Editor's Note

Greetings to all!

Over the weekend we had a few nice showers again. Enough to make things even greener and make the ground a little soggy. I'm hanging onto the summer weather as long as I can, because fall is just around the corner.

The measles are still blooming in our area. I thought we were going out of this whole measles thing, but we keep hearing of more people that are getting them. So far, in 2026, the U.S. has recorded over 2,500 confirmed measles cases, the highest amount in 35 years. As of mid-august, there were 2,566

confirmed cases across 47 states. This surpasses the 2,289 cases recorded in 2025, which was already the most cases recorded in recent history in a year's time.

It's good to be able to do things that we couldn't do previously. Anytime we get back to work after a long break, we ought to be able to whiz through our work again.

Thanks for advertising in the Busy Beaver! We appreciate your business!

-John Zook

Hope is like the sun, which, as we journey towards it, casts the shadow of our burden behind us.

SORENESS?

"Is It Costing You More Than You Think?"

Dry Joints? Irregular Cycles? Gut Ulcers? Poor Fertility?

These aren't separate issues... they're symptoms of the same **Hormonal Imbalance**. CellAide Joint Workz feeds the pituitary gland, which regulates hormones, which supports.... all of it.

Try.... **CellAide®**
"Joint Workz"

"We Started Joint Workz, on our 16yr old mare, with road puffs and weight issues. She started cycling regularly again, so we bred her and she now has her 2nd foal, without complications"

"I Started Joint Workz for my gelding's sore joints and bad suspensory. Within weeks he quit balking - I didn't see that coming."

Understanding is a wellspring of life unto him that hath it. - Proverbs 16:22

Our recent collaboration with Beltone Audiology allows us to offer **Comprehensive Hearing Care**—including free hearing screenings, personalized fittings, and hearing aid servicing—all right here in our clinic.

Regenerative Joint Therapy, targets painful joints by using stem-cell transplantation and/or protein rich plasma (PRP). These procedures are completed here in the clinic with minimal recovery time.

We're thrilled to announce our **Home Care Visits** program. If traveling to a medical facility is difficult for you or someone you love, we're here to help. At EWSC, we believe everyone deserves quality health care that's both accessible and affordable.

Our **Biological Dentistry** focuses on identifying and treating the underlying causes of dental issues rather than addressing symptoms alone. Care that supports a healthier smile and a healthier body.

We've also expanded our wellness offerings in the IV therapy room. We offer a wide variety of **IV therapies** including immune support, sinus support, replenish and recovery, and more.

YESHUA IS THE WAY

Yeshua is the Way
is a 501c3 non-profit
organization based in
Central Pennsylvania.

Our mission is to support
persecuted Christians
throughout the nations as a
partner with local believers,
and to share the Gospel
with people worldwide.

At Yeshua Is The Way Ministries, we have partnered with local Christians in Pakistan - where there is a great need for spiritual and financial support from the global church body. In a country where Christians face discrimination, poverty and persecution, there is still a hunger for God. Men, women and children are responding to the Gospel! People are being healed from pain and disease! Families are being freed from bonded debt that traps generations in manual labor.

We welcome your financial support for our current and upcoming projects. Our heart is to continue blessing and ministering to these believers and their neighbors by hosting Prayer Festivals, providing Food Kits, financing medical care, and more!

Current Fundraising Needs Include:

- Food Kits and Medical Care Support
- Capital Campaign to purchase a Church Building
- Salary for Pastoral Staff in Pakistan
- General Ministry Expenses (*travel, administration, maintain website*)

DID YOU HEAR THAT?

Hearing loss often progresses slowly, making early signs easy to overlook.

Early detection allows healthcare professionals to identify reversible causes, recommend appropriate interventions, and help preserve long-term hearing health. Hearing loss occurs when part of the auditory system—outer ear, middle ear, inner ear, or the auditory nerve—no longer functions as it should. It can develop gradually or appear suddenly, and while aging is a common factor, it is far from the only one. Many causes are preventable or treatable when identified early.

Why feed roasted Canadian oats?

Oats have the highest feed value of any cereal grain, for humans and animals. They help contribute to a steady body temperature in horses, as opposed to corn which is known to elevate body heat. Roasting the oats preserves their nutrients long-term and keeps them from getting moldy or rancid. Canadian oats, with their long growing season and cool nights, mature with a test weight of 42-47 pounds per bushel, compared to the local average of 32 pounds. Their protein content is higher, 13%, compared to standard oats at 10-11%. Our oats are chemical free, non-GMO, and are available in bulk, totes, or bags.

GREAT APPLE CIDER VINGAR
HAS A "ONE-TWO" PUNCH...

1) Looking for less disease and fewer internal/external parasites this year? THIS ACV has an alkaline forming response in any mammal's body, which is your shield against those issues.

2) The ENERGY and ENZYMES from the Whole-Apples contained in this vinegar are ALL still intact to help boost your livestock's digestion of any feed. The minerals in your feed are 90% bio-available .

The drier your feed, the better this ACV works!

POWERFUL, SAFE, EFFECTIVE!

**If you want better nutrition....
you need to start with better soil**

WHAT IS BIOCHAR?

Our Biochar is steam activated carbon that is beneficial for our soils and animals

- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.

Looking for your milk bonus?

A farmer wrote to us saying how he lowered his cows SCC and his milk inspector is really pleased. This is what he did:

1. CMT every cow in the barn.
2. Mark all high quarters with a crayon.
3. Use Hornet Udder Tonic on those quarters once a day for 3 days.
4. Cover every quarter with Super Cow Udder Mint twice a day for 7 days.

The money he spent on his cows,
he received back from the bonus!

1 bottle is
enough for
4 quarters

 Feed OVER-160... More Robust Does & Fawns
 Which Will Be Your Future Target Buck!!**

ANOTHER BRUISER FOR THE WALL!!
Congratulations to another happy customer on landing this nice 11 point 142" Buck after feeding OVER-160!!

Never seen anything attract deer like Over-160. This buck was first seen while in the velvet stage and he never left the farm until he was shot on the first day of archery. We always struggled to hold deer on our farm, so obviously we are pretty impressed. Another happy Over-160 customer....

Deer Mineral

7 Reasons To Consider Feeding Over 160 Minerals

- ☞ Powerful Toxin Binder That Works Immediately to Flush Out Toxins & Parasites.
- ☞ Sea-90 Trace Mineral Salt Containing Over 90 Sea Minerals for Maximum Health.
- ☞ Humic Acids, Check Out The Research On How It Effects CWD.
Bio Available Humic Acid Ingredient affects CWD. National library of medicine <https://www.ncbi.nlm.nih.gov/>
- ☞ Not Just Salt, Highest Concentration of Vitamins & Minerals on the Market.
- ☞ Expect Increased Antler Growth Through Nutritional Genetic Expression.
<https://extension.msstate.edu/publications/the-role-genetics-and-nutrition-deer-management>
- ☞ Over 160 Daylight Contains a Proprietary Deer Activating Blend of Ingredients Formulated to Keep Bucks More Active During Daylight Hours.
- ☞ Bottom Line is.... Stronger, Healthier, and More Robust Bucks, Does, and Fawns!!

Disclaimer: Always check federal, state, and local hunting regulations before using this product. Laws and regulations vary by state regarding feeding or baiting of deer.

DO YOU SUFFER FROM:

Cold Hands and Feet, Tired, Fatigued or Weak, No Motivation, Hair Loss, Weight Gain, Anxiety, Sleep Problems, Constipation, Sore Joints and Muscles, Digestion Problems, Hormone Problems, Infertility, Low Libido, Depression, Bloating, Cramps

✱ it could be your thyroid!

Real Patients. Real Results.

I was having thyroid problems for several years. I tried other supplements and products with little improvement. I saw the ad in the budget and decided to try it. Now after six months I have more energy, sleep better and have overall better health. I was always able to reach out to them. Great people, great program.

– **Dan Stoltzfus, Pennsylvania**

I can honestly say this program has helped more than about any other products with my tiredness and low energy. I can now do a full days work and even something else in the evening without feeling wiped out. By doing the blood tests they found exactly what was wrong, and what I needed. Thanks to god for the healing.

– **Leah Miller, Ohio**

I can get up in the morning and feel refreshed. I am completely off medication for high blood pressure. My menstrual cycles have come back to normal. lots of other things have improved that I didn't know were connected to my thyroid. Thanks so much!

– **Kathryn Yoder, Missouri**

I had autoimmune thyroid disease, blood sugar problems and low vitamin d and iron. After being on their program I feel so much better! I actually feel like doing something instead of having to force myself. My depression is gone, I don't worry like I used to and I have lost 41 pounds. It's great to finally have energy again and enjoy being around people. I encourage anyone struggling to try them.

– **Sue Albrecht, Michigan**

I was put on Armour for an underactive thyroid and was taking it for a year. I was still not feeling well. Come to find out I didn't need to be on any medication to begin with. My hormones are now balanced and I feel better with no medication. It's nice to see and feel the results.

– **S. King, Pennsylvania**

Introducing

Soothe the ache. Support the day

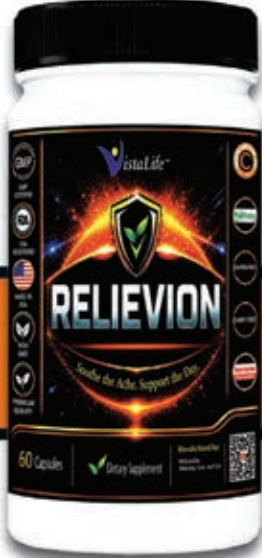

RELIEVISION®

Relief you can feel. Life you can enjoy

Vistalife's Relievision is formulated with carefully selected ingredients designed to help support the body's natural response to discomfort and promote overall wellness. When used as part of a comprehensive health plan, Relievision may help individuals maintain comfort, mobility, and a better quality of life, allowing them to focus on the activities they enjoy most.

Why These Ingredients Work Together

Relievision combines five scientifically researched ingredients that address pain and inflammation from multiple angles. Curcumin C3 Complex® and Bospure® help support a healthy inflammatory response. Collavant® n2 focuses on joint structure and cartilage support. AstaReal® helps combat oxidative stress that can contribute to discomfort and tissue damage. ParActin® provides additional inflammatory and immune support. Together, these ingredients create a comprehensive wellness formula designed to support comfort, flexibility, mobility, recovery, and overall quality of life. Rather than relying on a single mechanism, Relievision provides broad-spectrum support for individuals seeking a natural approach to managing everyday pain and inflammation while maintaining an active lifestyle.

Curcumin C3 Complex® and Bospure® are well-known botanical ingredients that may help promote a healthy inflammatory response. Curcumin, derived from turmeric, has been widely valued for helping soothe occasional joint and muscle discomfort, while Boswellia may support flexibility and ease stiffness. Together, they may be especially helpful for people who want daily support for knees, back, shoulders, and other areas affected by inflammation.

Andrographis, known as andrographolides, have been extensively studied for their ability to help support the body's normal inflammatory response and promote overall resilience.

ParActin® may be particularly beneficial for individuals experiencing joint discomfort, stiffness, or physical stress associated with daily activities. Clinical studies have demonstrated its ability to support joint comfort, mobility, and physical function while helping maintain healthy inflammatory pathways. In addition to its role in pain and inflammation support, Andrographis has been recognized for supporting immune system function and overall wellness. Its inclusion in Relievision helps create a more comprehensive formula that addresses multiple factors contributing to discomfort and reduced mobility.

Replace your restless nights with Sleep Breathing Support™

You can **stop** sleep breathing disruptions and restless legs tonight.

Sleep related breathing disruptions ruin the sleep of an estimated 25 million Americans on a regular basis. Since sleep disruptions can disturb sleep without completely awakening the subject, there are likely millions more undiagnosed sufferers. The condition prevents the sleeper from entering rapid eye movement (REM) and delta sleep—causing them to become anxious, cantankerous and tired during the day. Additionally, due to the nature of the condition, it causes blood oxygen levels to be lower than normal for very prolonged periods of time. This is damaging to the brain and heart in particular.

Treatment options can include weight loss, nasal decongestants, surgery, and oral appliances. Devices, such as a continuous positive airway pressure (CPAP) machine, are commonly used for moderate and severe sleep breathing disruptions. A CPAP device is a forced air mask, worn during sleep that ensures proper inhalation.

Hi, I'm Steve Frank.

I have sleep-breathing disruptions at night. I spent years researching the condition and understanding the true cause. After many years, and with my knowledge of herbs, I found an amazing combination that supports deep, steady breathing all night long. This patented blend works great for nighttime sleep-breathing disruptions commonly associated with aging. I haven't worn any mask or tubes in years, and I sleep great. I hope you can too.

As it turns out, I also dealt with occasional restless legs. So I created a blend of herbs traditionally used to help relax nerves, ease tension, and support circulation. It worked well for her—and I later found it could also support those experiencing restless legs.

I personally use Sleep Breathing Support before bed each night, and I keep Leg Relaxer™ on my nightstand.

Sweet Dreams.

"I am well pleased with the Sleep Breathing Support. The nice part is I no longer have to use a CPAP machine. I am refreshed, rested and ready to go when I wake up." Elva Chupp

30 Capsules ~~\$45.99~~ **\$36.79**

Experience has shown that 60 percent of patients are not able to tolerate the equipment and ultimately discontinue using it. Others develop respiratory infections from the mask. Sleep Breathing Support™ was designed to do what the above solutions can't address the real cause of the condition.

THE CAUSE

When we enter stage two sleep in preparation for REM sleep, where dreaming occurs, muscular activity is inhibited. It is called "reduction of muscle tonus." This is a function that occurs primarily to keep the dreamer from physically acting out the movements of his or her dreams.

It is accomplished by suppressing the flow of signals from the brain along the spinal cord. Unfortunately, in those who struggle with sleep breathing disruptions, the reduction in muscle tonus allows the soft palate to sag and the signal from the brain to the diaphragm that keeps you breathing gets inadvertently reduced in strength.

The result of this is that upon entering stage two sleep, the breathing becomes shallower, the blood oxygen level drops and the carbon dioxide level rises until the brain intervenes and causes the body to make a large and immediate inhalation. This causes a large pressure differential in the pharynx and literally sucks the sagging soft palate into the airway. This obstructs the flow and causes a loud snort, partially or fully awakening the subject.

THE SOLUTION

So you see, the problem is not the sagging soft palate. The problem is not the rapid inhalation that sucks your soft palate into the airway. The problem is the reduced ability of the signal from your brain to produce sufficient breathing amplitude from your diaphragm. The appropriate intervention is to enhance the ability of the brain to communicate with the diaphragm so that you breathe deeply and steadily throughout the night. **That is exactly what the combination of herbs in Sleep Breathing Support™ is intended to do.**

Crafted with a bouquet of natural herbs.

Lobelia, used in small doses, can increase the level of respiration. Because the lobelia causes you to breathe more deeply and steadily, it keeps the whole disruptive cycle from even beginning.

Thyme improves the ability of the lungs to exchange carbon dioxide for oxygen and makes an excellent contribution to maintaining sufficient respiratory amplitude.

Chamomile aids the subject in relaxing.

Cramp Bark helps the upper trapezius muscles to loosen.

When was the last time you truly slept well?

Calm overactive nerves, **restless legs**, and nighttime **leg cramps** with Leg Relaxer™.

No mess. No menthol scent. No harsh chemicals.

Enjoy more comfortable nights and deeper, more restful sleep, night after night.

At Mushroom Maiden Farm, we believe in the same enduring principles that guide our communities: faith, family, stewardship of the land, and honest work done well. In a world that often rushes toward shortcuts, we choose a simpler, more transparent path, growing and crafting our products with care, patience, and integrity.

Our mushrooms are cultivated high in the Appalachian Mountains, where clean air, pure water, and rich forest traditions shape their strength. Every batch is tested by an independent lab to ensure purity and quality. We use 100% fruiting bodies, the part of the mushroom where the most valuable nutrients are found, so you receive only the best of what nature provides.

Our Lion's Mane mushroom capsules are carefully prepared to support clarity and well-being, made without fillers or unnecessary additives. Alongside them, we offer two wholesome varieties of coffee, a smooth and robust dark Arabica bean, roasted for rich flavor and steady comfort and a dark Arabica bean Cinnamon Breakfast Roll coffee. To season your table, choose from four distinct mushroom enhanced salts. We offer a Wild Hickory Cold-Smoked Salt, Himalayan Pink, Sriracha, and Thai Ginger, each crafted to complement honest, home-cooked meals.

As a 100% woman-owned farm, we value humility, hard work, and transparency in every step, from growing to packaging. We are committed to straightforward practices and products you can trust for your home and family.

Stoltzfus Family Fund:

Funds Needed,

Crist Stoltzfus (30) Fell 30 feet from a roof on July 2nd 2025 which caused a bunch of broken bones and Serious Head Injuries. Crist has a wife and three children, ages 2 year to 5 years old. As serious and life threatening as his injuries were, Crist and family have been very blessed with the recovery he has made so far. There is a need to ask for more funds as they are in Ohio for Doctoring etc.. At this time and or since the accident a year ago they had very little income coming in to support themselves, or to pay the Doctor bills etc.

If you feel led to help don't hesitate..

All Contributions are greatly appreciated to help the family in time of need. Thank You, and God Bless!...

Frequently asked Question

How do Bearaby blankets get their weight?

The **Cotton Napper** is weighted entirely through hand-knit organic cotton — not beads, not pellets, not hidden fillers. Just pure, breathable cotton loops layered to create natural, even weight. It is precisely engineered with a heavy cotton yarn, and compacted to the perfect density to give you your best nap ever.

The **Tencel Cooling Tree Napper** combines the above process with a blend of Eucalyptis fibers to give you the same effect as the cool side of your pillow, all night long.

Bobby Eaton – Master of Ceremonies

Bobby Eaton is a Christian author, speaker, entrepreneur, and lifelong builder with more than five decades of experience in business and leadership. Beginning his career in masonry at the age of 10, he went on to build successful companies while remaining committed to faith, family, and serving others.

Married to his wife, Sharla, for more than 45 years, Bobby is the proud father of eight children and grandfather of fifteen. His writing and speaking draw from a lifetime of real-world experience, offering practical wisdom and biblical truth to encourage people to build lives of purpose, integrity, and lasting legacy.

Whether writing, mentoring, or speaking, Bobby's passion is simple: helping people build their faith, strengthen their families, and leave a legacy that honors God.

Randy Sadler – Principal, CIC Services, LLC

Randy has been a Principal with CIC Services since 2012. He has been a Marketing and Communications professional since 2007 when he joined Procter & Gamble's Brand Management Group. His career transitions have taken him from P&G to Pfizer Pharmaceuticals to the Ellison Group to Jewelry Television. He now leads Marketing and Client Empowerment for CIC Services, LLC. He has personally worked with over 100 business owners to help them form their own captive insurance company and keep more of their hard-earned profits.

Randy has an entrepreneurial bent and is active in investment real estate. He is an owner and principal in Woodlands Management, LLC. His partnerships manage over 400 residential properties. Randy received his Bachelor of Science degree from the United States Military Academy in 1992.

Randy resides in Knoxville, TN with his lovely bride of 33 years, Shannon. They have five children. Randy and Shannon helped found a Classical Christian School in Knoxville that is entering its 23rd year with over 250 students. Randy still serves as school board president.

Heath Walters – strategic tax planning specialist

Heath Walters is a strategic tax planning specialist who trains and partners with financial advisors to recommend and deliver specialized tax, investment, and legal/estate strategies for their high-net-worth clients. With over 10 years of experience as a CPA and Certified Tax Coach, Heath helps financial planning firms set themselves apart to their ideal clients through coaching and specialized services to complement traditional financial planning. Heath's proven process for client acquisition has led to many advisors doubling their book of business in as little as 24 months. Additionally, Heath has both a Bachelor degree in Accounting and Master of Science in Accounting from Appalachian State University.

Heath is the founder and President of The Walters Way, LLC. Heath was certified as a North Carolina CPA in 2000. He is a Certified Tax Coach as well as an instructor with The American Institute of Certified Tax Planners. Heath also conducts training seminars for financial and wealth advisors, Continuing Professional Education for CPA's, and is a mentor for other CPA's working toward converting their practice to an Advanced Tax Planning firm.

Weston Liebee – President & Co-Owner, Liberty Sheds

Weston is passionate about using business as a means to advance the Kingdom of God. As President and co-owner of Liberty Sheds, a manufacturing and retail company in North Carolina with over 90 employees, he leads in strategic planning, organizational development, and company culture. Weston Liebee is passionate about demonstrating that business can be a powerful tool for advancing the Kingdom of God. He serves as President and co-owner of Liberty Sheds, a growing manufacturing and retail company employing more than 90 people across North Carolina. Weston leads the company's strategic planning, organizational development, and culture, believing that healthy businesses create opportunities to bless employees, strengthen communities, generate wealth, and fuel missions.

Before entering the business world, Weston and his wife, Charity, spent more than a decade living among the Komba people of northern Ghana. There they helped catalyze a disciple-making movement that resulted in multiple generations of church planting while also leading community development initiatives in education, agriculture, and microfinance. Weston also managed the translation and production of the first Jesus Film in the Komba language and has trained ministry leaders in oral communication strategies for non-literate cultures.

Today, Weston and Charity continue to invest in global missions by serving as trained missionary debriefers, helping cross-cultural workers navigate crisis and life transitions. They live in Winston-Salem, North Carolina, with their three sons, and remain committed to helping people discover how business, leadership, generosity, and the Gospel can work together to transform lives.

Treasured encouragement and teaching for

Christians in Restricted Countries

Kamran* was on a deep search for Truth. As he looked at the people around him—even those claiming religion—he saw arguments, hatred, and slander. None of them offered what he was looking for: a peaceful and loving relationship with God.

One day, during a lunch break on the farm where Kamran worked, he talked to a co-worker. The conversation turned to God. This young co-worker shared some information that was surprising to Kamran—he and his family were Christians. As they talked, Kamran shared about his struggle to read the only Bible he had. The Bible was in a language he could hardly understand, and he struggled to comprehend the little he was able to read.

A few days later, Kamran met this Christian man again. The man brought him several Christian magazines. Kamran recalled this pivotal moment: "He told me I could borrow them but should be careful not to let anyone damage them, as his family enjoyed reading them and wanted to have them back eventually."

"Those magazines fascinated me," Kamran shared. "I asked him if he could lend me more, and we began meeting more often. I visited his family, and his father gave me a copy

of the New Testament in [a language I could read]. Then a few months later, his father gave me your contact information, saying that you could send me magazines."

Kamran knew the risk of receiving Christian literature. He started a post office box so his relatives and neighbors would not easily find out. He then began to regularly receive Christian family magazines. Sound teaching from conservative Anabaptist writers became a consistent source of Bible teaching.

Like Kamran, thousands and thousands of Christians in closed and restricted countries long for fellowship with other Christians, but have limited options. They long for encouragement and Bible-based teaching, but have almost no source.

CAM supporters' funds supply Christian family magazines, reminding these believers they are not forgotten. The material encourages them toward faithfulness to Christ as they face the challenges of living under oppressive regimes. The sound articles point them to a life of faithful obedience to the Word of God.

If you wish to help us supply these magazines to those who anxiously await their arrival, your support will be greatly appreciated!

Stop. Think. Verify.

Before making any sudden money transfers or withdrawals, ask yourself the following questions:

- Am I on the phone with someone walking me through this transaction?
- Was I told not to tell anyone why I'm sending this money?
- Is this going to someone I've never met in person or haven't talked to in years?
- Was I told to buy gift cards?
- Did a "government official" or "bank" threaten arrest, fines, prosecution, or deportation?
- Did I get a deposit from a stranger who now wants me to send some of it back?
- Did I get an urgent call saying a family member is hurt, in danger, or in trouble?
- Was I told to deposit cash into a Bitcoin/cryptocurrency ATM?
- Am I doing this because I feel threatened or afraid of what happens if I don't?

Stay Vigilant!

- Your bank will never call you to ask for your password, PIN, or force you to make an immediate transfer.
- If something "feels off", hang up and call your financial institution directly.

Your safety is our top priority. Please share this alert with friends and family to help prevent further scams.

**BANK OF
Bird-in-Hand**

a full service community bank

Protect Yourself Against Mail Fraud

Recently, Bank of Bird-in-Hand has noticed an increase in mail theft. Customers have reported checks being stolen from their mailboxes. Fraudsters then alter the stolen checks or create fraudulent checks they attempt to cash against our customers' accounts.

Here's what you can do to protect your mail:

- Use the letter slots inside your Post Office, or hand mail to a letter carrier. Do not leave mail with a check enclosed inside your mailbox for pick up.
- Retrieve your mail promptly after delivery. Don't leave it in your mailbox overnight. If you're expecting checks, credit cards, or other valuable items, ask a trusted friend or neighbor to pick up your mail.
- If you don't receive a check, credit card or other valuable mail you've been expecting, contact the sender immediately and inquire about it.
- If you change your address, immediately notify your Post Office and anyone with whom you do business via the mail.
- Be careful about what you send - don't send cash in the mail.
- Report all suspected mail theft to a Postal Inspector.
- If you are generally not home on Saturdays, or your business is closed on weekends, consider having the post office hold your mail until Monday.
- Work together with your neighbors. By exchanging work and vacation schedules with trusted friends and neighbors, you can monitor each other's mailboxes (as well as homes).
- Use banking tools that are not reliant on physical checks.

Bank of Bird-in-Hand offers telephone banking, online banking, and mobile banking services that are fast, convenient, and secure. Our Business Solutions help businesses scan and transmit checks directly from your business to the bank and move money between banks electronically. We also offer Positive Pay – a powerful protection tool to help detect fraud before it happens.

If you see a mail thief at work, or if you believe your mail was stolen, call the police immediately, then call the Postal Inspectors at 877-876-2455 (press 3).

A BARN IS GONE.

BUT THE NEED REMAINS.

A fire tore through our barn and destroyed equipment, supplies, and a place our boys use every day. This barn was a place they worked, learned, found purpose, and built confidence. Your gift today to rebuild it can help restore hope!

If you can, please help us rebuild what was lost.

Yes! Women may experience hair loss following measles.

Hair loss following a measles infection—especially in women of childbearing age—is most commonly caused by telogen effluvium, a temporary form of diffuse hair shedding.

Why Measles Causes Hair Loss

High Fever & Immune Stress: Measles causes high fever and severe systemic inflammation. This physical shock abruptly shifts a large percentage of growing hair follicles into a resting (telogen) phase.

Delayed Timeline: Shedding typically begins 2 to 3 months after the infection has resolved, which often makes it feel unexpected.

Natural Regrowth: In most cases, the hair follicles remain alive, and hair begins to regrow naturally within 3 to 6 months once the body recovers.

Key Considerations for Women of Childbearing Age

Compounding Factors: Women in this age group are often more susceptible to underlying iron deficiency (low ferritin), thyroid fluctuations, or recent postpartum changes. When combined with post-measles stress, shedding can appear more pronounced or take longer to stabilize.
