Editor's Corner

Good day everyone,

The weather sure is keeping us guessing the last few weeks. It can feel like summer one day and be snowing the next day. I guess it's one of those things we can't control, and I really don't think I would want to be in charge of it either.

The outside work will soon be in full swing! The grass is turning green and will need to be mowed soon. And before too long, it will be garden planting time. I love this time of the year!

Have a good week everyone!

Rhoda Miller

If we're not grateful for what we have, there's no reason to think that having more would change anything.

ARE YOU DREADING
Allergy season??
DON'T SUFFER FOR 19 YEARS LIKE I DID!!
For years I struggled with severe seasonal allergies (Spring & Fall) along with food sensitivities, headaches, chronic hives, chronic fatigue.... All this was part of my miserable everyday life. Thousands of dollars were spent as we searched for help to fix my "leaky gut". Every health practitioner was able to tell me my problem but not one of them was able to help me fix it. It was very depressing. Seven years ago we were introduced to WHOLE FOOD NUTRITION from Tranont and what a life changer! These 7 years have been the best years of my life. All honor and glory to God, our true healer.

Change Life **TRANONT**
 IF YOU ARE SERIOUS about improving your health and getting ahead of your issues.... It's time to get SERIOUS about ingredients!! Did you know that over 95% of supplements today contain synthetic (manufactured) ingredients?? Our bodies were not created to recognize and use these foreign substances! These are NOT what our body needs to heal.
DISCOVER the benefits of REAL WHOLE FOOD NUTRITION!

You can **stop** sleep breathing disruptions tonight.

"I am well pleased with the Sleep Breathing Support. The nice part is I no longer have to use a CPAP machine. I am refreshed, rested and ready to go when I wake up."
Elva Chupp

Crafted with a bouquet of natural herbs.

Lobelia, used in small doses, can increase the level of respiration. Because the lobelia causes you to breathe more deeply and steadily, it keeps the whole disruptive cycle from even beginning.

Thyme improves the ability of the lungs to exchange carbon dioxide for oxygen and makes an excellent contribution to maintaining sufficient respiratory amplitude.

Chamomile aids the subject in relaxing.

Cramp Bark helps the upper trapezius muscles to loosen.

Hi, I'm Steve Frank.

I have sleep-breathing disruptions at night. I spent years researching the condition and understanding the true cause. After many years, and with my knowledge of herbs, I found an amazing combination that supports deep, steady breathing all night long. This patented blend works great for nighttime sleep-breathing disruptions commonly associated with aging. I haven't worn any mask or tubes in years, and I sleep great. I hope you can too.
Sweet Dreams.

Replace your restless nights with Sleep Breathing Support™

Sleep Breathing Support™ by Nature's Rite is a natural way to reduce sleep breathing disruptions and achieve a restful night.

30 Capsules ~~-\$45.99~~ **-\$36.79**

Sleep related breathing disruptions ruin the sleep of an estimated 25 million Americans on a regular basis. Since sleep disruptions can disturb sleep without completely awakening the subject, there are likely millions more undiagnosed sufferers. The condition prevents the sleeper from entering rapid eye movement (REM) and delta sleep—causing them to become anxious, cantankerous and tired during the day. Additionally, due to the nature of the condition, it causes blood oxygen levels to be lower than normal for very prolonged periods of time. This is damaging to the brain and heart in particular.

Treatment options can include weight loss, nasal decongestants, surgery, and oral appliances. Devices, such as a continuous positive airway pressure (CPAP) machine, are commonly used for moderate and severe sleep breathing disruptions. A CPAP device is a forced air mask, worn during sleep that ensures proper inhalation. Experience has shown that 60 percent of patients are not able to tolerate the equipment and ultimately discontinue using it. Others develop respiratory infections from the mask. Sleep Breathing Support™ was designed to do what the above solutions can't address the real cause of the condition.

The Cause

When we enter stage two sleep in preparation for REM sleep, where dreaming occurs, muscular activity is inhibited. It is called "reduction of muscle tonus." This is a function that occurs primarily to keep the dreamer from physically acting out the movements of his or her dreams.

If you want to know whether it will work for you, then you have to try it.

It is accomplished by suppressing the flow of signals from the brain along the spinal cord. Unfortunately, in those who struggle with sleep breathing disruptions, the reduction in muscle tonus allows the soft palate to sag and the signal from the brain to the diaphragm that keeps you breathing gets inadvertently reduced in strength.

The result of this is that upon entering stage two sleep, the breathing becomes shallower, the blood oxygen level drops and the carbon dioxide level rises until the brain intervenes and causes the body to make a large and immediate inhalation. This causes a large pressure differential in the pharynx and literally sucks the sagging soft palate into the airway. This obstructs the flow and causes a loud snort, partially or fully awakening the subject.

The Solution

So you see, the problem is not the sagging soft palate. The problem is not the rapid inhalation that sucks your soft palate into the airway. The problem is the reduced ability of the signal from your brain to produce sufficient breathing amplitude from your diaphragm. The appropriate intervention is to enhance the ability of the brain to communicate with the diaphragm so that you breathe deeply and steadily throughout the night. **That is exactly what the combination of herbs in Sleep Breathing Support™ is intended to do.**

Studies have shown up to 40% improvement for, stress, muscle soreness, and sleep quality after regular use of the mat for 20-30 minutes before bed. Journal of Sleep Therapy 2015

Unroll your pressure point mat and pillow on a flat surface and ease onto it slowly, allowing your body to adjust. The gentle pressure of over 4,000 pressure points works to stimulate circulation, release muscle tension, and support relaxation. Start with 10-15 minutes a day and gradually increase to 20-40 minutes as your body gets used to the sensation. Use daily or as needed to support deep rest, stress relief, and full-body rejuvenation.

I absolutely love this pressure point mat! It's become a part of my daily routine and helps me relax and unwind like nothing else. I've even gifted it to friends, and they're obsessed with it too. Highly recommend for anyone looking to relieve tension and feel amazing! - WTHN Client

“Lions Mane Talk”

At Mushroom Maiden Farm, we believe in the same enduring principles that guide our communities: faith, family, stewardship of the land, and honest work done well. In a world that often rushes toward shortcuts, we choose a simpler, more transparent path, growing and crafting our products with care, patience, and integrity.

Our mushrooms are cultivated high in the Appalachian Mountains, where clean air, pure water, and rich forest traditions shape their strength. Every batch is tested by an independent lab to ensure purity and quality. We use 100% fruiting bodies, the part of the mushroom where the most valuable nutrients are found, so you receive only the best of what nature provides.

Our Lion’s Mane mushroom capsules are carefully prepared to support clarity and well-being, made without fillers or unnecessary additives. Alongside them, we offer two wholesome varieties of coffee, a smooth and robust dark Arabica bean, roasted for rich flavor and steady comfort and a dark Arabica bean Cinnamon Breakfast Roll coffee. To season your table, choose from four distinct mushroom enhanced salts. We offer a Wild Hickory Cold-Smoked Salt, Himalayan Pink, Sriracha, and Thai Ginger, each crafted to complement honest, home-cooked meals.

As a 100% woman-owned farm, we value humility, hard work, and transparency in every step, from growing to packaging. We are committed to straightforward practices and products you can trust for your home and family.

Simple ingredients. Careful hands. Honest quality. That is the Mushroom Maiden promise.

BEFORE YOU LET ANYONE TREAT YOUR BACK OR NECK PAIN... READ THIS.

The wrong treatment can make a disc injury worse— and surgery is rarely the first answer.

My wife suffered with low back pain for several decades. She visited maybe 10 different doctors who helped her for a while but never got to the root of the problem. Her legs hurt, she was restless at night, unable to do garden work, lawn work, or keep up the housework. One year after beginning treatment at MDC she is able to do all those things in a normal way again. We thank God for his Healing, grace and blessing the doctors with wisdom, knowledge, and the willingness to serve.

~M. Metzger- Manchester, IN

If your pain is:

- Stopping you from working your land or trade
- Keeping you from lifting or caring for your children
- Making household work difficult or impossible
- Causing leg pain, numbness, or weakness
- Waking you through the night
- Limiting your ability to serve your family and community

Your situation may be more serious than you have been told. You deserve a real answer before making any permanent decision.

Every Month, Families tell us they were told:

- “ You just need injections.”
- “You’ll have to live with it.”
- “Surgery may be your only option.”

But no one explained:

Was the disc properly evaluated before treatment began? Muscle pain and disc injuries are not the same thing. The wrong treatment does not fix the real problem.

We focus only on spinal discs.

Not knees. Not shoulders. Not general aches.

Spinal discs only.

We evaluate before we treat — with a clear 2-day Discovery Process..

Within two days, you will have straight answers to four questions:

✓ What is the problem?	✓ Can we help you?
✓ How long will it take?	✓ What will it cost?

Some cases qualify. Some do not.

We will tell you honestly if your case is not a fit for our program. Everyone deserves to know exactly what they are dealing with before making a permanent decision. We are not here to waste your time or money.

CALL NOW — REQUEST YOUR FREE DISC REPORT

How pHix's Mature Hops Extract Works?

- ✓ Improve Insulin Sensitivity – Helps your body use insulin
- ✓ Slow Glucose Absorption – Supports balanced blood sugar stability
- ✓ Reduce Inflammation – Chronic inflammation

Why Science Behind It

Research has shown that certain compounds in hops (like alpha and beta acids) can:

- Activate AMPK (an enzyme that helps regulate metabolism, similar to how exercise does).
- Mimic some effects of diabetes drugs—naturally.
- Help reduce oxidative stress, a key driver of diabetic complications.

Pre-diabetes – Help prevent progression to full diabetes.
Type 2 Diabetes – Support healthier blood sugar levels—naturally.
The Bottom Line: Blood sugar issues don't have to control your life. With pHix's unique hops extract, you're not just masking symptoms.

HERE'S A BREAKDOWN OF WHY FULVIC IS SO VALUABLE:

\$39.95
\$74.95/FOR 2

TOXINS ARE EVERYWHERE

We're exposed daily to heavy metals, pesticides, plastics, and pollutants. Fulvic acid supports the body's own detoxification pathways, helping to eliminate noxious environmental contaminants.

CELLULAR ENERGY

Fulvic acid supports healthy mitochondrial activity, promoting efficient cellular energy production and enzyme performance.

GUT HEALTH SUPPORT

Fulvic acid is a prebiotic, nourishing beneficial gut bacteria and helps maintain normal gut lining integrity—both important for digestive comfort and immune health.

NUTRIENT DEFICIENCY IS COMMON

Modern farming can leave soils short on minerals. Fulvic acid supports nutrient transport and supplies trace minerals often missing from today's diet.

DURING THE DAY IN ADULTS:

- HELPS RELIEVE INFLAMMATION
- SUPPORTS HEALTHY WEIGHT MANAGEMENT
- PROVIDES ANTIOXIDANT SUPPORT
- SUPPORTS GASTROINTESTINAL HEALTH
- AIDS GLUCOSE METABOLISM
- PROMOTES IMMUNE DEFENCE

WORLD HUNGER FUND

Food, hope, and fellowship in Venezuela

Article space donated to CAM

CAM contacts in Venezuela work tirelessly to supply nutritious food for the most vulnerable—children, the elderly, and families facing economic hardship. Their mission is to restore dignity, nourish bodies, and build hope, one meal at a time.

Volunteer coordinators oversee a network of church-run food kitchens that provide food for the hungry. When people come to get their hot meals, they also receive spiritual encouragement and Christian literature. As the church works among its own people, they endeavor to create an environment of care, hope, and fellowship that points to the Father God.

A recipient named Doriannys shares, "In my house there's nothing to eat, my dad is in prison, the money my mom earns cleaning doesn't stretch. . . ."

"Thank God for our Bible class and the teachers, who bring food and the Word of God, no matter what happens."

Please pray for the people of Venezuela as they face significant uncertainties. Your support provides help and hope amid trying times. Thank you!

The first children's book in our character-building series, "Humphrey" is a Bible-based lesson with beautiful illustrations and Scripture memory verses throughout to remind us that God gives us different gifts and He is always listening to our concerns.

Own Your Insurance Company. Keep More Money. Protect Your Legacy.

**Most businesses buy insurance.
Some businesses own it.**

With captive insurance, your company insures its own risks and keeps the profit instead of sending it to big insurance companies.

That means:

- More protection for your business
- More control
- A new profit center
- Insurance company tax treatment

And a way to help keep your business strong for generations.

CIC Services has helped hundreds of small and mid-size businesses accomplish this since 2005.

CATALOGS & MAGAZINES

Your Brand, In Their Hands, On Their Desk.

> Physicality Matters

People remember what they touch. A physical catalog creates a sensory connection that digital ads lack, making your brand much harder to forget when the customer is ready to buy.

> The Discovery Effect

Catalogs encourage "browsing" rather than just "searching." This leads customers to discover products they didn't know they needed, consistently resulting in larger orders than web-only shopping.

> Direct Access

Your catalog doesn't have to compete with an overflowing inbox or social media algorithms. It goes straight to the customer's home, giving you 100% of their attention without any distractions.

MOTHER EARTH NEWS

At Dr. JimZ®, our main goal is to help people eat more nutritious food and be more successful in the garden. Our nutrients are designed to stimulate life in the soil and provide a plethora of nutrients at a biological level. **The microbes in the soil must consume the nutrients before they are 100% bioavailable to the plant.** Our products feed the microbes so your plants can then decide what nutrients they need and when they need them ... this will maximize the genetic potential of the plant and result in higher-quality fruits and veggies.

Time To Feed Your Trees!

Spring is one of the best times to feed your trees (this is when they pull in nutrition for the spring and summer months)

Tree Secret®

- All non fruit-bearing trees, evergreens and bushes.

Chicken Soup for the Soil®

- All fruit trees, flowering perennials, and flowering bushes.

Before

After

Tree Secret® liquid tree fertilizer (formerly known as Save-A-Tree®) is a biologically correct (non-synthetic) tree fertilizer that has been created specifically for enhanced tree success. Our small-batch, extra-potent blend of readily available nutrients is exactly what your trees, plants, and bushes need to revitalize and look great for years to come. The competition does not come close!

- Nitrogen found in most chemical lawn fertilizer is largely responsible for the unnatural rapid growth that weakens trees by thinning their protective cell walls, opening the door for disease, wind damage and bug infestations.
- Plants and bushes need the same nutrition as slow-growing trees. Give your yard a serving of this ultra-potent undiluted, carbon-based fertilizer and watch in amazement as your trees thrive and your landscape transforms into a lush paradise.
- Excellent results on all trees and bushes, including evergreens!

64oz JUG
\$34.95

APPLICATION INSTRUCTIONS

The amount needed for best results depends on the diameter width of the tree trunk 4' up from the base of the tree.

- Use 1 cup per caliper inch of tree trunk (trunk diameter)
- Mix with water and evenly apply from the base of the tree to the drip line.
- Water into the root zone.

To SAVE a dying or stressed tree, apply in spring and fall.

To MAINTAIN good tree health, use one time per year in spring or fall.

Happy trees have fewer problems. This stuff works!

If you want better nutrition... you need to start with better soil

Biochar blends available for various farming needs, call for more information.

WHAT IS BIOCHAR?

- Our Biochar is steam activated carbon that is beneficial for our soils and animals
- Biochar creates a biology in your soil that saves money on fertilizer inputs.
 - Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
 - Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
 - Mix it to your feed for better animal health, and a good manure.

WHAT IS THE BENEFIT TO YOU?

- Saves costs over high fertilizer year after year.
- Creates a healthier environment for you and your family.
- No dangerous side effects to humans, animals, or ecosystems.
- Puts more dollars in your pocket.

Awesome results using The Natural Horse Dewormer!

"When I got this 18 year-old pony mare, she was near death. She had plenty of feed and hay but kept going backwards. I put her on The Natural Horse Dewormer morning and night, and also Prenatal-Plus as we wanted to breed her. She is vet-checked in foal after her first cycle. VERY AMAZING RESULTS! Doesn't even look like the same pony!" - Ohio

MAXIMUM PERFORMANCE HORSE SUPPLEMENT

Give your horse the minerals that are no longer in the your feed!

50 lb Bag Granular \$150, last 5 horses/ 1 month. 50 lb bag pellets \$135 last 50 days/ a horse Pellets for picky eaters, with ulcers, driving horses, Stallions and mares.

Dave Mast mare was open two years in a row, 30 days on Maximum Performance and she checked in foal with NO Regu-mate.

David Patterson bred for 30 years and always trouble foaling out, weak foals, trouble re-breeding. First season on MP, mare foaled easily, baby running in the stall, plenty of milk, mare cleaned quickly and checked in foal first time bred. Very impressed.

Indiana man had mare running off, cranky, picky eater, put her on pellets, 15 days daughter said, What did you do to the mare? She is so easy to handle, drives great, looks better. MP Pellets. oh my.

Lawrence Schrock, PA said he was one of the few with no OCD's in his yearlings at the sale, thanks Maximum Performance for sound bones, strong muscled yearlings.

Driving horses are under a lot of stress, many have ulcers, tendon issues, hoof problems. There are few minerals in your feed, and this supplement provides what they need to perform at their best, sweat less, warm up faster, reduce muscle soreness, and improve hoof quality and build muscle.

1. If you want to reduce ulcers, acid reflux and build muscle as well.
2. If you want to increase stamina and reduce recovery time, see a difference in 5 days..
3. If you want to calm your mares down, reduce tying up, anxiety and aggression.
4. If you want to enhance elasticity in tendons and ligaments and get nutrients to the hoof. May recover from injuries in half the time, soft tissue and bone.

Maximum Performance for Breeders

1. If you want to reduce OCD's (soft bone chips in ankles and hocks).
2. If you want to have mares at peak condition checked in foal.
3. If you want to improve development of your foals.
4. Vets explain OCD's are caused by mineral imbalance first 11 months in womb, not enough Calcium and minerals for the mare.
5. Stallions have better sperm count, maintain muscle mass, reduce OCD's and maintain hoof quality. contact 502-817-1947
