Editor's Corner

Hi everyone,

What beautiful weather we are having! I am sure enjoy this cooler weather. I'm thinking more like my sister-in-law. One thing she likes about summer are the cool-off showers. I won't mention any names!!! We sure are in a growing season. Garden goodies are plenty and are being enjoyed on the table. I can't wait for that first taste of sweet corn! "We are so richly blessed and have so much to be thankful for."

Thank you for advertising with us!!

God Bless your day!
Ruby Yoder

Violent earthquakes IN VENEZUELA

Article space donated to CAM

Christian Aid MINISTRIES

A channel enabling the church to minister to physical and spiritual needs around the world

It was a typical evening in Venezuela on June 24. Motorbikes buzzed along the dusty streets of Caracas, past restaurants, noisy street vendors, and families enjoying supper in their homes. Fourteen miles underground, intense pressure was building between two tectonic plates. At 6:04 p.m., the plates slipped past each other releasing a magnitude 7.2 shockwave near Caracas, Venezuela's capital city. Only 39 seconds later, an even larger magnitude 7.5 quake struck!

Motorbikes swerved to the side of the road. Street vendors stood dumbfounded as their wares spilled from the tables. High-rise apartment buildings swayed, then thundered to the ground, belching dust into the chaotic streets. A CAM contact shared, "We didn't know what was happening—the power went out, there was no signal, and the shaking began. Everyone rushed to leave the apartment building to find a safe spot. The elevators jammed, so we had to use the stairs; people were running and falling, and many elderly individuals couldn't get out in time. Others remain trapped under the rubble."

When the shaking stopped, wailing could be heard from beneath the mountains of rubble. Recovery teams raced against time to rescue people from the twisted mess before they would die of injuries or thirst.

Our response

We and our contacts wish to use this time to present the Good News to the suffering people of Venezuela as we assist them with much-needed aid. In recent months, we have been gearing up for a large-scale literature distribution in Venezuela. Large quantities of Bibles, Bible story books, and other literature are stockpiled near the affected area in Venezuela, ready for distribution. Along with other aid, these will be distributed to earthquake victims as well. We praise God for His hand in arranging this when we had no idea a deadly crisis was on the horizon!

Donations to this project will also be used to support a team of conservative Anabaptists assisting with disaster cleanup. Their church group has a vision to plant a church in Venezuela, so they hope to use this opportunity to plant the seeds of a future conservative Anabaptist church.

We are budgeting $1.5 million to respond to the needs in Venezuela. If you would like to help, your donation will provide food, Christian literature, portable water treatment systems, hygiene supplies, temporary shelters, and other assistance to the people of Venezuela in their time of need.

Finally foals weaned & started on feed.
To maximize growth what do I need?
Not raising a foal just to brag.
But don't want to raise a nag.
You'll need protein to build muscle and tissue.
And better feed calcium so bones aren't an issue.
Of nutrition it takes more than these two,
we've got a couple dozen in a package for you.
In a package all that you need,
put some 6-Way on it's feed.
Top Dress 1–2# per day

If you want better nutrition.... you need to start with better soil

WHAT IS BIOCHAR?

Our Biochar is steam activated carbon that is beneficial for our soils and animals

- Biochar creates a biology in your soil that saves money on fertilizer inputs.
- Biochar has the unique ability for attracting and holding moisture, nutrients, and agrochemicals, even retaining difficult to hold nutrients like nitrogen and phosphorus. Nitrogen and phosphorus tend to run off regular soils, upsetting the ecosystem balance in streams and water ways.
- Biochar creates better bedding for chicken houses, dairy cows, sheep, and horses.
- Mix it to your feed for better animal health, and a good manure.

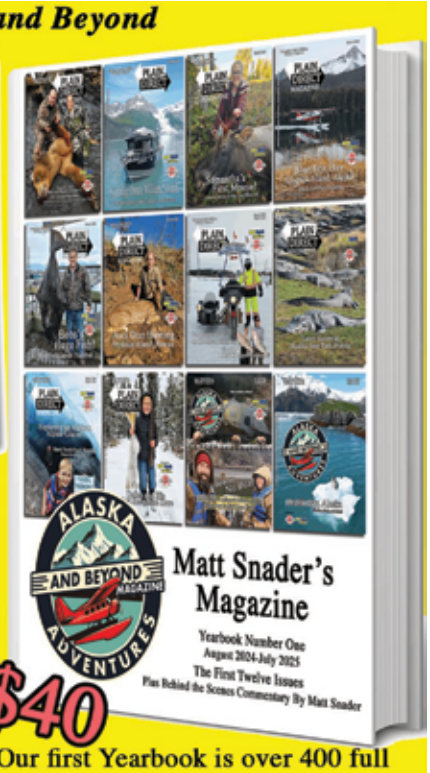
Matt Snader's Magazine, *Alaska Adventures and Beyond*



Matt Snader publishes a magazine every month called *Alaska Adventures and Beyond*. It is full of articles about hunting, fishing, and the Great Outdoors. This magazine is family friendly. No need to worry about having to edit the magazine before the children read it, and yet it is still interesting enough for them to fight over (or so we hear). Dad likes it too!

While Matt has articles in each magazine, there are other writers to round it out and provide a bit of balance. Tom the Alaskan Homesteader, Gene Halteman, Jonas Miller (Montana Haven), Best-selling Amazon author Bobby Eaton, and Josh Snader all have regularly occuring articles covering hunting in PA to fixing float planes in Papau New Guinea.

$40

Our first Yearbook is over 400 full color pages bound in hardcover. Many hours of reading!

Another Treasure Hunt!

Matt has hidden another treasure chest! This time it is not buried, but simply placed in the woods, less than 10 miles from readers! The magazine has clues to help you find it. The first person to find the chest, claims the prizes! More details in our magazine.

At Mushroom Maiden Farm, we believe in the same enduring principles that guide our communities: faith, family, stewardship of the land, and honest work done well. In a world that often rushes toward shortcuts, we choose a simpler, more transparent path, growing and crafting our products with care, patience, and integrity.

Our mushrooms are cultivated high in the Appalachian Mountains, where clean air, pure water, and rich forest traditions shape their strength. Every batch is tested by an independent lab to ensure purity and quality. We use 100% fruiting bodies, the part of the mushroom where the most valuable nutrients are found, so you receive only the best of what nature provides.

Our Lion's Mane mushroom capsules are carefully prepared to support clarity and well-being, made without fillers or unnecessary additives. Alongside them, we offer two wholesome varieties of coffee, a smooth and robust dark Arabica bean, roasted for rich flavor and steady comfort and a dark Arabica bean Cinnamon Breakfast Roll coffee. To season your table, choose from four distinct mushroom enhanced salts. We offer a Wild Hickory Cold-Smoked Salt, Himalayan Pink, Sriracha, and Thai Ginger, each crafted to complement honest, home-cooked meals.

As a 100% woman-owned farm, we value humility, hard work, and transparency in every step, from growing to packaging. We are committed to straightforward practices and products you can trust for your home and family.

Simple ingredients. Careful hands. Honest quality. That is the Mushroom Maiden promise.

WHY DOES DISC PAIN KEEP COMING BACK?

Special Health Report

What Thousands of Patients With Disc Problems Have Taught Us About Why Some People Improve Temporarily While Others Continue to Struggle

By Midwest Disc Clinic

FREE RECORDED HEALTH REPORT

- ✓ Available Anytime
- ✓ Private and Confidential

Many People Are Told Their Only Options Are More Treatment, More Injections, or Surgery

If you are one of the millions of people suffering with back, neck, or sciatica pain, you are not alone. Disc problems are one of the leading causes of long-term pain and disability in our country. And if you have been dealing with this pain for any length of time, you may already know how frustrating and discouraging it can be.

Many men and women tell us the same story. They started with mild discomfort. Over time, it got worse. They saw a doctor, had tests, and tried physical therapy, chiropractic care, medications, or injections. Sometimes these treatments helped for a while. But the pain came back.

Eventually, they were told their only choices were more treatment, more injections, or even surgery.

This leaves many people feeling hopeless and unsure of what to do next. That is why we created this recorded health report.

After helping thousands of patients with disc problems, we have seen a common pattern. Some people improve temporarily, while others continue to struggle. The difference is not always what you might think.

The good news is that understanding why disc pain keeps coming back can help you ask better questions and make more informed decisions about your care.

IN THIS RECORDED REPORT YOU'LL DISCOVER:

- ✓ Why disc pain keeps coming back
- ✓ What may block disc repair
- ✓ Why relief often doesn't last
- ✓ What many patients are never told
- ✓ What may be behind sciatica symptoms
- ✓ Questions to ask before injections or surgery

REAL PATIENT STORIES

"I came to MDC with lower back pain and numbness in my legs. I was barely able to walk, and I wasn't able to function or work. It was Midwest Disc Clinic or surgery.

Now after my care plan, I'm pain free and raring to go. I can put in a full day's work.

My experience was very much appreciated." — **D. Hershberger, Nashville, MI**

"I was having lower back pain and right leg pain when I came to MDC. I was on crutches for two days and in bed for a week, not able to work.

After my DOSAE treatments, I am back to work and feel 85% to 90% better. Thank you to the doctors and staff at MDC. Everybody is very friendly and helpful!" — **D. Troyer, Randolph, NY**

ASK DR. NELSON: "IF YOU FIX MY VARICOSE VEINS, WILL I DEVELOP BAD VEINS AGAIN?"

I am asked this question often, and the answer is yes.

The important thing to understand is that **the veins we treat stay treated**. When a diseased vein is closed with an endovenous ablation or removed during a microphlebectomy, it is permanently eliminated. Those treated veins do not become "bad" again.

So why do new varicose veins develop? The answer is genetics.

Varicose veins are a hereditary condition. If your parents or grandparents had varicose veins, there is a good chance you inherited the tendency to develop them as well. **Vein procedures can eliminate the diseased veins you have today, but they cannot change your genetic makeup**. Your body will always have the inherited tendency to form new varicose veins over time.

I often compare vein care to caring for a horse's hooves. When a farrier trims and properly cares for a horse's hooves, that work is done well and serves its purpose. But no one expects the horse to need only one visit from the farrier for the rest of its life. Hooves continue to grow, wear, and change, requiring periodic maintenance throughout the horse's lifetime. The need for future hoof care does not mean the previous trimming failed—it simply reflects the natural process of growth and wear.

Vein disease is much the same way. The veins we treat remain permanently closed or removed. However, because your body is genetically programmed to develop varicose veins, new veins will gradually weaken over time. How quickly this happens varies from person to person.

Certain factors can speed the development of new varicose veins. Standing for long hours every day, pregnancy, obesity, and simply getting older all place additional stress on the veins in your legs. For many people in our community who spend long days working on the farm, in the shop, or on their feet, those demands can accelerate the progression of vein disease.

Fortunately, treating vein disease before complications develop improves circulation, relieves aching and swelling, and helps prevent skin discoloration, skin thickening, bleeding varicose veins, and difficult-to-heal leg ulcers.

I encourage my patients to think of vein treatment as ongoing care for a chronic medical condition—not as a one-time cure. Just as regular visits from a farrier help keep a horse healthy and working comfortably, periodic follow-up allows us to identify and treat new vein problems before they become severe.

Our goal is not simply to remove today's bad veins. Our goal is to keep your legs healthy, comfortable, and functioning well so you can continue doing the work that matters most for many years to come.

ATTENTION: If you or someone you know has an appointment with Dr. Nelson at the Twin Springs office on July 24th, please call 440-617-6064 to reschedule as the office will now be closed that day.

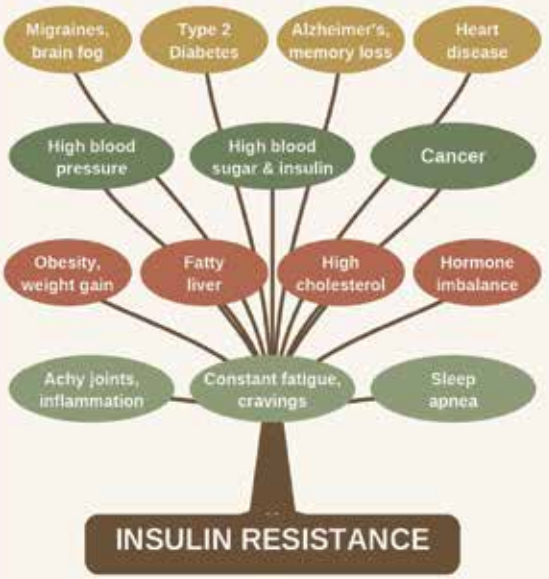
try the FEEL GREAT SYSTEM

Simple. Natural. Guaranteed.

Working with the body God designed – naturally.

No restrictive diets. No complicated rules. No gimmicks.



What is it?

Studies show as many as 9 in 10 American adults are metabolically unhealthy — and insulin resistance is the hidden root behind much of today's diabetes, weight gain, and constant fatigue. Medications trim the branches. This addresses the root. The Feel Great System is simple: two natural drink mixes and time-based eating that work with the meals you already cook — no counting calories, no special foods, no guesswork. Backed by over 20 clinical studies, listed in the PDR — the reference guide physicians have trusted for decades — and a 100% money-back guarantee.

We're Jim & Diane Stelter from Hudsonville, Michigan. A few years ago we were low on energy, gaining weight, and adding medications every year. We found a simple daily system and use it every day. Jim, 75, has lost 50 pounds and is off blood pressure medicine; Diane, 68, has lost 30 pounds, lowered her cholesterol, and her joint pain is gone. Ask questions and decide for yourself – we answer every letter and call personally.

Frequently asked Question

What is the best way to wash my Napper?

Wash separately in cold water, using mild detergent. If in a washer, select a delicate or permanent press cycle. Avoid fabric softeners and bleach. If using a dryer, tumble dry on low heat. It may take several cycles.

Do not hang on a clothesline to dry, it is very heavy when wet, and prone to stretching. It works well to drape it over a Lifetime table in the sun, and should be dry in roughly the same time period as a comforter. However, for the easiest washing process, take it with you next time you go to the laundromat.

Meet **Gigi Williams**
Native Ohioan
Author of **"God's Hand in My ONE"**

The true story of Gigi Williams, who was born without her left hand and forearm. How does a three-year-old perceive her difference? How about that same girl at age 12 and into adulthood? With gut-wrenching honesty, Gigi shares her angst in longing to fit in with everyone else but just could not. She reveals now what she was unable to express as a child. She knew her family loved her but sometimes faced a world that was cruel and rejecting. Finally realizing her disability was not an oversight by God, Gigi experienced joy and freedom, knowing that in every situation God works for the good of those who love Him. Whether you are a person with a disability or know someone who is hurting, take courage! This is a hope-filled book that will warm your heart and maybe change the way you see others. Be prepared to laugh and cry as you immerse yourself in her unexpected adventures.

WE DON'T BUILD YOUR SYSTEM AND DISAPPEAR.

A lot of businesses get a system set up and then never hear from that company again. When something changes in your operation, like a new hire, a new product line, or a better way of doing things, your tools should be able to change with you.
Leap Integrations builds custom Excel systems for small manufacturers and contractors, and we stay involved to make sure they keep working well. If something needs updating, we're a phone call away.

Saturday Keynote Speakers

DANIEL Salatin

Daniel is a multi-generational farmer. He's grown up in the farming landscape in Swoope,VA. Farming right out of the gate has given him a lifetime of experience, mastery and confidence that comes from a life's work and passion. Today he leads an ever-growing team at Polyface Farm. Daniel finds the most joy in his family, teaching, team building, healing soil, farm design, a growing relationship with Jesus, working with livestock and hunting. Managing the day-to-day flow of the farm, he works with cattle, hogs, meat birds, layers, turkeys, rabbits, sheep and forestry, but most importantly-People. This keeps him learning something every day in a high energy, outdoor workplace. With over 30 years on hands on experience in the land healing, healthy food growing world, Daniel is practical in his approach and teaching.

MARIE Reedell

Marie Reedell is the founder of Marie Ideas, a marketing agency helping small farms thrive online. With hands-on experience ranging from CSA veggie farms and urban gardens to her current homestead in Pennsylvania (home to 11 chickens and counting), Marie lives the life she helps others build. She's worked with 30+ farms across the U.S. (most notably helping Miller's Bio Farm grow from struggling and tiny to multi-million dollars in annual sales). A longtime member of the Western A. Price Foundation, former Holistic Moms Network chapter leader, and founder of a local Forest School Co-op, she's passionate about natural living and the power of women and communities. She lives in Pennsylvania with her husband and three kids, cooks from scratch, dabbles in herbal medicine, and firmly believes the natural way is always the best way.

JOHN Kempf

John Kempf develops nutrition management systems that produce food as medicine and consults on many farmers on all types of agronomy and financial success topics.
Saturday topic: Financially Successful Farming In Modern Economical Conditions. If you had to pay for a farm in four years, how would you do it? John will discuss the financial setting in which our farming communities were vibrant and how we can recreate that financial environment for ourselves.

Friday Night Keynote Speakers

ROBERT Yoder

Robert & Rachel Yoder live in central NY state, retired from dairy farming in 2019, after 38 years of farming. The last 16 years organic. They now live on son-in-law Mervin Miller & daughter Verna's farm, in grandpa's house, which they traded their organic dairy herd and market for. Mervin's have 7 children, so Robert's help is not much needed anymore, except during hay making. Robert's 4 oldest children, Naomi, Lee, Sarah & Ruthie are handicapped and live with them. They are mainly homesteaders with a large garden, also raise broilers, and some years turkeys and all for their own use. Have also started some fruit and nut trees. Their hope is that they can share the joy and satisfaction in a life of faith and producing their own food from the land.

JOHN Kempf

John Kempf develops nutrition management systems that produce food as medicine and consults on many farmers on all types of agronomy and financial success topics.
Friday Topic: The Unsettling of America. The depopulation and economic collapse of rural communities has been deliberate, intentional, and by design. John will describe the strategy that was developed to reduce the rural population for better control of the food supply, from the 1960's through today. Understanding this history is foundational to developing independence from it.

Stay Local and Yet Reach Far

Jesus said, "...you will be my witnesses in Jerusalem, and in all Judea and Samaria, and to the ends of the earth." (Acts 1:8)

1 IN 3 PEOPLE IN THE WORLD HAVE NOT HEARD OF JESUS

How is that possible? Well, you can start here and now! Most of us live and work near home and only get into surrounding areas where people can see our light.

But to the ends of the earth? Let Global Disciples do the work.

Global Disciples trains Christians in Africa and Asia who know the local language and culture to share the Good News of Jesus with the people there who never before heard the Gospel. Last year 76,239 people came to Christ and joined one of 4,246 new churches that started.

People come to Jesus only as the Holy Spirit leads. But for every $102 given, we see someone come to faith in Jesus and get involved in a church. Most who trust in Christ and are baptized were once unreached people. Every bit helps!

I am giving to help more people from 'the ends of the earth' come to faith in Jesus Christ!

- ❑ **$102** to help 1 person come to Christ
- ❑ **$204** to help 2 people come to Christ
- ❑ **$306** to help 3 people come to Christ
