn any mask or tubes in years, and I sleep great. I hope you can too.

Sweet Dreams.

At Apex Chiropractic & Wellness Center

Advance Neurological & Holistic Care • Lancaster, PA

Are You Experiencing:

How It Works

Patient Success Story:

I came to Apex Chiropractic & Wellness Center struggling with persistent headaches, concussion symptoms, and Lyme disease–related issues. Long days on the farm had taken a toll — I felt fatigued, less steady, and not as focusedas I used to be. I just didn't feel like myself anymore. After a thorough evaluation, they created a customized care plan to help restore balance and improve my brain-body function. After receiving care, I began noticing real improvements — my headaches significantly decreased, my brain fog improved, and my energy levels increased.

Today, I feel steady, strong, and clear-minded, back to caring for my family and tending the farm.

"I'm thankful to feel like myself again."

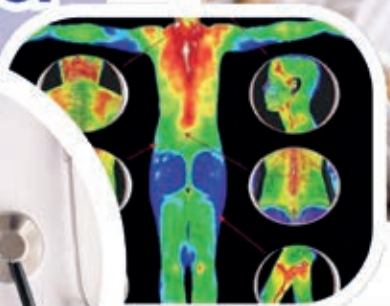

— Eli

Food Sensitivity Test
Just mail in a hair sample, contact information, date of birth and $100 payment to:
Many Words Herbs, 1176 US RT 302, East Barre, VT 05649
You'll receive your test results with in 15-30 business days.

Food intolerances can also lead to chronic diseases by creating inflammation within the body. It's a well-known fact that all disease starts with Inflammation. It's like putting watered-down gas in your Honda engine. We all know what happens when you do that!

Imagine what years of infl ammatory foods can do to your body over time? We'll do a simple DNA test that recognizes what **600+ different foods/non-food** products are causing your body the most harm.

We'll also test you for the **80+ essential minerals, vitamins and nutrients.** This portion of the test is a good balance to creating a healthy lifestyle and can boost the immune system and reduce your intolerance levels simply by adding recommended foods to your diet.

Bushman harmonicas have the best warranty in the business!

ROUNDHOUSE
Bushman's most comfortable harmonica. An unbeatable price/quality combination. Great for beginners due to comfort, great for pros due to price, durability, and responsiveness! The Roundhouse whips harmonicas from other brands that cost more than twice as much!!! Comes packed in a black, padded, leather-like, zipper case.

Keys: Low F, G, A, Bb, C, D, and E* | **$29.99**

KNITTLINGER
Accordion-like sound of the old Auto Valve only better feeling and much easier to play. Loud and lively, quick and nimble! Features a slick, go-fast mouthpiece. Good players were able to play faster than all previous double reed harmonicas could respond, but you can't outpace a Knittlinger – it goes as fast as any player can play it!

Keys: Low A, Low Bb Low C, and Low D* | **$99.95**

BLUES SHIFTER
This is a diatonic harmonica - not a chromatic - that can play the missing note on Blow 3. Try playing "Amazing Grace" or "What a Friend We Have in Jesus" on a regular harmonica in the lower register - you can't, because there's a missing note on Blow 3. Many songs require that missing note, so they can't be played on a normal harmonica. With the Blues Shifter, when you need that note, just push in the slide button and you have it!

Keys: Low F, G, A, Bb, C, and D* | **$89.99**

THE DELTA FROST COLLECTION - The workhorses of the Bushman brand The Delta Frost comes in 3 different comb choices – Original (plastic), or you can get the Steelie (aluminum), or the Woody (wood). Delta Frosts are the preferred gig harmonica for many professional musicians. Traditional, old school design.

Original Keys: Low D, Low E, Low F, G, A, Bb, C, D, and E* | **$29.99**

Steelie and Woody Keys: Low F, G, A, Bb, C, D, and E* | **$44.99**

Quickly learn to play popular songs even if you don't know how to read music! This popular harmonica instruction book teaches the basics like how to hold the harmonica, and how to play single notes, and then it teaches more advanced skills like how to tongue block in order to Double Two Rattle, how to bend notes, and how to harmonize with others! It ends with the very important, rarely known topic, Harmonica Care & Maintenance Guide. That one section will save you many times the cost of the book!

$9.95

DINKY
Our all new Bushman Dinky has a greater note range and ability to play more songs than any true, 1-1/2" mini harmonica ever made!!! The Dinky plays much better than the typical mini, and it's more comfortable. Here you get all 3 Keys for one low price! G (Yellow), A (Navy), and C (Black)

3 Pack: **$14.99**

* All Keys on this page are listed from Lowest to Highest.

Own Your Insurance Company. Keep More Money. Protect Your Legacy.

Most businesses buy insurance.
Some businesses own it.

With captive insurance, your company insures its own risks and keeps the profit instead of sending it to big insurance companies.

That means:
- More protection for your business
- More control
- A new profit center
- Insurance company tax treatment

And a way to help keep your business strong for generations.

CIC Services has helped hundreds of small and mid-size businesses accomplish this since 2005.

How can technology be used productively without exposing our hearts and homes to harmful online influence?

Join us to learn practical, Biblical ways to use modern technology wisely, with a focus on accountability, heart renewal, and safeguards that keep it in its proper place.

This event is for business owners, church leaders, and families seeking to protect their homes and communities while preserving a conservative way of life.

Presentations by Compass Foundation.

Vendors available to answer technical questions.

9:30 : **Faith, Family, & Community Strengths vs. AI Magic** — *Evan Beidler, CF*

The tech companies today are promising that AI tools will solve problems much better than humans could.

How does the wisdom of the Bible and of Plain community tradition evaluate these promises?

CLOTHING BUNDLE PROJECT

Relief after years of difficulty

Adnan* and his family live in a one-room space in a shop in Yemen. Adnan hopes that one day he will be able to afford a home of his own, but his work as a day laborer does not provide a steady income. He said, "Some days there is work, and some days there is none. But my family still needs food, clothes, medicine, and other necessities."

At a recent distribution by CAM contacts, Adnan's family received clothing, shoes, and school supplies. These gifts brought relief after years of hardship. With gratitude Adnan's wife shared, "I pray that God protects and rewards everyone who showed kindness to our family."

**Name changed to protect identity.*

This young boy in Yemen is now the owner of a nice blue shirt given by a generous supporter.

Keystone Steel Structures is a small company that specializes in erecting and finishing steel buildings. The owner started the company in October 2001. The first few years Keystone was only involved in the erection of the steel structure itself. However, due to customer demand, we have chosen to expand the company's services to include supplying a complete pre-engineered metal building package as well as providing general contracting services for an entire project. While we would be happy to erect a structure from any supplier, we are proud to supply our buildings through Whirlwind and Metallic Building Systems. Over the years, we've collected many awards and honors for the work we do with them.

We strive to build our reputation with excellent communication and unrelenting persistence at keeping our promises to supply quality construction. We are committed to delivering great value and service to our customers.

We just had a 12'x16' vinyl clad pavilion delivered and installed. David, Ben, and Matt did an exceptional job. We couldn't be more pleased with the pavilion and their professional assembly.
