Editor's Note

Hello everyone!

I spent a few days in western PA last week at a business meeting. We stayed at an old castle that was built back in the early 1900's. Bordering the Allegheny River, it overlooks the small town of Franklin, PA. Once known as Life Ministries, it consists of over a thousand acres and can host a large group of people for various events. While we were there, we did some hiking on the trails on the property. There were quite a few oil wells scattered throughout the property. We saw only one in motion as we strolled

by. The place also had a nice amount of deer. After being away for a short period of time, it's always good to be back home again at the homestead and to get back to normal.

See pages 7 & 8 to place an ad and for current pricing, details, and contact information.

I hope you all had a blessed Easter holiday! Thanks to everyone for your interest in the Busy Beaver!

-John Zook

This Post IS the Insulator!

Made from recycled PVC, our posts are both strong and flexible, making them all but impossible to break under normal use. Pre-drilled holes are 3/8" diameter and placed every 3" for easy wire threading.

Highly versatile, easy to install, and budget-friendly, the Timeless[®] fence system is the preferred choice of many farmers and hobbyists.

CellAide Nutritional Event...

100% Natural Minerals - Equine, Animals & Humans

Pituitary gland support... Thyroid function... Hormones Balance!

FRIDAY APRIL 17TH 2026 - BARBECUED RIBS, SALAD, CHIPS AND ICE CREAM!

(6:00 P.M. MEETING) (7:00 P.M. SUPPER) (8:30 P.M. DRAWING)

Host: Ivan King

Where: Rolling Valley Minerals

Come enjoy the evening with us...

CellAide Performance and Enema Oil have worked wonders during the breeding season. A 19 yr old mare is now in foal after 11 years of failed attempts (after using the above products for one heat cycle.)

The 18" Kamado Joe and The Blackstone, will be given away, don't miss this event! Must be present to win!

PROGESTERONE? LOW?

Low Progesterone ?

All of our mares were fine, except this one mare. She was the Regu-mate mare and of course (nicknamed) "the every other year mare". We put her on Performance and her progesterone levels went from a level of ".5" before to a level of over "15" after using the CellAide Performance on her feed for only 5 weeks. She is now infoal. The CellAide Performance was expensive, but it worked!

Don't let those profits get away!!

Hormone Support

Conception Support

Breeding Frustration?

"Direct mucosal uptake through the rectal venous and lymphatic networks delivers ionized minerals and soluble compounds systemically without digestive degradation, supporting rapid endocrine and cellular signaling."

Supporting Ovulation.

SELL YOUR MILK, DON'T WASTE IT!

Those are the names for synthetic B1, B6, B9 and B12. The cheapest and most commonly used. Tranont uses real B vitamins from nature and cultures them on yeast, creating a powerful, bio-available product your body can easily recognize and successfully use. At Tranont we know that **BETTER CHOICES** bring **BETTER RESULTS**. This product has helped alot of struggling students with better focus and concentration!

Unfortunately, a lot of synthetic B vitamins end up in the toilet. Become educated and aware of what you are buying.

MAXIMUM PERFORMANCE HORSE SUPPLEMENT

Give your horse the minerals that are no longer in the your feed!

50 lb Bag Granular \$150, last 5 horses/ 1 month. 50 lb bag pellets \$135 last 50 days/ a horse Pellets for picky eaters, with ulcers, driving horses, Stallions and mares.

Dave Mast mare was open two years in a row, 30 days on Maximum Performance and she checked in foal with NO Regu-mate.

David Patterson bred for 30 years and always trouble foaling out, weak foals, trouble re-breeding. First season on MP, mare foaled easily, baby running in the stall, plenty of milk, mare cleaned quickly and checked in foal first time bred. Very impressed.

Indiana man had mare running off, cranky, picky eater, put her on pellets, 15 days daughter said, What did you do to the mare? She is so easy to handle, drives great, looks better. MP Pellets. oh my.

Lawrence Schrock, PA said he was one of the few with no OCD's in his yearlings at the sale, thanks Maximum Performance for sound bones, strong muscled yearlings.

Driving horses are under a lot of stress, many have ulcers, tendon issues, hoof problems. There are few minerals in your feed, and this supplement provides what they need to perform at their best, sweat less, warm up faster, reduce muscle soreness, and improve hoof quality and build muscle.

1. If you want to reduce ulcers, acid reflux and build muscle as well.
2. If you want to increase stamina and reduce recovery time, see a difference in 5 days..
3. If you want to calm your mares down, reduce tying up, anxiety and agression.
4. If you want to enhance elasticity in tendons and ligaments and get nutrients to the hoof. May recover from injuries in half the time, soft tissue and bone.

Maximum Performance for Breeders

1. If you want to reduce OCD's (soft bone chips in ankles and hocks).
2. If you want to have mares at peak condition checked in foal.
3. If you want to improve development of your foals.
4. Vets explain OCD's are caused by mineral imbalance first 11 months in womb, not enough Calcium and minerals for the mare.
5. Stallions have better sperm count, maintain muscle mass, reduce OCD's and maintain hoof quality. contact 502-817-1947

There is a Better Way

Prevent your fruit trees from **FREEZING** in temperatures as low as 16° Use FXI (Fire Extinguisher), Biome Food & Harmonizer

Also available in 1.2 cubic foot bag

Biochar blends available for various farming needs, call for more information.

If you want better nutrition.... you need to start with better soil

WHAT IS BIOCHAR?

Our Biochar is steam activated carbon that is beneficial for our soils and animals

- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.

WHAT IS THE BENEFIT TO YOU?

- Saves costs over high fertilizer year after year.
- Creates a healthier environment for you and your family.
- No dangerous side effects to humans, animals, or ecosystems.
- Puts more dollars in your pocket.

- Genomic scores rank in the top 5% in international rankings
- \$5,500 – proven breeders with offspring
- \$85,000 – younger sires at breeding maturity

Fullblood Wagyu Cow/Calf Pairs

- 2 for 15 due April through June with heifer calves on their side
- Calves sired by top 1% to 5% ranking international genetic Wagyu bulls.
- Can hold until dams are serviced again (4-15)
- \$6,500 to \$8,500, depending on pedigree and proven performance

Notes from seller:

America is waking up to the amazing taste and tenderness of beef from the Wagyu breed. The experience is like none other. Farmer's markets, restaurants, and every day people are asking for WAGYU!

The Wagyu breed requires a heavy energy ration to finish steers. They will only produce average marbling on a grass-only diet but not the finely-marbled steaks that are signature of the Wagyu breed. We do not recommend purebred Wagyu seedstock for grass-finishing operations.

Looking for your milk bonus?

A farmer wrote to us saying how he lowered his cows SCC and his milk inspector is really pleased. This is what he did:

1. CMT every cow in the barn.
2. Mark all high quarters with a crayon.
3. Use Hornet Udder Tonic on those quarters once a day for 3 days.
4. Cover every quarter with Super Cow Udder Mint twice a day for 7 days.

The money he spent on his cows, he received back from the bonus!

1 bottle is enough for 4 quarters

- 19" CL Clipper 9002\$499
- 21" CL Clipper 9003\$519

The original 6-blade Clipper, this USA-made mower is still a great choice if you need a fine and even cut. Features 9½" tires, traditional adjustment levers, and one-out adjustment. 10-year warranty.

EZ CLIPPER *USA Made, Easy to Push* *OUR #1 SELLER*

- 19" EZ Clipper 9102\$499
- 21" EZ Clipper 9103\$519

The EZ Clipper is made with the same great quality materials and workmanship as the CL Clipper, but has 5 blades which makes it easier to push. The cut is not quite as fine, but your children will love to push this mower! Features a simple 1-lever roller adjustment and easy-to-remove handle. 10-year warranty.

Mow Your Grass with a CL Gang Mower

CL Pushdown "Antibounce" System

The main cutting reels are each mounted on a flexible spring-loaded joint with a 4-way floating motion, efficiently pushing the mower similar to a hand push mower. This unique spring design puts 30 lbs of downward pressure while still allowing the reels to flex. This results in more traction and better cutting through thick grass, without causing excessive wear on the mowers.
This is a new feature since 2022. If you have an older model, call us for info on an "antibounce" upgrade kit.

Unique Hitching Feature

The CL hitching system makes hitching and unhitching "safe and easy". The stabilizer has two notches, the back notch holds the shafts up while you lead your horse under the shafts. When ready, simply push the shafts up (which will flip the lever into the long slot), allowing the shafts to come down. After hitching your horse, pull lever to the left, then pull the pin on foot stand, and pull up till pin pops in hole, and you are ready to go. The small caster on foot stand is not used when mowing...it is part of the convenient hitching design.

Reg. size \$4240
Pony size \$3980

FEATURES:

- Wheels behind driving mowers prevent driving over unmown grass
 - 54-58" cutting width
 - Convenient foot pedal steering with reel linkage prevents skips in corners and around trees
 - Adjustable for large or small horses
 - Featuring the CLIPPER USA reels
- Available with steel wheels, air tires, or hard rubber.

Level uneven ground and eliminate bumps with our Bomag roller. For best results, pair it with one of our aerators to open the soil and help nutrients penetrate.

30" Aerator with Seedbox

Aerate and overseed in one pass with our 30" Stinger aerator and attached seedbox — saving time while improving results.

Aerator, Top Dresser, and Overseeder All in one machine!

“A Doctor’s Story for the Amish...”
Why “Normal” Lab Results Don’t Always Mean You Feel Well

Dear friend,

I would like to share a personal story with you. It is not written to persuade or impress, but simply to share how I came to understand health in a different way. Years ago, something happened in my own life that changed how I looked at the body, responsibility, and care. I believe my story may be worth sharing.

“At the time, I’m running my own chiropractic business and I start to feel run down and low on energy. I just didn’t feel right. But, life is good. I can push through and handle it. But, then it happens. One day I was just exhausted and couldn’t work. I was fatigued. I find myself unable to think clearly or run my business. And that’s not all!”

“I try just about everything I know to help, including coffee and energy drinks and stubbornness. Finally, a friend of mine convinces me to give their doctor a try. The new doctor talks with me and takes some blood and a few days later hands me a report. I started taking vitamins, minerals and herbs, which are recommended because of my blood/lab results. Before I know it I feel better. I quickly begin to regain my energy and focus and shortly I am able to run my business again. It turns out this doctor took a careful approach to understanding how the body uses nutrients. This works so well for me, and I’m so impressed that I eventually learn nutrient deficiency concepts myself. And that’s how it happened!”

The photograph shown here is of my wife, our children, and my parents. Family has always been at the center of my life. Staying present for those we love, caring for one another across generations, and valuing time together are things that matter deeply to us.

It’s strange how life works, because now people write and speak with me about many concerns they are experiencing. They mention ongoing aches, stiffness, low energy, digestive troubles, sleep changes, concentration issues, sensitivities to foods, fluctuations in weight, mood changes, and feeling generally out of balance. These are the kinds of issues that affect daily living and often leave people searching for answers.

Here’s what some of my patients had to say: “I appreciated having things explained clearly and felt encouraged moving forward.” -Ohio

“The information was easy to read and helped me better understand what my tests were showing.” — Indiana

Several times a day, people thank me for helping them better understand their health concerns. But I cannot take the credit. My confession is that I have never healed anyone of anything. What I do is help identify areas where the body may be lacking what it needs. When those needs are addressed, the body often works to restore its own balance, in the manner God intended. It really is that simple.

Helping people understand their lab work can be challenging at times, because there are many voices offering advice. Some of what is shared can be confusing or poorly supported. What guides this work instead is careful attention to established research and a focus on helping the body function as God designed it to.

I often remind people not to let small concerns become larger ones. Minor imbalances, when ignored, can grow into greater difficulties. This is where nutrient deficiency concepts come in. By carefully reviewing blood and lab information, these concepts help explain how the body is functioning and what it may be lacking. This approach is grounded in research that has been developed and refined over many years.

An opportunity to better understand your health. It should be affordable and reasonable to correct your health. Most families already spend money trying to understand what’s wrong. This provides a clear, educational way to do so.

A printed guide to understanding blood tests is available for \$9.99 plus \$3.99 shipping and handling. This guide explains common blood tests, what the numbers generally mean, why tests are ordered, and why results can be considered normal while not feeling right. It is offered at printing and mailing cost for educational purposes.

A personal lab review is available for \$79.99. Individuals may mail in blood work and receive a written explanation of their own lab values in plain language. This option does not include nutrient or product references. Many families choose this option.

For those who want additional educational context, a lab review with nutrient education is available for \$179.99. This includes a written lab review, educational information about nutrients the body commonly uses, and a scheduled thirty-minute time to review the report and ask questions. There are no diagnoses, treatment claims, or pressure to purchase anything.

For those who prefer everything handled from the beginning, labs can be ordered and fully reviewed for \$549.99. This includes lab ordering, written explanation of results, educational nutrient pathway information, and scheduled time to review the report.

My phone number is: **(816) 547-0807** You can call or write to me to learn more.

My hours are Monday-Thursday 9am -6pm.

We can help you. Thank you. God Bless - - Rich Prather, D.C.

P.S. Interpreting lab information involves more than reading and sharing advice. Proper understanding comes from experience, careful study, and access to reliable, up to date information, modern testing methods, and using technology to review lab data accurately. This helps ensure decisions are made responsibly and with clarity.

P.P.S. If you would like a second opinion or simply want help understanding your lab work more clearly, you are welcome to contact me.

BEFORE YOU LET ANYONE TREAT YOUR BACK OR NECK PAIN... READ THIS.

The wrong treatment can make a disc injury worse— and surgery is rarely the first answer.

My wife suffered with low back pain for several decades. She visited maybe 10 different doctors who helped her for a while but never got to the root of the problem. Her legs hurt, she was restless at night, unable to do garden work, lawn work, or keep up the housework. One year after beginning treatment at MDC she is able to do all those things in a normal way again. We thank God for his Healing, grace and blessing the doctors with wisdom, knowledge, and the willingness to serve.

—M. Metzger- Manchester, IN

If your pain is:

- Stopping you from working your land or trade
- Keeping you from lifting or caring for your children
- Making household work difficult or impossible
- Causing leg pain, numbness, or weakness
- Waking you through the night
- Limiting your ability to serve your family and community

Your situation may be more serious than you have been told. You deserve a real answer before making any permanent decision.

Every Month, Families tell us they were told:

- “You just need injections.”
- “You’ll have to live with it.”
- “Surgery may be your only option.”

But no one explained:

Was the disc properly evaluated before treatment began? Muscle pain and disc injuries are not the same thing. The wrong treatment does not fix the real problem.

We focus only on spinal discs.

Not knees. Not shoulders. Not general aches.

Spinal discs only.

We evaluate before we treat — with a clear 2-day Discovery Process..

Within two days, you will have straight answers to four questions:

- ✓ What is the problem?
- ✓ Can we help you?
- ✓ How long will it take?
- ✓ What will it cost?

Some cases qualify. Some do not.

We will tell you honestly if your case is not a fit for our program. Everyone deserves to know exactly what they are dealing with before making a permanent decision. We are not here to waste your time or money.

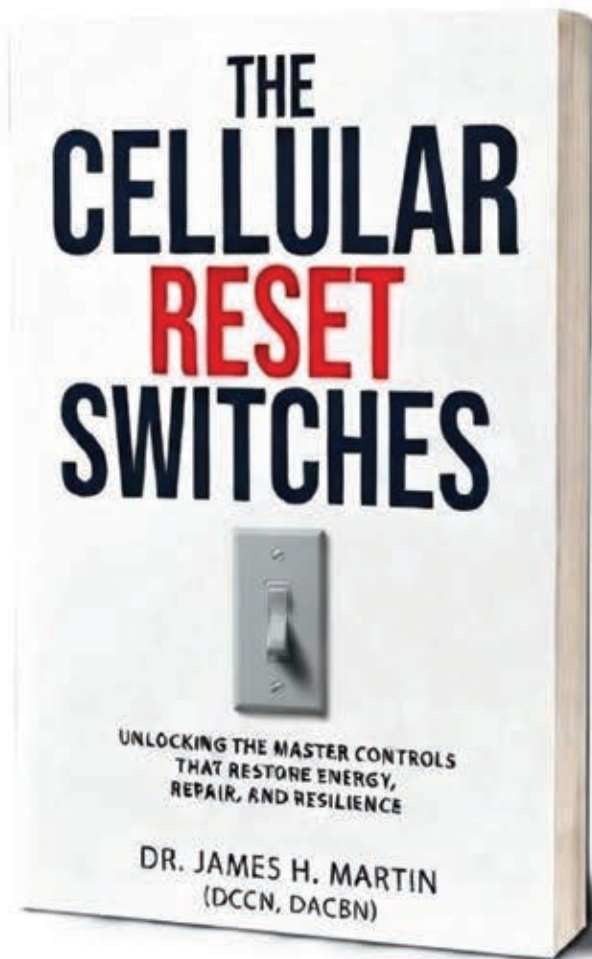

CALL NOW — REQUEST YOUR FREE DISC REPORT

“6 Questions to ask Before letting Anyone Treat Your Spinal Disc”

“Lions Mane Talk”

At Mushroom Maiden Farm, we believe in the same enduring principles that guide our communities: faith, family, stewardship of the land, and honest work done well. In a world that often rushes toward shortcuts, we choose a simpler, more transparent path, growing and crafting our products with care, patience, and integrity.

Our mushrooms are cultivated high in the Appalachian Mountains, where clean air, pure water, and rich forest traditions shape their strength. Every batch is tested by an independent lab to ensure purity and quality. We use 100% fruiting bodies, the part of the mushroom where the most valuable nutrients are found, so you receive only the best of what nature provides.

Our Lion’s Mane mushroom capsules are carefully prepared to support clarity and well-being, made without fillers or unnecessary additives. Alongside them, we offer two wholesome varieties of coffee, a smooth and robust dark Arabica bean, roasted for rich flavor and steady comfort and a dark Arabica bean Cinnamon Breakfast Roll coffee. To season your table, choose from four distinct mushroom enhanced salts. We offer a Wild Hickory Cold-Smoked Salt, Himalayan Pink, Sriracha, and Thai Ginger, each crafted to complement honest, home-cooked meals.

As a 100% woman-owned farm, we value humility, hard work, and transparency in every step, from growing to packaging. We are committed to straightforward practices and products you can trust for your home and family.

Simple ingredients. Careful hands. Honest quality. That is the Mushroom Maiden promise.

How pHix's Mature Hops Extract Can Help Stabilize Blood Sugar & Support Diabetes Management

If you or someone you love struggles with blood sugar swings or diabetes, you know how frustrating it can be to find natural solutions that actually work. What if a powerful, science-backed ingredient—derived from something as simple as hops—could help? That's where pHix comes in.

The Blood Sugar & Diabetes Connection
Unstable blood sugar isn't just about sugar cravings or energy crashes—it's a major factor in metabolic health, weight management, and even long-term complications like diabetes. Traditional approaches often rely on medications with side effects, but what if nature already had a better answer?

How pHix's Mature Hops Extract Works

- ✓ Improve Insulin Sensitivity – Helps your body use insulin.
- ✓ Slow Glucose Absorption – Supports balanced blood sugar stability.
- ✓ Reduce Inflammation – Chronic inflammation.

Why Science Behind It

- Research has shown that certain compounds in hops (like alpha and beta acids) can:
- Activate AMPK (an enzyme that helps regulate metabolism, similar to how exercise does).
 - Mimic some effects of diabetes drugs—naturally.
 - Help reduce oxidative stress, a key driver of diabetic complications.

Pre-diabetic: Help prevent progression to full diabetes.
Type 2 Diabetics: Support healthier blood sugar levels—naturally.

The Bottom Line: Blood sugar issues don't have to control your life. With pHix's unique hops extract, you're not just masking symptoms.

HERE'S A BREAKDOWN OF WHY FULVIC IS SO VALUABLE:

- TOXINS ARE EVERYWHERE**
We're exposed daily to heavy metals, pesticides, plastics and pollutants. Fulvic acid supports the body's own detoxification pathways, helping to eliminate routine environmental contaminants.
- NUTRIENT DEFICIENCY IS COMMON**
Modern farming can leave foods short on minerals. Fulvic acid supports nutrient transport and supplies trace minerals often missing from today's diet!
- CELLULAR ENERGY**
Fulvic acid supports healthy mitochondrial activity, promoting efficient cellular energy production and enzyme performance.
- GUT HEALTH SUPPORT**
Fulvic acts as a prebiotic, nourishing beneficial gut bacteria and helps maintain normal gut lining integrity—both important for digestive comfort and immune health!

DURING THE DAY IN ADULTS:

- HELPS RELIEVE INFLAMMATION
- SUPPORTS HEALTHY WEIGHT MANAGEMENT
- PROVIDES ANTIOXIDANT SUPPORT
- SUPPORTS GASTROINTESTINAL HEALTH
- AIDS GLUCOSE METABOLISM
- PROMOTES IMMUNE DEFENCE

Have Cancer Concerns?

Amygdalin (Laetrile) Vitamin B17 is a powerful organic natural substance that works to help control cancer and viruses which can be consumed through seeds or supplements. In the late 1960's, a pioneering physician, Dr. John A. Richardson, MD, dared to treat his cancer patients with a revolutionary treatment that included the use of Laetrile, along with a strict protocol of diet, exercise, and vitamins. It worked remarkably better than orthodox treatments. Apricot seeds contain the highest concentration of B17 found in nature. These seeds also contain high levels of Thiamine/B1 and Omega-3 fatty acids. From cellular health to inflammation to respiratory conditions, this super seed is also great for animals!

I have been taking B12 Vitamins for a while, they gave me energy but would always crash. I tried a sample of Fire-N-Ice and love it! I was super focused on any task I was doing. I was very calm. I never felt jittery. I had a ton of energy and never crashed. Bonus was I slept great. - Jeffery

Sleep better. Every season of the year.

Bearaby

Bearaby weighted blankets are rated at **4.8 out of 5 Stars** from dozens of verified "Busy Beaver" Bearaby users.

Did you know, a Bearaby gives you the weight effect of a comforter (and more), but retains almost no heat, so you can sleep better in the summer as well? Simply use it over the top of a linen, and enjoy a deep, restful night of sleep!

Natural deep sleep

Scientific research shows that sleeping under an evenly distributed weight brings about a deeper, more natural sleep cycle

Peace of mind

The sensation of being cuddled lowers stress and anxiety by reducing cortisol, making you feel calm and relaxed

Joyful feeling

Being gently cocooned in a comforting weight increases serotonin, making you feel positively happy.

Our handmade **Cotton Napper** is a breathable, knitted weighted blanket to help you fall asleep faster and feel calmer, naturally. Designed for individual use, your Napper should be about 10% of your body weight. Not designed to add warmth. **Made of 100% organic cotton.**

Princess House Double Burner Cast Iron

Get her something that will last for years and will even be passed down to the next generation. Did you know cooking with cast iron can help with your iron levels and is alot healthier than nonstick? Cast iron is known for it's amazing durability and ability to handle the high temperatures needed for searing, frying, and even outdoor grilling. It's heavyweight material heats slowly and evenly, so it's also great for baking, simmering, and even roasting. Less maintenance than raw cast iron as the enamel helps prevent rust and makes for far easier cleaning. The more you use this pan the more it will become like nonstick. This pan does it all!

- Lifetime warranty
- Oven safe
- Grill safe
- Campfire safe
- Stovetop safe
- Broiler safe

Good for:

- High heat cooking and searing plus dry heat cooking
- Those who want a natural alternative to nonstick
- Cooks who want versatility, durability, and beauty

VISION BEYOND BORDERS

Over Six Million Bibles Delivered Across the World

Join us in sharing the Gospel far and near.

For years, Vision Beyond Borders has worked to place God's Word into the hands of those who are waiting for it.

- Hundreds of thousands sent to Venezuela and Cuba.
- Actively working to get Bibles into the hands of Iranians who are seeking truth.

In many places, access to Scripture is limited, restricted, or financially out of reach. Yet the hunger for God's Word continues to grow.

We are printing and distributing Bibles to:

- Churches and believers who cannot afford one
- Prisons and drug rehabilitation centers
- Rural villages and underserved communities
- Nations where Scripture is difficult to obtain

Will you help send Bibles today?

\$4 prints one Bible

\$100 provides 25 Bibles

\$1000 provides 250 Bibles

Any amount blesses the thirsty hearts.

A channel enabling the church to minister to physical and spiritual needs around the world

WORLD HUNGER FUND

Food, hope, and fellowship in Venezuela

Article space donated to CAM

CAM contacts in Venezuela work tirelessly to supply nutritious food for the most vulnerable—children, the elderly, and families facing economic hardship. Their mission is to restore dignity, nourish bodies, and build hope, one meal at a time.

Volunteer coordinators oversee a network of church-run food kitchens that provide food for the hungry. When people come to get their hot meals, they also receive spiritual encouragement and Christian literature. As the church works among its own people, they endeavor to create an environment of care, hope, and fellowship that points to the Father God.

A recipient named Doriannys shares, “In my house there’s nothing to eat, my dad is in prison, the money my mom earns cleaning doesn’t stretch. . . .

Thank God for our Bible class and the teachers, who bring food and the Word of God, no matter what happens.”

Please pray for the people of Venezuela as they face significant uncertainties. Your support provides help and hope amid trying times. Thank you!

Keystone Steel Structures is a small company that specializes in erecting and finishing steel buildings. The owner started the company in October 2001. The first few years Keystone was only involved in the erection of the steel structure itself. However, due to customer demand, we have chosen to expand the company's services to include supplying a complete pre-engineered metal building package as well as providing general contracting services for an entire project. While we would be happy to erect a structure from any supplier, we are proud to supply our buildings through Whirlwind and Metallic Building Systems. Over the years, we've collected many awards and honors for the work we do with them.

We strive to build our reputation with excellent communication and unrelenting persistence at keeping our promises to supply quality construction. We are committed to delivering great value and service to our customers.
