Editor's Corner

Hi friends,

Are you all staying dry and warm? Seems the rain doesn't want to stop, but rainy days are also beautiful. Nothing like a fresh washed world after a storm.

Spring is such a lovely time of year. The wildflowers are blooming; they look so fresh and make your day so much better. The rain makes the grass greener.

Well, I still have a couple of things to do, and I should give the office a cleaning. We have been busy the last couple of weeks, and we're thankful for everyone who advertised with us. Without you, we wouldn't be able to do this.

You all have a blessed week.

The Thief on the Cross...

Unconditional forgiveness
and complete acceptance

Even in his final moments, a condemned man found hope.

As he hung beside Jesus Christ, the repentant thief, who had lived a life of wrongdoing, turned in simple faith and said, "Remember me." In that instant, everything changed. No time to make amends or rewrite his story. Yet the grace of God met him there, and Jesus promised him paradise.

This powerful moment reminds us that no life is too far gone, no heart too hardened, and no past too broken to be redeemed.

Every day, men and women behind bars are standing at that same crossroads—longing for hope, searching for forgiveness, and wondering if their lives can still matter. Christmas Behind Bars delivers care packages and Bibles, along with the life-changing message of Christ directly to them, offering the same grace that transformed the thief on the cross.

Your support helps provide these care packages and Bibles, along with personal outreach to inmates who are ready for a new beginning.

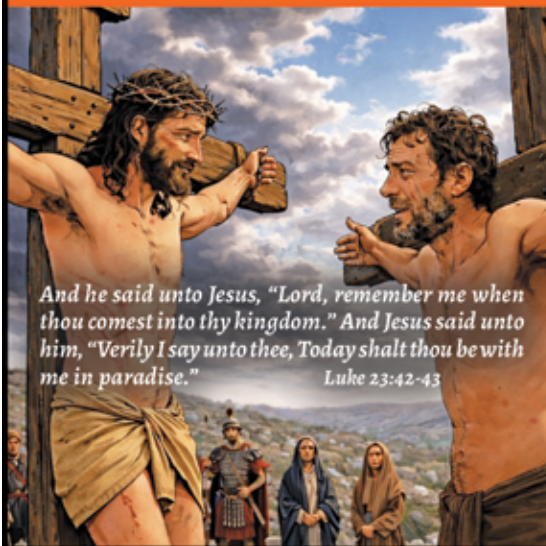

Partner with us today—because one moment of faith can change an eternity, and your generosity can help make that moment possible...

And he said unto Jesus, "Lord, remember me when thou comest into thy kingdom." And Jesus said unto him, "Verily I say unto thee, Today shalt thou be with me in paradise."

*Mable has had her 22nd foal
Raising a healthy one is our goal
The foal doesn't lack suction
But Mable's short on production
Its obvious her milk production is low
Cause the foals ribs are starting to show
We like when a foals belly is nice & round
when it swallows you hear that full throat sound
Now what does the Lions Man say?*

Ronald Hamilton was a longtime Lafayette-area machinist known for operating a fully functional, working machine shop that served local farmers and tradesmen for decades. His shop was actively used and well maintained, with equipment selected for real-world use rather than display. This absolute liquidation auction offers the contents of that shop, including machine tools, welders, and support equipment accumulated over a lifetime of hands-on work. All items sell to the highest bidder.

ARE YOU DEFICIENT IN FATS?

If you have four or more of the listed questions answered with a yes, you are very likely deficient in essential fats.

Kräftig Fischöl

(POWERFUL FISH OIL)

Norwegian Salmon Oil

Recommended by John Keim

120 caps.....\$38.00

16 oz unflavored liquid

.....\$58.00

- Do you have difficulty learning or concentrating?
- Do you have a poor memory?
- Do you have brittle, easily frayed, or soft nails?
- Do you have excessive thirst and/or frequent urination?
- Do you suffer from PMS or breast tenderness?
- Do you suffer from dry, watery, or itchy eyes?
- Do you have inflammatory health problems such as arthritis?
- Do you have high blood pressure?
- Do you have slow/poor wound healing?
- Do you have obsessive or compulsive behavior?
- Do you have extreme fear or night terrors?
- Do you suffer from anxiety or depression?
- Do you suffer from travel or motion sickness?
- Do you experience fits or convulsions?

There are blood tests available to check your fat status. The bottom line is fats are a necessary part of a healthy body. As well as improving your mental health, the essential fats reduce the risk of cancer, heart disease, allergies, arthritis, eczema, and infections. The brain and nervous system are totally dependent on a family of fats. In the past we have had good success with fish oils for dry skin, dandruff, skin rashes, joint pains, memory loss, depression, etc. In the latter 10 years, our results have gradually decreased. I was already aware it did not pay to buy the cheaper brands. By seriously researching the last couple years, we discovered the processing methods used by the well known, expensive brands. We decided the refining process of fish oils is worse than the refining of white, wheat flour. In the beginning the large trawlers spend weeks at sea harvesting the fish. The catch should ideally be quickly transported to a rendering plant. In less ideal situations, the harvest is stored aboard the ship for long periods, degrading in quality. The collection is now heated or cold pressed to extract the oil. The imagineering thought this product is raw and cold pressed, or gently processed, is a marketing ploy. The refinement process involves four major stages: degumming, neutralizing, bleaching, and deodorization. There are up to six processes using heat. In the deodorization, the oil is heated up to 374°F or higher as live steam passes through it at low pressure. The temperature for molecular distillation can reach 395°F. These heating processes cause a significant loss of vitamins A and D and creates harmful trans fats due to high heat. Since almost all of the natural vitamin A and D are removed most producers add synthetic ingredients to be able to show a higher ratio of A&D, EPA, and DHA on the ingredient list on the label. Once the oil is cooled and antioxidants are added to protect the oil from oxidation. Natural antioxidants like ascorbic acid, isolated vitamin E tocopherols from soy, citric acid from GMO corn and common synthetic antioxidants including BHA, BHT, TBHQ and propylgallate are added. They use up to 18 processes before the oil is bottled. Some producers use synthetic citrus and fruit flavorings derived from proprietary chemicals. Some companies also add alcohol (which causes inflammations) to prolong shelf life, defeating the anti-inflammatory effect of the omega 3 naturally occurring in the oil. What we have discovered in our research was a company established in 2019 promoting an unrefined salmon oil with no artificial ingredients added. The oil is capsuled and liquid bottled within one hour after the fish is killed. The heat is never raised above 180°F in the process. It has all the natural ingredients in the oil the fish had originally including 28 omegas which have been destroyed in many other brands of fish oil through the refining and processing procedures. It is probably the only salmon oil with the natural golden color after bottling, available. While we were experimenting with these oils two ladies that had been bothered with the cracked finger tips at the corners healed within one weeks time. Both ladies had been using a very popular, expensive brand of fish oil for 3 months prior to our trial. The name of this oil is Kräftig Fischöl (powerful fish oil). It does not supply only EPA and DHA like most other fish oils on the market, but has DPA included. DPA is absorbed into the blood stream and red blood cell lipids 22% better than EPA and DHA. DPA helps to rebalance the ratio of omega-3's to omega-6's which lowers inflammation in the body. This fatty oil can aid in long term memory retention, which in turn boosts brain function. Numerous studies have reported that DPA has a high anti-cancer potential, particularly when it comes to reducing tumor growth in breast, colon, and prostate cancer. Due to its highly anti-inflammatory effects taking DPA may reduce pain caused by rheumatoid arthritis. It can improve mental health issues like depression, anxiety, and schizophrenia. DPA can decrease the risk of heart disease, prevent arterial blockage, and strokes by as much as 40%. India has one of the largest vegetarian populations and also one of the highest rates of blindness which is associated with deficiency in omega-3's. Both eye and brain are built out of DHA. According to research studies, fish oil excels in increasing the omega oils in blood compared to plant sources. Research shows that adding EPA and DHA to the diet of pregnant women positively effects the baby's visual and cognitive (brain) development. Omega-3's also benefit pregnancy by preventing pre-term labor, lowering the risk of preeclampsia. Omega-3 deficiency increases the mother's risk of depression, which may worsen postpartum mood disorders with each subsequent pregnancy.

SPEICHER'S
Worm &
Parasite
Formula

This is a Miracle!
"Finally I feel human again. This formula transformed my life. My vigor, vitality & clarity returned."

Reader stories are not scientific evidence. What works for one person, may not work for the next.

"What a difference! in just 13 days, I feel less bloated & have more energy."

Aids in Removing Worms & Parasites.

No medical proof.

Dear Friend,

If you have a health problem -- and can't get well, there could be a very good reason. Worms and parasites!

It sounds hard to believe. I agree. But if you're alive and breathing -- you're at risk. You may not see these tiny creatures. But believe me -- they're there! While you sleep, they eat. *Your food! Your nutrients!*

Pet owners often have red worms. →

Many eat the best natural foods and take the best supplements -- and never get well. Why is that? One reason is the worms and parasites take the best nutrients. YOU get the scraps -- the leftovers!

It's TIME to Clean House! Get rid of unwanted guests!

It's time to kick these suckers OUT -- once and for all. Out out, OUT! No more Free Lunch!

One Woman's Secret. She is 101.

A woman in New Mexico is 101 years old. Her mind is razor sharp. Her memory is great. She works eight hours a day. Her secret? She keeps her body free of parasites & worms.

Four ways you can get Worms & Parasites.

1. Unwashed fruits and vegetables.
2. Unwashed watercress from streams.
3. Raw-undercooked fish.
4. Pork. Try to cook all pork products at the highest possible temperature.

The Colon & Parasites.

A lot of worms & parasites flourish in the colon. That's why, keeping the colon clean is critical. Ask for Speicher's Colon Pills.

After Everything FAILS[®] Health Report

Natural Remedies that work -- after Everything Fails.

100% Folklore. Zero Science. No Guarantees.

Many health researchers claim.....

"70-80% of Americans have Worms & Parasites."

Could THIS be the reason you can't get well?

"Everyone, rich, poor, the whole population has parasites."
- Dr. William Kelley

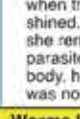

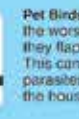

"Everyone has parasites - everyone! I mean 100% out of 100 people."
- Colon Therapist.

"Parasites can remain in your body for 10, 20 and even 30 years."
- Medical Research.

"The People who are the Sickest -- they have the most parasites."
- Healer.

100% Folklore. Zero Science.

If you live - or work near Pets & Farm Animals, chances are...
YOU have Parasites! Or Worms. Or both!

Pet Birds are often the worst because they flap their wings. This can spread parasites all over the house.

Which worm or parasite do You have?

- | | | |
|-----------------------|---|-----------|
| Roundworm in Skin. | → | Eczema |
| Ascaris Worm in Lung. | → | Asthma |
| Fluke in Pancreas | → | Diabetes |
| Thread Worm. | → | Migraines |

Worms are often invisible to the Human Eye.

Severe Bloat, gone!

A man had severe bloat & constipation. He was always hungry, no matter how much he ate.

His stool sample tested positive for parasites. The Speicher Worm Pills ended most of the problems.

Itchy back-end.

"My back end was itchy. After only 4 days, that vanished."

Skin now Rosy.

“Lions Mane Talk”

At Mushroom Maiden Farm, we believe in the same enduring principles that guide our communities: faith, family, stewardship of the land, and honest work done well. In a world that often rushes toward shortcuts, we choose a simpler, more transparent path, growing and crafting our products with care, patience, and integrity.

Our mushrooms are cultivated high in the Appalachian Mountains, where clean air, pure water, and rich forest traditions shape their strength. Every batch is tested by an independent lab to ensure purity and quality. We use 100% fruiting bodies, the part of the mushroom where the most valuable nutrients are found, so you receive only the best of what nature provides.

Our Lion's Mane mushroom capsules are carefully prepared to support clarity and well-being, made without fillers or unnecessary additives. Alongside them, we offer two wholesome varieties of coffee, a smooth and robust dark Arabica bean, roasted for rich flavor and steady comfort and a dark Arabica bean Cinnamon Breakfast Roll coffee. To season your table, choose from four distinct mushroom enhanced salts. We offer a Wild Hickory Cold-Smoked Salt, Himalayan Pink, Sriracha, and Thai Ginger, each crafted to complement honest, home-cooked meals.

As a 100% woman-owned farm, we value humility, hard work, and transparency in every step, from growing to packaging. We are committed to straightforward practices and products you can trust for your home and family.

Simple ingredients. Careful hands. Honest quality. That is the Mushroom Maiden promise.

How pHix's Mature Hops Extract Can Help Stabilize Blood Sugar & Support Diabetes Management

If you or someone you love struggles with blood sugar swings or diabetes, you know how frustrating it can be to find natural solutions that actually work. What if a powerful, science-backed ingredient—derived from something as simple as hops—could help? That's where pHix comes in.

The Blood Sugar & Diabetes Connection

Unstable blood sugar isn't just about sugar cravings or energy crashes—it's a major factor in metabolic health, weight management, and even long-term complications like diabetes. Traditional approaches often rely on medications with side effects, but what if nature already had a better answer?

How pHix's Mature Hops Extract Works

✓ Improve Insulin Sensitivity – Helps your body use insulin
✓ Slow Glucose Absorption – Supports balanced blood sugar stability
✓ Reduce Inflammation – Chronic inflammation

Why Science Behind It

Research has shown that certain compounds in hops (like alpha and beta acids) can:

• Activate AMPK (an enzyme that helps regulate metabolism, similar to how exercise does).
• Mimic some effects of diabetes drugs—naturally.
• Help reduce oxidative stress, a key driver of diabetic complications.

Pre-diabetics – Help prevent progression to full diabetes.
Type 2 Diabetics – Support healthier blood sugar levels—naturally.

The Bottom Line: Blood sugar issues don't have to control your life. With pHix's unique hops extract, you're not just masking symptoms.

HERE'S A BREAKDOWN OF WHY FULVIC IS SO VALUABLE:

TOXINS ARE EVERYWHERE
We're exposed daily to heavy metals, pesticides, plastics, and pollutants. Fulvic acid supports the body's own detoxification pathways, helping to eliminate routine environmental contaminants.

NUTRIENT DEFICIENCY IS COMMON
Modern farming can leave soils short on minerals. Fulvic acid supports nutrient transport and supplies these minerals often missing from today's diet.

CELLULAR ENERGY
Fulvic acid supports healthy mitochondrial activity, promoting efficient cellular energy production and enzyme performance.

GUT HEALTH SUPPORT
Fulvic acts as a prebiotic, nourishing beneficial gut bacteria and helps maintain normal gut lining integrity—both important for digestive comfort and immune health.

DURING THE DAY IN ADULTS:

- HELPS RELIEVE INFLAMMATION
- SUPPORTS HEALTHY WEIGHT MANAGEMENT
- PROVIDES ANTIOXIDANT SUPPORT
- SUPPORTS GASTROINTESTINAL HEALTH
- AIDS GLUCOSE METABOLISM
- PROMOTES IMMUNE DEFENCE

You can stop sleep breathing disruptions tonight.

"I am well pleased with the Sleep Breathing Support. The nice part is I no longer have to use a CPAP machine. I am refreshed, rested and ready to go when I wake up."
Elva Chupp

Crafted with a bouquet of natural herbs.

Lobelia, used in small doses, can increase the level of respiration. Because the lobelia causes you to breathe more deeply and steadily, it keeps the whole disruptive cycle from even beginning.

Thyme improves the ability of the lungs to exchange carbon dioxide for oxygen and makes an excellent contribution to maintaining sufficient respiratory amplitude.

Chamomile aids the subject in relaxing.

Cramp Bark helps the upper trapezius muscles to loosen.

Hi, I'm Steve Frank.

I have sleep-breathing disruptions at night. I spent years researching the condition and understanding the true cause. After many years, and with my knowledge of herbs, I found an amazing combination that supports deep, steady breathing all night long. This patented blend works great for nighttime sleep-breathing disruptions commonly associated with aging. I haven't worn any mask or tubes in years, and I sleep great. I hope you can too.
Sweet Dreams.

Replace your restless nights with Sleep Breathing Support™

Sleep Breathing Support™ by Nature's Rite is a natural way to reduce sleep breathing disruptions and achieve a restful night.

30 Capsules ~~-\$45.99~~ **\$36.79**

Sleep related breathing disruptions ruin the sleep of an estimated 25 million Americans on a regular basis. Since sleep disruptions can disturb sleep without completely awakening the subject, there are likely millions more undiagnosed sufferers. The condition prevents the sleeper from entering rapid eye movement (REM) and delta sleep—causing them to become anxious, cantankerous and tired during the day. Additionally, due to the nature of the condition, it causes blood oxygen levels to be lower than normal for very prolonged periods of time. This is damaging to the brain and heart in particular.

Treatment options can include weight loss, nasal decongestants, surgery, and oral appliances. Devices, such as a continuous positive airway pressure (CPAP) machine, are commonly used for moderate and severe sleep breathing disruptions. A CPAP device is a forced air mask, worn during sleep that ensures proper inhalation. Experience has shown that 60 percent of patients are not able to tolerate the equipment and ultimately discontinue using it. Others develop respiratory infections from the mask. Sleep Breathing Support™ was designed to do what the above solutions can't address the real cause of the condition.

The Cause

When we enter stage two sleep in preparation for REM sleep, where dreaming occurs, muscular activity is inhibited. It is called "reduction of muscle tonus." This is a function that occurs primarily to keep the dreamer from physically acting out the movements of his or her dreams.

If you want to know whether it will work for you, then you have to try it.

CRAFTED IN THE USA AND BACKED BY OUR 30-DAY MONEY-BACK GUARANTEE.

**Applies to the first bottle of any product.*

It is accomplished by suppressing the flow of signals from the brain along the spinal cord. Unfortunately, in those who struggle with sleep breathing disruptions, the reduction in muscle tonus allows the soft palate to sag and the signal from the brain to the diaphragm that keeps you breathing gets inadvertently reduced in strength.

The result of this is that upon entering stage two sleep, the breathing becomes shallower, the blood oxygen level drops and the carbon dioxide level rises until the brain intervenes and causes the body to make a large and immediate inhalation. This causes a large pressure differential in the pharynx and literally sucks the sagging soft palate into the airway. This obstructs the flow and causes a loud snort, partially or fully awakening the subject.

The Solution

So you see, the problem is not the sagging soft palate. The problem is not the rapid inhalation that sucks your soft palate into the airway. The problem is the reduced ability of the signal from your brain to produce sufficient breathing amplitude from your diaphragm. The appropriate intervention is to enhance the ability of the brain to communicate with the diaphragm so that you breathe deeply and steadily throughout the night. **That is exactly what the combination of herbs in Sleep Breathing Support™ is intended to do.**

Froman Hill

BOYS RANCH

Restoring Hope through Discipleship

Froman Hill Boys Ranch is a residence for minor boys from the horse and buggy churches. To act as a refuge while dealing with emotional, moral and spiritual needs.

LOOKING TO SERVE?

We are in need of Big Brothers and Houseparents!
If interested call 330-343-8055.

We enjoy being house parents at Froman Hill Boys Ranch. It is very rewarding to see the young resident boys improving as they do their term here. Also, a blessing to see how the big brothers put in time and effort to help the young boys progress. We receive so much more here than what we give. God's Blessings!

-Eli & Mary

Serving as big brother gave me lots of interesting opportunities and challenges, and trying to be a good example as Jesus left behind. It was very fulfilling and rewarding to follow rules and keep up with schedules when working with these struggling, talented young boys. To me it was a blessing, thanks to God.

-Former Big Brother, Jake

We are in need of work. Looking for simple manual piece work. If you feel led to share, call 330-343-8055 and ask for James.

My time as a Big Brother at Froman Hill Boys Ranch was worthwhile, meaningful, and inspiring. I'm glad I stepped out of my comfort zone to be a part of something special. The friendships and memories made were worth the time invested. I can honestly say I feel I received more than I gave. To God be the glory and honor!

-Big Brother, Michael

I would like to thank God for the opportunity to serve at Froman Hill Boys Ranch. If you have a desire to do something like this, do it! It truly is an enjoyable and fulfilling experience.

-Former Big Brother, Jared Hershberger

About our weeks we have spent with the Froman Hill Boys as houseparents and cooking for them- we have found it very rewarding and interesting. Would encourage anyone to give it a try. You will be richly blessed!

-The Troyers

Froman Hill Boys Ranch operates as Integrated Auxiliary of the Ohio Amish Church.

CATALOGS & MAGAZINES

Your Brand, In Their Hands, On Their Desk.

> Physicality Matters

People remember what they touch. A physical catalog creates a sensory connection that digital ads lack, making your brand much harder to forget when the customer is ready to buy.

> The Discovery Effect

Catalogs encourage "browsing" rather than just "searching." This leads customers to discover products they didn't know they needed, consistently resulting in larger orders than web-only shopping.

> Direct Access

Your catalog doesn't have to compete with an overflowing inbox or social media algorithms. It goes straight to the customer's home, giving you 100% of their attention without any distractions.

Maria holds several
copies of the Antorcha.

CHRISTIAN FAMILY MAGAZINES

“A vacuum in my heart for the things of God”

Maria* is an 85-year-old lady from Cuba. When an evangelical pastor and his wife moved in beside her, Maria noticed how different they were from the rest of the community. One day the pastor gave her an Antorcha (a Spanish Christian family magazine). She read it and was amazed at what she read.

Maria always enthusiastically waited for the next issue. Every time this pastor came by, she asked for another Antorcha. She testified, “It created a vacuum in my heart for the things of God.” One day she decided to renounce all that was displeasing to God, as well as her religion of the past. “Three years ago, my life has changed because of reading the Antorcha, and I am now baptized as a believer.”

The *Antorcha de la Verdad* (Torch of Truth) Christian family magazine has grown from a first run of 1,800 copies in 1987 to approximately 650,000 copies, which are printed in various locations and languages today.

*Not her real name.

At Dr. JimZ®, our main goal is to help people eat more nutritious food and be more successful in the garden. Our nutrients are designed to stimulate life in the soil and provide a plethora of nutrients at a biological level. **The microbes in the soil must consume the nutrients before they are 100% bioavailable to the plant.** Our products feed the microbes so your plants can then decide what nutrients they need and when they need them ... this will maximize the genetic potential of the plant and result in higher-quality fruits and veggies.

Time To Feed Your Trees!

Spring is one of the best times to feed your trees (this is when they pull in nutrition for the spring and summer months)

Tree Secret®

- All non fruit-bearing trees, evergreens and bushes.

Chicken Soup for the Soil®

- All fruit trees, flowering perennials, and flowering bushes.

Before

After

Tree Secret® liquid tree fertilizer (formerly known as Save-A-Tree®) is a biologically correct (non-synthetic) tree fertilizer that has been created specifically for enhanced tree success. Our small-batch, extra-potent blend of readily available nutrients is exactly what your trees, plants, and bushes need to revitalize and look great for years to come. The competition does not come close!

- Nitrogen found in most chemical lawn fertilizer is largely responsible for the unnatural rapid growth that weakens trees by thinning their protective cell walls, opening the door for disease, wind damage and bug infestations.
- Plants and bushes need the same nutrition as slow-growing trees. Give your yard a serving of this ultra-potent undiluted, carbon-based fertilizer and watch in amazement as your trees thrive and your landscape transforms into a lush paradise.
- Excellent results on all trees and bushes, including evergreens!

Happy trees have fewer problems. This stuff works!

APPLICATION INSTRUCTIONS

The amount needed for best results depends on the diameter width of the tree trunk 4' up from the base of the tree.

- Use 1 cup per caliper inch of tree trunk (trunk diameter)
- Mix with water and evenly apply from the base of the tree to the drip line.
- Water into the root zone.

To SAVE a dying or stressed tree, apply in spring and fall.

To MAINTAIN good tree health, use one time per year in spring or fall.

WHAT IS BIOCHAR?

Our Biochar is steam activated carbon that is beneficial for our soils and animals

- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.

WHAT IS THE BENEFIT TO YOU?

- Saves costs over high fertilizer year after year.
- Creates a healthier environment for you and your family.
- No dangerous side effects to humans, animals, or ecosystems.
- Puts more dollars in your pocket.

MAXIMUM PERFORMANCE HORSE SUPPLEMENT

Give your horse the minerals that are no longer in the your feed!

50 lb Bag Granular \$150, last 5 horses/ 1 month. 50 lb bag pellets \$135 last 50 days/ a horse Pellets for picky eaters, with ulcers, driving horses, Stallions and mares.

Dave Mast mare was open two years in a row, 30 days on Maximum Performance and she checked in foal with NO Regu-mate.

David Patterson bred for 30 years and always trouble foaling out, weak foals, trouble re-breeding. First season on MP, mare foaled easily, baby running in the stall, plenty of milk, mare cleaned quickly and checked in foal first time bred. Very impressed.

Indiana man had mare running off, cranky, picky eater, put her on pellets, 15 days daughter said, What did you do to the mare? She is so easy to handle, drives great, looks better. MP Pellets. oh my.

Lawrence Schrock, PA said he was one of the few with no OCD's in his yearlings at the sale, thanks Maximum Performance for sound bones, strong muscled yearlings.

Driving horses are under a lot of stress, many have ulcers, tendon issues, hoof problems. There are few minerals in your feed, and this supplement provides what they need to perform at their best, sweat less, warm up faster, reduce muscle soreness, and improve hoof quality and build muscle.

1. If you want to reduce ulcers, acid reflux and build muscle as well.
2. If you want to increase stamina and reduce recovery time, see a difference in 5 days..
3. If you want to calm your mares down, reduce tying up, anxiety and aggression.
4. If you want to enhance elasticity in tendons and ligaments and get nutrients to the hoof. May recover from injuries in half the time, soft tissue and bone.

Maximum Performance for Breeders

1. If you want to reduce OCD's (soft bone chips in ankles and hocks).
2. If you want to have mares at peak condition checked in foal.
3. If you want to improve development of your foals.
4. Vets explain OCD's are caused by mineral imbalance first 11 months in womb, not enough Calcium and minerals for the mare.
5. Stallions have better sperm count, maintain muscle mass, reduce OCD's and maintain hoof quality. **contact 502-817-1947**
