### Editor's Note:

Strawberry picking went really well. We wound up with a little over 21 pounds. Evie was too busy eating the berries to pick very many. I'm surprised she didn't have a tummy ache. Matthew & Zach were a big help. Bob kept Evie entertained, I think he ate as many berries as she did. Of course, we had to have strawberry shortcake after dinner. Most of the berries went into the freezer.

Matthew keeps asking what are we going to make with all the berries. I told him we could make oatmeal, pancakes, muffins, ice cream, cake and I'm trying to find a strawberry pudding recipe. He wants to help in the kitchen. I'm also thinking about dehydrating some of them.

Don't forget Mom next week!

# Display Ads

**IMPORTANT:** We do not publish ads without a full ad order and print-ready PDF file (both must be received by deadline).

**MULTIPLE TIME DISCOUNT GUIDELINES:** In order to enjoy the multiple time rates listed here (12-25 time or 26-52 time rate), you must schedule specific edition dates and ad size must remain the same for the entire run. You may send new artwork for each time. If nothing new is received by the deadline, we will re-run from the previous edition.

**DESIGN SERVICE?** Sorry, in order to keep placement costs low for everyone, we do not offer design services at this time, so be sure your file is submitted print-ready.

**WORKING WITH A DESIGNER?** If a third party is sending your ad file, be sure he/she includes all required ad order information from the submission form. Or, you may contact us with the required info by calling the Busy Beaver of Tuckesse and Beyond at 800-886-2704.

you need to start with better soil**

*Biochar blends available  
for various farming needs,

**WHAT IS BIOCHAR?**

Our Biochar is steam activated carbon that is beneficial for our soils and animals

- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.

**WHAT IS THE BENEFIT TO YOU?**

- Saves costs over high fertilizer year after year.
- Creates a healthier environment for you and your family.
- No dangerous side effects to humans, animals, or ecosystems.
- Puts more dollars in your pocket.

A channel enabling the church to minister to physical and spiritual needs around the world

# A front-line opportunity FOR GOD'S WORD

When Kareema\* first received a Bible as a young lady, she memorized 500 verses. Now, in her old age her eyesight is failing, and she became unable to read her Bible. When CAM contacts gifted Kareema a large-print Bible, she was overjoyed! Now she again has access to the Word of God she loves so much.

Noor, another Christian, is not able to read the small-print Bible because of an eye surgery she had years ago. Someone gave her a large-print Bible, but after reading it every day for 20 years, it was old and tattered. She took it to the church leader to be fixed, but because of a lack of resources, he was unable to fix it.

The church leader arranged for Noor to meet several CAM contacts. She explained to them, "My Bible became like my soul. Not just a piece of me, but my whole life. If I go out or come in, I want the Bible before me. I want to open it at any time." Noor said sadly, "I have begged the [church leader] for the Bible many times. I insisted and bothered him until he couldn't take it anymore; I tell him, 'The Bible . . . the Bible, please!'"

Our contacts gave Noor a new, large-print Bible. How happy she was! "The joy I feel for this Bible, no one can feel it except me, within myself. There's no way to explain it," she said gratefully.

To show these suffering Christians that other followers of Jesus care about them, CAM is working with contacts and local churches across the Middle East and North Africa\*\* to provide large-print Bibles for the elderly and other individuals unable to see well. These large-print Bibles are in high demand!

The average cost per large-print Bible is \$9. In a land where Bibles and Christian literature are mostly unavailable, it is a precious gift for a person to receive their very own Bible.

# Betzi's Tips and Tasties!

## Onion Rings

### Ingredients:

1 large sweet or yellow onion  
 1 cup milk  
 1 tbs white vinegar  
 ½ cup sour cream  
 1 cup flour  
 ½ tbs salt  
 ¼ tsp black pepper  
 1 tsp garlic powder  
 Oil for frying

### Directions:

- In a medium bowl, whisk milk and vinegar together and let sit for 5 minutes
- Whisk in sour cream
- In a separate bowl, mix flour, salt, pepper and garlic powder
- Dip sliced onion rings in milk mixture, then dredge in flour
- Repeat
- Fry in 350° oil for 3 minutes, flipping half way through
- Fry until golden brown

"Jonathan, my husband — we've been married for 28 years — is 50 years old. He has always had irregular breathing. He used to talk during the night, wake up several times, and snore. He never seemed to reach deep sleep. He didn't want to use a CPAP machine, so I saw this article in a farming magazine.

He had a cold the first night he took the pills, and not only did the cold go away that same night, but by the second night he wasn't snoring anymore. He was sleeping so deeply that I had to check if he was okay — it was the first time he had ever slept that deeply.

He's no longer falling asleep in a chair during the day. He feels better and is working better. I'm really surprised at how quickly these pills worked on his sleep problems — starting from the very first night. By the second night, he wasn't even snoring anymore."

## Replace your restless nights with Sleep Breathing Support™

You can **stop** sleep breathing disruptions and restless legs tonight.

Sleep related breathing disruptions ruin the sleep of an estimated 25 million Americans on a regular basis. Since sleep disruptions can disturb sleep without completely awakening the subject, there are likely millions more undiagnosed sufferers. The condition prevents the sleeper from entering rapid eye movement (REM) and delta sleep—causing them to become anxious, cantankerous and tired during the day. Additionally, due to the nature of the condition, it causes blood oxygen levels to be lower than normal for very prolonged periods of time. This is damaging to the brain and heart in particular.

Treatment options can include weight loss, nasal decongestants, surgery, and oral appliances. Devices, such as a continuous positive airway pressure (CPAP) machine, are commonly used for moderate and severe sleep breathing disruptions. A CPAP device is a forced air mask, worn during sleep that ensures proper inhalation.

### Hi, I'm Steve Frank.

I have sleep-breathing disruptions at night. I spent years researching the condition and understanding the true cause. After many years, and with my knowledge of herbs, I found an amazing combination that supports deep, steady breathing all night long. This patented blend works great for nighttime sleep-breathing disruptions commonly associated with aging. I haven't worn any mask or tubes in years, and I sleep great. I hope you can too.

As it turns out, I also dealt with occasional restless legs. So I created a blend of herbs traditionally used to help relax nerves, ease tension, and support circulation. It worked well for her—and I later found it could also support those experiencing restless legs.

I personally use Sleep Breathing Support before bed each night, and I keep Leg Relaxer™ on my nightstand.

Sweet Dreams.

Experience has shown that 60 percent of patients are not able to tolerate the equipment and ultimately discontinue using it. Others develop respiratory infections from the mask. Sleep Breathing Support™ was designed to do what the above solutions can't address the real cause of the condition.

### THE CAUSE

When we enter stage two sleep in preparation for REM sleep, where dreaming occurs, muscular activity is inhibited. It is called "reduction of muscle tonus." This is a function that occurs primarily to keep the dreamer from physically acting out the movements of his or her dreams.

It is accomplished by suppressing the flow of signals from the brain along the spinal cord. Unfortunately, in those who struggle with sleep breathing disruptions, the reduction in muscle tonus allows the soft palate to sag and the signal from the brain to the diaphragm that keeps you breathing gets inadvertently reduced in strength.

The result of this is that upon entering stage two sleep, the breathing becomes shallower, the blood oxygen level drops and the carbon dioxide level rises until the brain intervenes and causes the body to make a large and immediate inhalation. This causes a large pressure differential in the pharynx and literally sucks the sagging soft palate into the airway. This obstructs the flow and causes a loud snort, partially or fully awakening the subject.

### THE SOLUTION

So you see, the problem is not the sagging soft palate. The problem is not the rapid inhalation that sucks your soft palate into the airway. The problem is the reduced ability of the signal from your brain to produce sufficient breathing amplitude from your diaphragm. The appropriate intervention is to enhance the ability of the brain to communicate with the diaphragm so that you breathe deeply and steadily throughout the night. **That is exactly what the combination of herbs in Sleep Breathing Support™ is intended to do.**

### Crafted with a bouquet of natural herbs.

**Lobelia**, used in small doses, can increase the level of respiration. Because the lobelia causes you to breathe more deeply and steadily, it keeps the whole disruptive cycle from even beginning.

**Thyme** improves the ability of the lungs to exchange carbon dioxide for oxygen and makes an excellent contribution to maintaining sufficient respiratory amplitude.

**Chamomile** aids the subject in relaxing.

**Cramp Bark** helps the upper trapezius muscles to loosen.

## When was the last time you truly slept well?

Calm overactive nerves, **restless legs**, and nighttime **leg cramps** with Leg Relaxer™.

No mess. No menthol scent. No harsh chemicals.

Enjoy more comfortable nights and deeper, more restful sleep, night after night.

# Pressure Point Mat Set

Lay back, breathe deep, and let the tension melt away.

Great Gift!  
for Father's Day

**\$138** for the mat.  
Add **\$12** for shipping.

Studies have shown up to 40% improvement for, stress, muscle soreness, and sleep quality after regular use of the mat for 20-30 minutes before bed. Journal of Sleep Therapy 2015

Unroll your pressure point mat and pillow on a flat surface and ease onto it slowly, allowing your body to adjust. The gentle pressure of over 4,000 pressure points works to stimulate circulation, release muscle tension, and support relaxation. Start with 10-15 minutes a day and gradually increase to 20-40 minutes as your body gets used to the sensation. Use daily or as needed to support deep rest, stress relief, and full-body rejuvenation.

I absolutely love this pressure point mat! It's become a part of my daily routine and helps me relax and unwind like nothing else. I've even gifted it to friends, and they're obsessed with it too. Highly recommend for anyone looking to relieve tension and feel amazing! - WTHN Client

**What's Included:**

- High-quality coconut fiber and linen WTHN Pressure Point Mat
- Luxe memory foam and linen WTHN Pressure Point Pillow for ultimate comfort
- On-the-go linen carrying case for WTHN Pressure Point Pillow and Mat
- Detailed how-to guide with step-by-step instructions and Pressure Points for healing at home and on to go.

## “I Didn’t Understand It At First Either...”

### A simple story about energy, and what I learned the hard way

Dear friend,

I want to tell you something honestly.

There was a time when I didn’t fully understand this either. People would come in, sit across from me, and say things like:

“I’m just tired all the time.”

“I don’t bounce back like I used to.”

“I’ve had everything checked... and they say I’m fine.”

And for a while, I didn’t have a clear answer for them. Their labs looked “normal.” Nothing obvious stood out. Yet you could see it in their face... something wasn’t right.

Then I started noticing a pattern. Over time, I began looking closer. Not just at the numbers themselves... but how the whole picture fits together. And I kept seeing the same thing. People who felt worn down... people who had lost strength... people who just didn’t feel like themselves anymore...

Often had one thing in common. Their bodies weren’t producing energy the way they should.

It brought me back to something simple. Inside each of us are tiny parts called mitochondria.

They take in oxygen and nutrients... and turn them into usable energy. Simple as that. You can think of it like working a full day in the field. If your tools are sharp and your strength is there, the work gets done. If something is off, even a little... Everything feels heavier. That’s what happens inside the body.

Why this matters more than most realize. The body is not careless. It doesn’t just break down for no reason. When it senses strain over time... it begins to slow things down to protect itself.

Energy production is one of the first things it reduces. Not because it’s failing... But

because it’s trying to keep going the best way it can.

The photograph shown here shows that hard work requires energy.

I remember one case clearly. A man came in, a hardworking, steady type.

He told me, “I can still get through the day... but it takes everything I’ve got.” He had already been told his labs were fine.

But when we walked through them carefully, piece by piece... a different story started to show. Not a disease, Not anything dramatic. Just a body under strain... not producing energy the way it once did. Once he understood that, things finally started to make sense for him. And that’s what I’ve seen again and again since.

The part most people miss: Standard lab work is still useful. Very useful. But it’s often read in a narrow way... just looking for something clearly “wrong.” What I’ve learned is this: Even when values fall inside the normal range, they can still show patterns of stress, imbalance, or inefficiency. That’s where careful review matters.

What this means for you.

If you’ve been feeling: More tired than you used to. Slower to recover. Not as clear in your thinking Or just not quite yourself, and you’ve been told everything looks fine... It may be worth taking a closer, more thoughtful look.

Here’s what some of my clients have to say:

*“It was simply explained in a way that made sense. I finally understood why I felt worn down.”* — Missouri

*“It helped us think differently about energy and health.”* — Kansas

Conditions commonly associated with impaired cellular energy: Research has shown that reduced mitochondrial function is commonly seen in a wide range of chronic

conditions, including Alzheimer’s disease, autism spectrum disorders, cancer, chronic fatigue syndrome, diabetes, heart disease, ischemia & stroke, Lyme-related illness, and Parkinson’s disease. These conditions appear different on the surface, yet many share a common early feature: cells are not producing energy efficiently.

A simple way to check

We offer a few options:

**Basic Lab Review** — \$79.99

A clear, plain explanation of your current blood work.

**Lab Review + Nutrient Education** — \$179.99

Includes your report plus guidance on what your body may be lacking and time to ask questions.

**Complete Start-to-Finish** — \$549.99

We help arrange labs, review everything carefully, and sit down with you to walk through it step by step.

If this sounds familiar

You don’t have to keep wondering. You can call (816) 547-0807

Monday–Thursday, 9am–6pm

We’ll take the time to go through it with you, in a way that makes sense.

God bless,  
Rich Prather, D.C.

P.S. I didn’t always see this as clearly as I do now. It took years of paying attention, studying patterns, and listening carefully to people. That’s why I take the time to explain it simply.

P.P.S. If all you want is a second set of eyes on your labs, that’s perfectly fine. Sometimes that alone brings the clarity people have been looking for.

## “Lions Mane Talk”

At Mushroom Maiden Farm, we believe in the same enduring principles that guide our communities: faith, family, stewardship of the land, and honest work done well. In a world that often rushes toward shortcuts, we choose a simpler, more transparent path, growing and crafting our products with care, patience, and integrity.

Our mushrooms are cultivated high in the Appalachian Mountains, where clean air, pure water, and rich forest traditions shape their strength. Every batch is tested by an independent lab to ensure purity and quality. We use 100% fruiting bodies, the part of the mushroom where the most valuable nutrients are found, so you receive only the best of what nature provides.

Our Lion’s Mane mushroom capsules are carefully prepared to support clarity and well-being, made without fillers or unnecessary additives. Alongside them, we offer two wholesome varieties of coffee, a smooth and robust dark Arabica bean, roasted for rich flavor and steady comfort and a dark Arabica bean Cinnamon Breakfast Roll coffee. To season your table, choose from four distinct mushroom enhanced salts. We offer a Wild Hickory Cold-Smoked Salt, Himalayan Pink, Sriracha, and Thai Ginger, each crafted to complement honest, home-cooked meals.

As a 100% woman-owned farm, we value humility, hard work, and transparency in every step, from growing to packaging. We are committed to straightforward practices and products you can trust for your home and family.

Simple ingredients. Careful hands. Honest quality. That is the Mushroom Maiden promise.

**269-858-8773**  
Mon - Fri 8am - 6pm ET

All Keys are listed  
from  
Lowest to Highest.

### ROUNDHOUSE

Bushman's most comfortable harmonica. An unbeatable price/quality combination. Great for beginners due to comfort, great for pros due to price, durability, and responsiveness! The Roundhouse whips harmonicas from other brands that cost more than twice as much!!! Comes packed in a black, padded, leather-like, zipper case.

Keys: Low F, G, A, Bb, C, D, and E

**\$32.99**

### KNITTLINGER

Accordion-like sound of the old Auto Valve only better feeling and much easier to play. Loud and lively, quick and nimble! Features a slick, go-fast mouthpiece. Good players were able to play faster than all previous double reed harmonicas could respond, but you can't outpace a Knittlinger - it goes as fast as any player can play it!

Keys: Low A, Low Bb Low C, and Low D

**\$99.95**

### BLUES SHIFTER

This is a diatonic harmonica - not a chromatic - that can play the missing note on Blow 3. Try playing "Amazing Grace" or "What a Friend We Have in Jesus" on a regular harmonica in the lower register - you can't, because there's a missing note on Blow 3. Many songs require that missing note, so they can't be played on a normal harmonica. With the Blues Shifter, when you need that note, just push in the slide button and you have it!

Keys: Low F, G, A, Bb, C, and D

**\$89.99**

### THE DELTA FROST COLLECTION

The workhorses of the Bushman brand. The Delta Frost comes in 3 different comb choices - Original (plastic), Stealie (aluminum), or the Woody (wood). Delta Frosts are the preferred gig harmonica for many professional musicians. Traditional, old school design.

#### ORIGINAL

Keys:  
Low D, Low E, Low F, G, A, Bb, C, D, and E

**\$29.99**

#### STEEALIE or WOODY

Keys:  
Low F, G, A, Bb, C, D, and E

**\$49.99**

### HARMONICA INSTRUCTION KIT

Learn to play popular songs in minutes even if you don't know how to read music! 34 page book comes with our best-selling Roundhouse harmonica.

Choose the Key of Bb or C

**\$39.99**

### DINKY

Our all new Bushman Dinky has a greater note range and ability to play more songs than any true, 1-1/2" mini harmonica ever made!!! The Dinky plays much better than the typical mini, and it's more comfortable.

Keys:  
G (Yellow), A (Navy), and C (Black)

I absolutely love my Bearaby blanket! I feel like I experience a deeper sleep & less awakening. The first night I had to get used to the weight. After 3 nights I wouldn't want to do without it!! I also love the way it looks on my bed...

**E. Martin**

**Did you know?** The Cotton Napper is 100% organic cotton – inside and out. It's weighted entirely through hand-knit organic cotton — not beads, not pellets, not hidden fillers. Just pure, breathable cotton loops layered to create natural, even weight.
